Chapter 3031 Do You Think You Are An Invincible Deity

If nothing worked, Levi could only resort to the suggestion raised by the Shield expert—to preserve Forlevia's consciousness and give up on her body.

However, Levi have no desire to choose that route of action.

He would feel guilty forever.

For the remaining period of time, Idrae's plan to create more Deities for Xyperia progressed even more.

It became even more efficient.

Apart from that, the powerful Xyperia had also started developing Rank One and Rank Two restricted areas in the nation.

As for Rank Three restricted areas, they had developed so many that they lost count.

For the time being, their resources were plentiful.

There was no need for them to even think about snatching Levi's resources away, for their own resources were more than enough.

While Idrae's Deity plan continued, the number of Deities in Xyperia increased constantly as well.

No one knew what the exact number was, except for the fact that it was increasing daily to a terrifying extent.

Furthermore, Apocalypse, which Xyperia had its eyes on, did not make any moves.

Apocalypse had vanished into thin air. They did not

Meanwhile, Troy and the rest were still working on their mission—to find the Ecclesiastic Order.

However, they still could not find any clues.

It was as if the Ecclesiastic Order had never appeared.

Nonetheless, Levi believed that those people he saw at the South Pole belonged to the Ecclesiastic Order.

Evidently, they had been attracted by the spiritual energy.

Levi guessed that they used to live in an environment with a lot of spiritual energy. But, when there was a critical lack of spiritual energy in the world, it was no longer suitable for them to continue living there.

Now that there was enough spiritual energy, they decided to come out again.

Levi's guess was right. Many from the Ecclesiastic Order had emerged to look for magical herbs and spiritual stones all over the world.

However, as they had items that could conceal their aura, Troy would not be able to discover them even if they met.

The only exception was if they had physical contact.

This was something Levi had not thought about at all.

Although he had taught Troy and the others how to recognize people from the Ecclesiastic Order, the members deliberately masked their auras.

Since they were now no different from other ordinary people, no one could detect them.

In the past, Levi and Dr. Erebus had thought about fighting poison with poison.

However, Forlevia's poison was so strong that there were no other poisons that were on par with it.

Back in Hawen, a wizard had tried to use a parasite to absorb Forlevia's poison.

But Forlevia's poison was so strong that it killed the wizard's parasite instead.

Upon hearing how the Ultimate Parasite existed solely for consuming poison, Levi was naturally interested.

Furthermore, he figured that if the Ultimate Parasite consumed Forlevia's poison, it would leave afterward since Forlevia would be of no use for it anymore. This meant that she would not suffer from any side effects.

With that, her poison would be cured.

"We mustn't alert anyone about this! There are so many people targeting Evie that many will try to stop us if they knew we've found a treatment. Besides, I've just killed so many people from Idrae. They'll definitely grab the opportunity to take revenge! Once they learn about this, they'll go to all lengths just to sabotage our plans," warned Levi.

Hence, Dr. Erebus and the rest acted silently so no one would know what Levi's next step was.

"Find out where Parasite King is now. No matter the price, we must make him cure Forlevia!" instructed Levi coldly.

As Chad had his own grievances, he was not afraid of dying.

However, Levi did not believe that other people would be equally unmoved.

Rank One restricted areas were usually horrifying places, where the beasts inside were scarier than Deities and they came in large quantities.

It was not an easy task to explore those areas.

However, the Rank One restricted area with Parasite King was filled with only poisonous organisms, which could be controlled.

This was a rare opportunity.

As such, various forces, including the Black Sky Union and many others, had gathered together to attack Parasite King.

They claimed that they were acting in the name of righteousness—to eliminate a public threat and seek justice for the victims.

Furthermore, they promised to save those people who had been captured to cultivate the venomous parasites.

However, in reality, they were just doing it for themselves.

Parasite King was not the first target that they had joined forces to attack.

Previously, they had already defeated multiple formidable opponents by using the same excuse.

Erudia was in utter chaos, with killings happening in every corner. Hence, it was normal for such battles to occur.

For the sake of a single spiritual energy crystal, countless people were killed to the point that the blood flowed like a river. It seemed that there was no end to the innocent lives being lost.

Chapter 3035 A Misunderstanding

Soon, they arrived at the mountains of Marsingfill.

“Parasite King is really ruthless. He killed so many people and used live subjects to cultivate parasites!
How cruel!”

“He’s willing to go to all lengths possible to create the Ultimate Parasite!”

After researching Parasite King’s recent acts of atrocity, Dr. Erebus and the others could not help but
curse out loud.

On the other hand, Levi remained silent while his expression remained cold throughout.

Soon, everyone arrived at the destination.

“Huh?”

They were stunned by what they saw.

What’s going on? Why are there so many people gathered outside Parasite King’s base? There are at least thousands of people here, and they’re all elites!

“The Black Sky Union?”

Levi spotted a few familiar faces from the Black Sky Union in the crowd.

Even that unique-looking burly man was there too, pulling along a mutated wolf on a leash.

Dr. Erebus and the others were beyond relieved that their guess was wrong.

After all, the four of them were the only ones who knew about this.

As powerful as the mysterious force was, installing tracking devices on Levi's body was still beyond them.

They were glad that nothing went wrong, but frowns soon appeared on their faces as they came across another problem.

Under normal circumstances, they would have all agreed to eradicate Parasite King.

He was so evil that everyone had a burning hatred for him.

Although Dr. Erebus had conducted more experiments than he did, a majority of those experiments were conducted on corpses or other living beings.

Very rarely did Dr. Erebus ever experiment on live humans, so what he did was considered child's play when compared to Parasite King.

In fact, even Dr. Erebus wanted to kill Parasite King very badly.

“Yeah! We still have some business to take care of with him. You guys can have your way with him once we’re done with it!” Dr. Erebus added.

They didn’t dare tell the crowd about their plan to have Parasite King cure Forlevia due to how despicable and risky it was.

“You are helping Parasite King if you stop us from killing him!”

“That’s right! Why would you guys stop us when we’re already gathered at the entrance!”

“Besides, what business do you have with a f*cking monster like him anyway?”

“Yeah! On top of that, Ultimate Parasite has matured to the point where blood from humans can no longer sustain it, so he needs to feed it with all sorts of deadly poisons!”

“The poison in your daughter’s body is Final Malice, isn’t it? I bet you must be planning on having Ultimate Parasite consume that poison after every other treatment method has failed! Isn’t that right, Levi?”

All eyes were on Levi as they questioned him.

The fact that Levi had stepped forward all of a sudden with Forlevia on his back made it obvious that he was planning on curing her.

Given how things had turned out, Levi had no choice but to admit it. “Yes, that’s right. I came looking for Parasite King because I want him to cure my daughter.”

“What?”

Azure Dragon and the others all had shocked expressions on their faces.

Chapter 3039 Heavenly Guards Attack

Everyone freaked out when they heard that.

Levi would simply be providing Ultimate Parasite the nudge it needed to fully mature.

Regardless of whether the creature could cure Forlevia or if she would be in any danger, Ultimate Parasite would definitely grow stronger after absorbing the poison in her body.

That would result in Parasite King becoming so powerful that no one could stop him, which was a very understandable reason for their concern.

Of course, they weren't actually worried about what would happen to Erudia. They were just worried about not being able to defeat Parasite King and splitting his treasures.

In order to keep Parasite King from getting stronger, they had to stop Levi from providing him with Forlevia's poison.

"This is nothing personal, Levi! It's simply a fact that Parasite King will become stronger if he treats your daughter, and that'll make him a threat to all of Erudia! You can't just put an entire nation in danger because of your own selfish reasons! You're practically sacrificing tons of innocent lives just so you can save your daughter!" Malcom protested.

"Exactly! Besides, there's no guarantee that your daughter will get better anyway! Who knows, her condition might even worsen as a result!" Maxwell added.

As Malcom and Maxwell continued yelling at them, everyone else waited for them to make their decision.

Azure Dragon and the others had conflicted looks on their faces.

As if being forced to make such a difficult choice wasn’t bad enough, having Malcom and Maxwell yelling at them like that only stressed them out even further.

“Argh! Screw it! Stop them!”

Suddenly, Azure Dragon, Kirin, and the others all turned around at the same time to face Malcom, Maxwell, and the thousands of people behind them.

“Those who dare pass us by are to be treated as enemies, and we will kill them all without mercy!”

“Yeah! No one’s getting past us!”

“Don’t worry, Boss! We’ve got you covered, so just go on in!” they shouted as they stood in a straight line in front of Malcom and Maxwell.

Feeling relieved that they were on his side, Levi quickly entered Parasite King’s lair with Dr. Erebus.
