### Chapter 2931 Save Me Master

The Cardinal Hall General did not know that his master was Levi.

To him, his master was a very mysterious existence. In fact, it could very well be the Ecclesiastic Order or the Esoteric Guild.

More importantly, the Iron Golem Technique was simply too miraculous. Now that he had reached this stage, he found it extremely astonishing.

He recalled how easy it had been for his master to teach him the Iron Golem Technique.

It gave him an illusion that his master was a terrifying existence hidden within the depths of Erudia.

Furthermore, rumors of the Ecclesiastic Order and the Esoteric Guild arose after that.

He was thus convinced that his master was from either of these two forces.

Now that he was in danger, he was sure that his master would appear.

Daxon panicked.

What master are you talking about? Isn't your master Levi?

Fine! Even if Levi is undefeatable, he's busy curing his daughter's poison. How would he have time to rush here? He definitely won't appear in Erudia!

"Your master?"

Still, The Cardinal Hall General's words scared the Keereans.

After all, the situation was different now.

The laughter from Keerea's side suddenly ceased.

Everyone was stunned and could not believe what they were seeing.

Even Keerea's fighters were stumped.

On the other side, the crowd from Erudia was astonished too.

No one expected things to turn out like this.

Why is the Deity suddenly dead?

"Master is here! Master is here! Master!" Edmund could not help shouting upon seeing this.

Suddenly, a sword shot out of nowhere at the Deity second nearest to him.

Swoosh!

It immediately pierced through the Deity's neck, causing blood to spill all over the ground.

Before the crowd could react, the sword glowed and released a fearsome energy as it ripped through the air.

Swoosh!

Another one of the Deities was dead!

Whoosh!

The sword continued to traverse through the air, releasing its power everywhere.

It shone as bright as a sun, captivating everyone on the scene.

The sword continued to kill one Deity after another.

#### Chapter 2933 They Shall Pay The Price

I shall punish anyone who dares to harm Erudia no matter how far they are! You have come here to attack Erudia. Do you think I will let you escape? No way! None shall leave, and all shall die!

Every fighter sent by Keerea was killed that day, bathing Erudia's borders with blood.

Everyone wondered how the sword pierced through more than two thousand people in such a short time.

It moved so fast that none of the Deities could catch it.

However, it made sense if one were to think about it.

Since the sword had killed fifty Deities easily, it could eliminate two thousand fighters with ease.

The massacre was the most shocking thing anyone had ever seen.

Now, no one dared to mock Erudia.

The sword had proven the detractors wrong.

Edmund was tremendously strong, but his master was even more powerful.

One should keep in mind that no one saw who controlled the sword.

He was not present on the battle scene.

Instead, he was controlling the sword from a secret location.

Everyone was stunned.

No one expected Erudia to have such an unbelievably powerful person.

Chapter 2934 Fighters To Protect Forlevia

He arrived at the former location of Carigrey Academy, the abode of the people he was searching for. It was destroyed during an upheaval.

Carigrey was a spiritual land. Therefore, it was full of spiritual energy and spiritual energy crystals.

Behind the academy lay Carigrey Mountains, a Rank One restricted area.

Naturally, the academy's site was also part of the restricted area.

A Rank One restricted area was dangerous, but it also meant the existence of magical herbs.

However, Levi was not interested in them.

He was here to look for people.

The ones he wanted to find were none other than his past students.

Previously, he learned that everyone went into hiding during the upheaval.

However, his students were excluded.

There were eighty people, including Bruno and Troy. They did not hide but faced the upheaval head-on.

No one knew whether they were still alive.

Levi believed they were alive and even increased their powers after the spiritual energy revival.

No matter what danger there was, they needed to investigate what had happened.  
They could not let go of such severe loss without doing anything.  
After all, Xyperia was the strongest nation in the world.  
It would be humiliating if they could not find the answer.  
At this moment, Levi brought eighty people, including Troy, to the sacred spring.  
Dr. Erebus and Digital God were astounded to see them.  
Everyone knew Levi was unbelievably formidable.  
However, no one expected he would have eighty powerful students.  
Judging from their auras, every one of these eighty people was comparable to overlord-class beasts in the sacred spring.  
Levi would have nothing to worry about if he had so many fighters guarding Forlevia.  
It would be impossible for anyone to attempt anything against her.  
Even if someone dared to attempt something, it would take a lot of time to get through so many fighters.

#### Chapter 2936 Anomaly In Erudia

The members of Black Hawk chose to trust Niel and stopped worrying about the threats to the Defenders of the Galaxy.

They even looked forward to the attack so they could see the trump card hidden within Zarain.

Meanwhile, the battle that brought down Keerea had a rippling effect on Erudia.

Ever since Levi controlled that sword to kill Keerea's Deities and fighters, mysterious figures appeared in various places in Erudia.

They all said, "Why is the spiritual energy outside so thick? What is going on out there? That sword is too incredible."

Meanwhile, there was constant thunder and lightning in a sacred land deep in the mountains in Erudia. Intense spiritual energy surrounded the mountain peak and would not dissipate for a long time.

This place was considered a restricted area.

Soon, all the beasts seemed to have disappeared and went into hiding as though something was scaring them.

“Haha, we are finally outside! Huh? The spiritual energy here is thick. It feels no different from our place! Does this mean that we can keep staying outside now?” said a shadowy figure.

Somewhere in the North, a few shadowy figures traversed through the air, laughing from time to time.

Levi never expected his simple sword demonstration would lead to such a severe disturbance and attract legendary beings out of hiding.

At this moment, he was still unaware of what he had caused and could only focus on finding ways to save Forlevia.

He visited the sacred spring once every day to check on her condition.

However, Xyperia labeled the whole matter as classified and refused to let anyone find out about it.

They could not let the outside world know how much loss they suffered or let anyone realize the potential of that place.

In the following few days, Levi went on exploration alone.

He focused on searching through the restricted area.

Previously, he found many valuable things in the sacred spring.

In those few days, he searched through three Rank One restricted areas.

Although he found many magical herbs, they were slightly weaker than what he had discovered in the sacred spring.

These magical herbs would be useless in Forlevia's condition.

He had expected such an outcome because he was trying his luck exploring the restricted areas.

However, the things he found were of use too.

Erebus and Digital God used the magical herbs Levi brought

#### Chapter 2938 Super Spiritual Ley Line

As they were in the sky above the South Pole, they could see the terrifying vortex that covered a huge  
part of it.  
Although Dr. Erebus and Digital God were both incredibly powerful individuals, the sight of the gigantic  
vortex beneath them still sent shivers down their spines.  
The spiritual energy was extremely concentrated here due to the spiritual ley line underneath it.  
From a logical standpoint, it would be easiest to grow magical herbs in a place like this.  
Given the harsh surrounding environment, the magical herbs would become incredibly potent.  
If such magical herbs were to be present here, then this place would be a lot better than the sacred  
spring.  
In fact, it could even cure Forlevia's poisoning completely in one go.  
However, it had only been a short while since the spiritual energy had erupted in the area, so it was  
highly unlikely for such herbs to start growing there just yet.  
Even so, Levi clung desperately to that thin strand of hope.  
He insisted on getting to the spiritual ley line to see if there were magical herbs.

#### Chapter 2939 Beyond Their Limits

Because he was too busy stopping the eruption back then, he didn't have time to go near the spiritual ley line at all. As such, this was Levi's first time being so close to the super spiritual ley line.

It felt like he had entered a cave of some sort.

The rock wall outside the entrance had stalactites and water droplets that formed from the spiritual energy.

A single drop of that water was as potent as magical medicine.

Standing by the entrance, Levi stared at the large hole that was a few thousand feet deep.

The walls of the cave were thick and strong as they had been formed bit by bit over the course of tens of thousands of years.

That was probably the only reason the spiritual ley line had remained so stable.

Digital God's aircraft had only blown a little hole in the cave, but it eventually cracked and deepened.

Upon entering the hole in the cave, Levi saw that the super spiritual ley line was like a mine that stretched for thousands of miles.

It was sealed off from the outside world and contained a high concentration of spiritual energy.

If this place is uninhabitable now even with the weakened state of the super spiritual ley line, then it would only be worse back then. I was hoping that the concentrated spiritual energy would allow for magical herbs to grow, but there is a limit to the concentration of spiritual energy tolerable for their growth. Those magical herbs can't survive in an environment with such ridiculously high concentrations of spiritual energy. If I can find even one that grows here, it would definitely be on a whole different level. However, this combination of a harsh environment and extreme concentrations of

Chapter 2940 Fossilized Tree

Levi was shocked when he saw a tree in the distance.

A tree growing in here? This must be a magical herb!

Levi quickly ran toward the tree, only to realize it had turned into a fossil.

The tree must have existed there for a very long time if it turned into a fossil.

For reasons unknown, Levi found the tree to be rather familiar. He felt like he had seen it before somewhere, but he couldn't recall where.

I bet this tree could even blossom and bear fruits in the past, huh? He thought to himself as he pressed on.

He then came across a few more fossils moments later.

Some of them were large and belonged to animals.

Although they were all valuable resources for scientific researchers, none of them benefited Levi in any way at the time.

All he wanted was to cure Forlevia's poisoning, so nothing else mattered to him at all.

At this point, he had come to accept that he would find no magical herbs within the super spiritual ley line, and that he had come all this way for nothing.
