

## **Pinnacle 521**

### **Chapter 521: Year 30 night**

With a beating, Gao Bo and Tang He called out 'Ao Ao'.

Luxurious Thai press, simple, crude, primitive...

In Tang He's words, it's 'I almost killed my fat man!'

Qin Yu didn't know exactly what the situation was. He was resting in the hall.

"Brother Yu, next time there is such a good place, please introduce more!" When Gao Bo came out, his face was red, his face shook his neck comfortably.

"I don't understand what you said... I will be called to take a bath in the future." Tang He said solemnly.

Qin Yu glanced at the time and scolded with a smile: "Do you want to point your face? It's late, I'm back..."

One of them is in the northern suburbs and the other is in the western suburbs.

All anxiously rushed back to eat New Year's Eve dinner, Qin Yu gave them the subway entrance and left directly.

When I got home, there were already six cold dishes and four hot dishes on the table!

"Steam the fish again, Xiao Yu, and serve the stewed chicken." Liang Chuyu didn't talk about his running away at noon, so he asked him to help serve the dishes.

"Good!" Qin Yu washed her hands with joy and went into the kitchen to help.

Aunt Qiao and Aunt Sun left in the morning, and Liang Chuyu sealed a 2,000 yuan red envelope to one person.

Let them have a happy year...

Today's meal was handled by Liang Chuyu alone, and Lao Qin was in charge of it.

Now, there is one more Qin Yu...helping to eat!

Take pictures when the food is on the table.

"Wait." Liang Chuyu took a bottle of Moutai and white wine from the wine cabinet.

Put Maotai by Lao Qin's hand, and put the white wine into the ice bucket, "Okay, I'll take a picture first."

Click~

Qin Yu followed the trend and took a few photos, and later sent them to the prince, confidantes, girlfriends, and regular soldiers.

"Let me see what you took." Liang Chuyu seemed unsatisfied with what she took.

(☹\_☹)?

In the big eyes, there are big questions.

What am I drinking? ? ?

After drinking and eating, Liang Chuyu went to the kitchen to make dumplings.

I personally wrapped it in the afternoon, pork and green onions, their favorite flavor.

When I was young, coins were always put in dumplings, and those who ate them would immediately become the envy of all children.

I haven't seen it for many years...

The old Chinese New Year's rules are reduced and simplified, and the taste of the New Year has also become weaker and lighter.

However, allowing the shooting this year has added a bit of fun.

Qin Yu ate two plates of dumplings at once, which made Liang Chuyu laugh. It is a good thing that his son loves to eat.

After dinner, the somewhat drunken Lao Qin sat on the sofa and drank tea, replying to the news!

New Year's greetings, some have to call to greet...

In addition, I have to say hello to my hometown.

Although people are not there, family affection is still there. Lao Qin is a person who values affection and nostalgia.

When Liang Chuyu went to the kitchen to clean up the dishes and chopsticks, Qin Yu said he would come by himself.

She couldn't stand her insistence, and she was driven out of the kitchen directly by her mother.

Yes, picking up and holding the small cup, looking left and right, the little pumpkin with curious eyes.

Qin Yu came to the courtyard and walked towards the fireworks piled up into a hill.

At this moment, firecrackers are already blasting outside!

Someone in the community also started to set off fireworks, shoo~ shoo...

Gorgeous fireworks bloom in the sky, reflecting people's beautiful blessings and joy!

"Little pumpkin, fireworks are set off." Pulling the hat on his brother's head, Qin Yu lined up the fireworks.

Without putting down one row, Qin Yu placed two more rows before he put them all down.

First use a lighter to ignite an arm-length flower, and then the whole screen is gorgeous...

Shoo, swoop...

"Dad, dad, look at it, the next door is also showing..." The child's joyous cry came from the next courtyard wall.

The little pumpkin seemed to be infected too, and 'guckled' up in his arms.

Seeing him excited, as if he was going to dance on the ground...

Before their freshman year, Liang Chuyu and Lao Qin also came out.

"Xiaoyu, go back to the site..."

"Old Qin, look at that, that's pretty..."

"The New Year has to be fired, and the atmosphere will be different immediately."

"Yes." The blushing old Qin squinted and nodded, with a joyful smile on his mouth.

This year is a happy harvest year!

Spring Festival Gala...

It has become one of the must-have procedures for the New Year, and no one has to watch it and it has to be turned on and broadcast.

Occasionally looking up, there will be a taste of the year!

Little Pumpkin looked happily, staring intently.

Ding~

Ya Lan: "Happy New Year!"

Qin Yu: "Sister Lan, Happy New Year, I went back to have dinner together during the New Year. It's been a long time since I saw Tongtong."

Yalan: "Okay... brother, happy new year, I miss you."

Qin Yu smiled, and turned 1314's "red envelope" along the way: "New year's money for Tongtong."

I didn't see Yalan's reply for a long time. After a long time, Tongtong laughed happily: "Thank you, brother~"

This is the 1314 that Brother Yu sent tonight...

It's just that the others give it directly, and this has to be borrowed in the name of "Tong Tong".

It's exciting!

Song Yuqiao: "Happy New Year!"

Qin Yu: "Happy New Year, Teacher Song, are you in the abandoned city?"

Song Yuqiao: "In {crying face}"

Qin Yu: "I'll see you after the Spring Festival."

Song Yuqiao: "{Happy} is waiting for you."

Jin Xi: "It's New Year's greetings to the boss, the boss is magnificent? {rub fingers}"

Qin Yu smiled and sent a 1314520 apart from anything else.

During the New Year, the transfer and red envelope limits will be lifted.

Xinwei is quite human at this point, Brother Yu likes...

Kim Hee: "Wow, the boss is magnificent, mumumumu~"

Lan Yue hasn't seen a reply here, she should be chatting with her family.

Since joining the Royal Dance Company, I have seen this in a year.

Qin Yu also sent a blessing of 1,314,520 yuan and sent {love you}.

Among these women, Qin Yu only felt sorry for Sha Man...

Others have at least a home, accompanied by family members.

She is the only one who keeps the vacant room alone when others are happy.

I don't know if she is sitting by the window alone, looking at the lights outside the window.

"Xiaoyu~" Liang Chuyu suddenly said, and Qin Yu found out that she was staring at her mobile phone.

"Mom Press the screen quietly, Qin Yu just assumed that nothing happened.

"Well, you... friend is a bit Doha?" Liang Chuyu said in a weird tone.

"Well, they are all friends, I'm going back to the room first, and I want to video with Qingqing!"

"Okay, then you go to bed early..." When Qin Yu walked out of the living room and just ascended the stairs, Qin Yu heard the muttering of the mother: "Old Qin, your son is not right, is this kid out there?"

"..."

Old Qin squinted his eyes to listen to his wife's analysis, and smiled bitterly in his heart, 'just like your son, does anyone have to ask? If you want to ask, you should ask how many!'

Qin Yu looked up to the sky speechlessly... Ceiling, why is my mother getting more and more gossiping.

Ding, ding!

With two more pieces of news, Qin Yu glanced at it casually, and stopped.

Xu Yaqing: "Xiaoyu, happy new year... My sister is at home alone, so lonely!"

## **Chapter 522: Futuristic Rhapsody Paradise**

On the first day of the new year, Qin Yu slept until noon and woke up.

Last night, the moat grove blew a night of cold wind, and it was relieved after taking a rest.

Turning over and picking up the phone, there are several new messages in the mailbox.

Open it and see that the yacht design drawing has arrived, and the other party still left words of blessing below.

The Spring Festival is coming, I hope this gift can make you happy and Happy New Year!

This foreigner...sensible!

Opening the drawing, Qin Yu saw an amazing sense of the future at first sight.

The total length of the hull is 196 meters and the displacement is 15,000 tons.

Silver-gray, the overall shape is like a cruise ship turned upside down on the sea, with a flat top and a bridge in two-thirds of the position, which is a sunken space in the shape of a disc.

The antenna above is like a clockwork waiting to be wound, and at the front of the bow is a sun room made of glass with sofa loungers.

You can lie in it to enjoy the scenery, bask in the sun, and pass the time.

Below is the glass-bottom swimming pool. When swimming, you can directly see the seabed scenery through the glass. The attached searchlight will lead guests to appreciate the natural scenery of the seabed.

For safety reasons, there are a layer of automatic steel doors on both sides of the outside of the glass swimming pool, which can be closed directly if necessary.

There is also an isolation door above the swimming pool, which can directly close and lock the entire swimming pool and isolate it from the hull to ensure that it is foolproof.

The whirlpool bathtub on the deck, the spa ecological bar in the middle part, and the enclosed green area, you can enjoy the natural fresh air on the boat.

The overall style is biased towards Southeast Asian style. Qin Yu also saw two coconut trees behind the lounge chairs outside the spa.

The stern belongs to the entertainment area, with three open decks, a surf pool on the first floor, a bar and a lounge sofa area.

On the second floor are the reception area, restaurant, bar and conversation room to ensure a safe place.

The third floor, which is behind the bridge, is a large apron that can park all types of helicopters in service today, including large armed helicopters.

There are thirteen VIP suites, luxurious washrooms, and bathtubs cut from a whole piece of stone. Each room has a unique style.

Thirteen rooms, guaranteed not to bring any duplicates.

The 'wall' of all rooms facing the hull can be opened.

After raising the steel plate compartment, there is a layer of strong and safe bulletproof glass inside.

When the wind and waves are calm, you can enjoy the scenery through the glass.

When encountering bad weather, lower the steel plate to ensure safety...

The master cabin is at the bottom of the bridge and occupies the entire bottom of the middle and rear sides. When the 'walls' on both sides are opened, it is a 180-degree bottomless sea view room.

From the master cabin, you can go directly to the escape cabin. The whole ship is equipped with two double submarines, two launch boats and a rescue speedboat.

The ship also has a spa center, private cinema, game hall, concert hall, main restaurant, banquet hall, garage, large multi-functional meeting room...

Stairs made entirely of glass, the most advanced stabilization technology,

The light tube devices on both sides of the stern close to the water surface are equipped with the most advanced "sonar defense system", which can be used for defensive counterattack when necessary.

The flat top of the hull at the front of the bridge can also be opened...the missile defense system inside...

"Good fellow, I just let you surpass, didn't let you leap..." Qin Yu was stunned.

The various facilities in a few annexes range from the use of materials to the design of various details and the division of functional areas of the entire ship. You can never finish them in a day or two.

Blohm+Voss named it: Futuristic Rhapsody Paradise!

The name is arrogant enough, and the word 'paradise' is very vivid.

Brother Yu likes...

Turn to the last page of the quotation: 3.1 billion euros.

The cost is just the cost of the entire ship of 'Futuristic Rhapsody Paradise'.

The rear interior, etc., are not counted.

The quotation for this...oh, there is a page at the back, 1.5 billion euros...

Total price: 4.6 billion euros, converted to 36.8 billion dollars.

It is enough for him to directly rise to LV9, and he can reach LV10 by one level. The experience value of rising LV10 is 125 billion...

"..." I'll talk about the future later, Yu Ge is very satisfied with this super yacht.

It's just a little troublesome in terms of time. It will take a year and a half.

Hurry!

Replied an email, considering the time over there, Brother Yu got up and went busy on his own.

On the first day of the Lunar New Year, many of the shopping malls and restaurants outside were not closed.

Qin Yu made an appointment with Lu Qing to watch a movie.

Liang Chuyu wanted him to pay New Year's greetings to various families, but Qin Yu directly refused, "Mom, don't make people unhappy about the New Year, you can just let me play for a few days."

Thinking of my son's hard work in the past, and having to take care of his studies, the wind is coming and going in the rain.

Liang Chuyu stopped requesting, and decided to go with Lao Qin to pay a New Year greeting to her eldest sister.

No, Brother Yu has a complete holiday!

First, I spent a day with Lu Qinglang on the first day of the new year. The next day, I went to pay Lu Guohui New Year's greetings, carrying the tea collected by Lao Qin and 20-year-old Maotai.

These two courtesies hurt Old Qin, he hasn't tasted it yet!

So I asked my son to run away, 'no, I have to go to the old Lu's house to come back another day.'

To be sure, it is not necessary, but the old brother is a guest at home, do you have to come up with good wine and tea to entertain.

Drunk well, do you have to bring some when you leave.

Stable! !

Old Qin calculated the old man's thoughts, and Qin Yu, the son, saw it clearly.

However, this is the fun of the two older children, and Brother Yu should not worry about it.

He is now shopping with Lu Qing in the mall, and the new autumn clothes that he has just bought are waiting for the owner to claim it.

Lu Qing held her boyfriend in one hand and a card in the other.

Just brush it...

Lu Qing is now a frequent visitor to SKP, and each family has a lot of membership cards.

There are familiar cabinet sisters in every store. Hermès is the most exaggerated. As soon as the two entered the store, the door directly hung up the sign of 'suspending business.'

Today, she carried the gray Himalayan, and the sister of the cabinet smiled and praised: "Sister, you have such a good temperament to carry this bag. I will say that it matches your temperament best, and this bag is the most beautiful for you."

She was in her early thirties, calling Lu Qing, a young girl in her early twenties, 'sister,' and she didn't feel awkward at all.

One mouthful of "sister," that is called kindness!

"Is there any new products, let me see." Lu Qing smiled and sat in the VIP room, waiting for the cabinet sister to bring the bag.

Luxury goods have a habit, do not take the usual path!

Mass aesthetics is not my way, it's a high-cold model.

Just like the big guys say that \*\*\*\* smells, someone will definitely agree with the 'true fragrance'.

It doesn't matter whether it looks good or not, the most important thing is "Hermes." '

No, Lu Qing swept 22 of the more than 30 new styles that Miss Gui brought up.

Including mobile phone cases, storage bags, mini wallets, card holders, short wallets, coin purses, mini wallets, passport holders, long handbags, genuine specification handbags...

A total of 370,000 was spent, with an average price of less than 17,000, which is okay!

"What else do you want to buy?" After leaving the Hermes store, Qin Yu planned to go shopping.

Live like this leisurely day, one day less.

After the holiday is over and the company resumes work, he has no time to go shopping with Lu Qing.

"Clothes, shoes, jewelry, all." Lu Qing also understands this truth, so today she wants to buy crazy.

Buy and buy everything you like...

A man's money has to be spent, if you don't spend it, there are naturally little fairies outside to help you spend it.

My dad is right in saying that the more you put him in, the more he cares about you.

You don't need anything, you can carry bottled water on your shoulders, and carry shopping bags in your hands.

What do you want him to do then? ? ?

In a few days, you will have to be forgotten. UU reading [www.uukanshu.com](http://www.uukanshu.com)

It was originally a long-distance relationship, and Lu Qing had to impress him a little bit.

Today, she has to buy all the new products again.

Looking back, if he brought any little foxes to buy things, he would think of everything he saw, 'Qingqing seems to have one too.'

For this reason, Lu Qing will specially shine in front of him every item he buys, telling him the design philosophy and history of this thing, so that he can firmly remember.

These are the rest of the 'Mother' play...

Brother Yu naturally couldn't guess the girl's thoughts, but he also noticed that Lu Qing's love of science today is exceptional.

Now, his head is full of classic designs and history about major luxury goods.

There are also short stories between well-known designers and products, one after another, all kinds of beautification, demonization...

It feels like Zhou Shuren: I just say hello, I don't think so much! !

## **Chapter 523: Word of mouth**

February 6, 2025.

The fourth day of the Lunar New Year.

Qin Yu got a reply from Blohm+Voss, and the rush fee of 5% of the construction cost was completed within six months.

155 million euros, shortening the time to one-third.

To complete the order in the fastest time, Blohm+Voss must deploy more people to join the project.

The consequence of this is that other orders are naturally delayed, and the loss caused will naturally require someone to pay for the order.

In the adult world, everything has a price.

Brother Yu can afford this price!

For him today, anything that can be solved with money is not a problem!

Counting the one-month journey required to drive the boat to Hudu, in September, Yu will be able to see his "Futuristic Rhapsody Paradise" super luxury yacht.

It was a good moon to go to sea, and Brother Yu could not help but want to share his joy and plans.

A party at sea is fun if there are enough people!

First call Li Xiao, Xu Hao, and Yang Chengjun, Qin Yu considered who to take to sea.

First choice-the four fairies, if they all happen to be free, they must be taken on the boat.

Alternative-Cheng Xiyu, no...

This alternative is the same as not.

Ye Jinlan is in Shangdu and Lu Qing is in Abandoned City. Only Cheng Xiyu can choose.

The other women are almost the same in his heart.

There is time behind, Yu brother remembered which is which...

The phone called Xu Hao, and another moth came out.

"Fuck \*&\*(&#! Xu Hao breathed out fragrance, Brother Yu took the microphone away and waited for him to vent.

"The dog stuff costs more to play than I do. I misappropriated more than two million yuan a month and slept more than 160. There are all kinds of tricks..."

Seeing that he was almost finished venting, Qin Yu asked: "Can you explain things clearly first?"

Xu Hao is now in charge of the family business, which is not a big deal, but it is also an improvement for him.

No, when I checked the accounts last month, I suddenly found that the account was missing more than two million.

This difference was known, and the finances were embezzled!

The money did nothing, neither bought a house for his family nor a car for himself.

It's all used to save the girl who stumbled.

In one month, just one month, more than two million flowers were clean.

Pick up and drop off in and out of Rolls Royce, stay in the best hotel, and eat the most luxurious meal.

Tossing with all kinds of girls every day, one in the morning, one at noon, two at night...

Arrange for the hotel next door, here after finishing the work, carry the pants and leave, go out and come in again, and do it again.

"Good fellow!" Brother Yu was silly to hear it.

Originally thought he had enough waves, this buddy took off directly on the spot.

More than one hundred and sixty a month, more than one year...

He was full of calculations, breaking his fingers, and there were fewer than fifty.

Straight guy!

However, when he thinks that he is seeking quality and the other party is seeking quantity, Yu Ge's heart is balanced again.

"What about people?" Qin Yu asked curiously.

"Let me give it to you, and the family house will be auctioned off to repay the debt... He doesn't care about the life and death of his wife and children, I will let him die!" Xu Hao said angrily.

Just three months after taking office, such a big thing happened.

Although he didn't choose the person, he was back to this pot...

For three months, you haven't found out who is to blame?

Because of this, Xu Hao, who is currently in the limelight at home, has been well talked about.

Fortunately, the old man still knew that he was scrupulous. The previous income of more than 10 billion made him a lot harder to speak now.

It's not so much!

Just because it doesn't look good on face, Xu Hao is mad at this...

"You said you, come to me directly, I have arranged for you both of us, as for stealing?" Xu Hao was whimsical.

Qin Yu directly retorted: "He has a pit in his head. If he is looking for you, you can't send him back to his hometown directly?"

"..." Xu Hao lost most of his anger when he vented, and he was angry and funny when he thought about it.

"Brother Yu, your yacht has come back and it's well organized. Let's have some exciting projects. How about a turntable or something?" Xu Hao was angry and wanted to have a wild way.

"Rolling, rent a boat to play by yourself, don't pollute my boat." Qin Yu let him go out of anger.

Returning the Barrow turntable, I just kicked when I flew...

"Hey, I'll just talk... I'll join the table with my brother the other day." Xu Hao also knew that he was not interested in this, so he turned off the topic with a smirk.

"You kid should be honest, be careful that your home Cocoa ran away." Qin Yu joked half-truth.

"Impossible, let me tell you, I still have this confidence, but I can't live without me now, I'm so fascinated by me..."

"Ah~ Mouse, who is so fascinated by you?" Xia Ke's voice came.

"Hey, wife, why are you back..."

"Hey, hey, Brother Yu, this signal is not very good..."

"Don't slap your face, ah, my wrong wife, oops...dududu..."

Brother Yu was relieved when he heard the last kick.

Hey, what a happy young couple, they are just playing wild.

Xu Hao had to go half-life if he didn't die this time, and he couldn't be too Xu Hao.

No, the retribution is coming!

On Yang Chengjun's side, the phone rang for a long time and no one answered.

Just say forget it, the other side came back: "Brother Yu, what's the matter?"

"It's okay, I just have good news to tell you..." Qin Yu said about the yacht.

"What, you are in the hospital, are you okay?"

"?? Brother Jun, are you acting with me?"

"Well, well, I'll go over now, tell the doctor, just use the medicine, use the best..."

"Sorry, my buddy was hit by a car. I have to go to the hospital quickly."

"I'm okay, do you want me to go with you?" The gentle female voice sounded a little artificial.

"No need, I'll go now, and I'll make an appointment later." After the tinkling voice, the microphone returned to silence: "Hey, Brother Yu, thank you for your help!"

"...What about a blind date?" Qin Yu understood, and this was an excuse for himself.

"No, this is murder." Yang Chengjun gritted his teeth and said, "Don't let me see this matchmaker when you look back."

Hearing his voice, it seems that he hates the matchmaker.

If you encounter it, it must be no good.

I don't know what it is that made him hate it like this...

Since there was nothing wrong, Qin Yu didn't want to talk to him again, and all the excitement passed.

"That's OK, go back and get together again." After closing the line, Qin Yu checked the time.

After thinking about dialing the number to Watson: "Boss, happy new year."

"Haha, happy new year, has Kuafu returned to work?" Qin Yu said.

"Work started in the second grade, triple wages, and absenteeism was less than 10%." Watson said.

"Where is Loongson?" Loongson has just put into production for less than a month, and now it is full of horsepower to meet the order volume, and Qin Yu even provides five times the salary to ensure attendance.

"All staff resumed work, we all recruited nearby, so there was no delay in returning to New Year's Eve." Watson said.

When the company recruited people, it took this into consideration.

Local recruitment can not only get more policy incentives, create jobs, and drive employment rates.

At the same time, it can also greatly reduce the inconvenience of commuting on holidays At present, the effect is significant.

Encouraged by the solid cash, the employees are very motivated!

There are still a small number of people who can work in the factory, sneak \*\*\*\* and skid, especially those in their 30s and 40s. There are older workers and younger workers.

It's hard work to get up to work. As long as you can make more money, you can do whatever you ask him to do.

Qin Yu didn't mean to squeeze employees, other companies have them, they have, and other companies don't have the same treatment here.

Let them make more money as much as possible, live the life well, and go ahead.

It can be regarded as a kind of return from the company!

Brain drain is a problem that every company will have. Everyone has their own ambitions. There is no permanent banquet in the world.

Qin Yu only hopes that one day, no matter who is going to leave, he will say good when he goes out and mentions the "Miracle Department".

Instead of swearing at your mother, when you mention it, 'what the hell! !'

#### **Chapter 524: Boss, I'm afraid...**

Miracle Pharmaceutical, the factory and office buildings have all been completed.

The surrounding partitions are also being removed, the door is open, and various vehicles are coming in and out.

Transporting instruments, office supplies and various soft accessories!

For the New Year's Day, the Thirteen Division only spent seven days.

Start to work on the sixth day of the new year to ensure that the project is fully delivered before the fifteenth.

This speed is half a month faster than previously estimated. Due to the instrument replacement, there was a size problem in the middle.

The factory was reworked again and made major changes.

Otherwise, it can be completed one and a half months ahead of schedule.

This incident is mainly due to errors in the communication between the two parties, and no one can blame it.

It's not a big problem, it just took some effort.

I left the factory and planned to leave by car.

Several cars drove into the factory, and the leadership team accompanied by the factory director Wang Kai arrived.

"It's really lively." Qin Yu smiled, turned around, and drove towards the way he came.

Seeing the G63 whizzing away at the door, the mayor who just got off curiously asked, "Whose car is that?"

Wang Kai smiled and said: "The company is here to spread the word, let's go inside first, and the equipment in the workshop is in place..."

He knew that it was the boss's car. Of course he wouldn't tell the leader at this time, 'that's our boss's car. He didn't bother to deal with you, so he slipped away first. '

This is not to smash his own job, so Wang Kai randomly found a reason to fool around, and led the leaders to the factory.

The brand-new equipment in there is a performance. Take a look, take pictures, and send it out to let people know that the leaders attach great importance to miracle making. Good thing!

After Qin Yu left, he drove directly to Third Ring Road...

After 20 minutes, you can see the towering headquarters building from a distance.

The total investment is 19.5 billion, and the height is 637 meters, which is exactly 5 meters higher than the tallest building in China, the Hudu Center Building.

This is the Miracle Headquarters of the future, the spider's "brain" controls the core center of the "Eight Legs (Industry).

At this time, the main frame of the building has been completed, and the glass interlayer and solar panels of the outer wall are being installed.

The exterior wall of the whole building has two materials, one is glass, and the other is the facade formed by solar panels.

The intelligent control center of the building controls the solar panels of the entire building.

Let it expand and contract according to the height and direction of the sun...

At night, the solar panels will be fully retracted and cling to the glass on the outer wall of the building.

Make the building look like a flashing body wrapped in a shell.

In the daytime, the gradually unfolding building is like a 'mechanical lotus flower' that is in full bloom. When the solar panels reach the limit, it is the most blooming moment of the 'mechanical lotus flower'.

The design of this building was completed by Xia Guo Architectural Design and Research Institute from beginning to end.

Ye Jinlan invited a number of Fengshan masters, and Qin Yu gave nine figures for the design fee alone.

The total design cost of 120 million makes this unique, environmentally friendly, energy-recycling, intelligent, modern, and futuristic building present in front of the world.

Qin Yu believes that when the building is completed, it will immediately become a landmark in the entire western region.

At the same time, it will also attract countless tourists to come for sightseeing and check in!

Internet celebrity?

Just look at the crowd around the construction site in front. Since the design concept map was exposed, there have been no fewer Internet celebrities who come to rub the traffic.

Didi~

Driving away the team that was blocking the door and shooting short videos, the doorman also looked out.

Found that it was Qin Yu's car, the other party came out and opened the iron door.

After waiting for the car to enter, he immediately closed the door again, "Mr. Qin." The doorman said hello with a smile.

"Pharaoh, have you worked so hard lately?" Qin Yu drew a branch of Huazi and handed it to him.

The doorman of the company, Qin Yu would rather give more red envelopes on holidays.

Nor will he develop the habit of "carding and demanding" at will. A piece of Chinese is worthless.

But if you get used to it, it becomes a convention and unspoken rule!

Don't underestimate a doorman, as the saying goes: Hades is so annoying, and the little devil is difficult!

The rules are the rules, and you don't want to block the way...

"Good smoke, I'll save it first."

Putting the cigarette on his ears, Lao Wang said with a smile: "I'm not busy, I eat well in a day and sleep well. Thank you for your concern, Mr. Qin."

"Work hard, I went in first." Qin Yu walked to the building with a cigarette in his mouth.

"Okay, Mr. Qin, I will wash the car for you." Old Wang said with a smile.

"Okay, the key is here for you." Qin Yu threw the key to him and walked forward without looking back.

When approaching the building, Qin Yu met Hua Sen who had arrived early.

"Boss, a good Chinese New Year!" After a new year, Watson looked red, as if he had gained a few pounds.

"Fat?" Qin Yu said with a smile.

Watson gave him angrily: "Boss, straight guys just talk like this."

Had he not been his own boss, he would have been chatting to death this day!

"Haha." Giving her a look, Qin Yu took the helmet from the safety management and walked into the building with Watson.

Riding the engineering elevator all the way up, the air seems to gradually become thinner.

Watson grabbed Qin Yu's sleeve a little nervously, and whispered to the worker controlling the elevator:

"Master, how many floors are we on?"

"Secretary Hua, we are installing 89 floors, and there are 30 floors above it!" The worker responded with a smile.

As soon as he heard more than eighty, Watson's calves began to bulge.

How high is this, at least four to five hundred meters, right?

My goodness~

With red cheeks and heavy breathing, Watson was a little dizzy: "Boss~ I have soft legs..."

Tears rolled in his eyes, and Watson knew it from his heart.

She is a little afraid of heights, not to mention the engineering elevator that rises against the outer wall.

Let the wind from left to right, she is afraid!

"Look in." Pulling her closer to the outer wall, Qin Yu comforted: "It's okay, I am not here! If you really want to fall, it can be considered as a joint burial. You earned it."

Hearing what he said, Watson, who was terribly scared, laughed out loudly: "Boss, you are really narcissistic."

"This is not narcissism, but self-confidence." Qin Yu's mouth curled slightly: "What do you think?"

"Yes Watson put the folder under his armpit, pointed at Qin Yu with his hands stretched up and down, bent his knees and shook his arms and said: "My boss, the first handsome invincible in the universe. "

After I felt it was not enough, I came back to Qin Yu, raised his arms over his shoulders and shook his wrists: "Ah, this \*\*\*\* charm."

"..." Brother Yu was full of black lines, passed, Secretary Hua, passed.

The elevator driver looked stupid, these two people... why are they shameless?

Cang Dang.

The elevator stopped on the 89th floor, and the elevator driver's eldest brother said in a numb tone: "Here we are."

A boss, a boss secretary, dare to make a comparison?

However, Secretary Hua is really beautiful, and I don't know if he has a relationship with the boss.

Not everyone has said, if the secretary does something, it's okay hehehe...

There are some things, outsiders looking at flowers in the mist, on the contrary, the taste is delicious, tusk!

**Chapter 525: Analysis: Aturing Genesis**

"...2 months, completed on time by May at the latest!"

After meeting with the person in charge of the scene, the other party made a firm guarantee.

"You don't need a military order, I believe you." Qin Yu responded with a smile.

When he said this, the other party was under pressure.

It seemed that he was really making a military order, and the other party trusted him so much.

"... Mr. Qin." The other party smiled bitterly and shook his head: "Two months, it must be done!"

"Okay." Qin Yu pressed the other person's shoulder hard: "I will personally celebrate the work for everyone when the time comes, and the national liquor is enough!"

"Thank Mr. Qin, let's go here..." The other party took Qin Yu and Hua Sen to see the internal structure.

The overall structure of the building, divided functional areas.

Channels between various areas, public elevators, private elevators, president VIP direct elevators, freight elevators...

There are seven or eight different entrances just by the elevator, which is ridiculous!

The structure of each floor is door-to-door. After the elevator room comes out, there is an open space on the left and an open space on the right.

This can be divided freely according to different needs...

The whole building has 119 floors, how can it be used up?

Leaving it will only make the building look desolate, and the most feared thing about the residence is its lack of popularity.

Once the popularity is missing, everything goes wrong!

People raise their qi, and buildings also raise their qi, the same...

Therefore, except for the 39 floors above, the 80 floors below are all rented out.

"Several companies in Nanqu have intentions, and their current rents are too high." This matter is handled by Watson.

"What do you do?" Qin Yu asked.

"A law firm, an internet celebrity incubation company, a guarantee company, two mining companies..."

"The middleman makes the difference?" Qin Yu frowned. Then what kind of investment guarantee company is not a leather case, right?

This kind of thing is not uncommon, Qin Yu heard his father talk about it many times.

The guarantee company is now a minefield, it will explode as soon as you step on it!

"The other party has a good reputation, nothing happened!" Watson explained.

Even if these companies are all settled in, it is still too few for the entire building.

"No." Qin Yu thought for a while and kicked it.

This kind of name is unknown, I have never heard of it, and I am a high-risk person. If I recruit it, I am asking for trouble. Don't...

"Boss, not many companies have come to negotiate." Watson wanted to remind him that there are not so many choices now.

"..." Qin Yu was silent, and said after a moment: "All cancelled."

Since there is no one, just use it yourself!

The administration is unified to the lower level, and confidential R&D experiments are conducted on the 50th floor or above.

try{mad1(\gad2\');}catch(ex){} sterile room, cultivation laboratory, and core secrets are all placed in the headquarters.

Whether it is Kuafu, Loongson, Yuanguang Communication or Miracle Pharmaceutical, external secrecy is necessary.

This also happens to make full use of the excess space.

"Will this be too extravagant?" Watson said.

If the laboratory is moved to the headquarters, what will the R&D and experiment center behind be used for...is it to raise fish?

"Reserved, only the most core projects will be moved into the headquarters building, like the king of Pluto... the team led by Jing Yuan is the first to move in!"

The reverse engineering of the Hades-class industrial host computer is currently the primary project for Jing Yuan's team to conquer.

Although at this time, it may be that long.

But this cannot be a reason, and the reverse engineering of "Pluto" cannot be delayed.

In addition, an extended study on renal motility can also be launched in advance.

The high-beam aerial base station project can change to a better environment. The environment at the research institute is indeed a bit difficult.

"Other...I will think about it again!" There are still two months left, there is no time.

As for the internal soft furnishing, work can start ahead of schedule.

was originally planned to be on the 80th to 119th floors, and it was not possible to proceed until the facade was completed.

Now, the address is changed to the 50th floor below, and the internal soft decoration is immediately launched.

The above is still in accordance with the previous design, with all open spaces.

In the later stage, according to the needs of the settled unit, a detailed segmentation will be carried out, and the second decoration will be carried out...

Coming down from the upper floor, Qin Yu came to the hall.

went up the stairs to the fifth floor and visited the commercial floors on the 2nd to 5th floors.

These several floors will be used for commercial entertainment in the future, such as casual tea area, dining area, coffee bar, sports entertainment and so on.

is mainly for the scientific research personnel of the headquarters, they only need to become stronger, and it is not necessary to become bald.

Brother Yu didn't want to join the company, he looked all bald.

The light shines, the picture...

, I'm blind!

"Haha, boss, you are so funny." Watson leaned forward and closed with a smile, his waist twisted like a spring.

"I'm awkward, I will break if I twist it again." Qin Yu said.

Watson looked straight, "Who do you look down on?"

said it was a person who leaned back and lowered his waist, stretched his right leg forward to be level with the waist, and supported his body with one foot on his left leg.

"This pose..." Brother Yu was shocked, but she didn't expect that she still had this hand.

呲呲~

"It's easy for you to be...cough, it's a bit dangerous, don't show off outside, know what to do!"

Watson leaned forward and stood up straight, clapping his hands.

try{mad1(\gad2\);}catch(ex){} pulls down the skirt that moves upwards: "Boss, your Xihu mix is as serious as you."

"Who doesn't know that I am a serious person, be careful I sue you for slander!"

"Then I can't afford to pay!" Watson rolled his eyes and said mischievously: "Or, I will pay myself to you?"

hiss~

This woman just came to lower her waist, and now she's coming again.

make... make it!

Put yourself in sooner or later, and when the company is full of talents, you will be honored to go off the field... take maternity leave!

"Leave." Qin Yu glared at her before turning around and leaving.

Watson smiled triumphantly, and ran to catch up: "Boss, wait for me, the high heels that people wear don't walk fast..."

"Take off!"

"A lot of people, okay?"

"Boss, do you want to see me, don't you?"

"Boss boss, your taste is so strong!"

"..." My Nima saw her pouting her \*\*\*\* and getting into the car, I looked very proud.

slap~

"Yeah!" Watson blocked his back with both hands and fell into the seat.

'S cheeks are slightly red, and the previous arrogance is no longer there, and his mouth is slightly pouted: "Boss..."

The sound is like falling into honey, thick and waxy...

Um~

There was a shudder, Qin Yu turned around and got into the car, a kick!

Such a good tool person, and expecting her to work hard for a few years, the principle is still necessary! !

Time is not up, delay to enjoy what to learn...

Only the little secretary stood up, stomped his feet unanimously, and slammed his fist at the far away G63.

.....

.....

When I got home, I told my parents that I was tired, so I went back to the room for a break.

Qin Yu returned to the room and locked the door.

then lay on the bed and said silently "System, open the panel."

The transparent frame appeared in front of him, and Qin Yu pulled directly to the "Kirin ai intelligent assistant."

"Kirin."

"I'm here."

"Stop all commands, start new commands...analysis, Turing Genesis."

"Receive command, all commands stop..."

"In the calculation of the new instruction...error, secondary calculation, error... insufficient energy, looking for a solution..."

"Discover bio-energy, ingest energy to improve computing power... The plan is feasible... Start..."

"Hmm." With a muffled snort, Qin Yu, who was lying on the bed, tightened his teeth, his face instantly lost blood.

### **Chapter 526: 3 days and 2 nights**

Tired, exhausted from the soul, made Qin Yu tired and unable to open his eyes.

The body is hollowed out, more than...

This will make him feel that his soul is light and fluttering, as if he is in a gravity-free space.

Just hanging there, the body went away.

Can't move, can't fall...

I don't know how long it took before Qin Yu felt the touch of his body again!

The fingers twitched gently, and the legs were upturned to produce activity.

Then the wrists, elbows, and shoulders...

The heavy eyelids opened again, blinked blankly several times, and slowly closed again!

When I woke up, Qin Yu was standing next to a white coat, and there were a few instruments in the aisle beside the bed.

"???" The white coat was full of question marks, but said in surprise: "Wake up, people are awake."

Click...

After a random thought, the room was immediately filled with people.

Take a look, good fellow.

The aunt, aunt, and uncle's family, Lu Qing and her mother are all there.

This is the general mobilization of the whole family, and everything that can come is here.

"Get out of the way and let me see my son." Liang Chuyu squeezed away the people in front of him, squatting on the bedside with tears, "Xiaoyu, how are you?"

"It's okay, Mom, what are you guys?" Brother Yu was still a little puzzled, so he didn't just sleep, how could he be so exciting.

"Xiaoyu, you slept for three days and two nights." The aunt said worriedly.

"???" Qin Yu's head has more question marks.

After everyone had finished talking, Qin Yu knew that it was the third night.

After falling asleep that day, Liang Chuyu knocked on the door the next morning. He didn't hear any movement, except that he was sleepy.

But when I came back in the afternoon and found that his shoes were still there, and the door of the room was still locked, Liang Chuyu was a little anxious.

After finding the key and opening it, the person fell asleep on the bed.

He breathed a sigh of relief and cursed with a smile: "This dead boy, he's still lying in bed because he's an adult, so he got up quickly."

There was no response when he called, so Liang Chuyu gave him a push.

Qin Yu still didn't respond after this announcement...

Liang Chuyu's head buzzed and he was dumbfounded!

He quickly called Lao Qin to take his son to the hospital.

Lao Qin didn't wake up when he saw that his breathing was still there, for fear that something might happen if he moved around.

In the end, he dragged his favor and moved a little bit to invite the doctor to come home.

Later, my uncle came to pay a New Year's greetings and just happened to bump into it. Everyone knew about it.

Qin Yu is now a unicorn of the Qin and Liang families, and is even closer to the Liang family than the Qin family.

The whole family is pointing at him!

Who can sit still on such a big thing.

Therefore, there is the present scene.

As for Lu Qing, it was Liang Chuyu who took the initiative to call. She felt that such a big matter must be known to her children, and she should be psychologically prepared...

The doctor's diagnosis is not very clear, if it weren't for Qin Yu's sudden awakesness, he would have been sent to the hospital by this time.

Go directly to CT and do various brain examinations.

"It's okay, I just haven't had a good night's sleep in a long time, this will feel particularly good."

Qin Yu said that he was about to lift the quilt out of the bed. Just as he lifted it up, a gust of wind blew into the quilt.

Ok? A bit cold...

Looking down, Brother Yu put the quilt on again.

Seeing his embarrassment, Liang Chuyu was worried and amused: "Qingqing changed it for you, no one looked at it."

"Mom, do I mean this?" Brother Yu is stupid, can we say this behind his back?

"Okay, I won't say anything, I'm leaving, and make room for the doctor." Liang Chuyu drove everyone out.

"Xiaoyu, let's go out first." Auntie.

"Xiaoyu, take a good rest!" My uncle.

"Lie down well, let the doctor check again, you must pay attention to your body, don't be careless..." Auntie.

"Brother, take care of your body."

All kinds of exhortations have been said for a long time, if it were not for the urging of the mother, I am afraid that I can't finish it.

He Hong didn't say anything, but just asked her daughter Lu Qing to stay, to see what Qin Yu needs help.

This will be a good time to promote feelings, and she can't leave anyone.

Naturally, Lu Qing would not refuse. During Qin Yu's sleep for two days, she was frightened.

This will look at her, her eyes are red and swollen, her face is disheveled, and her eyebrows are still worried.

"Qin Yu..." Sitting on the side of the bed, Lu Qing took his hand and couldn't help but start sobbing.

"Okay, okay, I'm really fine!" Qin Yu was also dumbfounded.

It seems that next time, I have to find a place that is 'safe' enough.

This time it was his mistake, and he did not expect such a situation to happen.

After being lethargic for three days, I was lying on the bed well, but I couldn't wake up.

Who is it, who is not worried?

Qin Yu speculated that Qilin had been absorbing biological energy from his body for the past three days, which caused his body to fail to obtain enough energy.

Then he fell into a coma, causing no one to wake up!

Now, everything is back to normal again, "It's okay, don't worry, I am fine now. If you don't believe me, ask the doctor."

Holding Lu Qing, Qin Yu rubbed her fingers with her back to her.

"Ah, Mr. Qin's physical indicators are better than normal people. From the report, there is absolutely no problem!"

This doctor, at first glance, is doing great things, with a wide path and a promising future.

"Then why can't he wake up?" Lu Qing wasn't too foolish. How could this happen normally.

"From the current information, Mr. Qin may suffer from a unique symptom. In a certain state, he needs to sleep for a long time to meet his physical needs..."

The doctor pondered for a moment, and then said: "In fact, there are not a few rare special symptoms, such as being able to feel the patient's symptoms, being unconscious when out of the village, being able to hear sounds that other people can't hear, and so on."

"Such symptoms are generally not life-threatening, although they seem strange."

There is reason and evidence, the words are round, and the words are particularly firm.

Brother Yu almost believed it...

"Thank you, doctor." Qin Yu said as he found the phone, it still had 5 percent battery power.

"I lost it." I found the charger left and right, charged the phone first, and my panic immediately calmed down.

"Doctor, add a WeChat account, maybe I will trouble you in the future." Qin Yu said with a natural expression.

The other party understood it, and he pushed the instrument out after adding the WeChat account.

Someone will naturally come to clean up and carry it later.

These are all costs, so he has to explain the cause of the disease to the family first!

Before he had forgotten his theory, although he felt that the judgment he made was not a random fabrication, it was the real situation.

Unfortunately, he has no evidence!

Solve the immediate problem first, and the next thing...

He intends to urge Qin Yu to check regularly to ensure that his body values are stable at the health standard line.

In the room, Qin Yu was talking with his arms around Lu Qing.

She hasn't eaten well or slept well these days, and she has lost weight.

"You can't do this in the future No matter what happens to you, you have to take care of yourself first.

Only in this way will you have the time and energy to solve the problem instead of exhausting yourself. "

While speaking, Qin Yu did not hear Lu Qing's response.

Looking down again, she was already asleep in her arms.

Meifeng frowned, as if he was still worried about his health, and it was difficult for him to accept the doctor's judgment for a while, let alone believe the word.

Help her tidy up the scattered bangs and put her on the bed.

Qin Yu put on his clothes and went downstairs. He would scream hungry and scream, thinking that he could eat the next cow.

In the bottom of my heart, I never forgot to say silently: "System, open the panel..."

## **Chapter 527: Come forward**

"Aturing Genesis, the analysis is 100%..."

"Analysis is over, waiting for new instructions..."

"Waiting...Waiting..."

"Waiting timed out, secondary development, under development..."

"New code generation...unnamed..."

The new code generation is a rotating sphere formed by countless codes in Qin Yu's eyes.

There are infinite numbers in it, forming a complete "world."

"Transmission network, use me as the coordinate, launch!"

"Accepting new instructions, code transmission..."

The water-cooled desktop computer that was not used much after I bought it in the room started up, and a series of responsible codes flashed quickly on the screen.

zzzzzz...

The water in the machine seemed to be about to boil, and Brother Yu was frightened.

After 3 minutes, all movement disappeared, and the machine opened a brand new picture.

A brand-new magical world is presented in front of you. The muscles on the cover are pierced and the character holding a skull cane is very familiar.

"Grass (a kind of plant), isn't this spear brother?" Qin Yu was dumbfounded.

It seems that this has become a big boss...get a Jill?

While Lu Qing was still asleep, Qin Yu got up and wanted to try this game.

Nothing happens when I click with the mouse...

After reopening the panel, Yu Gezi carefully read the 'introduction' that he had overlooked before, and realized that he had made a mistake.

Virtual reality game, that's it? ? ?

The manufacturing process of the virtual helmet is in his brain.

Cash cow? ?

ATM? ?

Brother Yu has just two words in his mind: make, but make it with strength!

Money, I'm sorry, I am not interested in money, just out of hobby.

Money is just like paper to me.

I won't touch it!

Because of excitement, Qin Yu turned around and jumped onto the bed, hugging Lu Qing's 'mumumu' and kissed a dozen.

I kissed her directly and opened my eyes. ? ? ?

"Qingqing, the boy's dream of death...I have realized it!" Qin Yu had already thought about how big a sensation would be after the news was announced.

And Lu Qing...

Be stunned, continue to be stunned, what's the matter?

...

...

On the sixteenth year of the new year, the taste of the new year is gone.

In front of Miracle Pharmaceutical, a red drape covered the door plaque, with fireworks on both sides.

Wanxiang's artillery battle spread all the way, all kinds of commuter cars parked on the side of the road, less than the number of self-media and interview cars.

This guy... the road is blocked!

"Boss, let's go down, the guests are here." Hua Sen pushed open the door of the administrative office and saw Qin Yu standing by the window looking out.

"Ms. Ye is here too?" Qin Yu asked without looking back.

"Here," Watson said.

"Let's go!" Qin Yu turned around and walked outside, his expression a little helpless.

The identity has been exposed, and there is no excuse for thinking about slipping away!

No, when Miracle Pharmaceutical was opened, he was also taken to the platform to take pictures.

I have to take photos with the leaders after the meeting, but fortunately, he does not need to come forward for the evening entertainment.

"Shao Qin, it's really not easy to ask you!" Ye Jintan laughed tauntingly.

"It's not that you don't know, I don't like this kind of occasion." Fooling, talking nonsense.

Business talk is more interesting than this. What can't you do if you have this time?

The young lady who has sent private messages in the past two days, Brother Yu has no time to take care of it, do this? ? ?

By the way, since his identity was exposed, more and more people found him in the notes.

For this reason, the little anchor deleted all his comments under the video.

Still can't hide from Yingying Yanyan, who took the initiative to come to recommend, the scale in the eldest brother's private message is that there is no scale.

The content is so rich that you can't even imagine...

Brother Yu basically doesn't look at the normal version of the note now, open it to the background "adult version."

Oh!

"After taking the photo, I will let you go. It's good for you to get familiar with the main leaders."

Seeing his disapproval, Ye Jinlan continued: "The mayor and senior officials are here, you have to see..."

The chief officials and chief envoys of Xinjiang have all arrived.

Qin Yu, the protagonist, should be there to show up, otherwise people would think that there is nothing tricky in it?

"Come on, leaders, please here!" Xu Hao, Mr. Xu is here.

Arrange a place for everyone, right and left, with a broken mouth, the sky is falling, and the leaders are happy to smile.

"I will introduce to the leaders, this is our President Qin, and also our God of Wealth, the chief technical officer!"

Xu Hao made a grand introduction to the two leaders, and afterwards introduced: "This is our chief ambassador, Situ Hao."

"Situ senior official, this is the first time I met Fu surname." Qin Yu shook his opponent's hand and smiled.

Chinese character face, thick eyebrows, big eyes, and a decent face.

Face-to-face gives an impression of boldness, which makes people feel close unconsciously.

Situ Hao smiled nicely: "Haha, then you will see you often in the future, and you will have to deal with each other in the future!"

For Qin Yu, Situ Hao is also known by his name for a long time.

It's just that there is no chance to see it, and there is naturally dissatisfaction, but the other party can deliberately put all the industry's focus on the abandoned capital.

In his hometown, this intention alone left him speechless.

There are too many prejudices and stubborn diseases in this northwestern land. It is also a problem that it is backward and unable to retain talents!

For enterprises, this is even more a big problem.

Qin Yu was able to overcome many problems and put the company in his hometown. This determination Situ Hao also admired.

Not only has the ability, but also has the courage and courage!

Just talk about the background of the other party, and wherever you go, the policy is almost the same.

Others know this, and Situ Hao knows it in his heart.

Therefore, there is nothing to blame!

It was a blessing and a pleasant surprise for Situ Hao to see him today.

As he just said, the two sides will inevitably deal with each other in the future.

I also hope that Qin Yu's preference can be maintained and support each other and develop together with the Northwest.

"This is Li Yuan knows the state, we are the parents of the abandoned capital!" Xu Haoyou introduced him to the mayor who was the next step forward.

"Mayor Li, lucky to meet!" Qin Yu was polite, holding the opponent's hand with a smile and sinking forcefully.

Compared to Situ Hao, Li Yuan looked a little gloomy.

The body is thin, the complexion is thin, and the head is flat, giving the impression of a sharp head and a slippery head.

However, the opponent's eyes are very clear.

The complexion is dull, and it seems to be sun-dried all the year round.

When he walked into the village with his back hand, he was an ordinary old farmer who was not awkward at all.

"Ms. Qin." Li Yuan smiled slightly, and returned to a serious expression again.

It seems that this Mayor Li is a doer!

This is a good thing, and Qin Yu likes doers.

These days, there are too many people talking and too little work, and it's a mess!

"Come on, let's take pictures first." Seeing the two sides had a face-to-face meeting, Xu Hao greeted him and started to take a photo.

According to their identities, Ye Jinlan and Situ Hao have double C positions, although Ye Jinlan's position in the company is under Qin Yu.

It can't stand the background of the people, especially in the past six months, they have gradually begun to take over the family's resource network, which is favored and valued by Ye Lao.

Even Situ Hao must pay attention!

But Ye Jinlan stepped back and pushed Qin Yu to the front, taking the initiative to retreat to his side.

Seeing this scene, Situ Hao looked at Qin Yu specifically.

Seeing that his expression was calm, the evaluation of him in his heart rose from the tenth to the fifty in an instant.

I thought that the tenth floor was overestimated enough, but I didn't expect it to be bad.

Hastily, this time hastily! ! !

"Come on, dear leaders, lean in... Okay, let's listen to my slogan and smile..." The photographer crouched and pressed the shutter.

Click!

Next to him from the Yamen Propaganda Office, there were also two reporters from the court station, looking for different angles and pressing the shutter.

It took nearly 3 minutes for a photo to be taken, and Qin Yu's face smiled stiffly before it was over.

"Very well, thanks for your hard work, everyone." The photographer applauded, and the others applauded.

That's the end of a show...it's a good look, there are more projects behind it!

Visit the factory area, interact with employees, gain a deep understanding of the company's culture and ideas, and have a meal in the cafeteria to be sympathetic to the people's sentiments.

After some interaction, the day passed.

"In the evening, President Qin wants to fly away to discuss projects, so he can't accompany the leaders."

If someone else said this, there must be a problem.

But to be replaced by Ye Jinlan... "Business matters ~ [www.mtlnovel.com](http://www.mtlnovel.com)~ To achieve today's achievements, Qin must work harder than others.

Young people should be vigorous and energetic...young and promising! "

Situ Hao set the tone, and the journey came to a successful conclusion.

It was handed over to Xu Hao, Li Xiao, and Yang Chengjun to accompany him. The busy brother Yu did not speak to them today.

"Let's get together tomorrow, it's hard work." Before leaving, Qin Yu had time to say something to Li Xiao.

The other party smiled with a complicated expression: "Don't worry, everything is arranged, go quickly, Miss Ye is waiting in a hurry!"

Xu Hao, who was arranging the leader to board the car, extended his thumb, although he didn't say a word.

Qin Yu seemed to hear, "Brother Yu, it's still your horrible critic, buddy took it!"

### **Chapter 528: I want me to be happy**

In the hotel room, the heat has not yet dissipated, with the smell of seafood!

Ye Jinlan lay in Qin Yu's arms and asked softly: "They don't want you to be with me?"

Qin Yu played with her sideburns with his fingers, "You have to understand, after all, in the eyes of outsiders, we...there is a big gap."

Ye Jinlan laughed and said, "Is it the gap between you and me?"

Qin Yu was speechless: "Are you deliberately attacking me?"

Ye Jinlan teased: "I don't dare, you Qin Dashao is young and promising, you are also the God of Wealth, you are also a science and technology man, a medical genius..."

"Pop..." Qin Yu took a picture on the back bridge and said in a huff: "Speak well, and then the yin and yang will be weird, just gag you!"

"Who is afraid of the serious?" Ye Jinlan was not convinced.

"Do you think it can be serious?" Qin Yu asked back.

Ye Jinlan covered her mouth with her hand and shook her head to show her resistance.

Although it's smelly, but if you eat too much, your throat hurts, who can bear it?

"Just be afraid, I thought you were an iron-headed baby." Qin Yu said amusedly.

Ye Jinlan rolled his eyes and didn't bother to pay attention to him again.

All day long, when you are not serious...

More and more rude, no pity for Xiangxiyu at all!

"Miracle Pharmaceutical has started, now it's all right, grandpa doesn't have to worry about stopping the medicine." Ye Jinlan murmured gratifiedly, with a smile on his mouth.

"Yes, the publicity must keep up, and good products must also learn to promote. The time when wine is not afraid of deep alleys is over."

Kidney power is also a small name in the circle, as long as Ye Jinlan makes a sound, this is the medicine to cure Ye Lao.

Some are bought by a lot of people, but the outsiders don't know its magical effect.

Qin Yu didn't sell high-priced medicines, so he would naturally have to use the amount to offset the price.

According to Ye Jinlan's description, the kidney power that Ye Lao took was very different from the effect he took.

The six-pack abs is gone. In terms of male function...

Being a granddaughter is not easy to ask, in short, I didn't see the old man having a twilight love, looking for a confidant.

It seems to have a little effect to strengthen the body in an all-round way, but it is hard to see.

Before the old man was ill, his body was already in good shape.

Now, it seems there is nothing wrong!

"Don't worry, the sales of your medicine will not be bad. Those who want to invigorate the kidneys have to buy out the medicine." Ye Jintan laughed nonchalantly.

"Then they should be prepared to count the votes." If you want to use 'kidney power' to nourish the kidney, it's no problem.

As long as the money is ready and willing to spend it, the custody effect will be significant!

"You won't just study for this, ah... I was wrong... Box box box, wrong, woo..."

Before Xiao Niangpi could make the storm, she was suppressed strongly by Brother Yu, and only whimpered to express her dissatisfaction.

...

...

For two weeks, Qin Yu was staring at Miracle Pharmaceutical.

Not only is he staring, but other companies and institutions, including the media, are also staring.

This is the fourth company under Qin Yu's name and the first pharmaceutical company in the miracle department.

What kind of surprises can be created, or just like other companies, are approved to sell drugs for money.

Everyone is looking forward to...

Regarding the miracle department, it is no longer a secret.

Just like Qin Yu's identity, more and more details have been dug out after the gradual exposure to attract attention.

For example, the miracle department started with "Lixin Investment," followed by Kuafu Technology, and then it was a sensation to inspire National Core's Godson.

Then there is the high light, this company has to say it well.

One of the first batch of military contractor pilot enterprises, only experts can understand, what a change and impact this is.

For laymen, just watch the excitement and say: awesome!

In fact, the reform of the entire military industry affects the whole body.

Not to mention the number of pilots, ordinary people want to grab it, but they can't grab it. There is no way at all.

As for the supply chain below, the brains of the supply businessmen are turned into dog brains just to compete for a supply quota.

As you can see, other aspects are not much better.

Ye Jinlan has been busy with this matter recently. Hearing from Yang Chengjun, his family has also been affected.

It will take several years to calm down completely.

Fortunately, Yuanguang stays away from right and wrong, and is dedicated to seeking technological breakthroughs.

As long as you have technology, you will have confidence and hard-heartedness when you speak.

Whoever you see, the waist can stand upright!

Struggle, let's talk with the technology, don't beep if it doesn't work, and go back and forth.

Fighting backing, talking about the background, the far light is even more worthy of anyone!

They have to fix this quota.

In the end, this miracle drug that just "lifted the red hijab", the miracle department should be involved in so many industries.

Behind all this comes from an 18-year-old boy and a foreign-funded enterprise.

The background of Qin Yu started, and no news has been released so far.

I want to thank Ye Jinlan for this, all of her credit.

Although we all know Qin Yu, Baike also added his profile picture and introduction, but I will talk a few words before and after.

There is no such thing as the word "miracle". To sum it up, there is one sentence: the establishment of a number of well-known enterprises, with a number of technological breakthroughs.

Age, education, family background, none! ! !

It was the Flamingo Hedge Fund that took the opportunity to become a hit.

What's hot is also a name, background, equity, source of funds, etc. The confidentiality work is better than the miracle department.

Some international students want to inquire about relevant information, but they also ask three questions...

Many Barrow natives do not know what the flamingo hedge is.

Even most people have never heard of this name.

It can only be said that the level of people they have contacted is not enough.

Otherwise, it's not just asking three questions.

Instead, he told him solemnly, don't inquire about it, it will kill people...

Outside prying eyes did not hinder the normal operation of Miracle Pharmaceutical.

The first batch of medicines were taken off the shelves and shipped to hospitals and pharmacies across the country.

However, the price of buying in a pharmacy far exceeds that of a hospital.

At present, Miracle Pharmaceutical can trust the hospital, and the reformed medical system is also trustworthy.

It cannot be generalized, because a single rat \*\*\*\* is totally negated.

As a leader, you still have to have a big picture...

If you have symptoms such as kidney failure, go to the hospital for diagnosis, get a diagnosis report, and you can buy cheap medicine.

After reimbursement, the price of each pill shall not exceed RMB 40.

Compared with other similar products, the low price makes doctors cry.

Too conscientious!

Now, Qin Yu is waiting for the product word-of-mouth to take effect with others.

The evaluation of the first batch of medicines, how effective the medicines are, and the feedback from consumers will all be known by the first-line feedback.

The second batch of drugs is being loaded into the car Compared with the first batch of 2 million boxes, this time the quantity is more abundant.

3.5 million boxes, all sent to second- and third-tier cities, with priority in the northwest region.

This can be regarded as a kind of welfare. As a Northwest enterprise, it is impossible to even take care of its own 'turf'.

Qin Yu put the company in the northwest, thinking about driving the hometown economy in an all-round way.

It doesn't matter what other people think, what matters is what he thinks.

What does it matter to me if others are unhappy?

What Brother Yu wants is to be happy, as long as I am happy, everyone is happy.

As for those who can't understand, you can't understand me, and you can't get rid of my appearance, like a clown, ridiculous, ridiculous!

## **Chapter 529: Magical universe**

March 5th, Sting!

Qin Yu received positive feedback from the front line, especially the hospital.

The renal motility effect is remarkable, and it has shown amazing curative effect in kidney disease. Its effect has made countless doctors cry out for miracles!

Qin Yu had known this in advance, and the prompt from the system was still continuing.

"Rewards accumulating..." The rewards were not issued in the first time. It seems that the system needs another big trick.

Brother Yu is not in a hurry, it is all his own, and he can't get away even if he wants to run!

Other feedbacks are also mainly positive.

The few negative feedbacks came from passers-by.

It can also be said to be a passerby keyboard man, who hasn't used it before, and starts various speculations, inferences, and assertions.

It's ridiculous!

But he turned his head and thought about 'the genius doctor universe,' Qin Yu was somewhat helpless.

I really don't blame the common people for being deceived and afraid of being deceived!

Earn those two dollars in one year, take medicine when sick, and get confused by being deceived.

In the end, the illness became serious without treatment, and the money was gone.

I saw a 'cosmic storm,' all kinds of genius doctors appeared one after another, and the talk was better than the singing...

Connected to Ye Jinlan's number: "Xiaolan, publicize the slowdown point, especially to avoid the medical effect, don't be involved in the magical universe..."

To be honest, Qin Yu's brain hurts when he mentions the word 'genius doctor'.

The first reaction is to reward him with a big mouth!

Genius doctor, my god, your grandma, a niece...

"Our advertisements are all promoted in short videos, focusing on traffic, genius doctors...Do you think I can drink poison by myself?"

Ye Jinlan is also ridiculous, saying that he is cautious, or he is too cautious and doesn't trust him enough.

No matter what, the circles and horizons are there.

What can be touched, what can't be touched, can Ye Jinlan know?

Anyway, NT is rare in the second-generation circle, and the birth platform determines his vision.

With more knowledge, who doesn't have any eyesight or judgment.

It's not related to interests. It involves face, and few people will take the initiative to establish enemies.

Multiple friends, multiple paths, to be kind to others is to be kind to yourself. They understand these principles better than ordinary people!

...If you encounter a real brain damage, you can only say that you have won the jackpot!

After all, when the forest grows, there are all kinds of birds, and there are always a few heads that crash.

"How are you doing?" Qin Yu asked.

After talking about the nostalgia, it is natural to talk about business, and the lazy cat has also returned to it. I don't know if the two will meet.

"Are you trying to ask your Zhenggong Niangniang?" Ye Jinlan poked.

To dismantle Qin Yu's careful thoughts,

"How come, I asked you." Brother Yu firmly denied.

"Then I'm pretty good, eat well, sleep well, and occasionally visit Grandpa, he is also pretty good..."

After talking, there was no mention of Lan Yue.

"Didn't you go out and gather with friends?" Qin Yu asked.

"Puff~" Ye Jintan laughed out loud. He was three hundred taels without silver in this place.

After enduring it for a long time, I couldn't hold it back in the end.

Heh, man~

"The afternoon tea with Yueyue, she was also very good, and she has adapted to the dance practice," Ye Jinlan said.

"Well, I will see you when I have time..."

"Men, it's you. Just say it if you want to. Anyway, someone's name is not right, and the words are not right. If you really want to enter the door, you have to look at the face of the lady.

Whether you can stay at home or not, you have to listen to the eldest woman, now you don't want to fudge! "

Ye Jinlan is acting as a demon again, and she is the only one who knows Lu Qing.

If you can't see the thoughts of Brother Yu, he has no plans to get married...

The times are different for the main house or the side house.

You marry this, then marry that, this is called bigamy!

You only fall in love, how many, it is not guilty.

Don't ask, ask is for dreams, long live love.

"Is the progress of the headquarters going well?" Ye Jinlan said.

"Successfully, it will definitely be completed in May." Qin Yu said.

"Then I will wait for you in Shang Shang. Grandpa wants to invite you to eat at home."

"...Isn't it a big family?" Qin Yu joked.

Only Ye Lao, this meal must be eaten.

He and the old man were quite able to chat, and wanted to hear Ye Lao talk about revolution.

But if the Ye family is a big son...

"Only grandpa and sister-in-law, you've seen them in the hospital." Ye Jinlan said, "my sister-in-law is very good, not hostile to you!"

"Okay, when the time is arranged, I will notify you in advance." Qin Yu said.

"You call me personally, don't let the secretary call me." Ye Jinlan doesn't like his secretary, who is so beautiful.

"Yeah." Replied, the conversation ended.

Although I don't understand why he should be hostile to Watson, he is so principled.

But since it was her request, Qin Yu would be satisfied.

Make a phone call, it's like a big deal!

As soon as it was over here, Qin Yu heard the alert tone again.

"Ding!"

"Congratulations to the host for developing a shallow believer, rewarding experience value of 10,000..."

Rewards continue to accumulate...

Such beeps can appear dozens of times a day.

Kidney power brings not only financial returns, but also a deeper impact.

"Wa Sen." When she handed her to the office, Qin Yu looked at Hua Sen in a white shirt and a pair of jeans, "When will the last batch be sent away?"

"At 4:30 in the afternoon, what is the boss' order." Watson responded.

"I have to go there, and send me a picture on WeChat after the goods are sent in the afternoon!" Although there will be a report later, Qin Yu still has to know it well.

He is assured of his own people, but does not mean that he believes in everyone...

He does not need to take over the project himself, but the figures need to be counted, and finally compared with the report.

This data was given to him by Watson, and he is also showing his outstanding ability.

In this regard, Qin Yu has a deep understanding.

Watson's business capabilities can be said to be top-notch.

With her, Qin Yu's workload has been reduced by at least 70% to 80%, so that he will not become confused.

From this, Yu Ge came to a conclusion!

Only by hiring more practical and capable people.

Only Brother Yu can unswervingly run towards his dream...

...

...

In the G63 car, Qin Yu opened the trunk first.

Inside are all Huazi, Maotai, all kinds of big-name handbags.

I chose a set of Dior skin care products, the price is not expensive, only a few thousand yuan.

Qin Yu put the things in the co-pilot to prevent him from forgetting it when he waited.

I drove to Hai Lao and walked in with the gift bag in my hand.

After giving his name, the waiter guided him to his seat.

"Xiaosu?" Seeing the looks of the other party and the video ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Yu Ge was very satisfied.

"Shao Qin?" Xiao Su stood up, his expression surprised and uncertain.

This eldest brother, his wife is too handsome, right?

Seated, Qin Yu put the gift on the table: "Yes, it's me, this is a gift for you."

"Thank you Qin Shao." Xiao Su accepted the gift with a sweet smile, guessing how much she could get today.

This is the first time she has come out, and she has heard everything about prices and regulations.

Before seeing Qin Yu, she had been worried about the photos circulating on the Internet, wondering if it would be a 'photo fraud.'

Now, this worry has turned into a small excitement, and the big rock in my heart "clams" to the ground!

### **Chapter 530: Receive the gift and receive the kidney power**

Happiness...In the hotel room, I saw Xiaosu's electric hip dance performance.

Brother Yu applauded vigorously and did a beautiful job!

With this craft, there will be no worries about food and clothing in this life, Ness...

"Big brother, how am I doing?" Xiao Su wiped his sweat and fell softly on the sofa.

This electric hip dance is exhausting her.

Fortunately, the eldest brother only watched one game. If he watched another one, shouldn't you give up both legs?

"Not bad." Brother Yu cherishes words like gold.

At this time, the more reluctant to speak, the harder Xiao Su worked hard.

Finally, Xiaoyu has to enjoy...

It's very moist!

Performing a dance for the eldest brother on the spot, doing all the unique tricks again.

Xiao Su was completely tired and paralyzed, lying on the sofa and panting, too lazy to move his fingers.

The next day, I woke up.

Xiao Su was looking for his eldest brother everywhere, but he went around the room and found no one.

I felt frustrated and turned on the phone.

99+ news is the norm, who is not a goddess who licks countless dogs.

Xiao Su, who was unhappy, vented all his anger on the dog's head.

"Like it, just like it with your mouth every day, saying so much disgusting me, chuckle, stay away."

"You love nm black silk, go home and let Nima wear it for you..."

"Have you never seen a woman? I haven't seen the nun's house in the past, I'm %&#\$@"

Seeing that the goddess returned to herself, she licked the dogs for a while.

After seeing the news of the goddess, I began to figure it out carefully.

Is the goddess suggesting that she should be more active?

It's decided, starting from tomorrow, I will give the goddess milk tea, three meals a day, once every day!

As soon as he vented, Xiao Su's mood improved a lot, and he began to wonder what his eldest brother was up to.

As for the reaction of licking the dog, Xiao Su didn't even think about it.

To lick the dog is not to use it to pull it out for a stroll, and to throw it out for free range.

Anyway, it's a mangy dog, and I can't leave it even if I can't leave it. When do I still need to care about the mood of licking the dog?

Scroll down to find Big Brother and see a transfer message inside.

Ten thousand yuan! ! !

Xiao Su didn't know whether he should be happy or sad: "Brother, why did you go? I miss you, mumumuma~"

...

...

Ding! !

The phone kept ringing, Lu Qing saw that Qin Yu did not respond, and asked curiously, "Is there something wrong?"

"It's okay, I'll talk tomorrow." Qin Yu said with a smile.

"Go and see." Lu Qing pushed him down: "I don't want to be Daji."

"Daji? Far worse than you." Qin Yu grinned smirklly. He picked up his mobile phone and walked to the balcony during Lu Qing's slap.

Voice-to-text is all messages sent by Xiao Su.

"Big brother, why did you leave, people miss you, mumumuma~"

"I don't want your money. I really like you, not for money."

"What do you think of me, if it is for money, I will wait until now?"

"Brother, I want to talk to you..."

There are more than a dozen of Balabala Chase, and Qin Yu directly blocked it.

Throwing the phone on the table, he went to bed with Lu Qing's arms around to sleep.

He slept until dawn and sent Lu Qing to school first.

Shaking his wrist, Lu Qing was a little guilty: "With this, will anyone think I'm showing off."

Chopin was wearing on his wrist, and the bulingbulijg flashed straight.

Qin Yu said amused: "I just came to show off, what can I do?"

"..." Lu Qing was speechless.

"Now you can ignore the opinions and perspectives of other people." Qin Yu said calmly.

Take it with you when you buy it. How to use your own things depends on the look and mood of others.  
What is the reason?

I'm not happy today, I smashed it, that's my business too!

"Okay, I see." Lu Qing pulled down his sleeves and got out of the car when he opened the door.

"Well, did you forget something?" Qin Yu licked his face and pointed at his cheek.

Looking at his childish appearance amusedly, Lu Qing leaned forward and kissed him on the cheek:  
"Alright?"

"Well, it's okay!" Qin Yu nodded triumphantly.

"It's not going right." Lu Qing laughed blankly, and ran towards the school with a wave.

Seeing the dull nerds at the door, Yu Ge was full of pride.

Just look up at the goddess, you only deserve to be envious of your eldest brother's days.

Can't drink bath water!!!

In one direction, Brother Yu drove the car home.

He has to go back to school today too, it is many days late, and he should be crazy if he doesn't go back to the class instructor.

The old car is now like a lady, and he is thinking about it every day in the group.

Talking, talking, just like a Tang monk.

If he keeps talking like this, Brother Yu can't help but kill him.

"Duo Duo, Duo Duobu." When he got home, Little Pumpkin Nono opened his arms and wanted him to hug him.

Holding the little guy in his arms, Qin Yu looked at Aunt Qiao: "Auntie, you have worked so hard. If there is anything you can't tell my parents, call me."

"Everything is good at home, little gentleman, don't worry." Aunt Qiao smiled and took the little pumpkin: "I have packed my luggage, little gentleman is careful on the way."

"Well, let's go first." After kissing Little Pumpkin, Qin Yu's car arrived.

...

...

Arriving at Hudu, Li Xiao drove to pick him up.

"Brother Yu, kidney power is really hot, and I can't get it in the pharmacy." As soon as he got on the bus, Li Xiao started talking.

He wanted to adjust his body, so four pharmacies were out of stock.

Simply outrageous!

"Is it okay?" Seeing his weird expression, Qin Yu then asked: "Brother, are you dying?"

"No, I will not, just kidding." Li Xiao's face was full of disdain, with deep contempt in his eyes.

It's like saying, 'would a real man like me work?'

But the more he was like this, the more guilty he appeared, and Brother Yu didn't want to say anything.

Speechless, Brother Yu whispered: "I will get you two boxes when I get off the bus."

"Okay." He said no, but his body was honest.

When getting off the bus, Qin Yu took two boxes from his handbag and gave him.

Li Xiao took it silently, and saw that there were still a few boxes in the handbag.

Calmly reached out and touched the two boxes again and put them in his pockets: "I have a friend, and I want two boxes too."

"..." The horror is like this.

"Take two more boxes?" Qin Yu asked.

Li Xiao didn't say anything, and reached out his hand to touch two more boxes.

...Absolutely!

"Brother Yu, set up a table for the mouse at night, and I will send you the address." Li Xiao loaded the medicine into the car and then talked about the evening arrangements.

When I just came back, I would definitely have to pick up the dust!

"Okay, get together again at night." Qin Yu waved and walked towards the school.

Go to the instructor first, see if the person is there, put a piece of huazi in the drawer, and put two bottles of Xifeng aged wine under the table.

Going back to the bedroom, pushing the door, Brother Yu shouted: "Boys, I'm back, my lord."

Slippers, pillows, washbasins wait!

Dangdang, a random thought, Yu Ge flashed flexibly and put the handbag on the ground.

"I brought you some good things." Unzipping the zipper, Qin Yu lost two boxes of kidney power to Yan Er and Shen Dong.

"Fuck, this is the hottest kidney medicine at the moment?" Yan Er was startled.

He was thinking about buying this stuff recently, but he couldn't buy it!

Shen Dong Ma Liuer was about to put it away, vomiting: "Second brother, you forgot who produced this medicine?"

Yan Eryi is right!

Isn't this the Yu brother's factory? He is the boss. Isn't it normal to have medicine?

"Brother Yu, honestly, don't you rely on this if you are so strong?" Yan Er asked mysteriously while holding the medicine.

"..." His eyes looked at him contemptuously, and Brother Yu vomited: "What a joke, do you think I need to take drugs?"

I'm all based on talent, effective training the day after tomorrow, 22cm understandable? "

Yan Er vomited on the spot!

On shame it must be Yu Ge Niubi...

"Where's the class guide?" Qin Yu took out two boxes of medicine.

Kidney Power is purchased in the hospital under the real-name system, but it is not available outside.

For ordinary people, this is a magical kidney-tonifying power booster for men, a proper golden gift!

As long as he is a normal man, he is absolutely satisfied.

Knowing that men's requirements for the kidney are the same as women's paranoia about beauty, there is no limit.

Do as strong as you can, the upper limit?

what is that? ? ?
