Chapter 3341 They Have Underestimated Forlevia

Everyone was utterly astounded by Forlevia's formidability. Undoubtedly, it had twisted the situation, shattering the Invincible Clan's plan. Subsequently, Levi would be unfazed as Fiery Demon and the others only sustained minor injuries.

The elites of the Invincible Clan tended to focus on Levi and underestimated Forlevia's combat prowess. In other words, they had never expected she would turn into a petrifying threat.

In their eyes, she was only a highly talented kid with a horrendous spiritual bone. Thus, they thought she was just a tool.

Nevertheless, their jaws dropped at Forlevia's formidability. How's it possible that a small girl has such mighty combat prowess? Even all of us from the most unrivaled Invincible Clan are no match for her! How preposterous!

Right that instant, the Invincible Clan could finally wrap their heads around their master's mind. He had warned them earlier not to step on Levi's toes impetuously. Initially, they paid no heed to it arrogantly.

Only then did they understand that they had underestimated Levi's combat prowess. Even his daughter's combat prowess is beyond imagination! Fortunately, we did not provoke Levi Garrison and battle against him directly!

The Invincible Clan could not dwell over what had transpired earlier. They could not help but feel humiliated as they had never scurried away in such humiliation from their foes. Apart from being dumbstruck, they had to admit that Levi was no ordinary man.

Instead of retreating at once to run for their lives, they were tickled pink when Levi emerged and could scarcely wait to battle against the legendary man.

In actuality, they were instructed earlier to retreat as they had helped buy enough time for the others to carry out their mission. Not only that, their comrades had encountered obstacles at the other end.

Nevertheless, the four elites gave no hoots to the instruction. They were reluctant to let the chance to battle against Levi slip away.

"Finish him off now!" The four of them charged at Levi relentlessly.

Inevitably, they were unable to fight against the latter's earth-shattering strike.

Shortly after, they were sent flying with only one punch from Levi.

Thunderstruck, they could not counterattack at all.

At that very moment, they finally realized how mighty Levi was. Evidently, they had underestimated the latter and realized they should not have stepped on his toes.

My goodness! His combat prowess is indeed beyond description! How could we fight against him? They eventually realized their combat prowess was a stark contrast to Levi's.

Furthermore, they recalled how they used to think that Levi's combat prowess was incomparable to theirs despite his formidability that was known to everyone. Hence, they thought of challenging him.

Chapter 3343 Not Everyone Can Handle It

Even though God Crusher was just a tool for him, and he usually tossed it aside, he could remember the
usual spot vividly.

Before stepping out earlier, he even caught a glimpse of it at the usual spot outside the entrance.

As he remembered it very well, he would be able to sense it at once when God Crusher was gone. Since
there was no sign of it at the entrance, it implied that the sword was stolen.

"What? God Crusher is missing?" The news sent everyone into a tizzy.

In an instant, they started to search high and low for God Crusher, but to no avail.

Levi let out a laugh. "It's all right. I'm sure it's stolen. But I've never expected the Invincible Clan would
play such a trick!"

“That was their goal from the start! They lied to gain our trust so they can sneak into our base!”

“I knew Floyd was right from the start! It was obvious there was something wrong with them. Why else would they act so coyly? Besides, they helped us without asking for anything in return. That alone is very suspicious!”

“Also, they knew about the identities of the Invincible Clan but didn’t tell us! They’re clearly not trustworthy!”

“We were wrong to blame Floyd back then! He had been telling us these people were suspicious; yet, we didn’t listen to him! We shouldn’t have let them go!”

Not only were they certain Sonja and the others were responsible for leaking the location of the base, but they also thought that they were wrong about Floyd.

“Find them first!” Levi was enraged.

On the other side, Gloria had brought God Crusher to Sonja and the others.

She showed off the weapon in front of them. “Look at what this is!”

Chapter 3345 Mistaken Floyd

That news shook Floyd. "What? How did it happen?"

"Ever since Invincible Clan was exposed, hasn't your master been trying to look for them? That's why they tried to look for your base to seek revenge. They put up a bounty in Gerton to find your base's location and noticed Sonja went to your base before. So, they followed Sonja and launched a surprise attack once they found the base's location," the messenger informed.

What he said was the "truth," in the sense that it was what others were telling each other. If Floyd asked anyone outside about the news, he would get similar answers.

His fists tightened as rage colored his face. "I knew they were up to no good!"

Gloria had been instilling those kinds of thoughts in him for a long period.

As a result, in his subconscious mind, he saw Sonja and the others as bad people.

Once he heard the news about the base, he became even more certain Sonja and the others were the culprits.

“They were waiting for a good chance to execute their plan. What better chance to steal the God Crusher than to do it when Invincible Clan was attacking? During Invincible Clan’s assault, they came here and stole God Crusher without anyone noticing. I heard that the Ecclesiastic Order has a secret, powerful technique that allows the users to turn invisible and hide their presence. It’s possible that even Master couldn’t detect it. If they know that technique, then it’s a piece of cake for them to steal God Crusher under everyone’s noses.” Floyd informed them of what Gloria had told him.

She had already planted the idea that Sonja and the others were up to no good in his mind, including claims supporting that idea.

As those claims had been backed up by proof, everyone fell into silence as they digested the information. That seems to be what happened. Sonja and the others might very well be the ones who stole God Crusher instead of Invincible Clan!

“If you all had listened to me, this wouldn’t have happened.” Floyd sighed.

Levi didn’t say a word throughout the whole conversation. I can’t tell for sure if Sonja and the others were responsible. From what I observed by interacting with them, they don’t seem too bad, but they aren’t completely trustworthy. It’s possible they put up a really convincing act. Regardless of who did it, the thieves who stole my God Crusher will pay dearly for their crime.

Everyone began looking for Sonja and the others.

Of course, they were still looking for Invincible Clan.

At that moment, news had spread out that Invincible Clan attacked Levi’s base and stole his Ancient Divine Sword.

Chapter 3347 Gloria Is Worried

Once Gloria learned the news, she smiled giddily. Everything is going according to my plan. Sonja and the others will take the blame for stealing God Crusher. No matter how the whole thing ends, it won't affect me one bit. No one will notice my presence, which is what I wanted as a mastermind. All of them are merely pawns dancing in my hands!

"Hahaha!" She cackled in front of Sonja and the others.

It made them feel despair. This woman is really scary. Everything actually went according to her plan. All of them had become her pawn. The big players like Levi will never imagine they were being controlled by an unknown side character. Right now, she's just a nobody. However, it won't take long before she rises to power and becomes a monster on the same level as Levi and Invincible Clan.

Gloria stared at Sonja and the others and sneered, "I'm so glad I didn't kill all of you back then. Otherwise, you wouldn't have witnessed my glorious ascension! You will all be my best spectators!"

Currently, she was feeling very confident.

However, there was one thing making her feel depressed, and that was Forlevia.

Chapter 3348 Confronting North Pavilion

The Ecclesiastic Order had all classes of elixirs.

Since Gloria had just started, the ones she was using were of a lower class.

However, she would be able to get higher-class resources when she needed them.

Even just a single high-class elixir would be more powerful than Forlevia's mountain of resources.

A battle of attrition was the only way Gloria could hope to defeat Forlevia.

Despite that, Gloria didn't want to drag out the fight that long.

She wanted to end it as soon as possible.

As she continued her solitary training, she formulated a plan.

Currently, everyone on Levi's side was looking for Sonja and the others.

Chapter 3349 Monkey

Levi furrowed his eyebrows.

He had interacted with Sonja and the others before, so he was aware that, even if they had ulterior motives, they wouldn't have the guts to put their intention into action.

Besides, with their abilities, there was no way they could've pulled one over on him.

Yet, all evidence pointed to them being the culprit.

They were the only ones from the Ecclesiastic Order who had been to his base before.

Since Invincible Clan didn't steal his Ancient Divine Sword, it had to be them.

Levi couldn't imagine there was a mastermind making everything unfold the way that it did.

If there was, then the mastermind would be a terrifying figure, because he couldn't figure out how they did it.

Sadly, he had no leads to or proof of the mastermind even existing.

He started to wonder who could've treated him and Invincible Clan as pawns.

The mastermind had to be someone who was aware of his base's layout and familiar with Invincible Clan.

He wasn't sure if someone like that existed, but it was a strong possibility.

Levi then proposed that hypothetical mastermind to the people of North Pavillion.

They didn’t want to help Levi find the missing people anymore, because they saw him as a monkey.
No one would let a monkey bully them.
All the prominent factions of the Ecclesiastic Order gathered around to discuss how to defeat Levi.
They were secretly hatching a plan to go against Levi.
