Chapter 3371 Combine All Our Strengths

Now that we're using the four cornerstone divine tools, Levi will surely die! Flavius then shouted at all the elites at the scene, "Comrades! Please help us!"

It was so hard to activate the cornerstone divine tools that it was almost impossible to unleash their true potential.

Despite being the almighty Top Ten, they were still not able to fully take advantage of the true powers of the weapons.

Unless all the weapons were to be used by the strongest individuals, it would be nearly impossible to maximize the strengths of the weapons.

The Dragon Trapper Formation of North Pavilion, on the other hand, could reach its maximum strength as long as the users were burning enough spiritual stones.

The cornerstone divine tools from the other Pavilions worked differently. Since they needed to manually utilize the weapons, the weapons were incredibly strong.

As far as Flavius was concerned, he knew he couldn't fully unleash Demonsbane's potential on his own.

Hence, he needed the others to help him.

"Let's help the Top Ten!"

"Let's do that!" the elites shouted.

At the same time, they were all transferring their strengths to Flavius and the other elites of the Top Ten.

Aside from the Ecclesiastic Order, all the elites from mysterious factions were using their techniques to transfer their strengths to the Top Ten.

“Charge!” With Demonsbane in his hands, Flavius yelled and charged at Levi from the front.

Katri of West Pavilion was charging toward Levi from the back with Ethereal Spear.

Thelomios of South Pavilion was charging toward Levi from mid-air.

Zordian of Central Pavilion was aiming at Levi with the Nine Celestials Bow from somewhere in the dark.

No one’s going to survive the Nine Celestials Bow.

Luna of Central Pavilion was loading the Nine Celestials Bow with an arrow.

When the bow was made, it came with a total of nine arrows, and the arrows were made of the rare and powerful iron meteorite.

After all those years, only two arrows were ever used.

One of the arrows was used on a deviant clan, while the other one was used during the battle with the Cetus.

In short, an arrow was powerful enough to kill an elder.

With seven arrows left, they had brought three arrows to the battle because they held Levi with high regard.

Levi will either die or get injured by an arrow! There’s no way he can avoid it!

While Flavius and the other two were charging straight at Levi, the Nine Celestials Bow played the most important role.

That wasn’t all.

Yartran had also utilized all their technologically advanced weapons.

In fact, their base was located far away from the scene.

When they received the news of what was happening, they deployed their aircraft and other high-tech weapons so that they could arrive at the scene within seconds.

With all the weapons aimed at Levi, they were also about to launch their most vicious attack on him.

Since the weapons contained spiritual energy, they could unleash enormous force once fired.

That was why their weapons were different from the rest.

All their technological advancements relied on super-spiritual ley lines.

That was why their fighters were incredibly strong. They were even stronger than the Ecclesiastic Order's troop, which was led by the Top Ten.

No one had expected their emergence.

It was moving so fast that they couldn't even see how it was released.

If they were to catch a glimpse of it, that would be when the arrow had already penetrated Levi.

The release of the arrow was a sign for the other elites to attack.

Crack! Crack! Crack!

After the arrow was released, sets of earsplitting blasts struck the sky above.

The arrow was burning in flames, and it was exuding rays of light and a horrifying aura.

That was the Nine Celestials Bow's true potential.

Indeed, all the powers concealed in the bow by the predecessors had been unleashed.

All their powers were gathered in that arrow.

At that moment, the Nine Celestials Bow's real threat had begun.

Apart from that, Flavius and the others were all waiting for the arrow to do its wonder.

Everything they had done prior to that was to prepare for the arrival of the arrow.

In fact, the arrow was the star of the battle.

They were hoping that the arrow could either harm or kill Levi.

Even if it had failed to do so, it could at least distract Levi.

Chapter 3375 Best Move

It was undeniably a mind-blowing sight.

Levi has just stopped all four cornerstone divine tools in a split second!

It was truly unbelievable.

It would be considered a miracle to be able to stop one cornerstone divine tool! How did he stop all four at once? This is even more miraculous than a miracle!

Gloria was even suspicious of Levi being able to stop time itself.

Did he stop time, and handled the four cornerstone divine tools one by one? Otherwise, how could he have done that? That's impossible!

As she remained unconvinced, Levi did block everything.

However, there was still more to come. The top ten elites of the Cetus were hiding behind the four elites of the Top Ten.

Hence, they were all moving simultaneously.

Everything was happening so fast that no one was able to react in time.

After Levi had blocked all four of the cornerstone divine tools, the top ten elites of the Cetus were right up.

Like shadows, they appeared right after the Top Ten were dealt with.

They were attacking Levi from all directions.

They had totally surrounded Levi, and there wasn't a gap between them.

Chapter 3376 The Strength Of Yartran

The first obstacle was the hundreds of rogue cultivators charging in.

The second one was Yartran's aircraft that were firing their high-precision weapons to attack Levi.

As if those weren't enough, the Nine Celestials Arrows were going straight for him.

Crack!

Unfortunately, Levi caught it once again.

It was as though the arrow were his toy.

The funny thing was that the Nine Celestial Arrow behaved much better. It no longer attacked Levi and had rested peacefully in his grip.

Levi deliberately arranged for that to happen.

He had long had what it took to control the Nine Celestial Arrow, but he didn't bother showing that.

"Go to hell!"

Levi let the Nine Celestial Arrow go once more.

Boom!

He even flicked the end of the arrow a little and made it shoot forward with incredible speed and force.

It tore through the sky right away.

However, it was no longer aiming for Levi. Instead, it went after Yartran's aircraft and its technologically advanced weapons.

Levi truly liked the Nine Celestial Arrow because it could withstand incredible power.

Nine Celestials Bow still lingered within that arrow, and

Chapter 3377 Assassins Everywhere

The elites of the Cetus were even stronger than those assassins, and they copied the assassin's technique by hiding behind someone else before delivering the fatal blow.

Unfortunately, they were not experts.

The assassins were the ones who had practiced that move thousands of times.

They might not be as powerful, but they spent their days coming up with unique ways to kill their targets.

That was why they moved strangely, randomly, and could squeeze through just about anything. They attacked Levi from every angle, and the threat they posed was just as great as the one the Cetus posed.

They also had another scary trait, which was the fact that their target would never know how those assassins would deliver the fatal blow.

And then there was the part where they would never interact directly with Levi.

Instead, they would scheme and use underhanded methods to attack him.

At that moment, every corner was filled with assassins and they could ambush him whenever they wanted to.

There were dozens of hidden weapons, poisons, and countless despicable tricks at their disposal, making it confusing for anyone who had to deal with it. It seemed impossible to escape.

Even the falling leaves felt like it was an assassin in disguise. Every gust of wind and every grain of sand inspired fear and kept their target on edge because they were notoriously good at hiding.

On top of that, red leaves and green bamboo shoots were everywhere.

Those were members of the assassin organizations, Bloodleaf and Green Death, in disguise.

Gloria was stunned.

H-How?

She had done so much and prepared so well, but nothing was working.

And that wasn't even her main concern.

The main issue at hand was that the assassins, traps, and hidden weapons were all exposed.

That meant they were all in danger.

The element of surprise was crucial for the assassins, and they only had one shot.

There were no second chances, and being exposed meant that they were done for.

All that was left was death.

As suspected, the assassin that had popped up from underground had all been exposed, and they no longer had the option to hide away again.

Chapter 3379 Nothing Will Work

Everyone gave it their all, and they went after Levi together.

That was a definitive moment and the last shot at killing Levi.

They wouldn't get another chance again.

However, Levi never bothered blocking or moving away from their attacks.

He let the cornerstone divine tools cut him.

Clang! Clang! Clang!

Three crisp sounds of metals clinking echoed, and it felt as though both heaven and Earth had quivered in response.

In fact, everyone could feel the tremble under their feet and on their heads.

Flavius and the others still had their weapons with them, but it was as though the weapons had hit the toughest surface on Earth.

It was completely useless.

When they looked up, they realized that Levi had never blocked and let the weapons hit him.

Unfortunately...

All three cornerstone divine tools couldn't penetrate into his body and stopped short on his skin.

It seemed his body was even stronger than the immensely powerful cornerstone divine tools.

Chapter 3380 The Ones Hiding In The Dark

The most devastating bit was that even after everything they did, they still didn't know how strong Levi actually was.

Everyone on site knew that Levi's true strength was far beyond just that.

His strength put Gloria in an extremely bad place.

She used to think that the battle, even if it couldn't kill Levi, could at least tell her just how powerful he was and what his breaking point was.

Yet, that didn't happen. It didn't even come close to happening.

All the cornerstone divine tools managed to do was make white scratch marks on Levi, and the hidden weapons and poisons were completely useless.

Nothing could get into Levi's system at all.

For a moment there, Gloria was at a loss. She couldn't come up with a plan to kill Levi.

The Top Ten felt their confidence and pride shattering.

They used to be as proud as a peacock and never saw anyone else as equal.

Then, they met Levi.

That day, they learned that Levi was like the highest crest on the roof of a castle, whereas they were just the tile on the floor of the castle.

Turned out that their powers were not remotely as powerful as they initially thought.

That emotional damage might just be even more devastating to them, and it was likely that they would never be able to hold their heads up high again.

Their futures had been severely affected because the seed of doubt had been buried deep in their hearts.
