Chapter 3931 Gaining Control Over Void Sect

Even the ultimate weapons crafted with low-quality materials in Dragon's Grave Valley are ten times more powerful than the ones sold by Prime Association. After all, the ones they have were crafted with ordinary materials from Astre Lune Sect. Sylvan made it clear that the only way to upgrade one's commercial level is by increasing the contribution amount or transaction volume.

It's true that I now have Astre Lune Sect as my base, but it's far from enough. It'll be a lot better if I can ally with forces like Prime Association to gain a strong foothold in Kenfort.

"Lord Garrison, Heavenly Thunder is going out of control. How long do you intend to stay in Dragon's Grave Valley?" Cherie asked.

"I estimate it'll take about two months to forge all the ultimate weapons. Refining the Divine Bones is the most time-consuming part of the process. Even with the help of Earthfire and the Heavenly Thunder, progress is extremely slow," Levi replied after a brief pause.

There wasn't much he could do about that problem because Divine Bones were formed through prolonged exposure to Heavenly Thunder and Arctic Lake.

To a certain degree, Divine Bones have developed a resistance to Heavenly Thunder and Earthfire.

Meanwhile, in Astre Lune Sect. Quirina was sitting at the head of the table in the meeting room with a grave expression. The rest of the core Astre Lune Sect members had sullen looks on their faces as well.

The atmosphere in the room was heavy. It was as if everyone inside had one foot in the grave, with how lifeless and lacking vigor they were.

Ever since they got the news that Levi and the others had lost their lives at Dragon's Grave Valley, it felt as if the entirety of Astre Lune Sect had been dealt a fatal blow. It was like their last pillar of mental stability had crumbled.

"It's true that Levi is very strong, Lord Morell, but he was too arrogant in the end. It's not surprising that he met his end. What matters is how we proceed after this," one of the elders murmured.

His words held a lot of meaning, most important of which was their attitude toward Eclipse. In the past, many fighters from Eclipse Academy had taken the lives of those in Astre Lune Sect. Even though it was Levi's doing, Astre Lune Sect's involvement couldn't be erased.

Nothing could be kept a secret forever, though. When the council members of Eclipse heard of it, they would immediately consider Astre Lune Sect as accomplices.

When the time came, and Eclipse sent their fighters to attack, Astre Lune Sect would be decimated.

Nonetheless, if they took the initiative to clear the air, they might be able to get a last chance at life.

Yesterday, I heard that Eclipse has already found out

Chapter 3933 Seven Mega Islands

There were quite a few big sects in Willowbank as well, and the number of middle-sized sects was countless.

Even a huge sect like Eclipse would only be considered middle-sized if compared to other sects at the same level in Willowbank.

At the core area of Sea of Stars, there were seven mega-islands.

The island with the biggest surface area was located right in the center of Sea of Stars, with the other six surrounding it.

When viewed from afar, it was obvious that the seven islands coincidentally combined to make an ancient formation.

In the sky above the islands, there was energy surging. Even though it was a dark night, there were still colorful patterns in the air.

Cordierite Association was located on the centermost island.

After the group entered the city, they noticed that the roads were wide and smooth. Even the ground was made of ore from the holy ley line.

Chapter 3934 Arrival Of Cordierite Association

“I feel that this needs to be investigated. Assign a few elites to help you out just in case anything happens. You’ve traveled a long way, Mr. Finnegan. By right, you should be given some time to rest.

However, this is a grave situation, and I can't rest assured without someone keeping watch. I'll need to trouble you to work hard," Albert ordered in a solemn tone.

After listening to Gavin's report, Albert gained some understanding. He speculated that there was a possibility that the phenomenon had occurred because of the appearance of a top-class magical herb.

Even though Dragon's Grave Valley had always been regarded as a remote area, it seemed that it had all just been a prejudice.

Gavin did not refuse. He replied, "It's not hard work at all. Don't worry, Mr. Fitzgerald. I promise to complete my task."

"That's good. I admire that swift and decisive attitude of yours, Mr. Finnegan." Albert paused, then added, "You can take Thunder Cloudship and bring some men with you so that this doesn't get dragged out any longer. I'll hand over a few top-class fighters from the association, too. That way, we can make sure that nothing will happen during the investigation."

"Understood!" Gavin responded.

Chapter 3935 Fearless

Cordierite Association's Thunder Cloudship moved quickly, and the fighters on board concealed their auras. Because of that, none of the sects noticed them during their journey.

However, they couldn't escape the prying eyes of Prime Association. It was their home turf, after all.

The miraculous phenomenon that occurred in Dragon's Grave Valley had already attracted Prime Association's attention.

Sylvan immediately sent many elites to conduct an investigation in the outermost area of Dragon's Grave Valley.

They didn't venture further into Dragon's Grave Valley due to their fear of Heavenly Thunder, which was growing more intense and violent.

Thunder Cloudship rapidly zipped through the clouds and was observed by the top-class elites in Prime Association.

"The symbol on the cloudship looks like it belongs to Cordierite Association."

It clearly is. Why is Cordierite Association

Chapter 3936 Dead Men Tell No Tales

Meanwhile, the bounty hunters were wandering about the outskirts of Dragon's Grave Valley. The phenomenon had caught all their attention.

However, the Heavenly Thunder was getting more relentless. These “speculators” did not dare to enter the core area just like that.

Just then, a few leaders of the bounty hunters felt a massive surge of energy. “Countless fighters are coming this way! Retreat!”

“We can’t stay here any longer. We should fall back as soon as possible.” “Leave this place immediately, or the consequences will be dire.”

The leaders yelled their orders, and their men began running away, not even daring to stop for a second.

Soon after, darkness fell upon the outskirts of Dragon’s Grave Valley. The sun was completely shrouded by a colossal object.

“It’s a cloudship!”

“What the h*ll is going on?”

Chapter 3937 Cloudship Blocks Heavenly Thunder

Gavin had never intended to spare their lives. After all, it would not do Cordierite Association any good if word of this were to get out.

If there really were top-quality magical herbs in Dragon's Grave Valley, Cordierite Association would likely turn into the public enemy.

Gavin understood more than anyone that a person's blessing would arouse envy and greed from others.

Therefore, these bounty hunters must die, especially since they were aware of his and his men's identities.

Meanwhile, the bounty hunters were frightened out of their wits. They thought that they would be able to survive this by obediently telling the truth.

However, they were still unable to escape death. "Everyone, let's go all out on these guys! We might be able to fight our way out of this."

"Yeah. We can't just sit back and do nothing!"

"Everyone, get them!"

Chapter 3938 A Lightning Rod

“What is that thing?” The sight filled Floyd with surprise, as he had never seen a cloudship before nor heard anyone mention it.

What shocked him even more was that when a thick bolt of Heavenly Thunder struck the cloudship, the ship’s energy barrier easily dissipated it.

“It’s so powerful! Even the bicolored Heavenly Thunder is incapable of doing any damage.” He was blown away by what he saw.

“On top of that, that thing is emitting all sorts of terrifying aura!” Without a moment’s delay, Floyd began to deploy a technique to hide his own aura completely.

Initially, he had assumed that he would be exposed upon being struck by the Heavenly Thunder, but what subsequently happened was beyond his wildest imagination.

Soon, he noticed that the Heavenly Thunder that was previously striking him had shifted its attacks toward the massive cloudship.

Playvolume00:00/00:00TruvidfullScreen

“That thing is like a lightning rod! Furthermore, the restraining power of the earth ley line has also disappeared. Can it be that it’s being absorbed by that flying battleship?”

Holding that thought, Floyd swiftly followed in the direction the cloudship had traveled in.

Chapter 3939 Even Weapon God Is Not As Powerful

Thereafter, it gradually continued its way toward Arctic Lake. Even though Levi had channeled most of the Heavenly Thunder and earth ley line's energy into the forging process of the premium ultimate weapons, it wasn't enough to diminish their intensity within the core area. Consequently, the cloudship began crawling at a snail's pace again.

Back on the cloudship, Gavin and its other occupants quickly noticed the presence of a few figures near Arctic Lake.

The moment they saw the massive pile of high-quality magical herbs and the two premium ultimate weapons hovering in the air, all of them brimmed with excitement.

"Look at all those Divine Bones, fire lilies, and spectral flowers! All of them are top-notch magical herbs!"

"Quick, do you see that premium ultimate weapon? Even the Divine Sword of Cordierite Association pales in comparison."

"Isn't it obvious? The phenomenon within Dragon's Grave Valley is triggered by those two premium ultimate weapons. Truth be told, I've never seen weapons of such caliber before!"

"Even the magical herbs alone are prized treasures within Cordierite Association. We have truly struck gold this time!"

Chapter 3940 I Prefer The Hard Way

Boom! A thunderous rumble rang out the moment the cloudship slammed onto the ground, a result of the gravitational pull of the earth ley line.

Nonetheless, the members of Cordierite Association weren't bothered at all, for all they cared about was the magical herbs and premium ultimate weapons.

Whoosh! Whoosh! Whoosh! Subsequently, an enthusiastic few had already appeared in front of the pile of magical herbs in a flash, keenly examining the treasures upfront.

Upon validating the type and quality of the herbs, everyone was elated as their faces lit up with joy.

"Look at the huge volume of magical herbs here! They easily outnumber everything we have in the Cordierite Association's vault."

"After examining this high-grade Divine Bone, I have lost interest in the piece I saw yesterday."
