Chapter 3991 Spirit Beast Army

Blithe Lord was wearing an animal-skin robe as he stood on the back of a gigantic tiger-like spirit beast, which was positioned at the forefront of his army.

The spirit beast was the size of a fully matured elephant. Its huge tiger head was very intimidating, especially because it had an unusually sharp horn on its forehead.

“Listen to me, you robber! If you hand over your ultimate weapons, I shall spare you!” Blithe Lord made his voice sound as loud as thunder.

The spirit beasts roared at the same time as though they were hyping him up.

Ever since he learned of the premium ultimate weapons in the robber’s possession, he had traveled to Astre Lune Sect with his spirit beast army without stopping even once.

He swore to himself that he would get his hands on those weapons to raise his reputation in Willowbank and make nearby territories tremble before him.

Blithe Lord’s one-horned draconic tiger beast was no exception as it dashed toward the walls. The instant the beast started running, Blithe Lord leaped and landed on the cloudship floating in the air.

More than a hundred spirit beasts charged forward madly, ominous lights in their eyes. They seemed eager to tear their enemies to shreds.

There were also flying spirit beasts, and they were soaring straight toward the crowd standing on the walls as they howled.

“Activate the defensive formations! The spirit beast army is attacking. This is Blithe Lord’s specialty. Under the influence of demonic music, those spirit beasts will become exceptionally bloodthirsty and aggressive. Not only that, but the spirit beasts’ power will also increase temporarily. Everyone, don’t let your guard down,” Sylvan and the fighters from the Prime Association reminded.

The Astre Lune Sect members’ anxiety instantly peaked when they heard that. They had no idea Blithe Lord’s spirit beasts would undergo such changes.

“No need to worry. Thunder can take care of these small fries,” Levi reassured lazily.

Chapter 3993 Cardinal Spear

While Blithe Lord and his men were still in shock, the Thunder Qilin started carrying out its massacre. The spirit beast growled ferociously as he leaped up and down, either spitting fire from its mouth, shooting lightning bolts from its back, or firing hailstones from its hoofs.

Blithe Lord’s army of spirit beasts was either turned into charred carcasses, burned to ashes, or frozen into ice statues. It was impossible for the army of spirit beasts to defend themselves against the Thunder Qilin’s attacks, let alone retaliate.

All color had completely drained from Blithe Lord’s face. His subordinates, who were behaving arrogantly just a while ago, gaped in shock.

While Blithe Lord and his men were panicking and falling into the depths of despair, the fighters from Astre Lune Sect and the Prime Association were fired up with excitement.

They were pleasantly surprised, as they had never imagined that the Thunder Qilin possessed such formidable combat prowess. After all, it was usually a prideful and pretentious creature.

Against the Thunder Qilin, the hundred over mighty beasts were completely powerless and were just like lambs waiting to be slaughtered.

What shocked everyone the most was the Thunder Qilin's triple attack.

Chapter 3994 Blithe Lord Is Dead

The next second, Blithe Lord saw a blinding bolt of light charging toward him. "Do you really think it's possible to hurt me with a mediocre weapon like that? Dream on! Let me show you how powerful my ultimate weapon is."

Blithe Lord let out a deafening bellow as he channeled his energy into his sword before hurling it at the bolt of light. Zing!

Dazzling sparks instantly exploded from the sword as its blade transformed into a massive energy storm and tore through the air toward the bolt of light.

Blithe Lord sneered, thinking that there was no way a distant attack could break through the energy storm barrier.

He intended to leverage the shockwave of the energy storm to strike and take down the King class spirit beast after blocking his opponent's attack.

However, the next instant, the smile on his face stiffened. "How is this possible?"

The bolt of light had easily broken through the barrier created by the energy storm of the blade. At that moment, the air stilled and silence ensued.

At the same time, the atmosphere seemed to have solidified as a gust of frosty wind swirled past. Blithe Lord's ultimate weapon was frozen and was then struck by the bolt of light and reduced to dust.

Chapter 3995 I Will Teach Them A Lesson

After a short moment of silence, a commotion erupted among the members of Astre Lune Sect and Prime Association. "Lord Garrison is truly astonishing. He killed Blithe Lord in one strike, the Blithe Lord who had destroyed several large sects!"

"A single blow managed to shake the entire Blithe Lord's army to their core. Look at the helter-skelter; they are probably thinking of ways to escape." "Does Levi really need our protection? He's way too strong!"

“There are less than ten fighters who are stronger than Blithe Lord in the entire Prime Association. I can’t believe he took down Blithe Lord with only one shot.”

“It’s no wonder that the headquarters of Prime Association values him so much. From the looks of it, that spear is probably a top-notch premium ultimate weapon too.”

“If I had such a powerful premium ultimate weapon, I would definitely become a powerhouse of Prime Association.” All the chatter from the crowd naturally reached Levi’s ears.

In actuality, the four premium ultimate weapons, Dragon’s Grave, Thunder Slaughterer, Desfort, and Cardinal Spear, were actually imitations of the four divine tools of the Ecclesiastic Order.

Chapter 3996 Too Dangerous To Face The Enemies Alone

Levi jumped down from the tall city tower without a sound before his figure disappeared in a flash.

“Thunder, get back!”

With a loud shout, Thunder Qilin, who had almost slaughtered the group of spirit beasts, stopped and retreated in the opposite direction.

Levi’s figure flitted across the battlefield and charged straight into Blithe Lord’s troops. “He is coming! Retreat!” “Why should we be afraid of him when there are so many of us?”

“Blithe Lord lost because he had underestimated his opponent. We should all rise up and attack him together to avenge Blithe Lord.”

“Indeed. It should be as easy as pie to kill him with our numbers.” After a short period of panic, Blithe Lord’s army calmed down again.

After all, they were all experienced fighters. Many of them were also loyal subordinates of Blithe Lord. Of course, there were some opportunists who wanted to take the credit for beheading Levi to take the reign of Blithe Lord.

Chapter 3997 Arcadia Is Here

The army consisted of fighters from Arcadia. They were instantly perplexed when they noticed Blithe Lord’s soldiers fleeing the area from a distance.

The vice sect leader of Arcadia furrowed his brows slightly. He had not received any information before coming here, so he thought he was the first one to reach Astre Lune Sect.

When Arcadia discovered that the robber possessed a top premium ultimate weapon, the sect coveted it and sought to reach Astre Lune Sect first in order to acquire it.

Arcadia's obsession with ultimate weapons was far greater than that of the other sects due to their expertise in alchemy and weapon forging. "What's going on here? Stop some of Blithe Lord's men and ask them," the vice sect leader of Arcadia ordered.

The apprentices of Arcadia received his order and attempted to stop Blithe Lord's subordinates. To their surprise, Blithe Lord's men refused to be stopped.

They were relentlessly killing anyone who got in their way as if they were being pursued by a far more terrifying monster. "Sir, it seems that someone is heading over here!"

"That guy is carrying a blade and a sword! He's likely the robber we are looking for from the description!" "Is it really the robber? Lady Luck must be on our side. I'm definitely getting the reward from Cordierite Association."

Chapter 3998 Everyone Is Astonished

In comparison to Blithe Lord, Arcadia was more persistent. They stubbornly believed they were able to kill Levi with their strength. They continued to attack Levi even after the latter destroyed their Hundred Alchemical Gods Array.

The vice sect leader was also working hard to find the best opportunity to land Levi a coup de grâce as he shifted around the space at extreme speeds.

Nevertheless, Levi was faster. His attacks were so quick and precise that it was impossible to predict his next move. "Die!" Levi launched another attack. The vice sect leader failed to dodge in time and lost his life on the spot.

The fighters were finally panicking after losing their leader. Nonetheless, that didn't matter, as most of them had already died due to Levi and Thunder Qilin's attacks.

Moreover, they were having difficulty avoiding the incoming attacks because they were also being heavily attacked by Sylvan and the others who had just arrived.

Chapter 3999 Eight Hundred Elites Of Prime Company

Most of the sects were shocked when they heard about Blithe Lord's army fleeing and Arcadia being wiped out. The elites from large sects like Inkflame Court, Holy Spirit Academy, Divine Blade Sect all had solemn looks on their faces.

"Blithe Lord was personally leading his spirit beast army and hundreds of his powerful fighters into battle! Who would've thought they'd suffer such a crushing defeat?"

"Arcadia even deployed its vice sect leader! They also have Hundred Alchemical Gods Array, which terrifies even the most powerful of fighters. I can't believe they got annihilated just like that!"

"This truly is unbelievable! Those two forces should've been just as powerful as the army they were up against!"

“Blithe Lord once destroyed three large sect headquarters in a day using only the spirit beasts. Could it be that he got careless this time?”

“As careless as he may have gotten, they are still two incredibly powerful forces. They say not a single spirit beast made it out alive!”

Everyone gasped in shock when they heard that.

Blithe Lord’s spirit beasts were a force to be reckoned with. Even the weakest ones were on par with elders of large sects.

Chapter 4000 The Huge Army Arrives

The forces of Cordierite Association believed that it was Prime Association’s fighters who defeated Blithe Lord and Arcadia.

Prime Company’s fighters were confused when they heard that as they had just received their orders and arrived in Lightspring. “What are they talking about?” one of the elites of Prime Company asked.

The person in charge of Prime Company then contacted Sylvan to explain the situation in Lightspring and ask him what was going on. “They think we were the ones who did that?”

Sylvan burst out laughing. Levi and Thunder Qilin did so much damage to Blithe Lord and Arcadia that their men discarded their armor and ran off!

Prime Company had no idea that Levi and Thunder Qilin were the ones who slaughtered the two forces. Sylvan then sent them a message explaining what happened. However, he stopped receiving replies from them after that.

Of course, Sylvan wasn't all that worried about Prime Company as they had eight hundred elite fighters. He knew that no sect would dare mess with such a powerful force, and he was right about that.
