Chapter 3091

Huge Gap From The Top Spot

The organization that suffered the biggest shock was Hydron.

After all, the number of Deities in Xyperia had suddenly increased to a hundred thousand.

This could only mean that Hydron's plan of revenge against Idrae was now impossible.

Inside the organization, the group that was hell-bent on vengeance was totally dumbfounded.

They had thought that the justice they waited for so long would finally be at hand once their organization became stronger and there were more Deities.

But alas, this happened.

How could we take revenge now that the enemy's number of Deities had reached a hundred thousand?

Even if we have a hundred more years to prepare for it, it would not be possible.

As time passed, their enemy would only become stronger at a rate that they could not imagine.

However, the people that were actually in control of Hydron did not really care.

The reason being they had not been really interested in taking vengeance on Idrae from the start.

Ways Of Opening The Heavenly Lock

When Heavenly League expanded its number of Deities to three hundred within a short period of time, it was thought to be an outstanding feat.

However, that success was nothing compared to what had been achieved by Xyperia.

The news was a big blow to the Heavenly League.

Furthermore, people like Qilin, Azure Dragon, and three others seemed to have broken the shackles within their bodies after they became Deities, boosting their rate of growth to the point where it was astonishing.

Previously, the talents of Azure Dragon and his group paled in comparison to Floyd and the others.

However, after they became Deities, the talents of Azure Dragon and his group were fully released. In just a short time, they were able to overtake Malcom and Maxwell.

At this point, their capabilities were similar to Edmund's.

Because of this, the Heavenly League was in a joyous state.

After all, the overall strength of their Deities was stronger than that of other countries.

They figured they had a bright future ahead and could even one day catch up to Xyperia.

But when the number of Deities in Xyperia was revealed, it was a shock to the Heavenly League.

It's impossible for us to catch up now!

After all, it's not enough for one Deity to be powerful. No matter how powerful a Deity becomes, that Deity would never be able to take on a hundred thousand Deities alone.

Just People With Spiritual Bones

After hesitating for a long time, Dr. Erebus decided to tell Levi about it. "I have news for you, Mr. Garrison. The number of Deities in Xyperia has exceeded a hundred thousand, and this could just be a conservative estimate. The actual number of Deities there could be far greater than this, and they continue to grow stronger as we speak!"

He wanted Levi to prepare himself as a hundred thousand Deities was quite a force to be reckoned with.

Levi, who was focused on studying the heavenly lock, didn't even look up when he replied, "A hundred thousand, huh? Let me know when they've reached a million Deities."

"Oh, okay!"

Dr. Erebus left after saying that.

I can't tell if Levi already knew about it, if he simply didn't give a d*mn, or if he was so busy that he wasn't even paying attention to what I told him. Regardless, there's nothing I can do about it.

Idrae was creating an army of Deities to launch an all-out attack on their enemies, including Levi and his group.

They were still actively searching for Levi's whereabouts and would definitely attack if they managed to find him.

The latest member of Hydron was Agent 187380, which showed just how many people they had in the organization.

The five members that invited Levi into Hydron were Agent 23, Agent 29, Agent 32, Agent 33, and Agent 45.

They were among the first batch of people that joined the organization, and they had forgotten their grudge with Idrae after so long.

All they cared about was how they could make Hydron as strong as the forces of the powerful countries.

The five of them spent every single day gathering resources which they used to strengthen themselves.

Through the use of advanced technology and the resources they gathered, they were able to modify their bodies and become Deities.

Satisfied with the power and authority they had received as a result, they didn't really focus on Idrae.

Surrounded By Five Thousand Deities

In just a short amount of time, Hydron had become so powerful that it was on par with the top countries in the world.

With the seven of them in complete control, they believed that the organization could develop very well as long as they didn't provoke Idrae.

Little did they know, Idrae would take the fight to them instead.

"Let's raise a toast to the great success of our organization!"

The seven decision-makers and their descendants all raised their glasses as they celebrated their success.

Xyperia having a hundred thousand Deities only provided them with a reason to strengthen and expand Hydron.

That way, they no longer had to do it secretly behind the backs of the more extreme members who only wanted revenge on Idrae.

“Tsk tsk... I never knew we had so many enemies!”

“An organization with over a hundred and eighty thousand people, huh? They sure are bold for planning
to get their revenge on us like this! I bet a majority of them doesn’t have the guts to go through with it
now!”

“Even if they did, what could they possibly do to us? There’s no way they’ll be able to get their
revenge!”

The leaders of Idrae were laughing as they stood on the deck.

Titanius, the second leader of Idrae, said all of a sudden, “Levi is the only person who has killed our
people ever since Idrae was formed...”

The energy in the air changed immediately after those words had left his mouth, and the smiles on their
faces were instantly replaced by rage and murderous intent.

The last time they tried to trick Levi, he set them up and killed three of their leaders along with many
other members.

To an organization like Idrae, they couldn’t afford to lose even a single member.

As such, losing that many members and three leaders came as a huge form of humiliation to them.

Chapter 3097

The Aura From Five Thousand Deities

None of them had expected Idrae to come looking for them, especially since they didn’t go seeking revenge on Idrae.

Because they didn’t expect this to happen, they were completely caught off guard when Idrae attacked.

Ironically, the members of Hydron had gathered in one place in preparation for their revenge against Idrae but ended up exposing their location as a result.

It wouldn’t be an overstatement to say that they had presented Idrae with a perfect opportunity to take them all out in one fell swoop.

They knew Idrae had been active the whole time, but they assumed it was about preventing Levi from treating his daughter.

By the time they found out that Idrae had been preparing to kill its enemies, it was far too late.

For Hydron, having over seven hundred Deities was considered amazing progress.

As such, they were completely helpless when Idrae showed up at their doorstep with five thousand Deities.

To fight such an overwhelming force head-on would only result in a one-sided massacre.

Although they knew full well that they didn't stand a chance, the revenge-seeking members of Hydron decided to try and fight anyway.

Right before the battle started, the seven decision-makers shouted, "Wait!"

"Hmm? What's wrong? What is it?"

The leaders of Idrae looked at them in confusion.

“Can we try talking things out? The seven of us here are the founders and decision-makers of Hydron. We would like to engage in a negotiation!” said Agent 1.

“Oh? A negotiation?”

The leaders of Idrae paused in surprise as they had not expected such a turn of events.

Even the revenge-seeking members of Hydron were caught off guard and stared blankly at them in confusion.

What the hell are they doing?

“What do you intend on negotiating for? Didn’t you all want to get your revenge on us? Wasn’t this little organization of yours founded solely for that purpose?” Oedipus asked.

The seven decision-makers flashed him a smile in response. “No! That was initially the case, but we eventually gave up on that as time passed. Besides, we don’t even have what it takes to seek revenge on you guys!”

The seven decision-makers nodded in unison. “That’s right! We did everything in our power to stop Levi from curing Forlevia of her poisoning! We were also present at the magical medicine auction to stop him from getting the magical medicine!”

“I see... So, it was you guys, after all! I was wondering who did that! Man, you guys sure are an evil bunch! I can’t believe you guys went that far just to stop him from treating his daughter!” Titanius exclaimed with a smile.

“That’s right! We’ve always been trying to get at Levi! In fact, we recently planned on getting more resources out of him!” one of the seven decision-makers said.

The leaders of Idrae chuckled. “Hahaha! That’s good to hear! We don’t mind negotiating with you guys if you are all against Levi!”

They were originally planning on killing every member of Hydron no matter what they said or offered, but hearing that they had been targeting Levi made them change their minds.

Regardless of why those decision-makers were after Levi, the leaders of Idrae saw them as allies due to their common enemy.

The members of Hydron, too, did not expect the leaders of Idrae to soften up after hearing what they said about Levi.

Chapter 3100 Kneel Before The Enemy

Everyone readily accepted the suggestion; just the thought of it made them giddy with glee.

It would be exhilarating to see their enemy—who hated them to the core—kneel on the ground, kowtow, and swear that they would not seek revenge.

"About that..."

The expressions of every Hydron member darkened instantly upon hearing Idrae's proposal.

This is blatant humiliation! They are trampling our dignity underfoot!

Most importantly, Idrae was their sworn enemy.

Each Hydron member held a deep grudge for Idrae.

The act of bowing down in subservience to their insufferable enemy was simply unacceptable.

All seven decision-makers were between a rock and a hard place.

Their families had died at the hands of Idrae, so it was impossible to remain unruffled by the audacious request.

Kowtowing would be preposterous.

Their confidence began to waver.

The five people who had invited Levi to join Hydron were particularly hesitant.

Flashbacks of when they had ridiculed Levi for being a coward ran through their minds. They recalled how they had accused Levi of being a bad father and a sorry excuse of a man because he refused to seek revenge.
