### Chapter 3131

#### Lying To Family

He fell for it! Levi has completely fallen for our lies! This is probably the biggest lie Levi has ever fallen for! He's actually going to tell us every single one of his secrets! At this rate, he'll be left with nothing at all!

The members of Hydron thought to themselves happily.

They could barely wait to bring all of Levi's resources back and celebrate their success with Idrae and Xyperia.

"So, you guys will be in charge of reaching out to the other countries while I provide you guys with the resources! You know what, I'll provide the rest of the world with the resources they need!" Levi said excitedly.

His acting skills had such a great effect on those members of Hydron that they all believed him readily.

Agent 5 replied happily, "Sure, leave it to us! With us doing the networking and you providing the resources, I'm sure we'll be able to get the revenge we desire!"

Agent 7 asked, "By the way, how is your daughter, Mr. Garrison? We've been really concerned happened to the other half of the poison? I heard a group of people stirred up trouble at

### Chapter 3132

## They Were Too Confident

Everyone was dumbfounded when they heard Levi say he needed four to five days to gather the resources.

Four to five days? Just how many resources is he going to gather? A hundred times more than what we saw last time? This is insane! Levi must really be going all-out if he's willing to offer everything up like this! Looks like we won't have to worry about him lying to us, then. We might end up seeming suspicious if we get too pushy about it!

With that in mind, the members of Hydron said excitedly, "All right, Mr. Garrison. We'll head back to deliver the good news to our comrades and contact the other countries! You just focus on gathering those resources, okay? Let us know if you ever need anything, and we'll be sure to help you out! We're really skilled when it comes to stuff like mining and transporting resources!"

Levi pointed at Troy and the others behind him and said, "Oh, these guys will suffice!"

Ha! Levi really just revealed his trump card to us! D\*mn, he's got quite a lot of powerful fighters by his side! Little does he know, he has just revealed every bit of his information to us! He must really trust us from the bottom of his heart if he's showing everything to us like this!

## Chapter 3133

The Lackeys Of The Ecclesiastic Order

They would have to get approval from Idrae and Xyperia!

Their immense praises were a gift to them.

The fact that Idrae had spared them was their biggest reward.

Furthermore, they had given them the resources that they had obtained through deceit.

Of course, they were excited.

Not only were they alive, but they could become stronger.

They even shared the details of how they had cheated Levi with the people of Idrae and Xyperia.

That made the other party very pleased.

In order to play along with them, Xyperia announced to the world once again that they would ignore Levi's warning and take the entire organization of Hydron down.

That only served to prove that Hydron was on the same side as Levi.

Nobody, including Levi, would suspect they were lying to him.

They had to be well-coordinated in order to enjoy the process of cheating Levi.

Same Level

One day, the Ecclesiastic Order decided to look for Levi.

That made him very suspicious.

What do they want with me?

They came knocking on his door the moment they arrived, and there was no attempt in trying to conceal their overwhelmingly powerful auras.

Troy and the others struggled to breathe and nearly suffocated.

It was the same for Dr. Erebus. They could feel infinite pressure.

Everyone around Levi was more powerful than the average Deity, but they still succumbed to the immense pressure.

If it was other Deities, they would have been goners and unable to fight back.

Levi reckoned that the capabilities of the four of them were comparable to that of Cyrus.

Cyrus was so powerful because he had mastered Levi's technique and received spiritual energy.

The Worst Spiritual Bone

"Um..." Magnus and the other two men hesitated.

Sonja took a step forward and said boldly, "Let me say it. Crown King, we will like to know more about you and the spiritual bones around you. During this period, I'm sure all of you have heard about spiritual bones?"

The Ecclesiastic Order was only a code name.

There were several factions within that organization.

North Pavilion was one of them.

Now, they had a mission to accomplish.

They were tasked to dig out the most perfect spiritual bones and bring them back.

The other factions in the Ecclesiastic Order had already started. The Deities at the Heavenly League were their first targets.

Their spiritual bones had been stripped clean by the other factions.

More people were eyeing the top-notch spiritual bones of Azure Dragon and his peers.

The four were slightly weaker than the other factions and were no match for them.

They had to think of other options.

That was when Sonja thought of Levi.

She knew that there were a lot of people around Levi, and so they came to him.

Sonja was equally shocked.

**Chapter 3136**

Where Is This From

Frankly, it was not that terrible.

It was mostly strange.

Levi had a spiritual bone as well.

However, the one he had was unlike the one the Ecclesiastic Order wanted.

In other words, it was not the mainstream kind.

To put it simply, the spiritual bone they wanted—the mainstream one—was one that was curved.

The one Levi had was straight.

They were not the same.

Therefore, one could assume that Levi's spiritual bone was the lousiest, for it was not the same as the one they wanted. In fact, it was the complete opposite of theirs.

That was why Levi was powerful.

His spiritual bone was more suited for pure physique training.

However, his spiritual bone would not be suitable for spiritual energy.

In other words, Levi would be the one to receive the least benefits after the spiritual energy revival.

What she did not know was that the current spiritual energy was the spiritual energy transformed by Levi's body.

Naturally, she would not be able to absorb any.

#### **Tooting His Own Horn**

Levi then chuckled and said, “This is something my daughter came up with on her own. She utilizes nature’s elements and converts them for her own use.”

Levi had a proud look on his face as he explained the situation to them.

Back then, he had been worried.

However, Forlevia had actually managed to make a path for herself.

As a father, he would naturally be proud of her.

Upon hearing Levi’s words, Sonja and the other three were amazed, and their incredulity was obvious in their eyes.

Utilizing nature’s elements and converting them for her own use? Isn’t that the core of the Art of Consumption? After all, the Art of Consumption’s focus is to consume and convert nature’s elements.

To be precise, there would be elements such as fire and ice.

Spiritual bones were divided into respective elements as well.

The art was even particularly potent when it came to absorbing spiritual energy.

That was why Forlevia had easily absorbed all of Levi's resources.

If Forlevia were to stop restricting herself, she would make bigger progress than those Deities.

## Chapter 3138

### Take Good Care Of Her

His question nearly threw everyone into a fit.

Isn't he tooting his own horn? Not only is your daughter's spiritual bone good, but it's perfect! As a matter of fact, this is the best spiritual bone we've ever seen.

If the members of the Ecclesiastic Order were to come across her spiritual bone, they would be eagerly trying to take it out of her to claim it as their own.

Sonja gave Levi a smile in return. "That's rather funny, Crown King. Forlevia is truly talented, and these words are coming from a person of the Ecclesiastic Order."

Magnus even chimed in to say, "Crown King, you have to take good care of her. If others find out about a fine spiritual bone like hers, many will be coming after her."

Levi froze for a second before asking, "What do you mean? Do you mean that someone will be interested in her spiritual bone and will try to take her in as their student?"

Magnus and others burst out laughing. "Things would be fine if it was that simple. You wouldn't need to worry if that was the case. However, the thing is that a spiritual bone can be transplanted."

"A spiritual bone can be transplanted?" Levi paled.

Magnus nodded in confirmation. "For example, since your spiritual bone isn't that good, you can dig out someone else's spiritual bone and transplant it on yourself. That way, the good spiritual bone will become yours. However, it's a cruel technique that we think is shameful and despicable to use. Moreover, almost no one ever does this. Nevertheless, it doesn't mean that no one will do it. The lack of cases might be because no one ever encountered one that tempts them enough to do it. If they really do come across a spectacular one, I'm sure many would be enticed to commit the evil deed. The Ecclesiastic Order, especially, would be one of them. There are some extremists in the Ecclesiastic Order that would certainly be capable of doing something like this."

## **Chapter 3139**

Where Is The Ecclesiastic Order

Staring at them, Levi asked, "I've sent my men to look for you, but somehow, I can't find any traces of you at all. Where are you hiding?"

That was something Levi wanted to know since forever.

He knew that the Ecclesiastic Order was at Erudia, but he could not pinpoint where they were exactly.

Troy and the others wanted to know the answer to that question even more badly than Levi.

Back when they just started the search, they could not even find a trace of the Ecclesiastic Order's location at all.

Later on, they managed to scavenge a little clue about their location.

Still, they could not figure out where it was located exactly.

It was as if the Ecclesiastic Order was a ghost.

As a matter of fact, they tried to track down a few members of the Ecclesiastic Order before, but those members had managed to slip away from right under their noses when they reached the deeper parts of the mountain.

Troy and the others had clearly seen those members enter the cave, but when they went in, the members had disappeared without a trace.

It was as if those members had stepped into a portal and gone into a different world.

The investigation had left them completely bewildered.

Are They Related

Levi’s mentor.

All along, Levi’s mentor had been a mystery to Levi.

Even now, Levi had no idea what kind of person his mentor was.

However, his mentor always appeared in the nick of the time to help him out.

That was what happened during the spiritual energy revival.

He was about to die at South Pole's super-spiritual ley line's explosion, but someone had saved him.

Without a doubt, his savior must have been his mentor.

His mentor was essentially omnipotent.

Now, Levi was beginning to wonder if his mentor had been from the Ecclesiastic Order.

Hence, he asked, "How powerful is the most powerful person in the Ecclesiastic Order?"

Levi wanted to find out if the most powerful person in the Ecclesiastic Order was his mentor.

If Sonja and the others could give him an answer, he might be able to decipher his mentor's identity.

"This..."

question stumped Sonja
