Chapter 2921 We Are All Here

How exciting!

Despite so many fighters rushing toward him, Levi felt nothing but excitement.

“Huh?”

The fighters froze on the spot.

Getting us to gather to kill us all? Who does Levi think he is? What right does he have to make such remarks?

However, the Xyperian fighters did intend to gather in the first place, and even those teams that were presiding over everything from behind had to be present.

On top of that, they were moving quickly. It would only take a few minutes for everyone to arrive.

“What are you doing, Levi? How dare you allow your daughter to soak in the sacred spring! She has dirtied the waters. Get her out immediately!”

“Exactly. The spring water is extremely sacred. Your daughter can’t even take a sip, much less soak in it! She’s polluting the waters. No one is allowed to contaminate the sacred spring!”

The two young fighters who stepped forward first immediately reprimanded him.

In the eyes of the Xyperians, the sacred spring was theirs, and anyone else was not allowed to lay hands on it.

Levi did not reply and merely stared at them.

In the next second, he suddenly vanished.

Chapter 2922 Annihilate Them All

The Xyperians gave Levi menacing looks.

Such arrogance!

Xyperia had been extremely arrogant recently and did not see anyone else as their equal, let alone a mere Levi Garrison.

Even if you're good at fighting, it would be an impossible feat for you to compete against a Deity. I've never heard of anyone who could better them without being exposed to spiritual energy. So what if Levi is good at fighting and is as strong as a Deity? We have fifty-five Deities in total when adding up all the factions within the Xyperia team. The other five to six hundred fighters are also extremely talented. Some bore great expectance, while many others have been made Deities through methods provided by Idrae. Hence, it makes no difference if Levi can fight when facing such a strong team as it would be equivalent to courting death.

"Very well. Since you killed more than ten of our men, you and your daughter will die today!"

After those Deities who arrived later were informed of what had happened, they were utterly enraged.

However, Levi merely swept his gaze around to survey the fifty-five Deities and hundreds of fighters in front of him before asking, "Everyone's here, right?"

"Yes. We're all here! Why do you ask?" several men inquired.

"Very well then. I shall begin my killing spree. You all shall die!"

Right after Levi made that remark, God Crusher appeared beside him, hovering while making whirring sounds.

“Do you think that a mere sword could take down a Deity? What a joke!” a Deity sneered with disdain.

However, before he could finish laughing, his head was severed from his body with a splatter of blood.

Nobody had expected that to happen.

Chapter 2923 Facing A Difficult Problem

Dr. Erebus and Digital God were utterly dumbfounded.

The entire team was completely wiped out.

Fifty-five Deities and more than six hundred fighters, with some of them having the potential to become Deities, all from Xyperia, had been annihilated by Levi.

He even managed to kill them all in a brief span of a minute, leaving none alive.

Be it Deities or others, all he needed was his sword.

Levi's face remained expressionless as he put God Crusher away, acting as if he had merely done something ordinary.

Contrary to him, Dr. Erebus and Digital God were trembling all over.

Those were fifty-five Deities and hundreds of elite fighters!

Spaunia and Jeradus only had a dozen Deities altogether.

It was equivalent to Levi annihilating five Spaunias at one time.

Even the eleventh-ranked Raysonia only had more than a hundred Deities, and it was as though he had wiped out half of them in one go.

Chapter 2924 Get A Fighter To Protect Her

Levi heaved a sigh when he thought Dr. Erebus couldn't protect Forlevia.

Hence, he had no option but to protect Forlevia himself.

He could leave for a short time and come back whenever Forlevia was in danger.

Nonetheless, the situation would become unpredictable if he had to leave for a long time or was
entangled in some troubles.

As such, Levi thought he had to get some fighters to protect her.

After giving it some thought, a suitable candidate flashed through Levi's mind.

Dr. Erebus had seemingly read Levi's mind and asked, "Do you have a suitable candidate?"

"Yes. I have to head out for a while to get them here!" Levi replied.

Suddenly, a faint rustling sound came from the forest at the back, indicating that people were
approaching.

The next moment, a group of more than twenty people was seen.

They looked disheveled with bloodstains all over their bodies.

Chapter 2925 Because They Are The Danger

"We'll drink to our heart's content and bring away as much of the remaining as we can! If we start fighting, not only will both sides incur a lot of losses, but we'll also definitely die when the beasts arrive. What do you think?"

When the Deity from Rodunst said that, a commotion arose amongst the group from Loang.

The Deity leading the Loang troop agreed to the suggestion without any hesitation. "Okay, we'll share the sacred spring and split the magical herbs in the surroundings equally between us."

They were not foolish, so they naturally understood what the Deity from Rodunst was implying.

As long as they decided to engage in a battle, it was highly possible that both parties would be eliminated.

It would be impossible for them to secure the sacred spring for themselves.

If they cooperated, it would be a win-win situation.

On top of that, the sacred spring could not be easily finished by only one of them.

"Okay. After we split everything equally, let's help each other escape. There are too many beasts outside!"

"Sure! We must escape together."

Dr. Erebus raised his voice and shouted, "Right underneath your feet..."

That stunned the troops, who halted in their tracks and stared at him in confusion.

"What's wrong? What's underneath our feet?"

Dr. Erebus replied, "Just now, all seven hundred members from Xyperia died on the spot right
underneath your feet, including fifty-five Deities!"

Everyone shuddered when they heard his utterance.

It was simply too shocking!

Glancing down subconsciously, they could only see bloodstains and nothing else.

"Continue bullsh*tting! Everyone from Xyperia died underneath our feet?" asked one of them.

Dr. Erebus nodded. "Yes!"

“There were seven hundred Xyperians and more than fifty Deities? Why isn’t there a single corpse? There’s not even a fingertip to be seen!”

“Yeah, we can’t even see a corpse.”

“Besides, Xyperia’s troops were huge. Why aren’t there any traces of a battle?”

“Haha! I didn’t think about that. There are really no signs that a battle took place here! If everyone died, it seems like they just stood there motionlessly and waited to be killed.”

“How is that possible?”

Dr. Erebus was bereft of an explanation when everyone voiced their doubts.

Chapter 2927 The Plan To Split Up Erudia

The sacred spring seemed extremely peaceful at the moment.
However, it was surrounded by numerous beasts, including the weak and the powerful.
The sacred spring became impenetrable.
Even Dr. Erebus was shocked.
It would take four to five hundred Deities charging over simultaneously before they could even touch the sacred spring.
Even with that, Levi was still worried and wanted people to guard the place.
Having made all arrangements, he stepped forward and disappeared into thin air.
It was true that he was mighty. However, unexpected events might occur when his attention was spread thin across too many things.
He did not want such unexpected events to happen; he could not afford for that to happen when it came to Forlevia.
Hence, he needed people to guard Forlevia and prevent anything untoward from occurring.
The person he wished to look for was at Erudia, so that was where he headed to.
A while had passed after the spiritual energy revival.

Keerea carried out many investigations for a long time before making this decision.

Meanwhile, Raysonia wished to join them.

However, Levi's previous visit had caused a huge blow to their confidence.

They chose to keep a low profile and did not participate in Keerea's plans.

Furthermore, they did not want other countries to find out that they had suffered a severe loss.

That was why they sat out of the quest to conquer and divide Erudia.

Raysonia could not risk revealing their trump card. It would doom them.

However, Keerea had been itching to attack for a long time.

They decided to attack after their investigation confirmed Erudia did not have a Deity, and the Ecclesiastic Order and the Esoteric Guild were just myths.

Keerea had benefited from the spiritual energy revival and was now ranked thirteen with nearly a hundred Deities.

Furthermore, the country was famed for its incredible technology. Researchers in Keerea were searching for ways to use technology to create Deities.

For now, it seemed Keerea was as powerful as Raysonia.

Even Levi's old acquaintance, Sammy Lenheim became a Deity.

Chapter 2929 Return Of The Cardinal Hall General

Everyone could not resist looking toward that ray of golden light.

They all wanted to know who it was.

The whole world was astounded at this moment.

Erudia has a Deity? Didn't everyone in Erudia hide from the spiritual energy revival?

Stunned, all eyes were on the figure hovering in the sky.

Erudia's Deity was none other than Edmund, the Cardinal Hall General!

No one expected him to be Erudia's Deity.

It turned out that Edmund did not hide in Shelter during the spiritual energy revival.

He had faced it head on.

He wanted to train in that hostile environment and improve the Iron Golem Technique.

Therefore, he received increased power.

However, he faced the spiritual energy revival differently from others.

Other people stood still and let spiritual energy cover them.

On the other hand, Edmund tried his best to achieve self-breakthrough during spiritual energy revival and used the powerful energy to alter his body. Through this, he had reached the limit of self-breakthrough.

Ten Deities had joined forces to fight against a single person.

This was the first instance since the spiritual energy revival.

Naturally, no one knew about Levi's battle.

The entire world was paying attention to this specific battle.

Now that the ten Deities had joined forces, the situation became completely different.

The Cardinal Hall General started to struggle.

Although his Iron Golem Technique was able to deflect the blows and prevent any harm, his attacks were limited when up against ten opponents.

Boom!

After a chaotic battle, his aura soared.

Loud booms echoed across the sky as his body morphed into iron.

Boom! Boom!

His terrifying power surged everywhere, injuring the Deities of Keerea.

Almost all of the ten Deities were wounded, albeit to different extents.

The situation changed instantly.

The Cardinal Hall General alone managed to hold back ten Deities!
