Chapter 3231 Death Awaits

Levi didn't know the Art of Consumption nor the magical techniques of the Esoteric Guild.

Just by relying on his raw senses alone, he was able to detect the flow of energy and aura over an extremely expansive area.

It was as if the Erudia's entire topography was within his grasp.

At that moment, Levi's entire body emitted a radiant glow, as if he had descended from the heavens.

"I found them!"

Rays of light began shooting out of his eyes when he finally sensed his target's aura.

Their aura was so strong that he believed he had located their headquarters, which wasn't far from the Heavenly Base.

Also, it wasn't among the different factions of Ecclesiastic Order, for he knew that those same factions were also searching for Azure Dragon.

They wouldn't have been able to hide it from him if they were the ones who succeeded.

By extension, Azure Dragon and his gang would have been hidden someplace else.

Consequently, Sonja and her companions were stunned.

How did he do it?

Evidently, Levi was a lot stronger than they had imagined.

At that instant, they finally realized Levi was right and their own incompetence.
There was no way they could ever be capable of dealing with a problem independently, for the Heavenly League was the limits of their strength.
Beyond that, they were not even worth a mention.
By the time they realized the truth, it was already too late.
Only then did they learn that the faction from Ecclesiastic Order was targeting them for their spiritual bones.
It also dawned upon them that Levi was right all along. His plan was designed to prevent something like that from happening.
Consequently, they were filled with remorse.
Their disobedience to Levi was about to exact a heavy toll on them.
At that same time, they found out how precious their spiritual bones were and that the members of Ecclesiastic Order were only befriending them for their bones.
The only thing holding them back from taking action was that transplanting a spiritual bone was an extremely complicated process especially when it came to amalgamating five of them together. In fact, it was almost considered impossible.

Chapter 3233 Ignoring Their Fate

As their brains began to shut down, their consciousness gradually drifted away.
With nothing left in their vision other than a blur, their eyelids were so heavy that they could no longer
hold them up.
Having their spiritual bone dug out of them was the equivalent of having their life force extracted.
It was as if the source of their lives had been removed by someone else.
As a result, death wasn't far.
While the Bonemasters were busy nearby, Azure Dragon and his companions were left abandoned after
having served their purpose.

As time went on, the Bonemasters successfully amalgamated the five elemental spiritual bones together, which was a crucial step in the process.

Subsequently, all that was left to do was transplant it into the young man.

In essence, the operation was on the brink of success.

"This is the place!"

Not long afterwards, Levi arrived with his men.

They could feel the aura of those people here.

Even Sonja and her friends could feel it.

However, the place was empty.

It was deserted not long ago.

This was not good! Everything was too late!

They had arrived too late!

“Boom!”

Levi felt as if his mind was about to explode.

The others felt the same. It was a bolt out of the blue!

Something had really gone wrong this time.

Sonja and her group looked troubled as they followed behind, climbing up to the top of the mountain.

Soon, they saw Azure Dragon and the other four on the bed of stone. They were covered in blood and all five were lifeless.

“I...”

Levi rushed forward, his whole body emanating a powerful aura of hostility.

“We are late! Their spiritual bones have been removed!” Sonja uttered in dismay.

Sonja and the others said, "It is futile! The only way is by using magical medicine to force life back into them."

What they meant was Levi had to accept it because it was irreversible.

Ranting repeatedly would not help the situation.

Instead, it would only drive him crazy.

When he heard these, a ray of hope flashed in Levi's eyes.

Immediately, he took out the remaining half of the magical medicine which was used to treat Forlevia.

At that time, if all of the magical medicine had been used on Forlevia, the power would have blown up her body.

After all, the medicine was too powerful for her frail body to put up with it all.

Hence, there was a lot of left over.

Who would have thought that it would come in handy now?

Sonja and the others were stunned.

What did I just say?

Levi really did have some magical medicine!

What a pleasant surprise!

Without hesitation, Levi divided the remaining medicine into five portions and gave each to the five victims.

Then he poured out his own energy into them to guide the powerful medicine throughout their bodies.

“That’s right. We won’t do it! We will not do something so wicked!”

“Why should we get someone else to bear our suffering?”

The five went on protesting.

Sonja and her three friends were taken aback.

They began to understand why Levi cared so much about them and why they respected him so much in return.

Why is it that this group seems to shine like a light in the darkness? Why would they give up their lives for one another? Perhaps the answer was none other than that they are all worthy to be treated as such!

They were perfect in many ways, from character to charisma.

To them, power and other things were not important.

People like them were rare in the Ecclesiastic Order.

Or perhaps not just rare, but non-existent really.

There, it was an environment of survival of the fittest.

Chapter 3237 The Perpetrator Must Not Be Revealed

The transplanting of the spiritual bone was extremely cruel.

It was inhuman.

Black Tortoise must have gone through a lot of pain to be in this condition.

Such cruel method could destroy a soul.

Animals! Why must they remove the spiritual bone from others? Don't they have their own?

Levi's heart was in excruciating pain.

He did not dare imagine what pain his buddies had gone through.

Clack! Clack!

Levi clenched his fists and his knuckles crackled.

The whole ground seemed to crack open.

Furthermore, the place was originally the mouth of a volcano and underneath was smoldering lava.

At this moment, Levi's fury had caused an abnormality. The magma started to simmer.

The dormant volcano was about to erupt.

When Levi got angry, the whole landscape trembled.

They were all terrified of him, and it was because they could not say it.

They must not say it.

If they were to say it, they would be doomed.

Not only would the four of them die, but North Pavilion might even be affected.. Every one of North Pavilion would definitely die.

Not a single soul there would be left alive.

Moreover, they would all die horrible death.

There was no way they were going to be let off easy for their deaths.

That was what was going to happen to them if they told others about it and were found out.

Even if North Pavilion was considered one of the major factions in Ecclesiastic Order, they were still going to be murdered.

That was how powerful those people were.

As a matter of fact, not only were they strong, but they were also merciless.

Hence, fear kept crashing against them like tidal waves.

They were a being that the factions of Ecclesiastic Order feared and did not dare to even mention anything.

Chapter 3239 Looking For The Bonemasters

Levi's dark expression relaxed a little.

That made Sonja and the others hastily nod in response. "Yes, that's right."

"So you don't know who's the one behind this?" Levi continued asking.

"That's right. We might know who the Bonemasters are, but we don't know who the mastermind is. Moreover, they're much stronger than us! How they've escaped before we got there is a sign of that!" Sonja and the others warily pointed out.

A dangerous glint flashed past Levi's eyes. "All right. We'll capture all of Ecclesiastic Order's Bonemasters first. I'll personally interrogate the Bonemasters. I refuse to believe that I won't be able to find out who's behind this. List out all the Bonemasters. I won't be asking you to look for them yourselves; I'll be doing that myself. I'll owe you a favor for this. Hurry now!"

Sonja and the others quickly replied, "Okay, but getting a complete list of the Bonemasters won't be that easy. We need to do some searching as well, and we'll have to ask for help from some of North Pavilion's elders. Therefore, Crown King, we'll need you to wait for a while."

"Okay, it's fine. I'll be waiting."

Once Sonja and the others left the area, they let out sighs of relief.

Chapter 3240 Controlling Floyd

To him, Gloria did not seem like someone from Ecclesiastic Order.

Instead, he saw Gloria as one of his own people.

However, he did not tell Levi about Gloria's matter.

What he was going to do next was to search for some magical herbs to help them recover.

To look for Gloria for the list of Bonemasters, Floyd went to the Heavenly Base.

Right then, he spotted a few Heavenly Guard gathered together, seemingly gossiping away.

He then halted in his tracks, wanting to hear what they were talking about.

“Did you hear about this? Azure Dragon and the others’ spiritual bones had been removed!”

“I heard about that! I even know that Crown King originally hid Azure Dragon and the others away, but Floyd used a secret way of communication to get them out of their hiding. He ended up screwing them over!”

“That’s right. I heard that some witch has bewitched Floyd. He ended up hurting his own friends. Poor Azure Dragon and his gang!”

“Now the entire Heavenly League knows that Floyd was the one who hurt his own people! After all, how can you possibly out manipulate the pride and joy of Ecclesiastic Order?”

Hearing that, Floyd turned furious.

He had the urge to walk over to them to punch them, but he managed to hold himself back.

Initially, Levi had managed to console him into a better mood.
