Chapter 3101 Last Shred Of Hope

Idrae was dying from laughter.

In Idrae's eyes, the crowd was a pathetic mess.

After the decision-makers had knelt down, Idrae demanded, "Kowtow!"

Thud, thud, thud.

The people obeyed immediately and touched their heads to the ground.

The dull thud of their foreheads coming in contact with hard soil reverberated through the island.

"I swear to abandon any thought of revenge against Idrae! Should I break this vow, I will be struck by lightning!"

"I swear to comply with Idrae's commands like I obey my parents. I will not go against them!"

Everyone declared their vows as they bowed.

The last of their self-esteem was crushed.

"Hahaha..."

"What a joke! Look, I've murdered their parents and loved ones, yet instead of retaliating, they're bowing to us and swearing that they'll never seek revenge!"

The leaders of Idrae guffawed.

Turning to Xyperia for protection was the right choice! We no longer have to live in the shadows, cowering and hiding from others. What a luxury it is to live like this—even our enemies don't dare to touch us!

Chapter 3102 Cannot Even Compare To Levi

With only five thousand Deities, they would already be unparalleled in the world. Now, they had ten thousand Deities.

It was impossible for Levi to kill them.

Revenge? What a ridiculous joke!

"Forget it! Levi has already gone into hiding such that we can't find him. We came out to settle the score with him, but we weren't able to trace his tracks yet. He has already gone into hiding, yet he still wants to take revenge!"

When Jeriah heard that, he shuddered.

That was his last hope!

However, the leaders of Idrae continued speaking. "To be honest, even though Hydron has a hundred and eighty thousand people, you're still nothing but trash! You're just like a bunch of dumb pigs raised in a pigsty."

Although the others were furious upon hearing those insults, they were helpless to do anything.

“All of you cannot even defeat Levi alone. At the very least, Levi took revenge by killing three of our leaders and a dozen of our members.”

Levi

Chapter 3103

He Can Kill Whenever He Wants

No one would have thought that such a massive organization, which started off opposing Idrae, ended up forcefully changing its target to Levi.

They eventually gave in to their enemies.

After hesitating for a while, Dr. Erebus informed Levi about that.

Levi’s research on the heavenly lock had already reached a critical stage, so he yelled impatiently, “Make it quick!”

“Mr. Garrison, there’s a golden opportunity! The six leaders and important people of Idrae have just left Xyperia with only five hundred Deities. This is your best opportunity! It won’t arise again in the future.”

Dr. Erebus looked anxious.

Five hundred Deities was probably the least number of Deities with Idrae.

Once they returned to Xyperia, they would be protected by ten thousand Deities, so this was the best time to kill them.

Hence, Dr. Erebus thought that he should inform Levi about it. Perhaps, they could deal with Idrae using this opportunity.

Chapter 3104

The Super Deity Plan

Although Idrae was leading Xyperia's plan to create more Deities, Xyperia had its own team in the Elterton Star doing that too.

They leveraged modern technology, witches, wizards, and many more.

All along, they had been collaborating with Idrae to create batches after batches of Deities for Xyperia.

Recently, the Elterton Star team discovered a shocking phenomenon—the spiritual bones of Deities and non-Deities were completely different.

Their research concluded that only those with superb spiritual bones could absorb more spiritual energy and harness them for purposes like strengthening their bodies.

Non-Deities did not have such spiritual bones. No matter how Idrae's and their plans turned out, it would not work.

The research also revealed that amongst Deities, they had different spiritual bones too.

On that foundation, spiritual bones could be considered good or bad.

Good spiritual bones were more efficient in harnessing the spiritual energy absorbed.

Chapter 3105

The Most Powerful Amongst Deities

As Levi was an outsider to the art of mechanisms, it was impossible for him to investigate thoroughly.

Furthermore, the art of mechanisms was very profound—without the help of a professional, he would have to spend years researching it in-depth.

Still, he was progressing extremely quickly by using the method of elimination.

He eliminated all possible methods one by one. After casting ten thousand solutions aside, there were only a hundred left.

Levi was certain that out of these hundred methods to unlock the heavenly lock, one of them could definitely open the secret lock box.

Within a month, he would definitely open the heavenly lock to the secret lock box.

Now, he was not as quick as before. In the past, he merely had a rough glance at the solutions before eliminating them.

However, for the next hundred solutions, he needed to be extremely precise and careful.

If he failed to unlock the heavenly lock, the box would self-destruct immediately.

He continued, “That’s why I said that we lost the perfect opportunity.”

“Yeah! Back then, Idrae only had five thousand Deities with them. That was the best timing!”

“It’ll be extremely difficult if we want to oppose Idrae in the future.”

“Not only do we have to face over ten thousand Deities, but we also have to confront those Super
Deities, who can defeat countless opponents single-handedly. It’s almost impossible to kill Idrae!”

Dr. Erebus nodded too.

It was not that he did not believe Levi—instead, what terrified him was how the opponents were
progressing so rapidly.

Although Levi could kill Deities, he might not be able to kill Super Deities.

Chapter 3107

Begging On Our Knees

Earlier, Dr. Erebus told him that Idrae had brought five thousand Deities to look for Hydron, but they ended up leaving.

Although no one knew what exactly happened, there was something suspicious if Idrae left with the Deities without killing anyone.

After all, Hydron's goal was to take revenge on Idrae. Considering how ruthless and cruel Idrae was, it was impossible that they would spare Hydron.

There was only one reason for that—Hydron had betrayed themselves and became Idrae's minions.

However, Levi wanted to meet them to see what they were after.

Perhaps, they were there to trick him of his resources. They tricked him secretly the previous time, but they might be doing it openly now.

After analyzing what their intentions were, Levi had a rough idea of what they wanted.

However, he still wanted to see what exactly they were planning to do.

An idea popped up in Levi's head. He instructed Dr. Erebus, "Erebus, prepare a batch of resources and bring them over. I'll wait for them to trick—no, to take them..."

a pile of hidden resources to

They all glanced at the pile of resources behind them.

"But Mr. Garrison, it doesn't matter whether you give us your resources. Since you've got so much to spare, can you please give us some? Our organization direly needs resources to take revenge on Idrae! We've lost too much..."

"Yeah! Help us, Mr. Garrison! We won't guilt trip you anymore!"

"Since we've been sabotaged so badly by Idrae, please help us! We really need resources to defeat Idrae."

Their acting was so realistic that everyone almost believed them.

In fact, Levi almost clapped for them. What a touching performance!

After a moment of hesitation, Levi said, "Since you're planning to take revenge on Idrae, I should help you."

Pointing at the pile of resources behind him, he offered, "A little won't be enough! Take all these resources away."

"Really?" asked the five of them anxiously, suppressing their delight.

Extreme Fool

They were overjoyed after tricking Levi.

To them, he was nothing but an unlucky fool. Even though they put up such a simple act, they still managed to get so many resources.

It was more than ten times the amount of resources they got the previous time!

That time, their organization would advance even further, with the numbers of Deities soon reaching a thousand.

The resources they got previously had already allowed them to advance so much.

With this batch of resources, they would rise to the peak.

When they returned to their new defensive base with the resources, a commotion immediately broke out.

Everyone was in disbelief.

Initially, they just wanted to try and see if they could trick Levi for resources. To their surprise, not only had they succeeded, but they also got their hands on such a huge pile of resources.

Chapter 3110

Opening The Heavenly Lock On The Secret Lock Box

For example, the force behind Zarain had improved the combat prowess of the Shield and various organizations in Zarain.

Zarain had lost its backer, but it was still on par with the top countries except for Xyperia.

Alas, they still hadn't found the culprit they've been looking for.

For example, the change of Erudia.

The Heavenly League had improved greatly, both in numbers and their combat prowess.

Azure Dragon and the four were now Deities and were improving greatly.

Of course, they needed a lot of resources. However, they got everything they needed as Levi was around.

The Heavenly League gave them priority so they could get the resources they needed.

Thus, Azure Dragon and the other four were now more powerful than Edmund, The Cardinal Hall General.

Edmund felt helpless, for he couldn't do anything about it.

After the five of them became Deities, they were able to improve at an extraordinary speed, for they had the best spiritual bones.

No one else could compare to them.
