Chapter 4032 Go To Hell

Before Gloria could say anything in response, Roy fumed, "I don't care what the history between the two of you is. If you want to create a scene here, you have to seek permission from my sword."

Floyd frowned slightly. I don't think I'm strong enough to fight the leader of Void Sect. "Your sword has no problem with it." Suddenly, another voice rang out.

Seconds later, an enormous cloudship slowly descended from the sky. Seeing that, everyone at the scene couldn't help but gasp. "Who are you?" Roy asked.

For some reason, Roy felt slightly intimidated. Although he hasn't made a move, I could feel his terrifying energy. Floyd's voice trembled when he called out, "Master!"

Gloria's pupils constricted when she heard that. She was so startled that she blurted out, "Levi? You're Levi. The robber is Levi?"

After putting the pieces together, she finally understood why the robber hadn't murdered her. I wasn't lucky. It was because Levi wanted to let Floyd deal with me himself!

Roy was also taken aback. In a cold tone, he said, "So you're the robber who destroyed my sect. Lady Luck is on my side. Since you've come on your own, I shall kill you with my sword!"
