Chapter 3841 A Stressed Out Gloria

Gloria immediately thought of the mysterious Dark Demon. She heard that the members of small sects who had been annihilated were sucked dry of their powers and blood essence.

Floyd was the first person who came to her mind, especially since she had heard nothing back from the elites she had arranged to monitor Bluesky Sect.

Gloria reckoned it was very plausible that something untoward had happened to them.

This also made her more certain of her own surmise. After all, she was the one who guided Floyd on the path of cultivating the extreme devouring technique.

From the pace he's devouring the powers and blood essence of others, it's apparent that he's looking to elevate his cultivation levels in the shortest time possible. Is he trying to seek revenge on me?

Gloria sensed danger at that thought.

Even though her joint cultivation practice with Primo and the consumption of dragon ley line had elevated her level of cultivation, Gloria knew for a fact that Floyd had taken a more extreme measure in elevating his cultivation, and he could surpass her in no time.

As long as Floyd still roamed free, he would pose a serious threat to her. Hence, she wanted to nip the problem in the bud as soon as possible.

Gloria sent Wade and Xylas to track Floyd down, emphasizing

Chapter 3842 Divine Seeds

Levi knew that Gloria was Floyd's Achilles' heel. Floyd's love for her had morphed into resentment when she had betrayed him.

To some extent, this would make Floyd take more extreme measures to level up his cultivation so that he could take revenge against Gloria.

Adding on top of the fact that Kenfort was abundant in resources vital for cultivation, the rapid pace at which Floyd leveled up might have contributed to his psychological changes as well.

As such, it was not surprising that he became the Dark Demon.

In contrast, Gloria dared not take such an extreme approach. After all, she was among the high-rank officials of multiple medium-sized sects, and there was no need for her to be hasty in pursuit of her own interests.

"Lord Garrison, what do you plan to do?" Cherie asked carefully.

Levi did not reply to her. He was overcome with a myriad of different thoughts. To put it bluntly, he did not have an immediate solution as well.

Even though Levi did not wish to see Floyd get carried away with his demonic cultivation, he knew that he could never interfere with Floyd's decision.

However, if Floyd were to offend some major powers along the way, his life might be at risk, and that was something that Levi did not wish to see.

Chapter 3843 Staying Alive

Levi ordered the apprentices from Bluesky Sect, who were familiar with the surroundings, to lead the way to track Floyd down.

They searched the stone forest that was deep within the woods. However, they could not locate Floyd.

After that, they went to a couple of places that Floyd frequented. However, the man was still nowhere to be found.

Floyd was a shrewd man. He had left the stone forest that very same night when he was escaping from Levi. Not only that, but he also anticipated that Levi would start to investigate those close to Gloria. After all, those people had all practiced the extreme devouring technique.

Floyd knew that his action of devouring many people's powers at Yannopolis would surely grab Levi's attention. He did not wish to let Levi see his disheveled state.

When he was on the run, Floyd had heard the news about Eclipse Academy as well.

The vice-chancellor, Yunus Lohse, and over a dozen of other elites at the academy had been killed. This had incited an uproar from the public, and even Eclipse had sent out a number of Paladins to investigate the matter.

had even given out a stern order to track down the culprit behind the massacre and bring them back to the Eclipse headquarters so that the

Quirina dared not defy Levi's order. Thereafter, Cheriette led Levi to the headquarters of Void Sect. Even though the two of them were not slow, they still had a long way to go before they could get there.

After a few days, the two of them arrived in the suburb of a medium-sized city. However, they bumped right into the Paladins of both Eclipse Academy and Eclipse. It was apparent to them both that the Paladins were frantically searching for someone.

Cheriette recognized them and hurriedly said, "Lord Garrison, they're the Paladins from Eclipse Academy. The only female Paladin in the group has a much higher status than Yunus. Let's go into hiding for the time being!"

Cheriette was so nervous that her voice was quivering. It was apparent that she was terrified. Eclipse was a formidable name to many, and any Paladin could easily crush a sect like Astre Lune Sect.

"What are you afraid of? They can come at us if they have a death wish," Levi said nonchalantly.

Cheriette's lips twitched as she realized that she had just witnessed another side of Levi that she had never seen before.

Not only did the Paladins enjoy an undisputable reputation, but they were also highly accomplished in their cultivation.
