Chapter 3801 To Kill And To Steal

Levi did not reject Cheriette's suggestion. Of course, he did not need anyone to take care of him. Instead, he was planning to find out more information from those people.

On the other hand, Cheriette had two reasons for making that suggestion. One was because she was interested in the magical herbs Levi had, and another was because her team had suffered injuries to varying degrees of severity from the beasts.

Moreover, the beasts in the Silential Restricted Zone were mighty and fierce, especially the ones close to the dragon ley lines. Those were creatures that her team would not be able to deal with alone.

Despite looking like a rookie from the mundane world, Levi was unscathed. Even if it was simply his luck, it would be good to keep him by their side.

At the very least, having him with them would mean having another helping hand. If he truly turned out to be useless, they could still use him as bait.

This man seems average at best; he's nothing like an elite at all. His questions, especially, sound like things only a rookie in Kenfort would ask, Cheriette mused.

The members of Astre Lune Sect made no attempt to hide their scorching gazes. They believed the magical herbs could help them take their cultivation to a higher level.

Now that we no longer have to worry about the beasts from the Silential Restricted Zone, we can just take this ignorant fool out and claim the magical herbs for ourselves!

Levi broke into a slight smile when he saw the hostility in their eyes. They were about to make their move when Cheriette stopped them. "Do not act rashly! I will decide our next move after I assess the situation!"

Although they were really tempted to attack Levi, none of them dared disobey Cheriette's orders. After all, as an Emphyrean, her authority was equal to that of their sect leader while they were out and about.

"What do you plan on doing in Kenfort?" Cheriette asked. "To broaden my horizons and become stronger in the process. It's boring being invincible in the mundane world!" Levi replied with a smile.

Cheriette nearly burst out laughing when she heard the last sentence.

Cheriette felt as though she was educating a bumpkin on the ways of the city, and she enjoyed the sense of superiority that came with it.

Since Levi was clearly interested to find out more, Cheriette continued her explanation, "We use spiritual energy crystals as the main form of currency here in Kenfort. You can trade them for items like magical herbs and technique books.

While there are tons of spiritual ley lines in Kenfort, the high-level ones have all been occupied by the powerful sects. In order to obtain resources for their cultivation, smaller sects and rogue cultivators need to trade items for spiritual energy crystals."

As Levi took a closer look at the spiritual energy crystals being traded in the marketplace, he noticed that they were mostly crimson in color.

“Most of the spiritual energy crystals produced come from divine ley lines. They are refined and processed before being traded here. Occasionally, you’ll come across spiritual energy crystals made from holy ley lines and dragon ley lines, but those are only owned by the powerful sects,” Cherie added while retrieving a shiny, purple-colored spiritual energy crystal from her pocket.

Levi realized that it looked similar to the dragon ley line ores he had used for his metamorphosis.

“Since you’re not that powerful, you can stay here and wait for our return, Levi,” Cherie said solemnly. Of course, she wasn’t genuinely concerned about Levi’s safety. As the battle for the dragon ley line was bound to be chaotic, she believed that a weakling like Levi would only embarrass them and ruin Astre Lune Sect’s reputation.

“This is a rare opportunity for me to broaden my horizons. I’ll follow you from afar and put on a disguise to hide my affiliation with the sect. That way, you don’t have to worry about me ruining your sect’s reputation,” Levi reassured her. His response was typical of a newcomer to Kenfort.

Since Cherie had no reason to refuse his request, all she could do was remind him sternly, “All right, then. Make sure to be careful out there, okay? We might not be able to protect you if things get chaotic, so follow us at your own risk.”

Levi nodded. “Got it. I’ll just hide really far away if things start to go south.” The sect members burst out laughing when they heard what he said. Because of how funny he was, they were starting to like him as the joker of the group.

Levi breathed a sigh of relief when he saw them warming up to him. A large dragon ley line and Void Sect in the same place? There's no way I would sit this one out!

Not wanting to waste any more time, Cherieette quickly led the group over to Tragora Mountain. As they happened to be quite near the mountain, they arrived in just a few hours.

"Deal! I hope you'll retain that stubbornness of yours so I can humiliate you even more when you lose!" Jayceon replied before walking away with the Septistar Order's elders. Astre Lune Sect's members all had gloomy looks on their faces as they watched the Septistar Order members leave.

"Empyrean Cherieette, the Septistar Order has about four or five elders on their side. We may not have the upper hand if we engage them head-on."

"Screw having the upper hand! We might all end up dead if we fight them!" "It'll take some time before our backup arrives. What should we do?"

The members of Astre Lune Sect sank further into despair as they discussed the situation. The Septistar Order and Astre Lune Sect have been rivals for many years. With the Septistar Order having sent their elders, we're at a significant disadvantage!

After giving it some thought, Cherieette said, "We could join forces with Void Sect to take them down. It's obvious that the Septistar Order is determined to obtain the dragon ley line."

"It is indeed possible for us to form a temporary alliance with them, but we must watch out for others who may try to catch us off guard."

“That’s right! A large dragon ley line is capable of supporting a medium-sized sect. We can’t trust Void Sect fully either.”

He was accompanied by Gloria, Santino, Heptino, and many other elders. Void Sect was going all out by sending its elites after the dragon ley line.

“Halt! The dragon ley line is somewhere in this area!” Heptino called out to them all of a sudden. Everyone stopped in their tracks and looked at him excitedly.

According to the information from our sources, the large dragon ley line in Tragora Mountain is far more powerful than the one we have! Our sect will receive a huge boost in power if we can claim this dragon ley line for ourselves!

“It won’t be easy finding the dragon ley line in this dense forest. We can’t cause a huge commotion, or we’ll draw the attention of the other sects. Narrow down the search radius, Heptino!” Primo ordered after giving it some thought.

Heptino nodded and did as told. After searching for quite some time, he was able to determine that the dragon ley line was located southwest of the mountain.

“Follow me!” Heptino said as he led the way.

Chapter 3807 This Is Our Chance

Primo wasn't about to just hand over a large dragon ley line that easily. A terrifying murderous aura erupted from his body as he unsheathed his sword.

"I'm in the mood for a massacre today. Those of you who have a death wish may come forward!" His clothes, which were as white as snow, billowed in the wind while an energy barrier coated the edge of his sword.

Despite how intimidating Primo looked, the idea of owning the large dragon ley line was so tempting that the other sects all refused to back down. They were determined to go all-out, even if the odds were not in their favor.

"This guy is very powerful, so it'll be hard for us to win if we take him on separately. How about we team up and split the dragon ley line between us afterward?"

"That sounds like a great plan. We'll have a much higher chance of success if we combine our forces."

"Then what are we waiting for? Let's attack together!"

Having arrived at a consensus, the three briefly discussed their strategy and launched a simultaneous attack on Primo.

Instead of springing into action, Primo simply let out a sadistic chuckle as he said to the Void Sect members, "Stay put, all of you. It has been ages since my sword tasted blood. Today, I shall let it have a feast!"

Those words had barely left Primo's mouth when he disappeared in a flash, leaving behind only an afterimage of himself.

Chapter 3808 Meeting His Match

I wasn't expecting Void Sect to bring out the big guns like this. Astre Lune Sect and Void Sect are on very good terms with each other. Sir Alistair even attended Primo's wedding ceremony to give him his blessings in person.

If we can work together with Primo and his group, the Septistar Order won't stand a chance! Void Sect is bound to be targeted by all the other sects now that it has found the dragon ley line, so we'll have a good reason to ally with them. Once our backup arrives, we'll be able to ensure Astre Lune Sect gets its fair share of the dragon ley line!

With that in mind, Cheriette ordered, “Everyone, full speed ahead!” Levi was particularly excited after hearing what they all said earlier. I didn’t think I’d get to see Primo, Gloria, and the others so soon!

Gloria needs to be punished for the horrible things she has done, and I will be the one to administer that punishment! I’ll make her suffer so much that she’d wish she were dead! As for those Emphyreans... I only intend to kill Santino, but I won’t hesitate to finish the others off if they intervene.

I sure hope they’re strong enough to at least put up a fight, though. Cheriette and her gang have provided me with a lot of useful information on the seven Emphyreans, including the extent of their abilities. Were I to fight them before I first used a dragon ley line to metamorphose, I’m sure it’d be quite difficult.

Chapter 3809 Takeover

A young man in a black robe mocked, “This dragon ley line now belongs to Eclipse Academy. Do you have a problem with that, Primo?”

Even though he addressed Primo as such, there wasn’t even a hint of respect visible on his face. The edge of Primo’s lips twitched. He felt incredibly helpless all of a sudden.

Not only could Primo and his people not afford to offend Eclipse, but they were also far weaker than the academy members. “I am acquainted with Mr. Easton of Eclipse. If you—”

“Don’t try that gimmick with me.” Before Primo could finish his sentence, he was interrupted by the leader of Eclipse Academy. “What makes you think having a mere branch master as your backer holds any sway in this situation?” the man in the black robe sneered.

"If not for the relationship Void Sect has with Eclipse, do you think you people can leave this place alive? Stop wasting my time and get out of my face before I change my mind. Otherwise, don't blame me for being merciless."

The expressions on the Void Sect members shifted drastically. They were furious, but they didn't have the guts to voice their anger. Gloria had planned to use violence if things didn't turn out well. However, after she learned about the true background of her opponents, she dared not act rashly anymore.

Not long after, the members of Astre Lune Sect, as well as other sects, arrived at the dragon ley line. What they saw there was a field of corpses and the absence of the Void Sect members.

It took them a while before they realized the dragon ley line had been occupied by Eclipse Academy.

"Eclipse Academy is terrifyingly strong. If Void Sect was the one that seized the dragon ley line, we might have a chance to win."

"Yeah. I don't think Eclipse Academy can be defeated even if multiple sects work together." "That may be true, but still, I'll be lying if I say I'm not bitter about someone else getting a dragon ley line of that scale."

"It's better to be bitter than to be dead. Take care, everyone. We'll be leaving first."

Discussions could be heard. The members of Astre Lune Sect, especially, had come in high spirits, yet they had to return in disappointment. They had planned to borrow Void Sect's strength to battle against the Septistar Order.

Based on the current situation, however, it seemed that their plan had fallen apart. If Void Sect had been the one to claim the ley line, they could've asked for a share.
