Chapter 3621

Metamorphosis

Just as Phoenix, Forlevia, and the others were discussing how they should continue their investigations, Kirin left the scene with an excuse. He was an impatient person.

Albeit skeptical about being able to acquire the truth out of Floyd, he figured that there was no harm in trying.

Meanwhile, Floyd was still obsessed with devouring the spiritual energy in the world.

Due to the surge in his overall strength, Floyd captured Kirin's presence when Kirin was still far away, to which he stopped his cultivation before looking toward Kirin indifferently.

"Floyd, I'm here only to ask you about one thing. Did you leak the technique Evie taught you?"

The question had Floyd's expression turned as cold as ice, but Kirin did not falter. Instead, he took another few steps forward.

"We've got our hands on solid evidence. If you are the one who leaked the technique to someone else, then we could basically conclude that the mysterious woman is Gloria."

The words came like a bolt from the blue, striking Floyd like a thunderbolt.

From afar, the vein was shimmering golden light. Even before Levi got close to the spiritual ley line, the extremely pure spiritual energy had already hit him with full force.

Moreover, that was only the beginning. As time passed, immense spiritual energy radiated from the spiritual ley line and spread across the surrounding.

The spiritual energy spread quickly, gradually finding its way to every corner of the world.

In the northern borders of Erudia, there was a small sect, and the disciples were going through their routine training in the morning.

The master, leading the disciples, suddenly felt endless spiritual energy flowing into his body.

Even with the slightest channeling of his techniques, he was capable of speeding up the energy absorption process.

What mattered the most was that the spiritual energy was far more condensed than before.

In fact, it was so condensed that his overall strength just advanced to the next level.

"Hurry! Absorb the spiritual energy with your technique!" The old master hurriedly advised his apprentices.

Perhaps, I could even push our sect to the next level using this spiritual energy eruption!

Gloria Is Gone Again

The dazzling golden light emitted by the spiritual ley line slowly dimmed as time passed.

On the other hand, faint dark gold energy emerged around Levi's body.

As he swiftly wielded his foundational technique, the spiritual energy was rapidly extracted and augmented before being used to improve Levi's overall strength.

Another few days later, the entire spiritual ley line darkened, and Levi gradually opened his eyes, for his body refinement had ended.

Without even using any techniques, Levi was displaying a powerful and unrivaled presence.

It was as though every single move of his exuded tremendous power that had the world tremble before him.

"Ha!"

With a roar, Levi punched toward the side, unleashing a powerful force that swept across the area.

The force was so strong that a massive vortex appeared around Levi.

Following right after the eruption of his power was a violent tsunami and a tremendous earthquake that rampaged across the region.

Smart Plan Of Kirin

As he devoured the spiritual energy, Floyd also noticed a unique phenomenon. Whenever he ran into a powerful foe, Floyd wanted to devour their energy from the bottom of his heart.

At first, such urge was too minimal to be detected. But as the time he spent cultivating the devouring technique increased, so did the urge.

What made him think that way even more was that during that one time when he personally talked to Forlevia, he actually had this strong urge to devour Forlevia's power!

At that moment, a chill ran down Floyd's spine upon capturing this urge, rendering him afraid of being alone with Forlevia for a very long time.

For a moment, Floyd thought that he had gone mad because of the intense cultivation he went through.

Nonetheless, Floyd finally gave in to the temptation of being able to get stronger in a short time. he slaughtered and devoured a couple of the Glorian Order's Fatalis Warriors wandering he committed such a monstrosity, the and I'm just recycling the trash by doing so, was constantly convincing himself with for the enemies aggressively with the sole purpose of killing and devouring a seed of sin in him, and and the others found a significant breakthrough while gathering receiving the Something was definitely off! and the others found Forlevia, thinking back to the time when Floyd shared everything about technique cultivation with not ready would descend into madness if they cultivated this technique. Apart from that, where did the saying that people who are not ready would descend into madness if they cultivated this technique come from? Hmm... According to our investigation, it probably happened when Floyd was

Chapter 3625

The Beginning Of Metamorphosis

Phoenix and the others approached Floyd once more. As for Floyd, he barely managed to suppress the evil urge to devour them after seeing how they were rich in power.

"Why are you here again?" Floyd asked calmly. On the contrary, Kirin's tone was fretful. He said, "Floyd, Evie just told us that the technique she created is incompatible with the apprentices of the Ecclesiastic Order. According to her, there's a flaw in her technique where those who cultivated the Ecclesiastic Order's techniques would descend into madness if they cultivated her technique."

Phoenix, too, chimed in, "That's right, Floyd. Thank goodness you didn't leak the technique to Gloria, or you would have put her in danger."

"We came to inform you about this as soon as we learned it. We were worried that your good deeds would go wrong." Azure Dragon and the others had gotten their stories straight, acting like they were doing this for Floyd's sake.

"Yeah, Gloria also realized..." Floyd replied out of instinct but quickly changed his word choices immediately after he noticed he spoke the wrong words.

“Thank you. I did not teach the technique to anyone else. The Ecclesiastic Order is once our enemy, and I wouldn’t make such a huge mistake because of my own emotions.”

Though Floyd acted honestly and straightforwardly when he spoke, he was still glancing at the others from time to time.

Fortunately, Phoenix and the others did not expose anything as they were prepared for this.

As Levi continued devouring the energy within the super-spiritual ley line, the power of origin that he extracted and converted started accumulating in his body.

As a result, his bones and veins were further enriched, and his overall strength increased tremendously.

Though this super-spiritual ley line in Yartran was not as powerful and terrific as the one underwater, it was still almost on par with it.

Levi felt that the golden energy entirely overshadowed his body as time passed.

He felt like he was floating in the air in one moment and was struggling in a swamp in the next.

It was just like a cycle that kept repeating itself.

Yet, with each cycle completed, Levi felt his strength was enhanced furthermore.

However, Levi, who immersed himself in the metamorphosis, did not know that everything was being observed by a pair of blue eyes in a secretive place.

The pair of eyes was as starry as the vast universe filled with stars, enchanting those who looked into the eyes.

Meanwhile, as their investigation continued in the base, Phoenix and the rest unveiled more clues that pointed to Gloria.

Race Against Time

The disbelief was visible in Gloria's eyes. She could not believe that Yartran's super-spiritual ley line's terrifying spiritual energy had completely dissipated.

"What's going on?" Gloria was instantly livid. Again, she quickly went to the depths of the spiritual energy to look into it and found out that, indeed, there was little spiritual energy floating in the air.

The energy depletion of the super-spiritual ley line was akin to a dried-up well—its vitality was gone.

Could it be that someone has sabotaged this place?

The gears in Gloria's head spun quickly.

The location of this super-spiritual ley line was quite hidden to begin with.

There were only a handful of people from Yartran who knew the exact location of the spiritual ley line.

Moreover, they were all high-rank officials of the Yartran government.

Therefore, it was unlikely that forces outside Yartran were the ones who sabotaged the spiritual ley line.

"It seems like someone has guessed that I've become more powerful by devouring, so they've destroyed these super-spiritual ley lines. It's to stop me from becoming stronger. Moreover, this person must be terrifyingly mighty as well. Otherwise, they won't be able to dissipate the spiritual energy even if they want to."

Chapter 3628 Control Over Levi

In the meantime, Levi was making plans as well.

Ever since the young theurgist told him that the mysterious woman had completed metamorphosis, Levi realized that he did not have much time to spare.

The success of the mysterious woman's metamorphosis meant that she could continue devouring.

Although he had used Yartran's spiritual ley line to strengthen himself, there was no guarantee that she would not find another spiritual ley line to continue devouring, especially since the spiritual ley line that the Ecclesiastic Order depended for their survival was no secret.

Therefore, it was highly likely that the mysterious woman would be targeting that super-spiritual ley line next.

It was not a good idea for Levi to target the Ecclesiastic Order right away, for that would allow her to reap the benefits instead.

Furthermore, the news of the Minister's upcoming return had reached Levi's ears.

Hence, Levi had to seriously consider the feasibility of succeeding in snatching the spiritual ley line from the Ecclesiastic Order.

Most importantly, the mysterious woman had gained much power after her metamorphosis. She might attack the base at any time.

Frankly, Levi did not dare leave the base for prolonged periods of time. Even though they had a safe house, it was not a perfect plan.

At the base, Levi announced several orders meant to strengthen the defense of the safe house.
Once he was done with that, he fell deep into his thoughts.

Like Gloria, the legendary world piqued his curiosity.

Thundera had disappeared without a trace for many years during his search for the Celestial Gate. Levi
could not help but wonder how powerful Thundera had become.

In fact, Levi anticipated the chance to exchange blows with those people.

That eagerness grew more intense ever since he metamorphosed with two super-spiritual ley lines, for
his confidence had skyrocketed after that.

In other words, Thundera's upcoming arrival was Levi's motivation.

Of course, to play it safe, Levi would be even more confident if he had another spiritual ley line for his
metamorphosis.

However, the Ecclesiastic Order's spiritual ley line was one that he could not go after at the moment.

"Are there any other spiritual ley lines that are on par with that of the Ecclesiastic Order?"

Levi sighed. He knew that he could only rely on chance to find a spiritual ley line like that.

was elated to hear

Floyd had been maniacally devouring energy lately. His strength grew by leaps and bounds.

He even took the time to head to Yartran to devour.

Although Levi had already dissipated the super-spiritual ley line’s energy, it was still the source of the re-emergence of spiritual energy. Hence, the spiritual energy nearby was much denser than in other places.

For an elementary-stage devourer like Floyd, the beneficial effects of the spiritual energy would be obvious.

What Floyd did not know was that Xylas had been cultivating in secret while Floyd was devouring spiritual energy.

However, Xylas never revealed himself. After all, Gloria had permitted Floyd to devour the spiritual energy; his duty was only to watch Floyd from the shadows.

Undoubtedly, he was tasked to get a hold of Floyd’s progress without any delay so that Gloria could continue using him.

Meanwhile, Forlevia continued to research the flaws of the extreme devouring technique.

To Forlevia's knowledge—as the technique came from her—a destructive technique that destroyed the balance of nature would certainly have its downsides, which she had to eliminate.

Furthermore, the key to gaining control was to use one's own technique book to control the space around oneself before one's opponent could release the greatest amount of energy.

An Ace Up His Sleeve

The Ecclesiastic Order were delighted ever since the news of Thundera's upcoming return with the mighty beings of the legendary world had spread.

The usual, gloomy scene was nowhere to be found, for their days of submitting to others were finally coming to an end.

They would no longer need to live miserably as outcasts.

The Glorian Order and Levi would never again be a threat to them.

Everyone was waiting for Thundera to return.

“We’ll finally be able to restore the Ecclesiastic Order’s reputation!”

“It’s time for the Ecclesiastic Order to exact our revenge.”

“We’re going to destroy the Glorian Order and stun Levi to his core. Finally, we’re going to stand tall and proud.”

Everyone was elated.

Soon, the determination in the hearts of the Ecclesiastic Order members would form.

In the Corpse Pit, due to Thundera and the Cetus’ imminent return, Gloria sent most of the elites away.

She wanted to gather as much information as possible before deciding her next move.

Therefore, she only kept a few Fatalis Warriors around to guard the base.

Of course, those men were mostly there to watch over Eusof, the Top Ten of the Ecclesiastic Order, and Sonja’s company.

Eusof stood up slowly and stretched slightly.

After ensuring that he had regained his powers completely, he strode toward the rest.

He split the remaining few pills into multiple portions and gave them to the Top Ten, who stuffed them into their mouths.

“Absorb the pill’s power using the technique that I’ll be teaching you. Remember to control your aura. Otherwise, your aura fluctuations will be easily detected by experts,” warned Eusof before quickly telling them the cultivation technique.

Feeling over the moon, the Top Ten quickly followed Eusof’s instructions.

Activating the technique quickly, they absorbed the powers of the pill into their body at rapid speed.

As the pill was limited and their spiritual bone had been dug out, they could only recover twenty to thirty percent of their peak condition.

On the other hand, Sonja managed to recover fifty to sixty percent of her original powers. It was evident how horrifyingly effective the pill was.

When everyone felt the aura within their bodies again, they were exhilarated.

“All of you have pretty much recovered, right?” asked Eusof solemnly after a long while.

A Massive Search

In the Glorian Order’s base in Corpse Pit, Gloria sat there with a solemn and grim look. The entire hall was dead silent.

Even the core council members of the Glorian Order did not even dare to breathe loudly, afraid that they would bring trouble to themselves if they infuriated Gloria.

Now that the Top Ten and Eusof had managed to escape, it was a huge humiliation to Gloria.

They knew too much insider information, especially her true identity and how she had tried to stir up trouble between the Ecclesiastic Order and Levi.

Once that news was spread, she would be the target of the Ecclesiastic Order’s and Levi’s fury.

Although Gloria was confident in her abilities, the Minister’s return was still an uncertain variable.

Furthermore, she did not know what the Cetus’ attitude toward her would be after returning.

Even if she had saved Xylas, the Cetus might not be grateful to her for it.

In addition to that, she had to prevent possible traitors from conquering the Glorian Order for themselves.

“This is giving me a huge headache!” Gloria massaged her temples gently. “What could be the problem?”
