Chapter 3121

Consequences

Time seemed to be moving slow when the destruction happened.

But in reality, everything happened in a split second.

In Dr. Erebus's point of view, more than a thousand Deities and the huge Heavenly Base disappeared right after Levi's stomp.

It was so fast that their eyes couldn't catch what happened.

By the time they realized what had happened, everything was already gone.

Did more than a thousand gods and the large base disappeared just like that?

All done in by one stomp?

The entire area had been razed to the ground, and those alive were stunned.

Even Dr. Erebus and the others, who had always followed Levi around, were also stunned.

In the past, Levi would use his sword to kill.

It might be astonishing to others, but Dr. Erebus and the others had seen him do it many times and were used to it.

However, Levi blew their minds after what they witnessed that day.

The Mightier The Better

When night fell, Levi and the others proceeded with their so-called comprehensive elimination plan.

They continued to strike against the targeted forces in full swing to eradicate them as planned.

The targeted ones only had themselves to blame for deceiving Levi previously. It was time for them to have a taste of their own medicine. Levi vowed to eradicate them relentlessly for their dishonest deeds. Thus, he did not stop massacring the targeted forces with the others.

Even the Heavenly Clan of Keerea could not sustain Levi's massive stomp, let alone the others. They were no match for Levi's formidability.

Even if Levi did not initiate any strike, the others from his team, too, could effortlessly eradicate the targeted forces.

Born To Be Stubborn

Soon, Levi and the others eliminated the few lackeys from Xyperia who were utterly incomparable to them.

The last force targeted by them was known as Dark Sentinel, a mega force in Elterton Union. They were deemed heroes protecting the darkness and were used to be the organization with the most powerful combat prowess during the ancient times of Xyperia. Therefore, they had been shielding the nation against any threats throughout the years.

Due to certain reasons, they pulled out of Xyperia sometime later. Nevertheless, there were a lot of elites in Dark Sentinel. Hence, they were still the conqueror in the region of Elterton. Besides, they were considered an independent organization in the region of Xyperia.

Other than them, there were many other similar superpower organizations in Xyperia. All of them were independent organizations and never crossed paths with each other.

Nonetheless, all of them joined the Elterton Union after the spiritual energy revival and had been under Xyperia’s control since then.

Dark Sentinel Is Wiped Out

The members of Dark Sentinel were still laughing their heads off and did not sense anything awry.

In the meantime, Levi had started making a move.

Boom!

In the next second, an earth-shattering force rolled over like the utterly fiery heat from the sun.

In the blink of an eye, Levi annihilated everyone from the Dark Sentinel with an invincible slap. It was as though they vanished into thin air right after they were thrown toward the sun and burnt to ashes within seconds.

Dr. Erebus and the others did not even bat an eyelid. After all, they had seen with their own eyes how the most horrendous Heavenly Clan was eradicated. Thus, it was nothing to them when the Dark Sentinel was eliminated within seconds.

"Hmph! That's how lackeys would end!" Levi commented indifferently.

They Plan To Set Levi Up

Not only that, Levi added another term after a while. If Xyperia did not manage to hand over Idrae within a week, he would take them down together with Idrae.

In an instant, everyone in Xyperia got all fired up. Has Levi Garrison gone nuts? He must be shooting himself in the foot by provoking us!

Nonetheless, Titan Lord and the other high-rank officials only smiled nonchalantly. The self-proclaimed formidable officials were convinced that they possessed the most unrivaled combat prowess.

Thus, there was no point for them in getting rid of Levi themselves as they believed that the latter was incomparable to them.

They snorted at Levi's provocation and did not even see the need to step out of Xyperia to finish him off. Ha! Why bother to waste our time and energy on such a small fry like him! We're Super Deities mightier than Deities! There's no need to be troubled by a civilian!

They even issued a warning to Xyperia and demanded that they either hand Idrae over or have Idrae surrender themselves.

In order to complete the act, they threatened to launch an attack with all of their members and exterminate Idrae completely.

Everyone saw Levi's warning as a foolish joke from a madman, but Hydron's warning had the entire world in an uproar.

They never expected anyone to side with Levi at all, let alone an organization like Hydron.

Zoey and the others came rushing over before Hydron did.

They were all shocked after finding out about Levi's warning against Xyperia.

Has Levi lost his mind? Or is he unable to cure Evie's poisoning? I'm worried about Forlevia just as much as Levi is! There wasn't much I could do to help treat Evie back then, but things have changed after Heavenly League became more powerful. On top of that, I've also contacted the Ecclesiastic Order and asked them to help cure Evie. Heck, I even went as far as finding out where the second volume of the Poison Handbook was!

Unfortunately, I will have to pay a huge price in order to get it. Although I'm still in the process of negotiating for it, there is hope of me getting my hands on it! If I can get my hands on the second volume of the Poison Handbook, I'll surely be able to cure Evie of her poisoning! So, why would Levi pull such an insane stunt now? Could it be that something has happened to Evie? What could possibly have driven Levi to do something so crazy? Because Evie is with him most of the time, I don't know anything about her condition...

"What the hell are you doing, Levi? Have you lost your mind? Why would you threaten Xyperia when they're so powerful now? Also, how is Evie? Did something happen to her?" Zoey asked anxiously.

"Mommy..."

While it didn't need spiritual bones to absorb spiritual energy, having spiritual bones would certainly make the absorption process easier when using the Art of Consumption.

If spiritual bones determined the maximum amount of spiritual energy a person could absorb, then the Art of Consumption determined the minimum amount.

Given how frighteningly talented Forlevia was, it only made sense that her spiritual bones were of amazing quality.

As Heavenly League had dealt with the Ecclesiastic Order a lot lately, they learned some basic knowledge on determining the quality of spiritual bones.

"Not only does Evie's capabilities surpass that of Azure Dragon and the others, but her spiritual bone should also be of high quality like theirs!"

"I bet they'd immediately let her into Heavenly League if they knew about this!"

Agent 23 and the four other agents stepped forward and knelt down in front of Levi before apologizing in unison, “We’re sorry, Mr. Garrison! We shouldn’t have called you a coward! Please forgive us!”

Wow... These guys sure have decent acting skills, I’ll give them that! I can’t believe they’d even apologize to me!
