Chapter 2911 The Organization That Seeks Revenge

As soon as those words left Levi's mouth, the visitors were rendered speechless.

They had expected Levi to refuse them.

After all, Idrae was protected by myriads of Deities of Xyperia. Hence, seeking revenge on them was equivalent to looking for death.

Anyone who had a brain would be terrified by the situation.

That was why over ninety percent of all Idrae's enemies had retreated, not daring to seek revenge anymore.

Moreover, many people, whom the organization invited, had rejected them.

None of them dared to bring up the matter of seeking revenge, let alone talk about their grudge.

As such, they figured it would be a normal thing for Levi to be scared despite the fact that his daughter had been fed with Final Malice.

After all, the members of Idrae were treated like kings at that moment—the whole world was providing them with protection.

Nobody would dare to take revenge unless they had a death wish.

Yet, they never expected Levi to give such a reason.

As soon as they fell to the ground, they curled their bodies and started spewing blood from their mouths.

It was obvious that they had suffered a terrifying blow.

Most importantly, they had no idea how Levi had launched his attack, and they could not believe how powerful he was.

Although they were not top-class fighters, they were still skilled.

Otherwise, they would not be given the responsibility of recruiting members for their alliance.

Even so, that did not matter, as they could never compare to the Deities.

Little did they know they would have been dead if Levi had not spared their lives.

However, they still put on a stubborn expression and threw insults at him again. "Very well. Since you're mad and have the capabilities, why don't you vent it on Idrae? From what I can see, you're just a coward."

"Look at you. You're rather capable, aren't you? What's wrong? Are you scared of Idrae? Are you afraid of joining the expedition?"

Chapter 2913 Motive Behind Creating Final Malice

For some inexplicable reason, Dr. Erebus and Digital God were looking forward to that day—the day when Levi entered Xyperia.

"By the way, do you have any plans yet?" Levi asked, staring at Digital God with Dr. Erebus.

Digital God sighed and said, "There isn't much, but I heard a rumor."

"Oh? What rumor?" Levi asked.

"It's about Final Malice. Do you know why they wanted to create it in the first place? Well, of course, the main reason is because of the benefits. But rumor has it that..."

When Levi and Dr. Erebus heard Digital God's words, realization finally dawned on them.

Are the members of Idrae too bored? Why did they create such a poison? Besides, this poison must have caused them a large amount of money, materials, time, and effort.

Of course, Dr. Erebus actually knew the reason why.

Although he said he was doing it out of interest, he was, in fact, researching the poison as weapons for the Lab of Gods.

Now that they thought about it, it was impossible for Idrae to create Final Malice for no reason.

The organization was famous for researching ancient cultivators. Hence, they definitely did not create the poison out of mere interest.

Chapter 2914 Rank One Restricted Area

However, just as they were about to leave Raysonia, Digital God's intel came in handy.
He had brought them good news.

"I've found that there's a sacred spring deep in Emberfall Rainforest. It has miraculous effects, and the locals drink it to cure all kinds of illnesses. Therefore, their lifespans are exceptionally long. Truthfully, the sacred spring is much greater than rumored. It's not an exaggeration to say that it can bring someone back to life. To safeguard the sacred spring, the locals have made it sound less impressive than it is. It's actually terrifying, but no one could explain how it came about for a long time.

“After the spiritual energy recovered, someone finally solved the mystery of the sacred spring. As it turns out, it’s because there’s a small spiritual ley line beneath it! There’s an abundance of spiritual energy within the spiritual ley line that nourished the sacred spring, conferring it with magical effects.

“After the recovery of the spiritual energy, the spiritual ley line was blasted open. Most of the spiritual ley line has merged into the sacred spring, which is now even more terrifyingly impressive than before. I’m certain that it’ll be able to cure any kind of poison.”

After listening to Digital God’s explanation, Levi became eager to leave.

“What are we waiting for? Let’s go!”

The four of them hurried off.

“Although there are many herbs that have absorbed spiritual energy or have been nourished by the spiritual energy, this sacred spring has been nourished by the spiritual ley line for a long time. Hence, it became a healing spring. Furthermore, after this incident, it has become a magical medicine spring. I’d say this is something we can put our hope in,” Levi explained.

He was hopeful about it.

Not even a Deity would dare to go there, so it was even less likely for normal humans to take such a risk.

That was why no one would dwell on the matter for long or even mention it despite knowing about the sacred spring's existence.

Since they could not explore the place and benefit from it, it was pointless for them to care about it.

If the sacred spring were that easy to find, they would have gone for it long ago, and news about it would have spread out.

Nevertheless, more people only learned about the sacred spring because the place was categorized as a Rank One restricted area.

Even so, they could not do anything about it.

The sacrifice of ten lives was not even enough for one person to get a sip of the spring water, and that was the same case for the Deities.

Therefore, no one would be willing to make that trip.

Of course, there were always exceptions.

Some Deities who wanted to improve themselves would head to the rainforest to gain more battle experience.

If they could survive the trip to the Rank One restricted area, their combat prowess would improve exponentially.

For example, many Deities from Xyperia had come to that place.

Chapter 2916 Exorbitant Map

Levi could perceive every inch of Emberfall Rainforest with his sharp senses, including where the ferocious beasts were.

As the sacred spring was full of spiritual energy, it was as bright as a sun in the dark to him.

In other words, he could easily detect it.

“I know where it is, and we’re at a bad spot,” Levi said after quickly pinpointing the spring’s location.

“Why?” the two asked in unison.

“We’re at one end, and the sacred spring is on the other extreme end,” Levi said, smiling in resignation.

He then urged, “Let’s go.”

Digital God and Dr. Erebus were curious about his words, but they followed along.

Indeed, Levi and company were in an awkward spot, for their destination was at the other end of the rainforest.

On the other hand, the other major forces were at better spots than them as they were closer to the sacred spring. In fact, they were twice as closer to the spring than Levi and his company.

Nevertheless, they were frustrated over the map issue as well.

Chapter 2917 What Is In Here

Stimulated by Levi's aura, the Deity-level beasts began rushing everywhere in the rainforest.
They had no direction or destination, going anywhere they liked.
The other kinds of beasts were doing the same as well.
Chaos descended upon Emberfall Rainforest.
The birds were flying everywhere, and beasts were charging in all directions. They were all screeching
and bellowing.
The sounds they made sent chills down everyone's spines.
Boom!

In the next second, the ground beneath Dr. Erebus and the others' feet shook, and they nearly lost their balance.

However, Levi remained poised and ordered, "Let's go."

Despite their puzzlement, the two continued to follow Levi.

The strong vibrations happened everywhere in Emberfall Rainforest, and the fighters from major forces and Xyperia felt them too.

Chapter 2918 The Danger Of The Sacred Spring

After a round of analysis, the leaders of the Xyperians surmised that there must be an even more powerful beast residing in Emberfall Rainforest, an entity much mightier than they could imagine.

After all, their research told them that beasts could absorb spiritual energy better than humans.

It would not be surprising if a beast stronger than the Deity-level beasts were to exist.

All of the Deities of Xyperia came to one conclusion—there was no upper limit to a being's power after the spiritual energy recovery.

In other words, an entity that even a Deity could not define might exist.

That was why the Xyperians realized that there had to be an invincible being in the rainforest.

“Be careful, everyone. If you encounter it, retreat immediately. Call for help right away so that you can help each other to get out of the place.”

The Xyperians had formulated an escape plan to deal with such a situation.

In the meantime, many others had encountered the rampaging beasts, including Deity-level beasts.

Those beasts had gone into a frenzied, bloodthirsty state, and they began attacking the people with the most ferocious moves.

In a blink of an eye, many were killed or injured.

The fortunate ones would only encounter one to two Deity-level beasts, so they could still flee in time.

Chapter 2919 The Effective Healing Spring

Digital God was panic-stricken, and so was Dr. Erebus.
Those overlord-class beasts were simply terrifying!
They opened their mouths wide again upon seeing them, displaying their powerful presence.
Although Dr. Erebus had followed Levi into many restricted areas, he had never seen something this
terrifying.
He felt as though his soul had been ripped out of his body.
If it was a Deity-class fighter he had encountered, Dr. Erebus felt that he could still fight back if he
exerted all his efforts.
However, when faced with these creatures, he did not even possess the courage to attack them.
He also wondered why they did not flee before this and even upon seeing Levi at present.
That was what he found terrifying.
“Scram!” Levi said in a chilly voice as he threw them a glance.
Swoosh!
An imposing aura descended upon the area.

Similarly, Dr. Erebus felt his scalp tingle while observing the scene.

Having conducted autopsies his entire life, he naturally understood the different levels of pain, which was how he knew that the pain Forlevia was experiencing at present was of the highest level.

After all, every part of her body and every single pore were suffering extreme pain.

"Hang in there! You must hang in there!"

The trio stood guard beside Forlevia.

Despite the continuous extreme pain she was in, Levi's furrowed eyebrows gradually relaxed.

It's working! Sure enough, the directions given in the second half of the Poison Handbook are correct! There is indeed something that could cure all kinds of toxins at once, and now it's obvious that this sacred spring is... I can clearly sense that the medicinal power of the spring is getting rid of the toxins. Even if the effects aren't particularly prominent, it's still detoxifying her body little by little. It's working! It's truly working!

Levi had to pay close attention to sense the little effect that the gold magical medicine had previously.

However, this time it was truly effective as anyone could see with their own eyes that the toxins were being forced out a little.

He was overjoyed at the progress.
