Chapter 3261 Do You Come From A Long Line Of Thugs

Levi could not believe how shameless the Ecclesiastic Order was. Do these people even have any honor at all? Do they think they can just go around accusing people like that?

Had Levi gotten the God Crusher from somewhere or someone, he would have given the order the benefit of the doubt. However, the man crafted the sword himself, so there was no way the weapon belonged to the order. I created the God Crusher, yet they have the audacity to claim that it belonged to them and that I stole it? Unbelievable!

After witnessing how low the order was willing to stoop to claim the God Crusher, Levi was convinced that they would have gotten their way had they dealt with another person. Unfortunately, they just messed with the wrong guy! Even the Three Sages of North Pavilion were no match for me, yet these thugs think they can challenge me?

However, since Levi disliked bragging, he did not mention how he beat the Three Sages of the Ecclesiastic Order.

“Hahaha!” Instead of being angry, Levi laughed out loud, which utterly baffled the order.

“What the heck are you laughing at, Levi?”

“Are you denying the fact you stole from us? It’d be foolish to do so because we have solid proof!”

“The Ancient Divine Sword is physical evidence, and we’re the witnesses. As we said, you’re caught red-handed, so I’m not sure what it is that you find so funny.”

"What do you mean you named it? What does this Ancient Divine Sword have to do with you? This sword has been around before your ancestors were even born!"

"You must've stolen this sword! Give it back to us, and we might just let you go this once!"

As everyone started yelling at Levi, someone realized they hadn't seen his daughter and asked, "By the way, where is your daughter? Hand her over too!"

Heh, let's see what these guys want from my daughter...

Amused by the thought of that, Levi asked with a smile, "What's wrong with my daughter? Why should I hand her over?"

"I'm surprised you have the audacity to ask us why! Are you not aware of what your daughter has done?" shouted the head of the Wolf God Palace angrily.

"Let me ask you this, Levi. Is your daughter's technique similar to the Art of Consumption from the Ecclesiastic Order?" someone in the crowd asked.

"What are you guys planning on doing with my daughter?" Levi asked deliberately.

"What else do you think? Your daughter has stolen the Art of Consumption which belongs to us, the Ecclesiastic Order! So, we will remove all traces of the Art of Consumption from her!"

Levi chuckled. "Oh, that's it? And here I thought you guys were after her spiritual bone!"

Everyone felt something was off when they heard that.

For some reason, they felt as if he was being sarcastic and making a mockery of them.

That was especially the case since they really were after Forlevia's spiritual bone.

Their plan was simple.

All they needed was to get Forlevia here and test what legendary class her spiritual bone belonged to.

It was no secret that Azure Dragon and the others had their elemental spiritual bones taken.

A wise elder once told them that Forlevia's spiritual bone was probably much better than those elemental spiritual bones.

It was as if a single command from Ghost Wolf was all it would take for the giant wolf to tear Levi to shreds and eat him up.

Everyone else in the background had confused looks on their faces as they watched on.

What is Levi trying to do this time? Is he going back on his word to hand the sword over?

Noticing that Ghost Wolf was glaring at him intensely like he wanted to devour him, Levi did the same as well.

"Give me the sword now! I won't say this again!" Ghost Wolf warned, and the giant wolf roared loudly behind him.

The sheer force of the soundwave alone was enough to crumble the buildings behind Levi, but he simply stood there staring back at Ghost Wolf without even flinching.

The next thing they knew, a loud metallic noise was heard as Levi unsheathed God Crusher with one hand.

The blade was shining as bright as the sun, affecting everyone's vision and consciousness in the area.

Everyone instinctively raised their hands to shield their eyes from the blinding light.

Levi killing someone all of a sudden was something the Ecclesiastic Order had not expected at all.
Not only did he kill one of their pet beasts, but he also killed Ghost Wolf in such a gruesome manner
before their eyes.

Ghost Wolf was the Wolf God Palace's most talented member and represented their future, so Levi
crushing his head beneath his heel was the ultimate form of humiliation for them all.

The head of the Wolf God Palace was trembling all over after losing his favorite disciple.

Compared to other major organizations within the Ecclesiastic Order, the Wolf God Palace was
considered mediocre at best.

It wasn't until Ghost Wolf came along that they finally found great hope in making their organization
strong.

As such, the Wolf God Palace did everything it could to nurture Ghost Wolf in hopes of someday gaining
a foothold in the Ecclesiastic Order.

However, all of that hope was lost along with Ghost Wolf's life when Levi took it.

Chapter 3266 Tea To Die For

The hundreds of members from all thirteen organizations within the Ecclesiastic Order began moving forward.

Although it may not seem like much, every single one of them was an incredibly powerful fighter.

Their strength was equal to thousands of Super Deities from Xyperia.

As they channeled the Art of Consumption, terrifying energy filled the air and leveled the entire Heavenly Base in an instant.

They were well aware of how powerful Levi was, especially with the Ancient Divine Sword in hand.

Ghost Wolf is considered an elite among us. Although it was a surprise attack from Levi that resulted in Ghost Wolf's defeat, it would still require a significant amount of power to pull that off so easily. That means, Levi must be a highly capable fighter himself!

Not wanting to risk underestimating Levi, they teamed up to fully utilize their superiority in numbers against him.

"Today, we shall teach your ignorant a*s that there will always be someone stronger than you!"

To the Ecclesiastic Order, Levi was just a naive and ignorant fool who thought he was invincible just because he won a couple of fights.

They believed that he was nothing compared to them, and that they were going to show Levi just how weak he was.

That droplet was fired at the speed of lightning and carried with it the power to tear through mountains.

It reached peak velocity and momentum from the moment it was fired, and everything around it seemed to be frozen in time.

The world felt like it had a grayscale filter over it, and every single member of the Ecclesiastic Order went pale from shock.

They felt like their blood flow had been reversed, and that their internal organs were being crushed by an invisible force.

It was as if their bodies were going to explode at any given moment.

The scariest part was the fact that the droplet was capable of stopping them from using the Art of Consumption.

Not only were they unable to draw power from the elements, but the spiritual energy around them had also been depleted in an instant.

The atmosphere in the area was similar to how it was during the spiritual energy revival.

What? How is a single droplet of tea capable of such ridiculous destructive power? This is insane!

They all tried to dodge it as best they could, but none of them stood a chance at all.

Unfortunately for them, the attack with the droplets was an overwhelming force like no other.

There was literally nothing they could do to defend themselves at all.

Attempts to neutralize it through offensive techniques failed as the attacks weren't powerful enough, and defensive techniques weren't strong enough to withstand the blow either.

Standing in the front, the head of the Wolf God Palace was so hell-bent on getting his revenge that he didn't even bother defending against the droplets.

Instead, all he did was unleash his most powerful attack on Levi.

However, the droplet was so overwhelmingly powerful that it pierced right through his body without losing any momentum whatsoever.

The head of the Wolf God Palace let out a surprised yelp before collapsing and exploding into a mist of blood.

Chapter 3269 Unrivaled Power

Many people observed in secret.

The people sent from Wolf God Palace's thirteen factions attracted the attention of the Ecclesiastic Order.

Therefore, every major fraction in the Ecclesiastic Order sent someone to find out the extent of Levi's powers.

If Levi turned out to be strong, they would know not to attempt anything.

However, if Levi turned out to be weak, they could join in when people from thirteen factions of Wolf God Palace loot his treasures.

Therefore, many people hid in the surroundings to watch Levi, and the number of observers soon exceeded a hundred.

That was unsurprising because each major faction sent spies to observe the situation.

Initially, they thought Wolf God Palace and the thirteen factions would subdue Levi.

However, the outcome was unexpected.

Even though Levi was powerful, the observers believed there would be an intense battle, and it would be hard to see who would win.

In reality, it was a total domination by one side.

The other side suffered annihilation.

Chapter 3270 The Fear Of Gloria

That monkey is outrageous! Who would dare to believe that a mere monkey like him killed the fighters from the Ecclesiastic Order? Furthermore, the number of fighters he killed is astounding. It is unbelievable and humiliating.

That was what the members of the Ecclesiastic Order thought after finding out that Levi killed their fighters.

However, there was an even more pressing question before them.

Just how powerful is Levi?

Everyone believed that Levi had yet to utilize his full powers.

They wondered if they stood a chance against him.

The people sent by the thirteen factions of Wolf God Palace were not small fries. Their abilities were considered mid-range in the Ecclesiastic Order.

Yet, Levi massacred them all.

It meant Levi had not shown his full powers, and no one knew his limit.

Therefore, there was great anxiety in the Ecclesiastic Order.

Those who had planned to attack Levi decided to give up.

What can we do? We have no way of defeating him! It is impossible to snatch his divine sword and his daughter!

Thus, everyone, including Five Pavilions, the largest faction, was stunned.

Levi became renowned after that battle and achieved the effect he desired in the Ecclesiastic Order.
