Idrae Has The Antidote

Levi barging in suddenly had interrupted Chad's routine.

"Crown King, what are you doing?"

"Can't you see Dr. Holden is at work?"

Malcom and Maxwell admonished him given that they were Deities.

As for everyone else, they were equally upset.

Despite their respect for Levi, they were still capable of anger at such a crucial time.

Chad raised his head and asked, "What happened?"

"The person behind you has destroyed Evie's ice bed, causing her poison to act up."

Having heard the news, Chad looked at Forlevia and sympathized with her for a fleeting moment.

### **Stop Levi From Being Conned**

Meanwhile, at Idrae's base in Xyperia, their nine leaders stood in a row and waited for Levi's answer.

Oedipus sneered, "If Levi agrees, it will mean that we have successfully tricked him. To be honest, he knows we are taking advantage of him. It's just that he has no choice but to take the risk."

"Do you think he will agree even if he's well aware of our deception?" Orpheus asked while looking at the rest.

"I suppose we have a fifty-fifty chance."

At that moment, one of their subordinates hurried over to report, "Sirs, I have shocking news. Levi has agreed to deal with us. However, we must go to Erudia for negotiation. He must be worried we'll ambush him in Xyperia!"

Oedipus sprang to his feet. "All that matters is his agreement. Regardless of where the negotiations are held, he will end up being swindled."

Sweeping his gaze at the other eight men, he asked, "Who wants to go and cheat Levi?"

### **Lacking Objectivity**

At that moment, everyone blocked Levi's way, thinking he was a fool.

It wasn't his behavior that irked them but the fact that he was going to waste a huge amount of resources. They felt it was a shame since those resources belonged to everyone.

Can't he just give them to Erudia? Why must he waste them just like that?

Staring at them, Levi snapped, "Move aside! This has nothing to do with you."

Maxwell retorted at once, "That's not true! Your resources belong to Erudia, and that's what makes it our business."

Malcolm added, "By meeting Idrae, you are just giving away the resources for nothing. You will become the victim of a scam again. Until now, there are still those who ridicule you for being tricked the last time. And yet, you're on your way to being conned again. Have you gone mad? Instead of wasting such a huge amount of resources, you might as well give them to Erudia."

"Listen, the chances of Idrae having the antidote are much lower than the probability of me convincing Dr. Holden to help you. Therefore, you are making a mistake by giving the resources away."

Malcom and Maxwell took turns to persuade Levi.

Chapter 3026 A Brazen Scam

Soon, Levi and his men arrived at the agreed meeting place.

When the three leaders of Idrae saw Levi, smug smiles crept onto their faces.

Levi’s presence was a testament to the success of their scheme, causing them to be filled with triumphant ecstasy.

He’s finally here!

Levi’s arrival was the equivalent of them striking it rich.

“Mr. Garrison, it’s unfortunate that your daughter’s ice bed has been destroyed. We’re also sorry to hear the poison in her is acting up again. Nevertheless, we swear Idrae is only responsible for poisoning her. As for the destruction of the blood alteration record and the ice bed, we had nothing to do with it,” the three leaders of Idrae declared, as if poisoning Forlevia was an honorable thing to do.

In response, Dr. Erebus and Digital God clenched their fists in frustration.

Chapter 3027 Kill The Three Leaders Of Idrae

Everyone, including the three Idrae leaders, turned their attention to Levi.

After all, he was the idiot who came forward despite knowing that it was nothing but a scam.

For the choice he made, he couldn't be anything else other than a fool.

Perhaps, it was simply due to him being mired in the situation, for everyone else could objectively see the charade.

There was never any antidote to begin with. It was just a scheme to prey on his desperation.

Even though Dr. Erebus and the others saw through the deception and wanted to dissuade Levi, they knew the latter was driven by his responsibility as a father.

Hence, they held their tongues and refrained from doing so.

All they could do was pray he would come to his senses and not take the bait.

They hoped he wouldn't end up giving away those resources for nothing.

Suddenly, Levi walked up to the three Idrae leaders without saying a word.

"That should be the way. As long as you accept our conditions, your daughter will be saved!"

"Precisely! Since those resources are useless to you, exchanging them for your daughter's cure is well worth it!"

When the three leaders saw him approaching, they assumed he had agreed.

#### Chapter 3028 Killing A Few Men To Lighten My Mood

In fact, the sensation he felt transcended simple satisfaction.

His blood was actually boiling with excitement.

"Amazing! This feels unbelievably amazing!"

When they saw Levi panting and covered in blood, Dr. Erebus and Digital God felt as if a heavy burden had been lifted off their chest.

This is fantastic! Levi isn't a fool at all! Not only did he reject their terms, but he also killed all of them in one fell swoop! Even at death, the three leaders from Idrae had no idea what happened. But why did Levi suddenly attack without saying a word? Isn't he supposed to exhaust all possibilities for his daughter's sake? How did he end up killing them right away without asking for more information? Did he actually come here with the intention of getting the cure?

Everyone was extremely confused. It was something they would never fully understand till the day they died.

Levi gradually turned around and explained, "I'm just in a bad mood recently. Killing a few enemies cheers me up."

The men finally knew he had never planned to take the bait.

He was fully aware of Idrae's plan from the very beginning.

They had never been humiliated like that before, especially since they had become the Deities of Erudia.

After all, they were Erudia's pillar of support.

By slapping those two official Deities, Levi had utterly embarrassed them.

Just when Malcom and Maxwell wanted to attack Levi as retaliation, Dr. Erebus and Digital God stepped forward.

"I dare you to take another step forward! Are you itching for a fight? If you are, feel free to come at me!"

"Come on, let's fight! I've been waiting for ages to beat you up!"

Dr. Erebus exuded a powerful aura, while Digital God was on the verge of losing his temper after suppressing his fury for a long time.

Even Deities had hierarchies amongst themselves.

As such, when they noticed Dr. Erebus and Digital God's terrifying auras, Malcom and Maxwell were stunned.

They quickly became aware of the fact that they were not on the same level as Dr. Erebus. In fact, even Digital God was stronger than them.

They knew that if they fought, they would definitely be at a disadvantage.

However, now that they had already rushed forward, it was difficult for them to back down.

Chapter 3030 Arrived At This Step

There was another effective treatment, which was the magical medicine that Chad claimed to have.

In fact, Chad had purposely revealed the existence of said magical medicine because he wanted Levi to look for it.

Otherwise, he would have never mentioned such an important magical medicine so easily.

Unfortunately, the magical medicine was no longer with him. It had been taken by those mysterious men and was swiftly hidden by them.

Chad could only pray that Levi would find it.

"Levi, I know that you're worried about your daughter, but I am worried about my own daughter, too! If I cure your daughter's poison, my daughter will die. Just like you, I'm willing to sacrifice anything for my daughter. I will do anything for her safety. So I understand how you feel all too well!"

Chad kept sighing.

Since the other party had control over his daughter, she would die if he dared to cure Forlevia.

This was why he was acting so ruthlessly.

Chad reckoned that if their roles were reversed, Levi would do the same too.

Even if he wanted to help Levi, he could not.

Since the other party was monitoring his every move, he would get caught if he did anything suspicious.
