

## **Pinnacle 2861**

### Chapter 2861 She Is Poison

"That group of men who just retreated had fed her the Final Malice," Dr. Erebus explained what had happened to Levi as he examined Forlevia's condition.

No one could think about Levi's sudden appearance due to the urgent situation. All of their attention was focused on Forlevia's condition.

She was currently groaning in pain on the ground. A layer of frost had enveloped every inch of her upper body, but her legs were hot to the touch.

The most frightening was the colorful lines crisscrossing the dark shadow over her face.

Furthermore, Forlevia's formidable power was being drained speedily. She was a powerless commoner in mere moments. That showcased the deadly properties of the poison.

Dr. Erebus' expression turned solemn as he continued to examine Forlevia.

"The poison had invaded every inch of her body. It's slowly eating her alive. She would have already been dead if it wasn't for her strong abilities," Dr. Erebus said.

her?" Zoey

his head. "I can't. I'll need a decade to come up with a cure for just one of the poisons. This poison is a blend of eighty-seven poisons. Each poison's corresponding toxicity has been amplified. I'm at my wit's ends. No one can cure this kind of poison. What's worse is this poison will invade the human mind and consciousness. It doesn't just live within the human body; it will take over the

## Chapter 2862 Rescue Mission Failed

"I'll rescue you immediately, Evie!" Levi pressed his hand on Forlevia's head.

He attempted to use all his might to purge the toxins out of Forlevia's body.

Buzz...

Levi started increasing the suction power to draw the toxins out of her body.

Dr. Erebus' expression changed upon witnessing that. He looked at Levi in disbelief.

How can he be so powerful?

He's even more powerful than the last time I met him!

Previously, Dr. Erebus could not tell how powerful Levi was, but now, he could finally witness it firsthand.

Even he could feel Levi was about to suck the soul out of his body.

He must have gathered all his energy to purge all the toxins from Evie's body! Such terrifying power!

Dr. Erebus was utterly stunned.

The next moment, an ear-piercing scream filled the air.

#### Chapter 2863 The Unexpected Change

After several failed attempts, Levi decided to use the purest spiritual energy to cleanse Forlevia's body.  
By doing so, he hoped to inhibit the spread of the toxins. At the same time, he was also testing the  
waters to see if he could separate the toxins from her cells.

Levi believed that Forlevia would not be in danger as long as he was around.

Dr. Erebus, too, was stunned to see that Forlevia was still alive.

Under normal circumstances, the girl would have been dead by now, as Final Malice was utterly  
indestructible!

One of the toxins would have delivered a fatal blow, let alone a combo that consisted of eighty-seven  
different types.

I'll not allow the God of Death to take Evie away!

Final Malice might be indestructible, but Levi would not let that stop him from saving his daughter!

At that moment, a powerful energy wave suppressed the toxins from coursing through Forlevia's veins.

The most challenging part was to draw the toxins away from Forlevia's cell, as the two had turned into a  
single entity.

"There's still time. We can do this. With my capabilities, I'm sure I'll be able to save her life!" Levi said  
steadily.

Dr. Erebus knew how dire the situation was.

#### Chapter 2864 Adult Progeria

Suddenly, Forlevia spewed a mouthful of blood and collapsed to the ground.

"Evie!" Levi was struck dumb.

He panicked and started screaming when he noticed how the toxins started spreading in her body again.

The toxins started coursing through the veins on Forlevia's face and extended to the other parts of her body like extensive tree roots.

It was as if the toxins had turned into a living creature that was determined to inhabit Forlevia's body.

After coughing out blood continuously for some time, Forlevia passed out.

The effect of this round was much more powerful than the one earlier.

To suppress the toxins from spreading, Levi picked Forlevia up, placed his palm on her body, and channeled his energy wave into her.

The poison is indeed much more powerful than it was before!

Everything went well when Forlevia exercised her power to absorb the spiritual energy, but the act of purging Final Malice out of her body instantly triggered the reaction.

After all, Forlevia's body and the toxin had melded together.

Chapter 2865 All Hope Is Lost

Levi's method was very simple.

He basically used his own blood to introduce the medicine into Forlevia's body.

Given how unimaginably powerful he had become, practically every part of him had magical properties.

Even a drop of his blood was as potent as a magical herb, so he planned on using his blood to restore the life force that Forlevia had lost.

Just like that, Levi immediately drew some of his blood and produced the pill according to the ancient method.

He then fed the pill to Forlevia, and her dozens of strands of gray hair turned black instantly.

Feeling relieved that the pill made from his blood was effective, Levi planned on replenishing the rest of Forlevia's life force himself.

I mustn't conduct any more of these tests on Evie, or something worse could happen! Maybe I'll be able to find some kind of cure for her poisoning in Erudia.

With that in mind, Levi rushed all the way back to Erudia and quickly went to see Daxon and the others.

something happen to Evie?" Daxon asked worriedly when he saw

## Chapter 2866 Finding Hope

He had rushed over to Erudia in hopes of The Cardinal Hall and Eragon being able to save Forlevia as they had ancient manuals as well as experts in medicine and poison.

If they were unable to do anything, then all hope was as good as lost for him.

What should I do next? All hope is lost now! I don't even know where to start looking for a cure! I may be able to keep Evie's condition stable at the moment, but it's only temporary! So what if I'm all-powerful and undefeatable? So what if I was able to save this world from the super-spiritual ley line's eruption? What's the point in having the power to kill off Deities if I can't even save Evie?

Dr. Erebus returned with Zoey and the others shortly after, and Zoey fainted on the spot when she heard about the situation.

Levi's mother and parents-in-law also fainted on the spot from despair.

Dr. Erebus had guilt written all over his face as he exclaimed, "D\*mn it... I could cure her of this poison, but that would take at least dozens of years!"

"Is there no other way?" everyone else asked in unison.

"We might have hope if either the Ecclesiastic Order or the Esoteric Guild exists, but they're both merely the stuff of legend..." Daxon exclaimed with a sigh all of a sudden.

full well that those two organizations only existed

others grew excited when they heard that. "That's perfect! The Ecclesiastic Order and the Esoteric Guild do exist! They were the ones who killed Ichirou from Raysonia! Every country in the world is going crazy about them! The Ecclesiastic Order and the Esoteric Guild

the others asked as they still  
what Deities were, some of them agreed that

#### Chapter 2867 Asking Deities For Help

Since they couldn't rely on those within Erudia to solve the problem, Zarain was the only country they could place their hopes on.

"All right, let's give it a shot!" Levi agreed to it immediately without any hesitation.

He then scooped Forlevia into his arms and headed toward Zarain with Dr. Erebus while everyone else watched on in confusion.

Why wouldn't Levi believe in the existence of the Ecclesiastic Order and the Esoteric Guild? The entire world now claims that those two mysterious entities are real! Heck, they even killed off Ichirou! Also, why doesn't he believe in Deities' abilities? They're practically gods! As powerful as this poison may be, it is still man-made! Why wouldn't Deities be able to counter it? There's so much hope in seeking their help, so why is Levi so stubborn about refusing it? Why wouldn't he just go to the Ecclesiastic Order and the Esoteric Guild for help? Why would he dismiss Deities as incapable without even trying? Why would he rather try his luck with Zarain, a country that is on the same level as Erudia, instead of Deities?

The fact that Levi had left in such a hurry only made them even more confused.

"I don't get it. Levi claims to be really worried about his daughter, and yet I feel like he doesn't really care about her at all!"

Everyone else agreed with that statement.

Theoretically, Levi should immediately seek Deities or the Ecclesiastic Order and the Esoteric Guild for help, and yet he's leaving for Zarain... Even so, to claim that he doesn't care about his daughter at all would also be inaccurate because he seems to be more anxious about her than anyone else!

Chapter 2868 A Solution From Hundreds Of Experts

It didn't take a genius to read between the lines and figure out what he meant.

If someone as powerful as Dr. Erebus weren't able to resolve the issue, it would be more unlikely for anyone else to do so.

Despite how slim the chances were, it was still better than nothing.

As such, Black Hawk proceeded with contacting Shield as well as Smythe and Niel to see if they could help out.

After all, they had people backing them up that he didn't know about.

"Should we also try asking some of the Deities that recently showed up?" Black Hawk asked.

Levi objected to his suggestion immediately.

Had Black Hawk recommended someone from other backgrounds, Levi might actually have considered giving them a shot.

He knew Deities better than anyone else out there.

The reason they became Deities was that they absorbed the spiritual energy that Levi had filtered with his own body.

#### Chapter 2869 Coexist With The Poison

Most of the experts had smiles on their faces.

"We have discovered a solution!"

They were excited because they had indeed found a way to treat Forlevia.

Dr. Erebus, however, let out a sigh in response.

He didn't seem very satisfied with the method they had come up with.

Levi noticed the looks on everyone's faces, and he realized something was amiss when he saw Dr. Erebus' expression.

"The solution is simple! We will let the child coexist perfectly with the poison in her body!" said one of the toxicology experts.

"Huh? Coexist? What do you mean by that?"

understand what

Chapter 2870 Too Strong For The Poison

Meanwhile, Smythe and Niel were having a meeting somewhere in Zarain.

"The poison that Levi's daughter has is something no one has ever heard of. We've just received word from an envoy. They say they're interested in the poison and want us to send them a sample!" Niel said.

Smythe nodded. "Okay, I'll send them a sample right away! Honestly, Levi's daughter sure is a lucky one! If they get interested in this poison, then they might just be able to cure her!"

Obviously, the two of them were referring to the organization backing Zarain up.

However, Levi had no idea whatsoever that they had taken an interest in the substance that poisoned his daughter.

He was trying his best to brainstorm an idea with Dr. Erebus and Digital God.

"What if I get poisoned with that stuff instead?" Levi asked.

Erebus examined Levi's body and swallowed anxiously as he replied, "Given your current condition, this poison wouldn't be able to affect you at all. In fact, your body is so
