### Chapter 4034 The Finale

In order to check out the whereabouts of his mentor, Levi absorbed the power of countless star ley lines along the way until he arrived at the peak. "It's time to check out the Taboo Clan in Carigrey."

After making up his mind, Levi rushed to Carigrey. However, just as he was about to enter the area, someone approached him and told him to go to the Lopez residence.

That took Levi by surprise. It was as if someone had been watching his every move, but he did not notice anyone spying on him earlier on.

Levi arrived at the Lopez residence with a great sense of curiosity. As he entered the living room, he saw an elder sitting in the center. It was Fernando.

"Master, is it really you?" Levi found it hard to believe. In fact, he started to wonder if he was hallucinating. Fernando responded with a smile, "You rascal! I thought you have forgotten about me! How was the journey?"

There was a wide smile on Fernando's face. Levi was a little dazed, and it reminded him of the first time they met. Both master and disciple sat down for a long talk. It was only then Levi understood the reason for everything. Back then, Fernando had ordered someone to protect Levi because he was looking for a successor.

Coincidentally, Levi's experiences were very similar to those of Fernando in his younger days. Both of them had been overpowered. In addition, Levi's physique allowed him to be trained in techniques. That was why Fernando had taught him everything he needed to know.

"Levi, in actual fact, there is another world other than Kenfort, and there are countless devils there. The mission of the Ruler of Kenfort is to protect. But don't you worry. I have already defeated those demons. They won't be making a comeback within a short period of time. It's all up to you from now on.
