### **Chapter 3681 Rendezvous With Master Hansel**

Although everyone knew that there were no eternal friends, only eternal interests, no one had expected the Ecclesiastic Order to work together with the Glorian Order and the Cetus in fighting against Levi.

Moreover, Gloria had also invited Hansel to meet her using the excuse of wanting to discuss their alliance. Hansel gladly accepted her invitation. In order to show his strength and bravery, he decided to meet her on his own.

When he arrived at the meeting location, Gloria had already been waiting for him for a long time. "Welcome, Master Hansel. I'm Gloria Gaston," Gloria greeted him coquettishly.

Instead of hiding her identity, Gloria had even deliberately dressed up for him when she found out that he was meeting her alone.

She was dressed sexily to showcase her alluring figure.

"You're too kind, Lord Gloria. Let's not be so formal, okay? We'll have a close relationship in the future." Hansel reached out his hand to hold Gloria's. At the same time, he even gave her a few pats on her soft hand.

Hansel was captivated by Gloria the moment he saw her.

In fact, he couldn't help but fall for her enchanting smile.

Chapter 3682 Gloria Is Too Charming

Seeing that the time was right, Gloria suddenly changed the subject. It piqued Hansel's interest immediately. My gut instinct tells me that the Cetus probably won't allow it. After all, Void Sect is only a mid-level sect, and the Cetus isn't particularly powerful or influential. Hence, I'm afraid they don't have the power to make that decision on their own.

And even if they did allow it, it'd be impossible for Gloria to become one of Void Sect's council members. But I'm different. I'm the young master of Bluesky Sect, so I call the shots. As long as she has some skills, it wouldn't matter if I brought her in as one of the sect's core council members.

"Okay! I'm also curious to know how strong you are," Hansel responded with a smile. Hearing that, Gloria unleashed her aura and displayed her ability to devour life force to a certain extent.

"You have the devourer spiritual bone?" Hansel's expression turned solemn instantly. "I'm not sure. However, I do absorb spiritual energy way more quickly than others," Gloria replied, deliberately speaking in an uncertain tone.

"Excellent!" Hansel responded, now looking overjoyed. He quickly took two steps toward her and grabbed her hand. Then, he said excitedly, "With talent like that, I can endorse you to join Bluesky Sect as a council member."

He held back from uttering another sentence, and that was that he wanted to become cultivation partners with her.

## Chapter 3683 Will Not Allow Anyone To Vilify Gloria

Over at the Glorian Order's headquarters at Corpse Pit, Gloria was happily sipping her tea. The plan for the three parties to form an alliance against Levi is complete. Now, the next step is to deal with Levi's faction.

"Master, are you planning to kill Levi with your own hands?" Xylas asked while grinning. She waved her hand dismissively and answered, "Killing him myself would be too easy. It'd be much more interesting to go about it another way."

The way I see it, I can crush Levi with my current capabilities without even breaking a sweat, but there's no need to get my hands dirty. Wouldn't it be way more interesting to use tricks and schemes?

"It's time to use that pawn of mine, Floyd. The Demon Incantation must've completely taken root in him by now," she mused with a smirk.

"Master, how can I be of service?" Xylas asked eagerly.

He knew full well that that was a habit of Gloria's. She particularly likes the feeling of using ploys to trap others within the palm of her hand and toying with them. However, I didn't think she'd still refrain from killing Levi herself. She truly is a master with unparalleled wisdom.

Gloria handed Xylas a slip of paper. "Go and make sure this information gets to Phoenix and the others."

When he saw that the paper contained information on her true identity, he suddenly guessed what she was planning.

She was fanning the flames of conflict and sowing discord!

Each of them had blood dripping from the corners of their mouths. It was clear they had all sustained rather severe internal injuries.

"All of you, listen up. If anyone dares to talk about this nonsense to Master before I complete my investigation into the matter, don't blame me for killing that person. If Gloria is indeed the lord of the Glorian Order, I'll atone for my sins with my life."

Snorting coldly, he turned and left, eager to meet with Gloria. I swear I'm going to disprove all these rumors.

Azure Dragon and the others clenched their jaws angrily as they watched Floyd leave, but there was nothing they could do.

Floyd's strength completely outstripped their expectations. In fact, it was at a level where he could take them all down easily.

Floyd tried contacting Gloria through various methods as soon as he left the base. However, he did not receive any response at first, which worried him to no end.

After about half an hour, she finally gave him detailed coordinates on where to meet, and the delighted Floyd immediately rushed to the location at top speed.

After hurrying all the way there, he was about to reach where Gloria was supposed to be when he sensed a sudden aura shift and heard the sounds of a fight.

#### Chapter 3685 Alliance Formed

Levi had no idea Gloria had stabbed him in the back as he was still busy upskilling himself and his subordinates. Meanwhile, Bruno and the other eighty members, plus Wynona, made full use of Xyperia's super-spiritual ley line.

Digital God even used the new detector he had invented to locate a few other large spiritual ley lines. Though these spiritual ley lines were no match for Atlantis' super-spiritual ley line, they were sufficient for Wynona and the others.

Digital God was so efficient that he even detected a few other spiritual ley lines of different sizes. Levi took the opportunity to increase his capability even more.

"Mr. Garrison, I think I detected a divine ley line and a holy ley line," Digital God updated Levi when the latter was focusing on his cultivation. "Great! You did well, Digital God!" Levi was extremely pleased.

As the final battle was around the corner, he and his people could make good use of the divine ley line and holy ley line to advance their cultivation.

He was also eager to know how far they could progress.

After investigating the power of those few men from Bluesky Sect previously, he found out that, at this stage, they were no match for him.

With the help of the divine ley line and holy ley line, he would be able to enhance his power further.

As soon as he metamorphosed with the ley lines, he would no longer view Void Sect and the Glorian Order as a threat, even if they decided to become allies.

Even the safe house, which they thought of taking shelter in during the invasion by Kenfort's mighty beings, might not be able to keep them safe for long.

The more Zoey thought about it, the more helpless she felt, but as the leader of the bunch, she had to stay strong to hold her people together.

It would be disastrous if the members of the entire base failed to rally together. "Any news from Dad?" Forlevia asked. Zoey shook her head and said, "Not at the moment. I have no idea what that man is doing."

Zoey felt powerless when she talked about Levi. I might be his wife, but I don't even know his whereabouts. How ironic. "I'm sure he has his reason for not telling us where he is. He might give us a surprise when least expected!" Forlevia comforted.

Zoey could not help but roast Levi. "He better not give us a heart attack." The small talk she had with her daughter eased the tension a little.

Yet, some people in the base were not as optimistic. They began looking for help because they felt Levi was not dependable anymore.

People unfamiliar with Levi's character would suspect he had bolted. "If Master doesn't return, are we just going to sit here and do nothing?"

#### Chapter 3687 Levi Is Acting Weird

Zoey and Forlevia had dived into the final stretch of preparation since the news about the three parties allying against Levi reached the base.

It was a moment of unprecedented stress for almost everyone at the base. No one smiled like they used to, and many were pessimistic about the outcome of the impending war.

On the contrary, the recently-returned Levi seemed unusually relaxed, so much so that people started gossiping among themselves. "It seems like Boss is losing it. I guess he's also at his wit's end. He's acting calm to ease the tension here," someone said.

"I wonder why Boss refused to work with Bluesky Sect last time," someone else chimed in. "I know, right? Boss has always been bold and decisive. Since when did he become so timid?"

"The Levi I know is someone who would rather die standing than on his knees." Zoey was not surprised when she heard remarks like this, for she, too, had realized that Levi was not himself.

Not only that, she realized that those who returned to the base the day before, including Bruno and Wynona, all looked at ease as well.

"Levi, you should at least come up with a plan to tackle the alliance's army," Zoey said to Levi after she found him. She saw the need to remind Levi of what he needed to do.

After all, the upcoming war concerned the lives of everyone at the base, many of who were Levi's friends and family.

Although Floyd might still lag behind Xylas in terms of combat prowess, Floyd already had what it took to escape unscathed. That was enough for Floyd to feel confident and proud.

He had improved by leaps and bounds over a short period, and Floyd felt no one in the entire base was his match now. His improvement earned him Gloria's acknowledgment, which made Floyd even more optimistic and proud.

"Gloria, thank you for putting aside time to train me," Floyd said gratefully. "Don't mention it. You're talented, to begin with, or else you wouldn't be able to reach this level with just me teaching you," Gloria replied, waving her hand.

Floyd's face lit up when he found out that Gloria thought highly of him.

"By the way, Floyd, you should return to the base soon. Your master and the others might worry about you. I'll be able to keep tabs on any development in the Ecclesiastic Order over here. I'll immediately inform you about their plans if there's anything," Gloria added.

Touched, Floyd teared up upon hearing that, yet he suddenly felt bitter and spiteful as he recalled how Levi had injured Gloria without first finding out about the truth.

More precisely, he felt a deep sense of hostility toward Levi.

## Chapter 3689 Santino Joining The Team

Over on the other side, Gloria had prepared various magical herbs for the Void Sect.

Those herbs were looted from around the world when Bone Grandmaster sought the super-spiritual ley lines. Although he did not find any impressive spiritual ley lines, he managed to get his hands on many treasures.

Gloria carefully picked the most precious ones from the haul and offered them to the sect. As predicted, Grant and the others were impressed by the gifts.

As Paladins from a significant sect in Kenfort, they had always looked down on the so-called "fighters" from the mundane world, and neither did they expect anything good to come from that world.

The truth was that many from the Void Sect were aware that Grant and other Paladins had followed Wade to the mundane world.

Although the sect approved of their departure, their actions were still closely monitored by the sect, so after Grant received those gifts from Gloria, he did not dare to take everything for himself.

Instead, he informed Void Sect's council members of all the details.

Yet, he did not expect such a massive response from the council members.

The vice sect leader immediately dispatched more people to assist him and even sent Santino, one of the seven strongest Paladins in the sect, over.

"I think that's a good idea!" Wade agreed before anyone could speak. Since the Ecclesiastic Order and Levi had worked together to wipe off the two major deviant clans, Wade hated them to the core.

Previously, he had only worked with them out of desperation. With Santino joining them, Wade felt he no longer had to fear retribution if he were to exact revenge on Bluesky Sect.

Gloria also agreed to uproot Thundera and the others because it was to her benefit. Besides, she was aware that Kenfort's fighters would leave someday. When that day arrived, the strife between her and the Ecclesiastic Order would still exist.

Although she could still invade Kenfort with her ability, the Glorian Order was still the product of her hard work. It was like a child to her, so Gloria could not bring herself to put the whole order on the line.

Of course, Gloria had another point of consideration: the significant sects in Kenfort could choose talented fighters from the mundane world.

If she could preserve the Glorian Order, she would have a foundation to work on in the future and also to select her own men from.

After all, to the sects in Kenfort, Gloria was still an outsider no matter what. wanted to carve out her own space in that world, not only would she need to be Bluesky Sect fight Levi while we wait to Hansel might be thinking the a plan,” it?” Grant was against Levi,” but soon, they understood what Gloria meant and those few days of intensive training with Gloria, Floyd caught resources, Floyd devoured their power to overcome his psychological barrier and could devour enemies.
