Chapter 3741 Unable To Find Kenfort

The crowd stopped fighting upon hearing Levi's words and stepped back to make way for him. With the fighting ceased, the living corpses continued their charge forward fearlessly. Levi roared, "Scram!"

Channeling his basic technique, golden halos soon enveloped him, making him look like a Deity. He then aimed a punch at the countless living corpses.

One punch was all it took to change the color of the skies as the dark clouds that were hanging in it were blown away. The violent wave of energy that came with Levi's punch was like a hurricane that threatened to wipe out everything in front of it.

Crack! Countless corpses were sucked into the vortex and were instantly reduced to piles of dust. "Again! I'm going to blow you all to smithereens!"

Levi threw several punches in a row, scattering the dark clouds that were looming over Corpse Pit. For the first time in forever, the sun's rays were able to hit the land.

Not even a single living corpse remained after Levi's attack as they were all reduced to dust before drifting away with the wind. A majestic-looking hall soon came into view. It's the Glorian Order!

The words "Glorian Order" could be seen inscribed on the plaque that was hanging in the middle of the hall. Levi said in a deep voice, "We're here. Spread out and find them."

"Gloria, Santino, Wade, Xylas, I shall come after you even if I have to travel to the end of the world," Levi vowed to himself. A murderous intent rose in him and formed a terrifying energy vortex that sent the dust flying.

He was sure he could find the legendary Celestial Gate as Thundera and Wade could find it back then. Looks like the so-called entrance to Kenfort is hidden and resembles a door formed by energy. It is the energy wall that stops the spiritual energy from leaking out. Kenfort is located behind the entrance, and beyond it is the mundane world.

Levi was deep in thought when Wynona and the others caught up to him. He left signs throughout his journey when he was tracking the enemy down earlier.

In the vast desert, Levi was the only one who released his aura. Thus, Wynona and the others quickly determined his location. "Master Garrison, have they escaped?" Bruno asked in a deep voice.

Levi nodded and replied, "Yes, they have Santino as a guide. I'm afraid they have already escaped into Kenfort." "Levi, Santino suffered a serious injury after you fought with him. I heard that his mentor is vice sect leader of the Void Sect. He might seek revenge at a later time," Mia reminded him solemnly.

Chapter 3743 The Real Kenfort

Santino, Gloria, and the rest sped ahead at full speed, accompanied by a few trusted apprentices of Gloria.

The apprentices were talented and cultivated the extreme devouring technique. That was why they managed to catch up to Santino and the others.

Once they stepped into the desert, Gloria tried to remember the route to Kenfort. However, she soon gave up after realizing the so-called Celestial Gate was located in an ancient formation.

The ancient formation was glowing enchantingly. One would need to be exceptionally strong to touch the formation.

Santino explained, "Only those who are strong enough are capable of activating the formation and entering it. Ordinary people could only watch it from afar even if they discovered it by coincidence."

Gloria took notes silently and listened carefully as Santino continued explaining the situation.

"See those people lying on the ground unconscious inside the ancient formation? They are capable fighters from the mundane world. After finding the Celestial Gate and activating the ancient formation, they couldn't figure out the way in and got stuck in the formation. Kenfort would send a guide to check the place regularly to bring these people into Kenfort."

Hearing that, Gloria turned to look at Wade.

Chapter 3744 The Power Of Void Sect

"For example, Void Sect is built above several divine ley lines, three holy ley lines, and countless small spiritual ley lines," Santino revealed cheerfully.

Gloria couldn't help but praise, "Indeed, the Void Sect has rich cultivation resources." Her yearning for Kenfort intensified after she learned that.

"Empyrean, how long do we have to travel before we reach Void Sect?" Xylas asked excitedly. He was trained in the weaker version of the extreme devouring technique and couldn't stop himself from devouring the surrounding spiritual energy.

Gradually, he realized his power had increased and grew increasingly elated. Santino replied sternly, "We need to travel for around half a day."

Finally, Santino could relax after they entered Kenfort. There was no way Levi could find them here. Even if he were strong enough to activate the Celestial Gate, it would take him ages to find the exact location.

Moreover, if Levi were capable enough to enter Kenfort, he wouldn't be strong enough to cause any trouble here. No one spoke the entire journey. They finally arrived at the Void Sect when it was nearly noon.

The sect's headquarters was built on top of dozens of mountains. The ancient halls looked grand and were surrounded by mist.

There were also energy fluctuations from the formation encircling the sect.

The energy fluctuations glowed dangerously under the sunlight.

Chapter 3745 Vengeful Man

Santino might be humiliated and frustrated, but Gloria had a completely different mindset. She let out a regretful sigh. Everything was under my control, so I didn't expect to become Levi's pawn without realizing it.

Gloria's proudest idea was using Floyd as a pawn. Alas, Levi saw through her and played along with her scheme. She nearly lost her life in the end. How did Levi manage to increase his strength?

Gloria couldn't figure out how he did it. Floyd told her previously that Levi cultivated the basic technique. It would take a long while before one could see the results of the technique, but Floyd, Phoenix, and the rest still chose to train the technique Forlevia came up with herself.

I should've asked Floyd to get me Levi's technique book. Gloria was filled with regret. I might be able to find out what happened if I could analyze his technique thoroughly. Wynona, Mia, and the rest were trained in it. They were exceptionally strong in the fight. Wait a minute. Did Levi and the rest train Forlevia's devouring technique in secret? An idea suddenly popped up in Gloria's head.

She had benefited greatly from the extreme devouring technique. It would be impossible for her to achieve this much in a short amount of time without its help.

Levi is a physical cultivator. His spiritual bone can handle so much more than ordinary cultivators. The most significant disadvantage of the extreme devouring technique is that there is a limit to one's devouring. Otherwise, I wouldn't have to use the Heavenly Thunder in the Esoteric Guild to become more powerful. However, this won't affect a physical cultivator. That should be it.

Chapter 3746 What Happened To Floyd

Gloria knew what Santino had in mind. He didn't ask for his sect's help as he was humiliated after getting defeated by Levi.

He might be afraid that the vice sect leader would reprimand him. Santino went to the mundane world personally but got defeated there. He had brought shame to the Void Sect. I should hide the God Crusher well. It isn't time for me to offer it as a gift yet.

Gloria used her power to hide God Crusher. She was worried that Santino would take the credit if she were to offer God Crusher rashly. There wouldn't be a chance for her to gain success if he were to do that.

"Levi, just you wait. The day I reach the top position in the Void Sect is the day you die," Gloria declared. Meanwhile, Levi failed to track Gloria, Santino, and the rest down. He had no choice but to bring his subordinates back to the base.

The follow-up work at the base reached the end, and the casualties had been calculated. Levi read the list and realized that one-third of the elites in the base had lost their lives, and the remainder suffered from injuries of varying degrees.

Heavenly League, led by Daxon and Edmund, lost two-fifth of their men, and the rest were injured. The eighty elite students under Bruno's lead survived the fight. However, ten of them were seriously injured, and fifty of them sustained minor injuries.

They tried to stop Gloria and Santino from leaving but ended up with serious injuries. The damage was not as serious for them as the students' strengths had increased. On the other hand, they were also wearing battle suits and using new weapons.

Levi realize how important battle suits and weapons were. Thus, he decided to do his best

Chapter 3747 Floyd Regrets

In a secluded area on the base, Floyd was slumped on the ground in dejection. He stared blankly ahead as though he was a soulless body. Levi visited him and even removed the Demon Incantation plaguing his body, but they didn't speak a word throughout the process.

Floyd was ashamed, and Levi didn't know what to say to him. To be exact, he hadn't figured out how he wanted to punish Floyd. Floyd was controlled by the Demon Incantation when he tried to assassinate Levi, but before that, he did many things when he was conscious.

Many people did their best to change his mind, but their advice didn't work. Floyd insulted them and even got into a fight with them.

He had committed a grave mistake, so there was no way he could elude responsibility. Floyd sensed the change in Levi's attitude, but he didn't blame the latter at all.

He was quite surprised that Levi didn't kill him straight away. It was actually torturing to be alive. Floyd sighed. Regret overwhelmed him when he recalled the past.

"Gloria isn't a good person. You should stay away from her, or she'll kill you one day." "Gloria is involved with many men. Floyd, please come to your senses quickly!"

Chapter 3748 How Could She Do This To Me I'd rather get killed back then than have to suffer after learning the truth. Floyd gave a long sigh as his dejection intensified. Master had the chance to eliminate

the threat before it got too big. I was the one who exposed his plan unintentionally, so Gloria got to escape in time. If I hadn't done that, the following events wouldn't have happened.

Floyd stared at the remains of the base. The stench of blood still lingered in the air. Despite not asking about the casualties, Floyd knew that many had lost their lives. He could've stopped Gloria but instead exposed their secrets again and again. As a result, Gloria got her way again and again.

Thud, thud, thud! Footsteps sounded. Floyd raised his head and saw Sonja, Eusof, and the like doing physical therapy not far away. They had lost their cultivation skills but managed to recover enough to walk around, thanks to the miraculous medicine provided by Levi.

It was my fault they lost their cultivation skills. If I hadn't told Gloria about them recklessly, Xylas wouldn't have captured them quickly.

Floyd lowered his head. At this moment, he desperately wished for the ground to swallow him up.

After getting caught, Sonja accused Gloria of being the leader of the Glorian Order.

If he chose to trust them, the base could've devised preventive measures in time.

They could even take the initiative to attack and destroy the Glorian Order.

That way, the battle wouldn't have happened, and the elites on the base would still be alive instead of sacrificing their lives.

“She’s my girlfriend. Why would she do that to me?”

Floyd recalled how they had s*x that night. He was baffled. If Gloria didn’t have any feelings for him, she wouldn’t have handed everything to him. I’ll have to figure that out before killing her. Floyd made up his mind. At the same time, Levi started assigning the tasks.

“Digital God sent news that he discovered a few divine ley lines and one holy ley line. You’ll head there in batches to cultivate. I’ll instruct you personally. Wynona and Mia, you’ll be at the base with Bruno and the students. Remember to put your guard up and prevent the Glorian Order from making a comeback. If fighters from Kenfort launch an attack, don’t fight against them. Hide in the safe house as quickly as possible.”

Wynona and the rest felt stressed out as they were no match against the real fighters from Kenfort.

Nevertheless, they knew Levi had no choice but to make this arrangement.

Levi’s strength kept increasing, so he no longer needed the help of divine ley lines to increase his strength.

He had to rely on holy ley lines to attain evident results. Now that a holy ley line had been discovered, Levi must leave the base.

Chapter 3750 Entering Kenfort

Looking at the unwilling faces of the elites of the Ecclesiastic Order, Levi decided not to force them. Instead, he said in a deep voice, "All of you take cover."

"Yes, sir!" Without any further hesitation, the elites of the Ecclesiastic Order immediately retreated. Very soon, they were thousands of meters away.

Levi found it hilarious. It's only a sand dune. Why are they so frightened? In the past, I have never noticed anything strange here. Does this only happen by chance?

Levi was a little puzzled. The last time he gave chase to the desert, he did not encounter such a peculiar sight even though he conducted a large-scale search.

Otherwise, he would have checked the place out a lot sooner.

Levi leaped into the air and landed in front of the strange sand dune.

So, it's true that the energy fluctuation is caused by the formation.

After taking a closer look, Levi detected an endless flow of energy fluctuation near the sand dune.

Furthermore, there was a rhythm to the layers of fluctuations. It acted like a well-designed energy shield. That was why the sand dune was not affected despite the storm.

Let's see how strong this formation is.
