Chapter 3421 Giant Device Of Yartran

No one expected Levi would make a violent visit to Yartran so suddenly.

After the failure last time, Yartran had vanished from the public eye.

Levi's strength yet again exceeded their expectations.

They had revealed to Shield before on the probability of them winning, but they knew they would have to pay a terrible price.

However, after that battle, they completely changed.

They suspected it might be possible to defeat Levi, but only if the entirety of Yartran's attack force was mobilized.

Recently, even the king of Yartran blamed his ambassadors for working with the Ecclesiastic Order to go against Levi.

The situation was dire for them, and they had no idea how to deal with it.

The battle thoroughly exposed them, on top of the fact that they also suffered severe losses.

Now, the world had learned about the existence of Yartran.

It was chaos everywhere in the world. Obviously, Yartran wanted to be the country to have the last laugh.

However, that chance of happening was lost forever, and they had made a terrible enemy in the process.

Chapter 3422 Levi Cannot Do Anything

Yartran had conducted hundreds of thousands of tests on their barrier before. None could even crack it.

However, simply activating it was already an insult to them because it basically meant they admitted they were in grave danger.

They thought themselves to be an unparalleled existence, a country that couldn’t be threatened, and one that didn’t need to use the barrier they built.

Sadly, they were wrong, and someone who could threaten them did show up.

And that person was none other than Levi.

His heaven-defying strength terrified Yartran, even more so when he showed up unannounced.

They thought he was looking for trouble.

The defense system activated very quickly as it instantly covered the entire country.

An insane amount of energy was pumping into the barrier.

Black Hawk was shocked as he felt the expanding energy.

“There’s no way we can break this, Mr. Garrison!” he uttered tremblingly. This defense system is too scary! There’s no way we can break into Yartran.

Levi stepped forward. “Let me give it a try.”

In a blink of an eye, the barrier instantly gained tens of layers of additional protection. It was the maximum capability of Yartran's defense system.

Boom!

An earth-shattering explosion was heard, as though the god of lightning was roaring right above the country.

A shockwave was spread out from Levi and reached all the way to Zarain.

That amount of terrifying power could only be matched by the activation of countless superweapons at the same time.

Another thud was heard as the defense system shook violently.

That punch almost caused the entirety of Yartran to flip over.

It wasn't just shaking the ground, it was flipping heaven and earth upside down!

Chapter 3424 Not The Strongest Punch

That was the reason the machine was called “Eternal”.

It meant there was an unlimited amount of energy supplying the device.

Unless Levi could unleash a punch that drained more than eighty percent of the barrier’s energy, it would stay up indefinitely.

The barrier would instantly recover the moment after it received damage, making sure that Levi wouldn’t have a chance to damage it twice in a row with his punches.

It didn’t matter how quickly his two punches were unleashed, because it wouldn’t work.

Eternal was truly an incredible machine.

It was so well connected with the super-spiritual ley line that it was basically one with the ley line.

“Hahaha! Restore everything in Yartran! Increase the strength of the defense system! We can’t let the power of the punch shatter the balance of our country before our barrier even breaks!”

Once again, they activated Eternal’s other systems to restore the internal balance of the country.

Furthermore, they reinforced the balance so the previous situation wouldn’t happen again.

Soon, everything returned to normal in Yartran.

Chapter 3425 Highest Level Of Danger

Levi stared at the barrier and raised his punch.

That punch looked like an ordinary punch from an average person.

It didn't cause the earth to shake or spell the doom of the world.

The planet wasn't trembling because it couldn't handle the sheer power of the punch.

There was no sound coming from heaven or earth.

The citizens of Yartran definitely didn't feel the crushing pressure and melting heat from earlier.

Even Eternal didn't detect any danger.

That punch was shot out like a bullet made of feathers.

It looked like a joke, so much so that it shocked the crowd. That's it? Is it possible? Is Levi joking right now?

No one knew that was Levi's most powerful attack.

All the energy he could gather was concentrated on a single explosive point.

On the surface, the punch looked normal, but Levi had actually compressed all his energy into it.

The crowd simply couldn't see it.

They were taken aback earlier because they thought Levi was going to throw another apocalyptic punch.

Upon seeing that ordinary punch, however, they let out a sigh of relief.

Chapter 3426 Yartran Still Had Strength Left

It would be the last stand for Yartran because their strongest barrier had been shattered.

The entire country was laid bare for Levi to see.

“Activate attack mode!”

Soon, Eternal was shifted into attack mode.

The most goosebump-inducing weapons all locked onto Levi.

The fighters also aimed their weapons at him.

All attack forces in Yartran were prepared to engage in battle with Levi as more fighters rushed in his direction.

Since defense was impossible, attack was the only other option.

All of them wanted nothing more than to protect their precious homeland from the single invader, and they were willing to put their lives on the line to do that.

Their only path to salvation was to kill Levi.

“No one can invade Yartran!”

Yartran had pulled out all its trump cards.

There were giants the size of a hill, monsters that were large enough to block the sun, fighters equipped with magical techniques and technology...

"Eh? That..." The leader of Yartran hesitated before shouting, "Who's the one who contacted the Ecclesiastic Order?"

Soon, an envoy stepped forward. "I was the one who talked with them!"

Levi asked, "Who were the ones you talked to? Describe their appearance!"

"There were six people from the Ecclesiastic Order who contacted me. We don't know who they were initially because they hid their identities pretty well. However, we never do anything before knowing who we're dealing with. They underestimated our ability and thought we wouldn't discover their identities. I sent people to investigate them and found out that all six of them came from different factions in the Ecclesiastic Order. They all occupied a middle-level position in their respective factions. Due to their rank, a lot of information passed through them..." the envoy explained.

That was more or less what Levi expected because it was how the organization was structured. I knew it. It wasn't any high-rank officials. They have to be the ones in the middle of the hierarchy because they don't attract a lot of attention to themselves. Otherwise, they wouldn't have been able to pull this off without anyone noticing.

"It was because they were persuasive and the information they provided was reliable that we sent people to join their plan to take you down..."

The crowd lowered their heads when the envoy stopped there.

They didn't have the guts to, because they did try to take him down.

Levi didn't care they were the ones who initially provoked him and continued, "Give me all the information about the six of them! I'll investigate them myself!"

Chapter 3428 Traitor

In the past, Floyd was the one who went to visit Gloria.

That was why he was excited when she started visiting him on her own. So this is what having a girlfriend is like.

"Master is not at North Pavilion right now. He's currently in Yartran!" Floyd, of course, didn't know what Gloria was scheming and told her that.

Gloria acted worried. "He's going to Yartran? Won't he be in danger?"

"I don't think so. Maybe he might've even destroyed Yartran!"

Her eyebrows were tightly furrowed. I'm not sure why he's there right now. Is he enacting his revenge? Or is he actually there to find out who contacted Yartran? I need to know which it is now! It'll be bad if he finds out who contacted them. Sure, I was extremely careful, and I did hide the identities of the people I sent, but I'm not sure if that's enough to cover my tracks. Yartran is pretty powerful, after all. Even if I'm not exposed, what if they found a lead that connects to me?

"That's fine! I'm visiting you because I want to tell you what's the current status of the Ecclesiastic Order..." She proceeded to tell him what the order had done so far.

Chapter 3429 A Significant Lead

Levi's eyebrows furrowed. However, who else could've known where I am aside from them? No one! It must be one of my people who leaked the news! The only other possibility is that this person is far more powerful than what I can imagine, though it's unlikely. However unlikely it is, I can't rule out that probability. This mastermind is too skilled!

They're in control of everything! This isn't something a regular person could pull off. Still, this mastermind has revealed a lead to themselves this time. They thought they could use my absence as an opportunity to destroy North Pavilion, but they didn't know I returned earlier than planned. Not only did they fail to destroy North Pavilion, but they also exposed themselves.

"I will find out who you are! I'm grateful that you've given me such a significant lead to follow! Hahaha..." He laughed. This was certainly a pleasant surprise. I came to North Pavillion because I wanted to investigate the identities of the six Ecclesiastic Order members who contacted Yartran and I got even better information out of it. In any case, since those six were part of the order and belonged to the Five Pavilions, it's only natural that I let North Pavilion investigate them. I'm pretty sure none of them belonged to North Pavilion, otherwise the mastermind wouldn't have launched the surprise attack.

"I want you all to investigate who these people are immediately! Also, find out who they had been talking to recently! Once you got the results, send them to me directly in secret!" Levi ordered.

North Pavilion had their own intel department, so obviously they were familiar with the Ecclesiastic Order.

Furthermore, Levi also told his own people to investigate the six suspects to cover a larger ground.

"I think I'll get my answer as to who leaked my location after I do some questioning." Once Levi took care of his matters at North Pavilion, he returned to his base.

After their search had concluded, they stumbled across a shocking revelation.

They couldn't find who was the one that spread the intel.

Even though everyone knew Levi was going to Yartran, no one knew where the news originally came from upon investigating.
