### Chapter 3291 Painful Memories

At that moment, Floyd had closed his eyes, as he couldn't bear to watch the screen in case Gloria appeared on it.

In the event she did, there was no way they could clear their name.

At that moment, Levi noticed the awkward expression on Floyd's face. However, he assumed it was because Floyd couldn't bear watching the five suffer, as it was something the latter had always felt guilty about.

Therefore, Levi didn't make much out of it.

As time ticked by, crystal clear images continued to appear on the screen.

If time had permitted it, the specialists were even able to produce a continuous scene out of it.

"Wait!" Levi exclaimed all of a sudden.

Even Sonja and companions almost gasped aloud at the same time, for the last group of men who went to see Azure Dragon were the true perpetrators.

All of them were wearing black robes. With their faces hidden from view, they looked especially suspicious.

In fact, they stood out like a sore thumb when compared to the other members of the Ecclesiastic Order.

Chapter 3293 Totem Of The Sky Devouring Python

The actual person who transplanted the spiritual bone had finally appeared!

The crowd looked over and stared at the portrait that began to take shape.

"What?"

Everyone gasped the moment they saw the painting.

But they eventually sighed in disappointment when they realized the painting only featured the person's back. No one knew how the person looked from the front.

Based on Azure Dragon's memory, they only saw the culprit's back but not the face.

Levi expected this outcome as he knew Azure Dragon would have been dead had they seen the culprit's face.

He would have gotten rid of them on the spot. I wouldn't have been able to rescue them. It's simply impossible!

From the way the culprit got rid of those Bonemasters, he wouldn't have left any traces behind.

Therefore, I'm not surprised that Azure Dragon hasn't seen his face.

But something else caught Levi's attention—the man was not dressed.

He was half-naked because he had to transplant the spiritual bones from Azure Dragon into his body.

That was why they could see the tattoo on the culprit's back clearly.

The tattoo was a totem of a gigantic python devouring the sky.

Sonja and the others froze upon hearing that question.

Magnus and the other two men, too, struggled to come up with an answer.

They knew the answer. In fact, they knew it quite some time ago.

Magnus and the other two men were at a loss for words.

Since Levi had kept his eyes on them, they had made quite a number of mistakes that had aroused Levi's suspicion.

They knew they could not fool Levi anymore as he had lost faith in them.

The only way out was for them to tell the truth.

Suddenly, Sonja stood up and said, "Yes! We know who they are!"

Magnus and the others looked at her in disbelief.

What? Is she going come clean? How dare she?

"But we can't tell you who they are. If we did, we'd die! Our family will die too! They'll also destroy our lands! Please understand we're in a difficult situation, Crown King! So please show us mercy, and don't force us to give you the answer!" Sonja pleaded.

Upon hearing that, Magnus and the others started pleading with Levi, "Please do not force us to give you the answer."

After dropping their knees, they continued begging, "Please don't force us to answer that question!"

Everyone was stunned.

Chapter 3296 As Long As Your Master Believes It

Gloria has never followed me to meet Master and the rest. She did not even come to this place as she is afraid that she'll affect them negatively.

In the end, Sonja and the others ended up around Master constantly. It's obvious what they're interested in!

When it comes to credit, Gloria definitely had as much as them.

Even though she managed to find half of the Bonemasters on the list, she did not seek anything in return.

On the other hand, Master has already given you a promise. Still, you keep having ulterior motives.

Naturally, I can tell who's the bad person and who's the good person here.

I know very well that there's not a single good soul in the Ecclesiastic Order. All of them have an ulterior motive, especially Sonja and the rest who are trying so hard to help. No one would believe that they are not vying for something else!

Staring at the four of them, Floyd smirked coldly. "Do you think that sowing discord is a very advanced technique? It's simply too low-class! Even a child can see through it right away. If you want to do it, can you think of another method next time? Stop being so obvious!"

"Return to your senses! You've been entranced by her!" urged Sonja.

"It was the North Pavilion who dug out Azure Dragon and the others' spiritual bones, right? The men in black robes are from North Pavilion! That'll explain everything! According to what they recalled, you had looked for them earlier and checked their spiritual bones. Didn't you do that because you're after their spiritual bones?"

"Well..." Sonja and the others were stunned as they could not prove their innocence about that.

It was true that they had appeared in Azure Dragon and his gang's memory, but that should not be used by Floyd to attack them.

"Also, you checked my master and Forlevia's spiritual bones too, right? You're the only group that knows their spiritual bones!" continued Floyd.

Sonja and the rest could not refute that either. It was true.

"In fact, you might have killed the Bonemasters and destroyed all evidence! You definitely didn't expect that I have a way to restore their memories, right?"

When Floyd saw how silent the others were, he spoke even more agitatedly.

"You're the murderer, right? Stop pretending! I've seen your true colors!" he scoffed coldly.

"Do you want to die?" Furious, Sonja and the others were about to attack.

"I'll find the culprit and seek revenge. Just rest well and recover!"

Levi was in a good mood. After all, they had just eradicated their nightmares and gotten clues about the culprit.

The only question left was how they were going to catch the culprit.

Initially, he wanted to warn the Ecclesiastic Order and threaten them to hand over the hostages by using the evidence.

Even if they did not get the hostages, they could still find out who the culprit was.

However, Levi could sense Sonja and her gang's abnormal reaction, their fear, and their unease.

This meant that the culprit was not someone to be trifled with.

Furthermore, looking at how the opponents were destroying all the evidence, they did not want to reveal themselves yet.

In that case, it would be counterproductive for Levi to make a huge ruckus about finding them.

By doing so, he would alert them unnecessarily.

If the image of the sky-devouring python was leaked, the opponents might take measures to make this important clue go missing.

Levi must not go about this in

#### Chapter 3299 Is There Such A Way

Something's wrong here. All the Bonemasters were killed, and I've seen it with my own eyes! How is it possible to find the murderers when there aren't any clues? Gloria actually wanted to help Levi in finding the murderers because she would benefit from it as well.

However, there wasn't a single clue.

Gloria was in disbelief. How did they manage to find the murderers so fast? What kind of speed is this?

Floyd immediately introduced her to their methods. Gloria tried her best to learn everything about the real world.

However, she had never heard of such a thing before.

That was why she was in utter disbelief. They can even show the memories of that person? How is this possible?

Floyd quickly explained everything to her, and he even told her who from the Ecclesiastic Order went there.

"What? There's someone else?" Gloria was stumped. There's someone else behind this faction? That's unbelievable!

"The portrait of the mastermind only shows the back of his body!" Floyd took out the portrait hurriedly.

Gloria was instantly attracted by the portrait.

There was nothing special about the back of the man. However, Gloria was stunned when she saw the totem of the sky-devouring python on it.

I've seen this somewhere! Unlike before, she really didn't know what she was looking at this time around.

This is so familiar, and I've definitely seen this somewhere. In spite of trying her best to recall the totem, her effort was to no avail.

However, she was sure about seeing it before.

After all, she had been with all sorts of people from the Ecclesiastic Order. In fact, it was safe to assume that she had seen all of them.

Hence, the chances of her seeing the totem before were quite high.
