Chapter 3331 The Warning From The Deviant Clan

“You!” The trio was beyond furious, but they were helpless.

The North Pavilion’s crisis won’t end if we don’t defeat this woman, and it might implicate Levi. Levi is powerful, but he won’t be able to deal with this woman’s sinister plans.

She’s a cunning woman and has included every scenario in her schemes, while Levi only has combat prowess. We don’t think he can last one round against her. This woman’s threat is far more dangerous than the others. It’ll be great if we can get out of here. We’ll inform Levi of her plans, and he can deal with her, but we’re sure Gloria won’t give us that chance.

Meanwhile, everything was much easier since Levi knew who the culprit behind everything was.

He immediately sent his men to run a search.

Without being discreet, he caused a commotion within the Ecclesiastic Order to show that he was searching for the Invincible Clan.

The news of his actions began to spread everywhere.

Furthermore, news of a mysterious elite successfully protecting North Pavilion had also spread, so the entire Ecclesiastic Order was in an uproar.

The news spread like wildfire, and soon everyone heard about it.

Meanwhile, a conversation was happening at a secret hideout.

“What? Levi already knew about our identity? How is that possible?”

Chapter 3332 They Are Afraid Of Me Too

It was terrifying that a deviant clan of the Invincible Clan was capable of decimating the entire Divine Tiger Palace in a night with such brutal means.

The scary part was no one knew when they attacked for they didn't leave any traces.

No one knew the members of the Divine Tiger Palace were being tortured and massacred throughout the night until the very next morning.

They boldly snuck in for a mass killing while Levi and the Ecclesiastic Order were searching for them.

That showed their strength and arrogance.

The entire Ecclesiastic Order was in havoc.

The Invincible Clan had appeared once again.

They were their nightmare.

The Ecclesiastic Order had no way of fighting back against the Invincible Clan unless all factions of the Ecclesiastic Order came together.

However, each faction of the Ecclesiastic Order had its own schemes and plots and wouldn't band together without any benefits.

It would be a walk in the park for the Invincible Clan if they wanted to eradicate the smaller factions of the Ecclesiastic Order.

The larger factions would take a bit more effort.

The faction the Invincible Clan was slightly hesitant with was the main faction.

I can easily eradicate the entire Divine Tiger Palace in one night too, so it isn't much of a shock to me. As for cruelty, they aren't any crueller than me either. I can be much more ruthless than them. All of these games are useless.

This type of warning method is like child's play. Why don't they attack me directly? Are they afraid?

The group was stunned at Levi's taunts.

They had never seen anyone challenge the Invincible Clan so boldly.

Yet, they realized he was speaking the truth on second thought.

Why didn't the Invincible Clan attack Levi if they weren't afraid of him? Instead, they made a show to deter him. In other words, it merely showed their fear of Levi.

"Don't use such childish means next time. Just look for me directly, but ignore what I said if you're scared," Levi mocked.

No one expected the Invincible Clan's tactic to not only failed against Levi but received his mockery instead.

His taunts were soon relayed to the members of the deviant clan, and they were furious.

When have we been afraid of anyone? No one! We're not scared of anyone, including Levi. We don't care if he is stronger than us! It's just that we have no idea about Levi's capabilities and our master doesn't want us to clash with Levi at the moment. Otherwise, we would've attacked him instead of using such means to warn him.

Gloria's abilities had improved tremendously too.

I can't imagine five years of cultivation training won't even come close to the level I have achieved within this one week. This technique is scary, but all that matters is I can breakthrough levels and ranks as long as I have sufficient resources.

Yet, my problem now is insufficient resources. Resources are still a significant issue even if I have an extensive web of connections. It wasn't a problem before. After all, that many resources can last me a few months.

However, who would've known this many could last only for a week. I have pulled in many favors and used many of my connections to get them. I was conflicted over the rapid absorption and breakthroughs.

I'm ecstatic about the breakthroughs I made but worry about the significant resources I'll need. I'll need to accumulate them bit by bit from scratch again. Luckily, I know a bit of everyone in every major faction within the Ecclesiastic Order, so obtaining resources isn't a problem temporarily.

However, I can't say the same for the future. I'll have to start sending people out to scour for more resources at this instant.

At that moment, Gerton of the Ecclesiastic Order had an update on the search for Levi's base camp.

Sonja and the other three from North Pavilion had been to Levi's base camp multiple times, so they knew where it was.

Chapter 3335 Just Be The Scapegoat

Sonja had already guessed what Gloria's next moves would be.

The latter managed to drag everyone, including the Invincible Clan and Levi, through the mud. She made it so that she was the only one who would benefit from it all.

Everyone else had to fall and become the pawns in her game, and they had to do whatever she wanted because she had all the advantages in the world.

What could anyone do under those circumstances?

Gloria slowly shifted her gaze to Sonja and the others before laughing aloud. "See that? Even heaven is on my side because things keep progressing in my favor. With this, how can I possibly lose?"

"You... shameless b*tch!"

Sonja was so angry that she spewed some insults.

There was nothing else she could do, though.

It's as if she has everything and everyone, including the angels in heaven, on her side.

"First, I am going to expose the location of Levi's base. After that, I will wait for his enemies to invade his base. Then, I will take advantage of the commotion to sneak in and steal Levi's Ancient Divine Sword. My last move will be to pin the crime on you people and the Invincible Clan. No one will ever think that I have anything to do with it at all!"

"Don't worry. I will grow to be stronger so that I can become worthy of you. Moreover, I want to get justice for Azure Dragon and the others," declared Floyd firmly.

"Okay, I should train now, and so should you. Let's go somewhere quiet," suggested Gloria. "I actually know a quiet place that might be perfect for it. If you don't mind, we can practice together and I can give you some pointers."

Gloria smiled excitedly at Floyd.

Her words practically sent him into a state of euphoria, so there was no way he'd turn her down.

He was so happy that he could jump.

An opportunity like that was something he would beg to have, so he would surely seize it when it was within reach. That was why he was so incredibly excited.

"Okay, sure. I'll go let Master know that I will be going into solitary training."

Levi was at the base at the time, so Floyd felt that it was okay to leave for a while.

After the latter spoke to the former, he left the place with Gloria and headed to a quiet that was perfect for training.

All that was actually a part of Gloria's plan.

Her reason for doing so was simple. She needed to get Floyd away and out of danger.

It wouldn't take long before Gloria share the base's location with the Invincible Clan.

Chapter 3337 The Impostor

Gloria had been monitoring their moves the entire time.

She would have to begin planning soon.

She had to time everything perfectly to steal God Crusher at the exact moment that the Invincible Clan attacked.

It didn't take long before the Invincible Clan devised a plan.

They would get Levi to leave, then attack his base.

The main problem they faced was how they would lure Levi away.

Ordinary distractions wouldn't work, and it seemed only members of their own clan had what it took to divert Levi's attention.

In other words, they had to send their own men to lure Levi away.

That posed another problem because the people who lured Levi away would definitely die if Levi found out the truth.

Basically, they had to sacrifice their own lives to give others a chance to ambush Levi's base.

Any other group would not be capable of doing something like that. Hence, no one would volunteer.

However, what happened next made it clear that the Invincible Clan was as barbaric as it could get.

Chapter 3338 Vengeance Is Here

Gloria was undeniably cunning and had thought of everything.

She was also an expert at preying on Floyd's heart.

One night was nothing to her. She could keep the guy there for a week or even a month without needing to break a sweat.

After making sure that Floyd wouldn't leave, Gloria hurried back to the area near Levi's base.

Naturally, she didn't have the guts to get too close.

It didn't even matter that she had mastered a unique Art of Consumption technique that specialized in hiding someone's aura without a trace.

All she had to do was hide, and her instinct would help her blend into her surroundings.

No one would be able to detect her.

That was the same technique she used to conceal her aura and her presence when she followed Floyd and snuck into Levi's base the last time.

It was so powerful that even Levi couldn't sense her immediately.

The truth was not far off.

At the time, Levi simply had a sixth sense that someone was there. He never actually detected anything.

Levi was still at the base when Gloria reached the base's surroundings, and she didn't dare to try her luck again.

Gloria was getting excited as well.

She prayed that the Invincible Clan could keep Levi occupied for as long as possible.

That way, she'd have a better shot at getting her hands on Ancient Divine Sword.

"Three... Two... One!"

And then it happened.

All eighteen members from the Invincible Clan invaded the base from six different sides.

There were many fighters left in the base, and they were made up of Levi's apprentices, disciples, and comrades.

They detected the invasion as soon as someone made a move.

The siren blared.

"Imbecile! How dare you come after us?"

By sheer luck, the incredibly powerful Fiery Demon was there at the time.

He was the first to run toward danger and began fighting the Invincible Clan's fighters right away.

The others join him soon after.

Chapter 3340 The Formidable Forlevia

Even Forlevia, who was cultivating, could sense the intense battle that had unfolded outside.

When she was about to back the others up, the three elites from the Invincible Clan charged at her.

Their eyes lit up the moment they saw her. Undoubtedly, they were assigned to take her away with them. In fact, it was the most important part of the mission.

Thus, the group of three elites assigned to battle against Forlevia was the most powerful among all the eighteen elites of the Invincible Clan.

“Let’s capture and take her away!” one of them yelled out insolently.

The next second, the trio charged at Forlevia.

Meanwhile, she did not think twice about retaliating with her self-created technique.
