Chapter 3081 All Sorts Of Weirdos

Anyway, one thing I'm sure of is that they're here for the resources, and there's nothing wrong with that.

The people from Ospea shook their heads. "No, we are here for your resources."

Levi responded, "That's very direct of you. The resources I have are supposed to be given as a reward. So have you brought any treatment plan or medicine for my daughter in exchange for the resources?"

"No. We're here purely for your resources. Before this, we thought that you have given away your resources and even revealed your secret to getting them. It was only when you send out the reward notice that we realized you still have them and that you've never revealed your secret. And that's why we're here to look for you."

When Levi heard that, he seemed to have understood their intentions.

So, Ospea is no different from Terrandya.

They have both come to try and take my resources away.

Not only that, it seems that they have no interest in getting rid of the poison for Forlevia.

"So, you have come all the way just to take my resources away? If I refuse to give them to you, are you planning to take them by force?" asked Levi, getting straight to the point.

In his eyes, they all looked like a bunch of robbers.

There was no difference between them and those people from Terrandya.

The people from Ospea sneered, "Your resources? Those are ours!"

Chapter 3082 Sharp Question

"What is it?" "Have you been to Xyperia? Not only does the country have a lot of Deities, but they also have an abundance of resources! Do you think they would submit to you?" Levi asked.

That question was like a big slap to those Ospeans' faces, and their expression instantly turned grim.

Levi's sharp question was like a dagger that had stabbed right into their hearts.

After all, these Ospeans had always thought they were the center of power of all Deities, but the Deities in Xyperia did not even show them any respect. In fact, they even had the intention of destroying Ospea.

Because of this, the Ospeans had no choice but to come to Levi.

"Why? Have you really been to Xyperia?" Levi continued with his questions.

The Ospeans' mouth twitched upon hearing that.

"My guess is that not only did they refuse your nonsensical request, but they also fought against you and defeated you, right?" Levi continued sneering.

The Ospeans' bodies started trembling when they heard his questions.

Laying Low

Dr. Erebus and the rest nodded. "I see."

Before this, they did not know why Ospea had been laying low even though they were the second most powerful country in the world.

No one knew what they were doing at all.

So, they're secretly planning their revenge against Xyperia!

The Ospeans continued saying, "We're actually indirectly helping you if we get to punish Xyperia!"

"Xyperia had turned a blind eye to what Idrae had done to your daughter. So once we defeat Xyperia, we'll hand Idrae over to you, and you can do anything to them! As long as Xyperia remains powerful, you wouldn't be able to teach Idrae a lesson, right?" they continued explaining.

Levi thought what they said made sense. They seemed to have a clear mind and understood potential threats. So why did they behave like headless flies earlier?

Could it be their culture or habits?

Perhaps they have gone a little overboard just because they are obsessed with anything and everything concerning Deities.

"I hope you'd do what makes God happy, Levi. Had you decided to go against God, you can kiss His treasure goodbye! Tell us the secret on how to get the treasure right now. We promise we will not stop you from carrying out your excavation!" A few Ospeans looked at Levi seriously.

Did You Trick Us

Everyone gave Levi a confused look as they wanted to know what he had on his mind.

"Didn't you say all the resources and Deities belong to you? And they're supposed to take your orders, right?" Levi asked.

"Yes!" The Ospeans nodded.

"How about Deity-level beasts? Are they your subjects too? Should I summon a few powerful beasts to see how you can tame them?"

The color drained out of the Ospeans' faces at that.

Is he mad? Why would the beasts obey us? They'll gobble us up for sure!

"Enough with your joke, Mr. Garrison. We're on the verge of breaking down, so stop pulling this kind of trick on us," the Ospeans said.

The remarks that Levi had made earlier had made them emotionally vulnerable, but they tried to suppress their feelings.

Should Levi go overboard once again, they might lose their cool.

Levi smirked and said, "Come on, it's a joke! I'm just trying to lighten the mood!"

The Ospeans did not believe what Levi said.

Everyone in Terrandya reacted the same way when they heard him for the first time.

It's common knowledge that the resources would be in abundance in restricted areas such as this. The question is, do we have the ability to get them?

Maybe if we had enough luck, we'd be able to avoid the beast for one time, but there's no way we would be as lucky the next.

According to the number of resources that Levi has, he must have entered this Rank One restricted area more than twice in a few days.

How is it possible that he managed to succeed every time?

Take now for an instance, Levi's here to get the resources, but we are now surrounded by beasts. So how are we getting out of here alive?

"One, two..."

The Ospeans started counting the number of beasts according to the aura that they sensed.

Two hundred and thirty-eight Deity-level beasts?

Glowing bright in its armor made of scales, the beast charged toward the crowd.

Even a Deity would have difficulty in penetrating the scales, let alone killing it.

The radiation of the spiritual energy was so powerful that it strengthened the beasts' physique and made their skins impenetrable.

The Ospeans were well aware that they couldn't penetrate its armor.

Everyone was afraid of the terrifying aura that was unleashed by the beast.

How could anyone possibly stop it?

No one could rival the beast, which might not even be the most powerful one!

Not to mention, there are still a lot of beasts waiting to attack us!

As they braced themselves and prepared to fight back, a sound rang out.

As the crowd turned to the source of the sound, they were almost blinded by the light God Crusher was emitting.

The Secret Of Levi

Levi's method was very straightforward. All he had to do was to go to the place with resources and kill anything that was in the way.

Previously, nobody believed Levi's method.

Now that they saw it with their own eyes, however, they finally believed him.

With his power, retrieving the resources appeared to be like child's play.

He could get as much resources as he want.

After all, he simply had to waltz through any Rank One restricted area and retrieve any resources he wanted.

Rumor had it that Terrandya already found out Levi's secret technique.

However, there was no action from Terrandya at all.

Initially, they thought that perhaps Terrandya did not obtain Levi's secret, after all. But they soon scrapped that thought as it sounded impossible.

Levi Is Missing

The person that Bruno went to did not open the heavenly lock but rather gave Bruno and his team an ancient manual so that Levi could learn to open it himself.

"Master Garrison, I will not reveal the identity of this senior. Like the Miracle doctor, he is a recluse. Furthermore, no one must know about this ancient manual for the heavenly lock," Bruno cautioned him about the need for secrecy.

"All right, I got it. Thank you."

Levi took over the ancient manual and started reading through it.

My gosh, it's so complicated and obscure!

To those who did not know anything about locks, the manual was like something out of this world.

In fact, even those who were familiar with locks would find the manual just as complicated.

Furthermore, according to the ancient manual, there was more than one type of heavenly lock—there were thousands of them.

As for the box containing the magical medicine, it was not known which type of heavenly lock was used on it.

As such, it would be necessary to study and research every type of lock listed in the manual, which would in turn take a lot of time and effort.

The heavenly lock is indeed mysterious.

After flipping through the ancient manual once, Levi realized that unlocking it would be an extremely difficult task.

"I never thought that the final hurdle would be up to me to solve it." Levi heaved a long sigh.

"Here, let me have a go at it. See if I can be of help to you," Digital God chimed in.

Levi thought that it was probably too late to look for someone familiar with the art of mechanisms.

The Number Of Deities In Xyperia

Because Levi had arranged for Troy and the others to investigate other matters, the reappearance of the Ecclesiastic Order went unnoticed.

Otherwise, Levi would have received word about it much earlier.

Meanwhile, in Xyperia, the whole country was in an excited state.

They had an abundance of resources as well as the Idrae's methods.

Because of this, Deities were being produced continuously and their numbers were skyrocketing.

Moreover, Idrae had existed for a long time and had collected numerous ancient technique books from various parts of the world.

In order to please Xyperia, they had contributed everything.

Most of the technique books were beneficial to the Deities, helping them to turn their spiritual energy into more power or to strengthen their attack and defense.

As a result, the power of Xyperia's Deities improved as a whole, getting stronger by the day.

What was more surprising was the number of Deities that were produced had exceeded everyone's imagination.

Titan Lord and the rest could not stop smiling from ear to ear from such joyous happenings.

"The number of Deities in Xyperia should be in tens of thousands now, right?" Someone was curious and could not help asking.

The people of Xyperia were eager to know just how powerful their own country had become.

Lord chuckled contemptuously as if saying that was an
