Chapter 2881 Scared Of Me

As soon as Gideon shouted, the fighters he had with him rushed over to block Dr. Erebus' path.

They were there to prevent him from jumping and collecting the flower.

Every single one of them flushed their spiritual energy out, ready to fight.

They would attack if Dr. Erebus were to try to do anything at all.

Gideon looked at the yellow flower and sneered. "You are not allowed to take that away. In fact, you are not allowed to take anything here."

"Why is that?" asked Dr. Erebus.

Gideon chuckled and replied, "I haven't seen you guys before, and I can tell that some are from Adrune while the others are from Bayview. It makes sense that you are unaware of this, but this is my turf. Everything here belongs to me, and you are not allowed to take anything away."

"Yeah, he's right! This is our turf," said the others.

Dr. Erebus laughed when he heard that. "Oh, puh-lease. I know all about this piece of land. It doesn't belong to anyone."

"That's bullsh*t! It is located near Jeradus, so this piece of land belongs to us," insisted Gideon.

Chapter 2882 Do You Know Who My Father Is

After all, it was hard to imagine that the Deity-level beasts could be frightened.

Dr. Erebus had seen the seven Deities of Spaunia with his own eyes and knew how powerful they were.

Under the same circumstances, it was possible that the combat prowess of the beasts was even
stronger.

Gideon and the others ignored Levi.

Instead, they looked at Dr. Erebus. "So, you are saying that there is no such powerful beast in this area!
Then, this isn't a Rank Three restricted area. It's the territory of Jeradus!"

"Leave now! If you dare to touch anything from here, don't blame us for being ruthless!"

"Get lost now!"

Since they had decided to pocket that special herb, they surely would not want Levi and the other two
to interfere.

"You..."

At that moment, Dr. Erebus was unable to put up a defense.

The lot of them had claimed the place to be theirs. Outnumbered, he fumbled for words.

Gideon sneered at Levi and his group. "I'm going to count to three! Get lost! If not, we'll kill you!"

"Thre—"

Levi interrupted him icily, "Take the herb!"

"What?"

Dr. Erebus was stunned and looked at Levi in disbelief.

After going through so many generations, it's always the same! Once they have been defeated, they will always tell their opponents who they are, and they'll even drag their father and grandfather into the picture. It's always the same tactics!

Levi was getting so sick and tired of hearing the same thing.

Those on the ground endured the pain in their faces and shouted at Levi, "You are done for! Nobody can save you now that you've hit the son of a Deity!"

"Get down your knees now and apologize. If you're lucky, he may spare your life! Once the Deity is here, nobody will be able to save you!"

It was unbelievable that they still dared to taunt Levi when they had been beaten up badly.

They seemed to think that Levi was scared.

Everyone shouted, "You have to atone for all the slaps you have given to Gideon! Slap yourself now!"

However, Levi could not be bothered with them. Instead, he gave Gideon another tight slap, causing the latter to cry out in agony.

That was not the only thing.

Gideon could sense the spiritual energy in him dwindling.

"Given that Gideon and the rest have not encountered any danger in that aspect after being inside there for so long, there shouldn't be any Deity-level beasts!"

"Exactly, those beasts would have already created havoc if they truly existed. We all know how the beasts in the other restricted areas behave!"

After hearing those remarks, the high-rank officials of Jeradus fell silent.

"But—"

Just when they tried to speak, a voice boomed out. "There are no buts! I'm going to save my son myself!"

"Deity?"

A tall figure had appeared.

It was Gideon's father, Abner, who was currently a Deity.

In the presence of a Deity, everyone stood up and inclined their heads respectfully.

"Rank Three restricted area, right? I'll head there right now!" Abner said and disappeared instantly.

Everyone could not help but marvel at the exceptional abilities of a Deity.

After Levi and his group left the Rank Three restricted area, the place seemed to be full of activity.

Two Deity Level Beasts

Abner was shocked when he heard that. "What? He didn't hold back even after you told him your father is a deity?"

"That's right. He attacked even more relentlessly after I told him all that. See? He caused these."

Gideon pointed at the injuries on his face.

The rest of the gang gestured to their injuries as well.

"That's it. He's dying today. Where is he now?"

Abner was angry to hear that because he was the deity that Jeradus, no, that the entire world, feared.

How dare he disrespect me? And hurting my son? That guy is asking to be killed.

"They went that way," replied Gideon while pointing in the right direction.

"I'll go after them. I will not let anyone get away with this."

Gideon and the others smiled upon hearing that.

Yes! Those idiots won't get away this time. They will all die.

Yet, that was when suddenly Abner stopped. He stood there and seemed a little off. It was as though he were scanning his surroundings.

Everyone was surprised to see that change.

Explain This

Gideon and a hundred of his men were stumped.

The Deity’s subordinates were taken aback as well.

Most importantly, Abner, the Deity, was stunned, too. Two Deity-level beasts? Who said the evaluation of Rank Three restricted area was wrong? Who said not only does this place not have any Deity-level beast, but it has no beast at all? Who said all of those words? If those words were true, then what are we seeing before our eyes? Not only are we seeing thousands of mutated beasts, but now we also have to deal with two Deity-level beasts? What the hell is going on?

Abner then turned slowly toward Gideon and the others. They've given false information! That's why we're in this mess now!

Gideon was getting extremely anxious. "This can't be right! We really didn't encounter any beast when we came here!"

The rest of them began to defend themselves as well.

Indeed, they didn't encounter any beast prior to that.

However, no one would believe them at that point.

Not only were they wrong about seeing no beast, but as it turned out, there were a lot of them. Not to mention there were also two Deity-level beasts present.

"No... This can't be right. Could it be..." Gideon stopped his sentence abruptly because he suddenly recalled something Levi said. He said there were two beasts, and the beasts were scared of him. That's why they didn't show themselves. He could've lied to me about them being scared. But now that there are two Deity-level beasts present, I guess he must've known about it! It seems like Levi is far more powerful than we first thought! He had used his immense power to suppress the beasts, even commanding them. Not to mention he had even drained us of our spiritual energy with just a slap. If it wasn't for the fact that Levi was worried about that little girl, he would've unleashed his formidable prowess already.

Good Stuff

No matter how big of a troop one could bring, it would be nigh impossible to take down Deity-level beasts.

The entire group of people from Jeradus was completely wiped out.

Not even a corpse was left at the scene.

Indeed, it was a total massacre.

Apart from Levi, the beasts feared no one else.

Levi could do and take anything he wanted from them, and there was nothing they could do to retaliate. In fact, they could only cower and hide.

However, the same couldn't be said in the case of others.

Since the humans gathered a thousand troops and had gone there thinking they were all that, it was only natural they would have to face the consequences of their prideful thinking.

Everyone in Jeradus was utterly stumped upon hearing the news.

Turned out they didn't evaluate Rank Three restricted area wrongly at all.

Dr. Erebus smiled and answered, "After observing the plant along the way, I found that this plant is an
antidote for one of the poisons! I've already been researching this poison for more than a decade, and
I've never found a material to counteract it! Spiritual energy revival is amazing, indeed! We've found an
antidote just by plucking a random plant on a cliff! I think if we keep searching, we're going to find all
the antidotes needed. By then, we can completely neutralize the poison for good!"

Dr. Erebus was so excited and full of hope.

Hearing that, Levi smiled. However, his expression soon fell and his eyes dimmed. That's a total of
eighty-seven antidotes! We'd need a lot of luck to find all of them. What if we aren't so lucky? We can't
possibly be lucky enough to come across all eighty-seven antidotes, can we? Besides, how would we
know if there's an antidote for all the poisons? After all, Dr. Erebus had only researched some of the

eighty-seven poisons. It's fine if we're lucky enough to find some antidotes, but how about the rest of the poisons? We might even miss out on certain antidotes because we have no knowledge of them. Furthermore, Evie always has her odds stacked against her. Can we really find all eighty-seven antidotes? Can they really neutralize the poison?

Everything seemed uncertain at that moment.

Although the chances were slim, there was still hope.

"I'd like to let Evie ingest this plant! Since it's mild, there shouldn't be much of a side effect." After getting Levi's permission, Dr. Erebus fed Forlevia the plant.

Chapter 2889 Benefits Before Chivalry

At the moment, Digital God had just informed Xyperia of his intention. By using his status as the Angel of Light, he had asked Idrae to reveal all the relevant information about Final Malice.

Despite his request for help from Xyperia, the country's stance was firm. Since it concerned Xyperia's classified information, they had no intention of revealing anything.

They even told Digital God to give up on that thought.

Since Idrae had sought refuge from Xyperia, they had given all their classified information to Xyperia.

In other words, Xyperia had taken everything Idrae once had.

Among the things that were taken was Final Malice, which was something very hard to come by. As such, there was no way Xyperia would just give away all the details.

Chapter 2890 Protecting Idrae

Digital God knew with absolute certainty that Levi was incredibly powerful.

He believed Levi was the one who saved them from the gigantic vortex in the South Pole.

If he's able to survive being near the eruption site of the super spiritual ley line, then he's definitely much stronger than a deity! Levi has reached a stage so unimaginably high that no number of deities could possibly compare to him! The fact that Forlevia could forcefully resist the effects of Final Malice just proves that point even further!

With that in mind, Digital God continued, "Or maybe you guys can hand the Idrae over to Mr. Garrison! This way, he'll owe you all a favor! Trust me, this is the best possible outcome for Xyperia!"
