Chapter 3111

Curing The Poison

Boom! The terrifying force of the medicine nearly swept Levi and Digital God off their feet.

It is simply horrifying! No wonder this magical medicine is comparable to the Ten Millenium Snow Lotus!

The magical medicine looked like dried-up ginseng, but they had never seen anything as powerful as it.

These days, Levi had seen a lot of magical herbs, but this was his first time seeing such a powerful one.

Indeed, a magical medicine would grow stronger over time.

If its environment was too good, it wouldn't be able to grow.

For example, the super-spiritual ley line had too much spiritual energy.

Thus, all living beings there went extinct.

No magical medicine could grow there.

A magical medicine needed a great environment with sufficient spiritual energy to grow well.

It would also have to absorb nature's essence over a long period and couldn't grow in just one day.

As the spiritual energy revival only happened a while ago, it wasn't enough to nurture a top magical medicine.

Time To Settle Scores

After all, they had poured their efforts into finding a cure for her.

She should acknowledge them for their efforts.

Her recovery was a result of everyone's joint effort.

"My friends, I, Levi Garrison, owe you one! I'll never forget the elder who gave us the ancient manual about the heavenly lock. He has my gratitude!" Levi announced and gave everyone a bow.

"No, the pleasure is ours." Everyone stopped him from doing so.

To them, Forlevia was their daughter or sister.

Hence, they were relieved to learn that Forlevia was now alive and well.

Dr. Erebus and the rest promptly lost their purpose.

Since the spiritual energy revival, they had been working hard to find a cure for Forlevia's poison.

Chapter 3113

The Ultimate Form Of Super Deities

The result got them excited, for the results were far more than they had expected.

They were about to begin with the creation of the third batch of Super Deities.

That time, their goal would be to create a Super Deity who could defeat one thousand ordinary Deities at once!

The number was low, but it would be a huge milestone for the Super Deity project.

It also signified the completion of the project, too.

After all, it was the best they could achieve within the Super Deity project.

They couldn’t create Super Deities who were stronger beyond that.

There was a limit to the upgrades they could do to a spiritual bone.

They also tried transplanting a powerful Deity’s spiritual bone to an ordinary Deity’s body, or to an ordinary human’s body.

However, that was a difficult task to achieve.

They had not succeeded as of yet.

Some high-rank officials who wanted spiritual bones for themselves were disappointed.

In Love

Back at the Heavenly League.

Previously, some members of the Heavenly League informed Black Sky Union and other forces of the location of Levi and his resources for their own selfish desires.

They also sent the rest from Heavenly League away to get the resources for themselves.

The Heavenly League was in Erudia, but that wouldn't affect Levi's decision.

He would punish those who deserved it.

Previously, he was busy finding a cure to Forlevia's poison, and now he had succeeded in curing her.

Thus, it was time to settle the scores with them.

Soon, Levi and his gang arrived at Heavenly League.

Heavenly League was now massive in size.

The numbers of Deities had increased along with their combat prowess.

Azure Dragon and the like were prime examples.

Next Target

Shortly after, Levi and his gang arrived at a training base outside Heavenly League.

“Why are Azure Dragon and the like given priority to Heavenly League’s resources? We could only use their leftovers! If we have access to the amazing resources, we could be as capable as them!”

“Those useless fools failed to get Levi’s resources. If we got one-tenth of Levi’s resources, Azure Dragon wouldn’t get to gloat now!”

“Ugh, useless fools indeed! I sent the Heavenly League members away deliberately, but they failed in their mission!”

“That doesn’t sound right. Levi’s men shouldn’t be able to defend themselves against Black Sky Union. What happened?”

Two men were chattering among themselves.

Suddenly, Levi’s voice rang out.

“You revealed everything yourselves!”

“What?” Malcom and Maxwell panicked at once.

They glanced around before noticing Levi and his gang striding over to them.

Levi guffawed. “Look, you shouldn’t have wasted your efforts to investigate the matter, for they had revealed the truth themselves!”

Malcom and Maxwell were the ones who

Chapter 3116

Keerea Keeping A Low Profile

From this moment onward, Levi would begin his revenge.
He would take revenge on everyone on the list!
Starting from Erudia, he would then head to the surrounding forces and countries to settle scores with
them.
He would never let those who swindled his resources from him away easily.
Malcom and Maxwell immediately picked up their broken arms and scuttled away.
They had to sew their arms back on as soon as possible.
Could they sew their arms back?
In the past, that feat wasn't manageable, for Levi had chopped their arms off with his palm.
Now, they had Chad.
They soon arrived before Chad with their broken arms.
Chad said, "The culprit merely chopped your arms off without destroying them on purpose. Otherwise, I
wouldn't be able to sew them back."

Curious, he asked, "Who was the one who did this to you?"

Garrison! He's kept his ability hidden well. In fact, he is as capable as a Deity! However,

"Oh, Levi. I see."

Chapter 3117

The Entire Universe Is Yours

As they kept a low profile, no one realized what they were doing.

With their current combat prowess, they had proven one thing—Deities and technology were a perfect match.

The resources they got from Levi were a great help.

Besides plagiarizing many technologies, they also plagiarized Erudia's Heavenly League.

They gathered all their Deities to form a new organization—the Heavenly Clan!

The name meant that they were descendants of heavenly beings.

As they were used to plagiarism, that was the least of it.

They even claimed that Erudians were descendants of Keereans.

Thus, they previously came up with a plan to split Erudia up so Erudia could return to Keerea.

Alas, their plan failed.

Since the spiritual energy revival, Keerea kept claiming that Erudians were their descendants.

History Of Keerea

Levi shook his head, "You claim everything to be your property including myself. However, I did not give a d*mn because you're all shameless!"

"Levi, do you have a death wish?"

The Deities of Keerea was infuriated.

"I came here to settle scores!" Levi ignored them and continued to speak.

"Huh? What are you talking about?" Sammy asked.

Levi smiled. "A while ago, I offered a bounty to the world for those who could offer help to cure my daughter's poison!"

As soon as they heard Levi, the expressions on Sammy and the Deities changed abruptly.

"At that time, many people and forces around the world accepted the bounty! A part of them was genuine! However, a larger part of them only came to trick me! During that time, many of my resources were swindled by those while I wasn't paying attention."

The Deities of Keerea began to feel uncomfortable.

And their reactions alone were enough to prove it.

his expression was as cold as ice. He said solemnly, "But how could I just let my resources be taken away so easily? After that, my men made a list

seemed to want to say something, but Levi continued before she could speak. “Don’t give me excuses like how they have nothing to do with you, or you don’t know these up, but Sammy admitted to the claims at once. “Yes. We did it! The names and the amount on at Levi with he was saying, Yes, I lied. What noticing Sammy’s attitude toward Levi, the other members of the Heavenly Clan stared at Levi We lied. So what? What can you can settle the score with us? Do you actually think Keerea is in such a pathetic state, with only more than show you the real power of another, all the Deities came were one hundred there were all together one thousand and four hundred Deities

Chapter 3119

Everyone Else Has To Die

They enjoyed the look on everyone’s shocked faces.

After all, everyone’s impression of Keerea was still at the time when half of their Deities were annihilated by a mysterious elite from Erudia back then.

Now that they have more than a thousand Deities, they could rival the combat prowess of more than three thousand ordinary Deities.

No one would have been able to imagine it.

“I’m sorry, but we’re stronger than any ordinary Deities out there! Can you see the gears on my body? It increases my combat prowess by a half!”

The Deities of Keerea began to show off their equipment.

Their top-quality equipment was even more terrifying.

For example, Sammy was already a mighty Deity. With the addition of her equipment, she could single-handedly take on two or three hundred Deities.

Her equipment was considered the final product of the Super Deity of Xyperia.

The technology they copied from Xyperia was terrifyingly advanced.

With their highly advanced equipment, they were full of confidence.

Chapter 3120

Levi And His Power

Levi's few simple words swept across their minds like a storm.

Dr. Erebus and the others looked at each other.

At that moment, they knew that they had guessed wrongly.

Instead of handling them like how he dealt with Malcom and Maxwell, he was basically planning to kill them all.

All of them were taken aback.

However, the most shocked ones were Sammy and the people of Keerea.

They didn't expect Levi to utter those words casually.

To them, Levi should have surrendered and told them the secret of the resources after looking at Keerea's trump card.

Surprisingly, Levi remained persistent and wanted to settle the score by killing everyone.

The situation was shocking!

It was beyond everyone's belief.

It took a full minute for the people of Keerea to return to their senses.

However, Sammy indeed had changed.

everything Levi said. "I know you're powerful, and the others don't know your true strength! You're indeed strong! There are no ordinary Deities that could fight you! You even killed half of the Deities in
