Chapter 3551 Xylas Roams Free

Levi knew it would be useless even if he could find out who the enemy was right then and there, for she could become a serious threat if she managed to find a large spiritual ley line. All would be too late by then.

Even though Levi was unsure how strong his enemy was, the fact that she did not care about revealing her gender meant that she was getting bolder. Nobody knows how much strength she actually has to back that level of confidence. I may have been improving, but I still worry that she'll be too much for me to handle.

For some reason, Levi had a bad feeling that his enemy was about to get her way.

The man was right, for Gloria had indeed finished devouring the Orthus' spiritual ley line.

Because of the size of the spiritual ley line, she took quite some time to get the job done.

Gloria's power had reached a level that even she could not explain.

Feeling in control of everything, Gloria began to develop a god complex. It was as if the entire world was her playground.

If she could devour the Cetus' spiritual ley line and all the magical herbs, the woman would reach an unimaginable state.

Xylas executed his technique, and a terrifying and unparalleled aura spread out instantly in all directions.

As everyone charged toward Xylas with the intent to kill, they were knocked back by his immense pressure of domineering energy.

“Is Xylas actually that strong?”

“It’s unbelievable!”

“How did he do that?”

Everyone’s expression changed drastically.

None of them expected Xylas to get so powerful in such a short time!

“Didn’t you say you wanted to kill me? Bring it on. Come at me all at once! Come on!”

Xylas shouted and gestured for them to come closer with his finger.

He taunting us! It’s obvious!

“You asked for it, Xylas!”

Azure Dragon roared. The veins on his forehead dilated, and his eyes were slightly bloodshot.

The others were the same.

“But first, you must have the strength to do so!”

Xylas stood with his hands behind his back, filled with confidence.

Additionally, after Xylas dug out their spiritual bone, those old and new grudges only made them hate him even more.

They turned their limitless anger into an all-out attack.

They swore to kill Xylas on the spot.

"Do you think you can win with numbers?"

Xylas sneered, "You guys are nothing but a bunch of weaklings. I'll show you our insuperable difference in strength."

Xylas stood still as he looked at the coordinated attack of Azure Dragon and the others.

"You're just ants to me. I can finish you off with just a flick of my finger."

Xylas chuckled. Instead of dodging, he did the same thing again by hurling a few punches toward Azure Dragon and the others.

"Impudence!"

Azure Dragon and the others were enraged. Their fists were moving so fast that they whistled in the wind.

“Get lost!”

Xylas’ explosive punch instantly sent Azure Dragon and the others flying.

Xylas turned toward the voice and saw Forlevia talking.

“Are you guys relying on a kid? What a bunch of trash! Haha!” Xylas uttered mockingly.

Although Azure Dragon and the others were fuming, there was nothing they could do.

“Cut the crap and fight!” The reason Forlevia didn’t involve herself in the fight earlier on was that she was healing Floyd, Azure Dragon, and the others.

After making sure that those people were going to live, Forlevia was ready to fight.

“Evie, be careful! Xylas is frighteningly strong.” Floyd had regained some of his strength after getting healed.

Azure Dragon and the others were worried as well, so they all advised Forlevia to be careful.

Even though they knew Forlevia was strong, they reckoned Xylas was much stronger in comparison.

The crowd quickly opened up a path. At the same time, Xylas wasn’t interested in fighting the others anymore. Instead, he had his gaze fixated on Forlevia. According to Gloria, my technique originated from Evie, so I shouldn’t underestimate her.

“Fine! We’ll fight till the end!” Forlevia didn’t flinch, albeit in the face of Xylas’ relentless attacks. She then channeled the technique she had created.

Right then, Forlevia had integrated nature into her.

At that moment, it was as if she was everywhere, and it seemed like she had reached an unprecedented mysterious state.

Clang! Clang!

Meanwhile, everyone had gone to the underground defensive base to hide. At that moment, everyone's morale had hit rock bottom, and the atmosphere there was exceedingly depressing.

Floyd could be the one who was dealt the hardest blow.

Although he had already regained more than half of his physical strength, his mental state was far from okay.

Xylas' mocking and degrading words just kept surfacing in his thoughts.

"You're embarrassing your master!"

"You're worthless!"

"You're a piece of trash!"

For some reason, Gloria's voice was gradually overlapping Xylas', and the mockeries and taunts just kept ringing louder and louder in his head.

Like a tsunami, those voices were crushing Floyd from within.

"Argh!" Devastated, Floyd let out a scream.

In fact, he was even praying for Gloria. Please! Don't be involved in this. Otherwise, there's no way she can clear her name. It can't be her. Someone else must've leaked it. After all, everyone in the base knows about Evie's technique.

Forlevia explained, "During the battle, Xylas had absorbed the spiritual energy and the five elements in the surroundings for his own use. Luckily, I've recently learned something new about my technique, so I was able to appear from different angles at once. Otherwise, he would've defeated me."

With a darkened gaze, Levi asked in a deep voice, "If he could absorb life force and the five elements for his own use, doesn't that mean he was using your technique exactly? Why did you only say there was a similarity?"

"Daddy, the thing is that the technique I've created is aimed at integrating oneself with nature. At the same time, I'm abiding by the laws of nature. Xylas' technique was taking spiritual energy by force, and it was an aggressive technique. Although it's still possible to strengthen oneself in a short period, it threatens the balance of nature. I think this method will lead to terrible consequences!" Forlevia explained.

Levi nodded and glanced at Floyd from the corners of his eyes. At that moment, Floyd looked depressed, but he didn't show any abnormal reaction.

Levi

Xylas had absorbed the five elements for his own use, right? Does that have anything to do with the spiritual bones he had taken?"

Chapter 3559 An Intense Sense Of Danger

With those thoughts in mind, a name instantly popped up. Xylas. He's the only descendant of the Orthus and the Cetus, so he knows all the secrets of those two deviant clans. Besides, he had the balls to show up on his own to show off his strengths at the base. That's enough to show that the mysterious woman behind him had already gotten her hands on the deviant clans' spiritual ley lines.

The mysterious woman knows about the devouring technique, and Xylas knows where the spiritual ley lines are. Are they trading something with each other? Are they in an alliance? Could it be both? Did one of them recruit the other?

Right then, Levi's expression turned grim. If that's the case, things are looking really bad. Although I've yet to face that mysterious woman in battle, I still remember clearly how she used God Crusher to ambush Floyd. That was a strong blow. Besides me, I doubt anyone else could withstand it.

Even if Evie were to try to withstand it, she could end up getting heavily injured. If the mysterious woman ends up devouring the spiritual ley lines of both deviant clans, she could even beat me! Moreover, based on the experience I have after dealing with her multiple times, I can tell that not only does the mysterious woman have high combat prowess, but she's also highly intelligent.

Heck, it even seems like she has eyes all over the place. I won't be surprised if she has eyes on someone close to me. Without clues, it's going to be hard to guard against her. Since it has been a while since the time when she found out I was ambushing her, it's possible that she has almost achieved her goals! I must do whatever it takes to stop her.

Upon that thought, Levi uttered, "The Holy Guild has got to do everything it takes to locate the deviant clans' spiritual ley lines."

"Don't worry, Mr. Garrison. I'll do my very best."

A cold glint appeared in Levi's eyes when he uttered, "I swear I'm going to make you pay."

Meanwhile, somewhere near the Cetus' spiritual ley line, Xylas was heard sneezing a few times in a row. He even trembled because he felt rather chilly. Azure Dragon and the others must be cursing at me.

Gloria was sitting cross-legged as she made her final preparations for devouring the deviant clans' spiritual ley lines. I must take the magical herbs from the deviant clans before devouring their spiritual ley lines.

Initially, she planned to just devour their spiritual ley lines straight. However, she realized it could be a hard task. I shall strengthen myself so that I can devour their spiritual ley lines with ease. In order to do that, I shall take the magical herbs from the deviant clans.

"What do you have on your mind? Spill it," Gloria demanded in a stern voice.

Xylas then answered cautiously, "Master, there's something I don't understand. Would you enlighten me?"

"Ask away!" Gloria uttered.
