Chapter 2941 The Ecclesiastic Order Really Exists

They kept staring at the vortex for any other signs of changes, but it went back to normal a few minutes later, and they could see no one coming out of it.

“Huh? What the...”

“Could that all just be a natural phenomenon caused by the vortex?”

“It’s probably just because of the vortex. Come on, we’re leaving!” said the woman seriously.

The four of them then left the area shortly after.

Unbeknownst to them, a figure appeared in the distance moments after they left.

It was none other than Levi himself.

From the looks of their armor, weapons, and energy levels, they most likely rely on spiritual energy for their training.

Dr. Erebus’ sudden question hit Levi like a bolt from the blue.

That's right! Since I've witnessed their existence with my own eyes, I could ask them to help cure Evie's poisoning! There is no guarantee that they'll be able to pull it off, but at least there's a high chance they can do it. Damn, I should've grabbed them instead of letting them leave just now.

"I'll go take a look outside!" Levi shouted as he went out there searching for the four, but they were nowhere to be found.

"Where should we go?" Digital God asked.

"For now, let's go check on Evie at the sacred spring!"

With that, the three of them headed back to the sacred spring.

After checking up on Forlevia, Levi was able to confirm that she was fine.

Troy and the eighty others kept their training going as they watched after her, so she had a really powerful group keeping her safe.

Although Carigrey Academy was a restricted area and contained a ton of spiritual energy, the spring wasn't half bad either.

It had a tiny spiritual ley line beneath it to provide them with sufficient spiritual energy, so they could still carry on with Levi's training methods and keep strengthening themselves.

Chapter 2943 The Location Of The Poison Handbook

After taking a moment to regain his composure, Venom Fiend continued anxiously, "We found some clues after spending a long time searching the ruins! First of all, we discovered an incomplete Toxin Ranking. It has a record of all terrifying poisons in the world, and most of them match those in the Poison Handbook! The third poison listed in the Toxin Ranking is called Wither All, but it wasn't recorded in the Poison Handbook. I did some research, and I think it closely resembles the one that your daughter is poisoned with. Because the list we found is incomplete, I can't find any information on the first, second, and many other poisons."

Levi gave him a serious look as he asked, "What do you mean by that?"

"Well, according to the records, the Toxin Ranking belongs to the Ecclesiastic Order!" Venom Fiend replied, shocking everyone around him.

It belongs to the Ecclesiastic Order? We've only just established the fact of their existence, and now we're being presented with yet more evidence to support that fact!

"However, I suspect that the Toxin Ranking is made up. You see, through the discovery of the Toxin Ranking, I found another important piece of information. According to the records, there is a second volume to the Poison Handbook, and the Ecclesiastic Order is currently in possession of it! Since they didn't really need the first volume, they released it to the public so that someone else could have it."

Venom Fiend's words got Levi all worked up once again as he had found another clue to the second volume of the Poison Handbook.

"I think this is just a bunch of bullsh*t! I can't believe my sect would be dumb enough to believe such rumors! The Ecclesiastic Order and the Esoteric Guild don't even exist! If they can't prove the existence of a second volume to the Poison Handbook, then it's nothing but a rumor!" Venom Fiend added with a sneer.

Although he had found lots of clues regarding the Ecclesiastic Order, he didn't believe in their existence at all.

Chapter 2944 Put Your Legs Down

It was a team sent from Xyperia, the strongest force in the world.

They struck fear into the hearts of people wherever they went, especially since they had previously come up with a plan to take over Erudia.

Everyone figured their reason for coming was to test Erudia and see how things were in the country.

Instead of simply spying on Erudia in secret, they were so emboldened by their status as the most powerful force that they decided to just waltz right into the country.

The guys who came over were so arrogant that they didn’t even care who it was backing Erudia up.

Although Erudia had Edmund’s mentor to back the country up, no one knew the exact details as to what was going on.

On top of that, word on the street was that the Ecclesiastic Order and the Esoteric Guild did not exist.

As such, the Dragonites treated the men from Xyperia with great respect and tried their best to satisfy their every request.

That only worsened things as the men grew increasingly insolent and made more unreasonable demands like having Edmund as well as his mentor come see them at once.

Everyone was completely stunned.

Even Dr. Erebus shuddered in fear. Furthermore, his blows were so vicious.

All of a sudden, only their shrieks of misery resounded loudly in the entire conference room.

Tyrian curled up on the ground in pain.

"L-Levi..." The others from the Xyperia regiment recognized Levi.

"Do you know what you're doing? You're pushing Erudia into an irreversible demise! If you attack us, it'll

Everyone chided.

They all blamed Levi.

Furthermore, they emphasized that Levi represented Erudia and used this as a reason to start a war.

Chapter 2946 They Did Not Keep Their Word

In fact, he looked in the direction of the Dragonites.

"Go ahead and condone Levi's actions. He is obviously taunting us with his behavior. Even though we are not particularly powerful, we still represent Xyperia. By attacking us, you are attacking our nation and forcing us to declare war. Once the ten of thousands of our Deities march on you, you will regret your actions today."

The other representatives added, "That's right. We know that Erudia has a warrior that can kill Deities. However, let's see if you can kill ten of thousands of them!"

At that moment, the seriousness of the situation dawned upon the Dragonites.

Given that those men were representatives of Xyperia, the Dragonites knew that they couldn't afford to offend them in any way.

It was true that there was someone in Erudia that was capable of killing Deities. Nevertheless, no one knew who it was.

Nevertheless, it didn't matter how powerful that person was, for there was no way he could defeat a thousand Deities, let alone tens of thousands of them.

Evidently, Xyperia was the most powerful nation in the entire world.

Considering the growing number of artificial Deities they produced, the power they possessed was truly terrifying.

As a result, no one wanted to get into trouble with them.

Chapter 2947 The Arrogance Of Idrae

Without any warning, Tyrian’s head was blown to mush, causing his brains to splatter onto the faces of everyone around him.

At that moment, everyone was shocked by how merciless Levi was.

“Oh no, we’re doomed!” the Dragonites lamented as they felt their hearts sink. They had made enemies of the most powerful nation in the world.

As for Bennett and the rest, they stood stiffly still, as if they were staring in the face of death.

Just a while ago, they had assumed with high certainty that Levi wouldn’t kill anyone unless he was a lunatic.

However, they didn’t expect him to actually be crazy enough to kill Tyrian.

After a while, Levi looked at them and asked, “Who’s the leader?”

The other four pointed at Bennett with trembling fingers.

“You, go back to Xyperia with these three messages. Firstly, stop sending men here to mess around with Erudia. I will kill every single one that comes. Secondly, if you want to declare war, go ahead and do so. We’re not afraid at all. Thirdly, hand Idrae over before I personally set off to kill them. When it comes to that, Xyperia will be turned into hell on earth. Consequently, be prepared to suffer the consequences of your choices!” Levi declared with his finger aimed at Bennett.

Bennett was jolted by the threats. “How dare you—”

Chapter 2948 Forlevia Is In Trouble Again

Not only did Idrae and Xyperia mock Levi, but everyone else also did the same once the news began to spread.

To them, it was just the rants of a helpless man.

Unable to exact revenge upon Idrae, all Levi could do was issue toothless threats, turning him into the butt of everyone's jokes.

Even though there were some who didn't find it funny at all, such as the imperial family of Raysonia, the majority of the rest of the world did so, especially the group that had tried to recruit Levi to help them with revenge.

They too ridiculed him unreservedly.

"He is nothing but a coward. In fact, it was obvious to me the last time I saw him. Other than issuing verbal threats, he doesn't have the courage to seek revenge despite what happened to his daughter. He truly isn't worth his salt as a man nor a father at all!"

"Anyway, he can just stand by and watch, while we take action. Even though we might not be strong enough to destroy Idrae, we are still capable of killing a few of their members, and that's what we'll do to prove our point to him!"

They had received news that Idrae had sent five men from Xyperia to conduct experiments in a forbidden area. It was likely related to the matter of the artificial Deities.

Therefore, they formed a group to assassinate the five men from Idrae.

It would consist of thirteen of the best assassins who used to be at least Ultimate class warriors. Among them, four had become Deities.

Chapter 2949 The Poison I Created

Soon, Levi arrived at the sacred spring.

Initially, he assumed that Troy and the others were faced with a powerful enemy.

However, he arrived to find that they were not in danger at all.

"What happened?" Levi asked sternly.

Forlevia had fainted inside the sacred spring, while her face was covered with lines that were induced by the poison.

From the looks of it, she had struggled for a while as the poison caused her to behave hysterically.

"She was doing fine until she suddenly went raving mad. It looks as if the poison was acting up," Troy explained softly.

Even though her reaction had given them a fright, they had no idea how to help her.

Subsequently, Levi examined her.

Indeed, the poison was acting up again. Her current condition is similar to when she was just released. That means that the time she spent in the sacred spring didn't help her at all. In fact, every part of her seems to be gradually weakening, and she is now resigned to being in a semi-unconscious state most of the time. What's really going on?

Checking the sacred spring's water, Levi noticed that it had become black. Moreover, all its minerals had also been absorbed.

Chapter 2950 A Reward

Dr. Erebus proposed, "Let's issue a reward."

"What?" "Whoever is able to cure Forlevia or provides the magical medicine and herbs to do so will be richly rewarded."

Dr. Erebus looked at Levi. "The lucrative reward will serve as a catalyst for the appearance of all kinds of magical medicine or for powerful figures to reveal themselves. After all, we have plenty of valuable items to give away."

After exploring a ton of restricted areas, the magical herbs that Levi didn't care about were actually so valuable that others were willing to die for them.

Just dangling some of them to the world would be enough to drive the world mad from clamoring for them.

After all, Levi had an abundance of them in his possession.

On top of those that they had in storage, Digital God's aircraft was stocked full of them.

Therefore, they had a seemingly unlimited supply of magical herbs.

As long as Levi headed to the restricted areas, they would be able to continue harvesting spiritual energy crystals by the tons.

In the market, the spiritual energy crystals were sold by the pieces. Just having one or two alone was enough for others to kill for it.

Evidently, that was the power Levi possessed.
