

## Pinnacle 621

### Chapter 621: Sycamore Smoky Cloud

Gao Bo has been promoted to his junior year, there is no problem with time!

He also happens to have the idea of finding a job, and besides, he has the idea of staying at the window.

"Do you really have this thought?" Qin Yu asked.

"Really." Gao Bo nodded, he would drink a little bit.

There are some inner words, it is not spitting up and unhappy: "The crying child has milk to eat. If we have four in our family, I will not cry.

Sometimes I feel like I'm an outsider, it's better to stay here, and have a thought for each other. "

"What are you thinking about?" Qin Yu said amused: "I don't realize my current age, is it a bit esoteric to think about it?"

"Either profound or shallow, I decided to stay anyway." Gao Bo glanced at the woman beside him.

"My woman is here, where do you want me to go?" Gao Bo's transformation cannot be understated, as he couldn't say this a few years ago.

If anyone said that, he would definitely have to be stunned.

It's better now, but he himself became that person...

"You make up your mind about this kind of thing, no matter where it is, we don't cut the connection between us." Qin Yu said.

"That's for sure, brothers will still be waiting for you in the future!" Gao Bo laughed.

The wine was almost finished, Qin Yu cleared the wine in the glass, and took the remaining half of the bottle away.

Here, Ai Rui has already settled the bill, and is helping Gao Bo walk towards the car in small steps.

"Brother Yu, get in the car!" Sitting in the co-pilot, he saw Qin Yu not moving by the roadside, Gao Bo urged.

"That's it for today, don't disturb the world of both of you, the car I called is here."

Qin Yu pointed to the other side of the road, and the online taxi called was making a U-turn.

Just before the end, he placed an order with Xu Meixin, which was just right in time.

"Okay, let's get in touch tomorrow, do you want me to show you around?" Gao Bo laughed and said, "We are also half a window."

"Phone." Qin Yu made a call gesture, bowed his head and waved to Ai Rui in the cab: "Be careful on the road, brother and sister."

"Yeah, goodbye, Brother Yu." Nodding and smiling, President Martha drove away slowly.

...

...

Back at the hotel, Qin Yu directly threw his body on the big bed.

As soon as the eyes are closed, one enters the world of "The Scary Demon".

Sitting in the living room, Xu Meixin looked around, wondering what the boss did.

I didn't explain how to arrange this evening.

After waiting for a long time, my heart said, "Why don't you go and see," he went to the master bedroom and looked in.

Qin Yu'sleeping' in bed Zhengxiang!

Standing in place angrily and funny, Xu Meixin turned to leave, and then stopped again.

Isn't he drunk too much?

Wearing clothes, even shoes, sleeping so heavy, it really looks like drinking too much.

Tangled and struggling, Xu Meixin turned and walked into the bedroom after a long time.

He took off his shoes, and then carefully unbuttoned his shirt.

The muscle lines exposed to her sight caused Xu Meixin to increase her breathing unconsciously.  
pants.....

'Well, how about that? Xu Meixin is even more entangled.

But when I think of wearing pants, people will definitely not sleep well. Besides, the boss has a habit.

Everywhere you go, you must wash your clothes when you sleep at night.

If you find that the clothes are not washed tomorrow, you might have to run around early in the morning to buy him clothes.

"I'm trying to get myself a good night's sleep." Xu Meixin found a legitimate excuse for herself.

Then, untie the belt...

Sissoso!

Hugging the crumpled clothes in her arms, Xu Meixin ran out of the room.

Standing in the living room, he took a long breath and raised his palm to fan.

Something was drawn directly on her face, Xu Meixin took a look outside.

The 'huh' face turned red, when did these boxer briefs hang on your hand?

In the room, the sleeping Qin Yu opened his eyes, glanced in the direction of the door, and closed his eyes again.

...

...

The next day, Qin Yu put on clean clothes and walked out of the bedroom as usual.

Xu Meixin breathed a sigh of relief for not mentioning what happened last night.

If Qin Yu really said something, she suspected that she would die on the spot.

It's time to look for your previous resume.

"Dingling~" Xu Meixin ran to open the door, and it was Gao Bo and Ai Rui who came.

The two went out early in the morning, discussing today's route while driving to the hotel. This meeting has already discussed where to take them.

Window of the World, this is definitely going to be.

Then I want to climb the mountain, that is Wutong Mountain to see the smoke and clouds, and go to the Mangrove Bird Nature Reserve with ease.

Watching the sea is naturally Dameisha. There are a lot of people, but the projects are also complete, making it more enjoyable to play.

There are also beaches with few people. The key is nothing. You have to bring everything yourself.

Even changing clothes can only find a way to find a wood or nest in the car.

The time is too short to prepare even if you want to.

"Climbing the mountain." You can see the sea when you return to Hudu. Isn't it fragrant to drive your own yacht?

"Then we have to set off now, have you eaten?" Gao Bo said.

"Buy some on the road." Qin Yu said as he picked up the handbag and walked out together.

Drive to Wutong Mountain and park the car in the parking lot.

Whether you can see the beautiful scenery of the smoke and clouds in the back depends on your feet and physical strength.

Xu Meixin's feet have changed into a pair of sneakers, which she bought by the way when she bought breakfast on the way earlier.

There is a lot of road to go today. Wearing high heels, she has to grind her feet.

"Let's hurry up. If it's slow, we may not be able to catch up today." After noon, even if there was a cloud of smoke, it disappeared.

Hearing what Airui said, several people immediately started climbing.

The mountain roads of Wutong Mountain are not rugged, and the roads are very flat, but this does not mean that it is easy.

The weight-bearing feeling brought by the journey quickly made Xu Meixin, who was not good at exercise, breathe with sweat.

Ai Rui didn't get any better, but she could hold it, and Gao Bo was also sweaty.

Only Qin Yu is like a okay person.

Seeing his breathing heavier, several people felt normal.

No matter how strong the stamina is, this one should feel tired too!

Halfway through the climb, Xu Meixin couldn't hold on anymore, and everyone decided to take a break.

Five cucumbers are very refreshing after peeling.

Take one for one person, rest for 10 minutes after eating, and then climb up.

When climbing a mountain, the more you stop, the more tired you will be. The longer you stop, the breath in your heart will dissipate, and you may not be able to climb to the top in the end.

"No, boss, I really can't do it anymore." Xu Meixin panted with her hands on her hips, lowered her head.

She really can't climb...

Gao Bo was a little embarrassed, but Xu Meixin's physical strength was so poor.

However, when I think that the other party is sitting in the office, every day I go in and out with my boss in a luxury car.

Not surprisingly, "Or, let's take a break?"

The meeting time is almost 9 o'clock, and I am afraid that the sea of smoke and clouds will not be seen if it is delayed.

However, people are more important than scenery.

"No." Qin Yu said lightly, stretched out his hand and said to Xu Meixin: "Come here."

Looking up at him in surprise, Xu Meixin handed him her hand.

Then the body rushed forward, but before the person could react, he was already hugged by the princess and rushed forward.

Seeing Qin Yu hugging him and moving forward fast on the ground, the Gaobo people were all stupid.

MD, I never felt he was so fierce before. The changes in the past two years have been too great, right?

Although curious in my heart, seeing Qin Yu go faster and faster, Gao Bo quickly dragged his girlfriend to chase him.

All the way to the top, in front of Muzha Bridge, all the exhaustion instantly turned into a burst of energy.

The faint sunrise rained down, and a sea of clouds slowly flowed in front of him.

Blowing by the breeze, bypassing the ridge, flowing naughty in the mountain stream, the scream of insects and birds are like a movement from the sea of clouds.

Just when Qin Yu was intoxicated, smashed...

A group of people rushed straight ahead, standing between the Muzha Bridge, feeling the fairy meaning of clouds blowing over their bodies friends, have you seen it? This is the sea of smoke and clouds, it's so beautiful, so beautiful, let me tell you..."

"My dears, we are so lucky today, look at it, the first of the eight beautiful views of the window, I tell you, if you see it with your own eyes, it will be worth your life..."

"My friends, look quickly, if you are beautiful, I will ask you if you are beautiful or not. I am standing inside, and I feel like a real fairy, haha..."

"If anyone proposes here, how romantic you are, and where a girl can't be moved, she will die, I will tell you..."

Barabara, the chattering, babbled noise, instantly ruined the beauty in front of you.

Qin Yu's nature is like a transition from upper brain to sage in an instant.

Disinterested, boring, boring!

## **Chapter 622: Kirin upgrade**

"Brother Yu, how is it, this scene didn't make you run for nothing, right?" Gao Bo said with his hands on his hips and his face proud.

"Yeah." Qin Yu replied feebly.

It was beautiful, but the atmosphere was completely destroyed at this moment.

It is clearly a paradise on earth, but it is contaminated with the mundane copper smell and mess.

Isn't it good for us to watch a scene quietly?

'Ding!'

'Congratulations to the host for enjoying the natural beauty, feeling shocked, and triggering random rewards.'

'Reward: Skill upgrade card.'

Qin Yu's low spirit suddenly shook, I'm stunned!

Skill upgrade card, haha...

This is really a surprise. It turns out that looking at the scenery can also inspire rewards.

"Use skill upgrade card, target: Kirin."

"Are you sure?"

"confirm."

"The upgrade is successful. Please find out the details on your own."

"Kirin, what do you think?" Qin Yu called Qilin in his mind.

"Master, I'm fine, I have changed a lot!" Qilin's voice was agitated, with obvious syllables.

This change caused Qin Yu's expression to be taken aback: "You, have emotions?"

"If you mean those useless emotions that will disrupt and seriously delay my calculations, yes, I have them."

"..." Qin Yu stopped responding, and Qilin fell silent.

Now he must hurry up and continue to attack [Aturing Genesis].

The Kirin at this time had a computing power ten times stronger than before, and it touched the G point that broke the protective barrier.

It only takes one more bucket to completely unlock the second line of defense.

At that time, it will be exposed to it.

Only the last layer of membrane is left, and breaking it can completely absorb the source code of [Aturing Genesis].

According to the inferred result obtained by Kylin after calculation.

Once he receives [Aturing Genesis], he will be able to master "The Choice of Destiny" thoroughly.

No one knows what changes will happen at that time!

"Brother Yu, Brother Yu."

After pushing him a few times, watching his eyes regain focus, Gao Bo said amusedly: "What are you doing, you are still distracted?"

"Think of some work, go on!"

The sea of clouds has disappeared, and I will go down the mountain just to go to other places to stroll.

The way down the mountain was very slow, and Xu Meixin insisted on walking down by herself.

After lunch, I felt a little tired in the afternoon.

So I decided to go to a place to relax, Happy Valley.

Sitting on the double swimming ring, Qin Yu lay lazily, letting the water bring him forward.

As for the happily splashing water and laughing like other tourists, I really don't have that thought.

On the contrary, Xu Meixin, who was still lingering before, splashed water with Ai Rui in front of him instead.

There are many projects in Happy Valley, as well as tunnel war performances.

However, they only selected some more relaxing and leisure projects, mainly rafting.

The big pendulum, jumpers and other games are full of people, trouble!

Lying on the bamboo rattan chairs in the tourist rest area, watching the endless stream of tourists rushing in line.

Brother Yu is in a great mood, so tired of playing, why bother!

Find a chair and go up. This is the correct way to open Happy Valley.

With a beautiful young woman in a bikini like Xu Meixin, it's absolutely amazing!

If you don't believe me, would you ask the uncle Jingmei who was just slipped away by his wife's ears?

After spending an afternoon in Happy Valley with soy sauce and being close to water, Brother Yu is full of vitality.

When they came out, the other people's faces were unconcealed with exhaustion.

Only he looked vigorous and his skin seemed to have had a SPA.

After suffering for two days, I felt that the familiar Ai Rui still couldn't hold back: "Brother Yu, what skin care products do you use?"

"This is a natural one, I can't envy you." Qin Yu responded with a smile.

"This guy has good skin since he was a child. When he was in school, many girls were so jealous that they were autistic.

Come to learn from him every day, you don't know how popular he is with girls..."

Hearing Gao Bo said stubbornly, 'past. '

Qin Yuxin said, 'Does the system's protection mechanism even think of this? '

No wonder from beginning to end, no one was shocked by their changes.

It turns out that there is already a related 'past' in their memory. '

So, it doesn't seem to be too much to say that it is born?

Knowing Qin Yu's past from her boyfriend, Ai Rui gradually autistic.

Born, so envious!

The irrelevant conversation ended, and the few people who had been playing for a day were tired.

Gao Bo also wanted everyone to eat together, but Qin Yu refused.

"Hurry back and rest, let's get together again next time you come!"

He flew to Hudu tomorrow morning. This trip has been long enough. If Gao Bo hadn't been there, Qin Yu would have left the day before yesterday.

"That's all right, I'll see you at home during the holiday." Gao Bo said.

"There is a certain time." Qin Yu is really not sure whether he has time for the holiday.

Others are on vacation, just for fun.

Brother Yu, I'm always on the waves if I don't have holidays...

Therefore, the same is true for busyness, regardless of time.

Back at the hotel, people sent dinner to the room, Xu Meixin turned on the computer to sort out the documents sent by the company today.

"Boss, Team Leader Jing wants to have a video call with you." Xu Meixin turned the computer to him.

After pressing Enter, Jing Yuan's figure appeared on the screen.

"Ms. Qin, we successfully extracted the first group of natural graphene two hours ago, and we succeeded."

Jing Yuan raised her small fist excitedly at the camera.

The entire face is attached to the lens, and the fine pores are clearly visible.

Soaking in the laboratory all day, on the contrary, made her skin better and whiter.

"Good job." Qin Yu's affirmation gave Jing Yuan a boost.

The whole person is like being given an energy shot, which is cool!

"Ms. Qin, the application fields of natural graphene are extremely wide.

The regeneration ability of regenerated activated carbon is extremely strong. If this regeneration characteristic does not disappear, it will be an inexhaustible gold mine..."

Jing Yuan described the prospect of extracting natural graphene from regenerated activated carbon, leading to the semiconductor and energy industries.

"Can the nano-battery project be launched?" Jing Yuan said that he knew everything, and he wanted to hear a different answer.

The voice on the other side was dumb, and after a long time Jing Yuan whispered embarrassedly: "It will take some time."

"Good job, I'll wait for your good news..." After a few more words, Jing Yuan hung up on her own initiative.

ashamed!

My eyes remain on the possible breakthroughs in mobile batteries.

However, the boss has already looked into the nano field, and is still proud of himself, and wants to show off with him.

I'm still too uncomfortable and too proud.

"Jing Yuan, come on, Nami...you can do it." Cheering for herself, Jing Yuan walked out of the office.

She had to go to the laboratory and have a small meeting with team members to let everyone understand.

The eyes of the laboratory can not only stay on the mobile terminal, but also look to the future.

Make achievements in the frontier field of innovation and achieve beautiful results.

...

...

"Boss, is the nano field the company's next research focus?"

Xu Meixin was holding a small notebook in her hand, with a serious expression waiting for his answer.

"Yes or not." Qin Yu smiled, and said in a relaxed tone: "The main reason is to give her a goal and motivation."

What people fear most is complacency. Once they think that they have achieved their predetermined goals, they will naturally slack off!

Soon Laziness will consume people's motivation and thirst for knowledge, allowing them to settle for the status quo.

How many geniuses spend their lives lying on the merit book like this.

Originally, he should have achieved higher achievements, but he was ruined by complacency and pride.

What he did was only when Jing Yuan, including other researchers, became complacent, proud, and arrogant.

Provide new goals and directions for the other party, always in a tense climbing state.

For them, this is a contest with Mount Everest.

There may be short respites, but there must be no slack slack.

The only goal is to move forward, forward, forward...

Go straight to the top, never stop!

### **Chapter 623: Refuge 18**

Although the boss said that she just gave Jing Yuan a brand new goal, so that she would be more motivated to be a competent worker.

Xu Meixin still wrote down the two words [Nano] on the small notebook.

Even if it is to stimulate Jing Yuan and the research team, the direction and goal are real.

She has to keep it in a small notebook so that she can remind herself or her boss at any time.

"After I go back this time, I will hand over the itinerary with President Hua, and put the training on the agenda by the way."

What Qin Yu was talking about was the on-the-job training of intern assistants. As his work became more and more busy, the two secretaries under his hand could not be too busy.

The assistant secretary in the president's office is a seemingly inconspicuous but very important small position that can be gilded and learned.

The overall view seen here, the understanding of the entire company, the contact and the handling are all important matters.

A few years of exercise is more than enough for the position of manager or minister.

Therefore, after learning that Qin Yu handed over the interview to herself, Xu Meixin waved her hand quickly: "I can't do it, boss."

"I said you can do it, you have to do it, you have to do it if you don't!" Qin Yu said non-negotiable: "You have President Hua and President Xu to support you."

Isn't she letting her make the decision alone, what are you afraid of?

There is no responsibility, how to assign important tasks in the future, but he is the accompanying secretary of the chairman, and he is at least ministerial in terms of real power.

In some ways, it's more effective than the CEO's words. It's just such a trivial matter. Are you afraid?

After being taught by Qin Yu, Xu Meixin, who had eaten more than ten years more than her, bowed her head like a child and did not dare to say anything.

"So, I'll take everything silently." Xu Meixin was a bit wronged.

I am a secretary, doing forms, writing documents, reporting work, and following the boss's busy schedule, running around.

Why not only take care of the boss's daily life, but also the schedule.

Also responsible for personnel assessment, this is not the weight I should bear!

For some reason, Xu Mei thought of the vixen who was lazily lying on the sofa, weak and boneless so that she could turn herself over.

One night, 1 million!

This money is made so fast, so easy...

If you let Li Shuangmeng know that she thinks this way, she must have a good conversation with her: "Ease? Do you have any misunderstandings about Ease?"

For this one million, my old mother had 72 changes in one night, with 18 martial arts taking turns, her waist was almost broken.

In the end, I still pay homage to the death. Would you please let me know? ? ? "

"Okay, let's go down without anything else, and let the hotel arrange a car to take you to the airport tomorrow." Qin Yu went to bed and began to sleep on vacation.

"Ghost" is a bit of a good game, as long as you have time in the past two days, you will be the game world.

He is almost becoming an internet addict, but it's so fragrant!

The white light dissipated, and Qin Yu once again appeared in the dark corridor, here was the refuge marked by the mission.

At this time, he temporarily stayed in the refuge as a 'blessed one'.

But, so far, I still haven't found what the old man wants.

"If you see it, you know it is it." The babbling reminder made Qin Yu unable to start.

I know when I see it, what if I can't see it?

Always guarding here, when is the head?

However, Qin Yu felt that since the old man allowed himself to come, and said that, he should be sure that he would definitely see that thing.

It's just for some reason that makes him unable to explain.

There seems to be nothing strange in the world where gods and demons exist.

Along the corridor, a light soon appeared.

Qin Yu walked out of the darkness and greeted the natives in the cave passing by.

"Qin, the scavenger team is about to be dispatched again, are you really not going with it?" A brawny man covered in scars and wearing boxer shorts called to him.

Anda, the leader of the scavenger team in Refuge No. 18, is also the strongest here.

Qin Yu looked at the other party's two all-metal arms and said calmly, "I will seriously consider, when will I leave?"

"Four hours later, it happened to be dark." Anda said.

"Well, if I want to go, I will arrive early." Qin Yu continued to move forward after speaking.

Anda, a semi-mechanical transformation man, not only has two metal arms, but also a mechanical eye.

Although the network has been completely destroyed due to the retrogression of technology, it is no longer possible to extract all kinds of information from the network and carry out the most comprehensive analysis of the enemy as before.

But that mechanical eye could still allow him to observe danger from dozens of miles away.

And those two mechanical arms gave him the power to challenge low-level monsters.

Each arm can burst out a thousand catties of power, and one punch can smash the monster's head.

However, most low-level monsters are social creatures.

They often appear in groups of 5 to 6, unless they can kill in one hit.

Otherwise, even Adachi would not take the initiative to provoke monsters.

Because even if he could survive, other people who followed him would be torn to pieces, and don't even want to leave a complete body.

But this does not deny the power of Anda, in fact, he is the strongest among hundreds of refuges within a thousand miles.

At first, when he was attacked by a monster army.

It was he who led the vast majority of people, fleeing the city and coming to the wilderness to escape the first wave of cleansing.

Refuge No. 18 can become the most powerful refuge nearby. The leader of the scavenger team, Anda, contributed a lot!

Do you want to go out with him? According to the information Qin Yu has collected.

Anyone who leads the team personally, goes out to pick up waste, and gains more than 50% more than the average team.

And, Anda never snatches the harvest of his team members.

Whoever owns the thing, but every time he sets off, he has to charge the 'entry fee equivalent to two days' rations.'

The price is not cheap. You can buy a semi-automatic weapon on the black market in the shelter with two days of food.

Although it is an old antique for filling gunpowder bullets, it is already an excellent choice in this era of technological decline.

At least when facing some fragile monsters, it can cause certain damage to them.

Instead of standing there, waiting for death in despair!

As far as food is concerned, Qin Yu is not short on hand.

On the way before, he found half a box of unopened energy rods in a ruin occupied by inferior monsters.

Four energy bars are enough to pay for the entry fee.'

Qin Yu was only considering whether going out would delay him from finding the mission target.

After thinking about it again, he has no clue about the task goal now, so he might as well go out and try his luck.

Since it was what the old man wanted, it would definitely not be Fanpin.

So, maybe this thing is in the hands of someone from the scavenger team, but this time out is an opportunity.

Maybe, I can see that mysterious item that 'knows at a glance'.

Now that he had a decision in his heart, Qin Yu planned to go to the black market and return with something suitable.

Now, his weapon is only the electromagnetic pulse gun given by the old man.

Qin Yu lacks a melee combat weapon, finger tigers, tactical daggers or short blades.

It would be great if there was a stick in hand.

Don't forget, [Jiang Brother] is best at playing sticks...

A set of mad devil stick method, see who kills whom, the demon king is beaten to death by him several, turned into a wraith spirit and imprisoned in his own 'magic stick'.

One can imagine how terrible this stick method is.

Anyway, the little sisters who have been taught are all pale, with hoarfrost...

After passing through a Y-shaped fork, a downward \*\*\*\* appeared in front of him, and he continued to go down to the end, and his eyes suddenly opened up.

The corridor in the refuge can only accommodate two people walking side by side, and it will be a bit crowded if it is a little stronger.

But the corridor in front of me is completely two-way and two-lane.

Near the wall ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ sits merchants selling goods, most of them wearing masks or covering half of their faces with a piece of cloth.

There were also people who were sitting carelessly against the wall, staring at everyone passing by with unkind eyes.

All kinds of parts, strange devices or some scrapped equipment are placed in front of these people.

Don't look at things that have been scrapped, but there may be parts in them that are intact and can be used in other places.

Just like somebody before, they used the disassembled parts from the waste product to assemble into a rudimentary semi-automatic shoulder gun.

Although he can't use it himself, because he can't afford bullets at all.

However, he resold it to the refuge, in exchange for the supplies to arm himself to the teeth, and even married four wives.

This guy is now the second in command of the scavenger team, a scientist.

## **Chapter 624: Predator**

Fortra Star, Refuge No. 18, Plaza of Courage.

This is where the refuge team gathers, but it is actually a larger cave, named for courage.

It is not only an encouragement, but also a warning!

Night, 8:15.

Anda looked at the mechanical timer in his hand, only 5 minutes left before the agreed time.

It seems that the other party will not come.

This made Anda a little disappointed in his heart, with a little anger at the same time.

If the so-called 'blessed ones' are like him, what changes can they bring to the world?

Just asking for it, as a carnival, ridiculous game?

if so.....

Anda clenched his fists, a certain hostility in his heart began to raging.

"The time is just right." Qin Yu's figure appeared at the entrance of the square in the indifferent voice.

Anda released his clenched fist and glanced at the timer.

At 8:20, it was just right.

"Go." Without extra nonsense, Anda took the lead and walked towards the exit.

The appearance of Qin Yu did not change his view and attitude towards the 'Blessed One'.

It doesn't matter to them whether this world exists or not.

From another perspective, these Heavenly Blessed Ones are no different from the Legion of the Ancient Demon King.

It's just that one has grown unmatched, and one is still growing.

Those civilizations that were ransacked by the "fourth natural disaster" and thus declined.

There are also detailed records in this world, if it weren't for the invasion of the ancient demon king...

"Damn it all." Anda clenched his fists again, then released them instantly.

The current Fortela star needs every bit of strength, "It's not the time yet."

Looking at the front, the muscles are sometimes slack, and sometimes tight, like Anda who is caught in some kind of entanglement.

Qin Yu is also inferring the other party's mind, this change seems to have happened after he appeared.

What did he think of, or said that Anda believed that the blessed one was an enemy.

In fact, there is nothing wrong with this idea.

If there is no ancient demon king, a fierce invasion.

When the blessed one first appeared, he would be rejected by the whole world.

Except for those weak and ignorant primitive worlds, any civilization that knows something about the "fourth natural disaster".

The attitude towards it is the same, with strong rejection in fear.

These immortal guys will only disrupt social order and cause irreparable losses.

Although there are also orderers among them, they are compared to those locust-like guys.

The existence of order is like a lone lamp in the night!

Soon, the team passed the upward ramp, drilled a hole disguised as a rock, and marched towards the deadly wilderness.

These people seem to be veterans, each of whom has a clear division of labor, and the whole team quickly and quietly passes through the ruins one after another.

Without staying, these ruins have already been marked on the map.

They have been searched, and most of them were led by Anda to open up wasteland and clean up the weak monsters nearby.

Or find a way to distract them so that scavengers can search safely.

The small ruins nearby have been searched, and today's destination is a satellite city 500 kilometers away.

Titan, a former military fortress, is responsible for guarding the northern border.

Hundred kilometers behind it, there are three satellite cities complimenting this fortress in the shape of a product.

Their goal is the Satellite City One, which is the farthest from Titan.

Family members of the Titan military once lived here, responsible for the transportation and maintenance of grain and equipment.

After the fall of the Titans, three satellite cities also fell one after another.

However, those high-level monsters all followed the Bone Demon King and left hideously.

The other turtles retracted into Titan City and used it as a nest.

In the three satellite cities, only a few inferior monsters and unorganized trash fish remained.

Even so, this scavenging mission is still dangerous.

Trash fish refers to monsters.

Replaced by humans, those trash fish are still deadly dangerous.

"Let's just walk over?" Qin Yu asked curiously when he understood the purpose of this trip.

"Of course... not." The scavenger who hurried side by side with Qin Yu whispered: "You'll know later."

Not long after, under the leadership of Anda, the team came to a valley.

Down the rugged mountain road to the bottom of the valley, Qin Yu saw the hills piled up by rocks.

This place experienced a collapse?

When Qin Yu was curious, Anda pressed several times on his right arm.

Then, the hills vibrated, and a flat aircraft lifted the hills and hovered more than three meters above the ground.

Observing carefully, Qin Yu found that this aircraft looked like a devil fish.

Can you see the dark muzzle on both sides of the front end, an armed aircraft with combat effectiveness?

"Hurry up, we can't stay for too long." Anda took the lead to walk under the aircraft.

Then, a platform was separated from the smooth bottom, and it landed on the ground steadily, waiting for everyone to board the plane.

"Kirin, scan the aircraft."

Standing on the platform, looking at the white warehouse roof above, Qin Yu gave new instructions to Qilin.

"Not enough energy to scan!" Qilin.

Insufficient energy, this was the first time Qin Yu heard this.

"How to add energy?" Qin Yu said.

"Believers." Qilin.

The belief of believers is the source of energy for the miracle system and unicorn.

The manufacturing process of this predator combines many cutting-edge technologies of the former empire.

Any of the technologies contained in it are far beyond the level of reality.

To complete the scan, Qin Yu needs to develop at least ten devotees or two mad believers.

There is another way, learn!

If he can figure out the basic principles of each technology through learning knowledge.

Then the energy required for Kirin scanning can be greatly reduced, and the key core technology can be replicated.

Compared with the second option, Yu prefers the first one.

Let him stay in this world and be a scientific fanatic. Brother Yu has no patience.

But he immediately thought that someone would be willing to do so.

Whether it is Jingyuan or Cui Geng, I believe they are very happy to do so.

However, there is still a problem.

This predator belongs to Anda, the other party has no reason, and it is impossible to agree to give it to himself.

Entering the predator, Qin Yu saw a disc-shaped space.

An arc-shaped console in the front, with round windows on the left and right, allows people to observe the outside world with the naked eye.

Anda stood in front of the console and waved his hand, and various complicated graphic signs appeared on the arc wall in the middle of the window.

I saw him making a few imaginary clicks at these signs, and the aircraft rose silently.

When flying out of the valley and maintaining a height of about one meter from the ground, it swept forward like a ghost.

Quietly, the scavengers standing in the predators have an intuitive feeling like walking on the ground.

Only through two circular windows that look like eyes, I can see the scenery left behind.

Only then is it sure that it is really flying, not an illusion of its own.

After 5 minutes, the predators who circled around to avoid the monsters arrived at their destination.

Pule Mountain behind Satellite One.

Looking down from the sky, the whole city was burnt black.

The building with a height of hundreds of stories was smashed in half by some huge creature, and the other half was leaning against the ruins of the next wall.

Half of the aircraft's \*\*\*\* was stuck in the sky above that building.

Swaying up and down in the wind.

Dead silence, gloomy, no survivors!

The predators began to land...

There was a gap in the mountain that looked like a split mouth, and the predator drove into it and stopped steadily in the middle of the mountain.

"Here." The platform landed, and both feet stepped on the ground again, no different from the previous predators.

"Turn on the invisible camouflage." When the platform was raised and closed, Anda said to his right arm.

"Invisible disguise, turn it on!" In Anda's mind, a cold mechanical voice sounded.

A wave of water ripples rose on the surface of the predator in front of him, and then disappeared in everyone's eyes.

Except Qin Yu...

With the help of Nanoworm's sight, he can clearly see the predator.

"Enter within 15 minutes, and withdraw here in 4 hours, is there any problem?" Anda looked at everyone.

Everyone shook their heads and said that there was no problem, and everything followed his arrangements.

If it weren't for trust in him, who would spend two days on food to join the scavenger team he led?

Going down the mountain, the lip gap is not far from the foot of the mountain, and it takes three to five minutes to the scavenger's feet.

Next, they were only about two kilometers away from the buildings surrounding the satellite city.

But the next two kilometers were empty and flat.

There is no obstacle to cover their actions, if they are discovered by a monster...

## **Chapter 625: God**

"You go first, behind my palace, whoever is stared at by a monster, just lead me..."

Anda said and looked at everyone, then said: "If it's a monster group, you know what to do."

If it attracts a large number of monsters, the only thing the targeted person has to do is to stay away from the team.

It's life or death, it's all on your own!

The paid 'entry fee' can be said to be a flight ticket for the predator, and to take care of everyone in the future, you must first consider your own safety.

A few inferior monsters, Anda can easily solve them.

But low-level monsters need to spend some means, if the number exceeds 5.

The whole team will be in danger. If anyone messes around and doesn't use monsters, Anda will destroy him first.

After returning home, family members, relatives and friends will also be targeted.

Therefore, anyone who is stared at by the monster group will consciously stay away from the team and seek a ray of life.

It's just that these people never come back.

"Okay, let's go." With Anda's command, everyone dispersed and quickly swept toward the edge of the satellite city.

Be able to join the scavenger team, especially Anda's scavenger team.

Naturally, if he doesn't have the ability, he won't be attracted by him at all, and he won't have a chance to pay.

Therefore, after dispersing, Qin Yu noticed the differences between these people.

Someone leaped up, stomped on the ground, and flew forward like a cannonball, at the extreme speed.

Someone took out a human head-sized drill bit from the backpack behind him, pointed it at the ground and grabbed the two handles at the back, and then "tutu"...

The whole person was brought underneath by the drill and disappeared without a trace.

Someone took out two slap-sized wheels and put on mechanical gloves. The slot of the finished glove fits with the center axle on both sides of the wheel.

Both feet and hands are stuck on a wheel each, turning themselves into a human motorcycle.

Huh~

The human-powered motorcycle that swooped forward raised a faint smoke of dust!

"..." Brother Yu looked more and more confused, this is really a variety of things, there are all kinds of strange things.

Of course, like him, there are those who rush forward with both feet.

It's just that there are two spring shoes under the other's feet, and each step is four or five meters.

Soon after leaving Qin Yu behind, he turned his head and glanced at him disdainfully, as if saying, 'Small, wait for death!'

As soon as the team set off, Qin Yu fell into the last echelon.

There were only two sturdy, plainly dressed men beside him, humming and rushing forward like him.

At the back, the captain, Anda, was fishing far away.

Seeing the three people in front of him, Anda was a little puzzled, he didn't expect Qin Yu to behave like this.

I hope that the next man won't throw out some of his bastards.

Holding his only hope, the man suddenly turned around and rushed towards the bull.

It is impossible to run Barren Bull with his feet, so there is no need to think about it.

What you can do at this time is to use your life to delay a part of the time.

Therefore, when he was a hundred meters away from the barbarian herd, he suddenly changed direction and swept past the barbarian herd at an acute angle.

Dangerous and dangerous escaped, one stood up and ran forward desperately.

This extreme life-and-death cross made the sprinting bull too late to react, and instinctively wanted to brake.

But because the speed was too fast, the inertia led them to rush forward 100 meters, and then the bulls behind them smashed into a ball.

But in the blink of an eye, all the bulls stood up again.

As if being angered, he coaxed his eyes and turned and chased the scavenger again.

"Quick, quick, quick, don't let him die in vain." Seeing that he had escaped by chance, the scavenger running in the middle urged Qin Yu with his arms exaggerated.

As soon as the voice fell, there was a short scream in the distance.

Then, the barren cattle stopped in place, trampling on something frantically.

Then they formed a circle and bowed their heads in a crowd, "Hey..."

Qin Yu's ears clearly heard the sound of chewing, and then the barren cattle turned their directions again.

"..." The scavenger in the middle trembled and stopped suddenly.

There was no chance. At this time, he was still five or six hundred meters away from the edge of the satellite city, and the barbarians could catch up with him in just 2 to 3 seconds with a charge.

Turning his head and looking at the direction when he came, the man smiled miserably: "Good luck to you."

With that, he ran towards the oblique corner on the edge of the satellite city, seemingly trying to draw the sight of the bulls there.

Chirp, chirp...

The biting sound reverberated in his ears, but Qin Yu seemed to have a fire burning in his heart.

The anger that has never been seen before, brewing and erupting in the heart.

The weak and the strong eat, the natural selection!

If this is the case, then go to death!

With a calm expression on his face, Qin Yu opened his hands in the direction of the barbarian cattle, as if trying to block the terrifying monster group in the air.

The scavengers who were running wildly saw this scene and shouted angrily: "I'm going to your uncle, don't let Lao Tzu sacrifice in vain.

Your life was bought by Lao Tzu. It's great not to die. It's great that you came to replace Lao Tzu. Lao Tzu doesn't want to die, ah ah ah..."

Flicking his arms frantically, his head fluttered with exaggeration along with the running motion.

He really doesn't want to die, he has just found a woman and he hasn't had enough addiction yet!

There are still two pieces of bacon at home that I haven't eaten. The little lady said last time that as long as he can go back alive, he will be his second wife.

"I haven't left the seed yet!" In the frenzy on the verge of despair, the scavenger suddenly noticed that the vibration of the ground had disappeared.

The terrible trampling sound of the bulls, like drums, disappeared completely at this moment.

The entire wilderness seemed to be plunged into a dead silence.

This dead silence is terrible, grotesque, but reassuring!

With inertia one step forward, two steps, three...

The scavenger turned his neck in a stalemate. When he looked back, his pupils dilated and contracted to the extreme.

That group of things that fell on the ground is a herd of bulls? ? ?

"The Favored! You really are the Favored!" Anda, who had previously disappeared, reappeared, looking at Qin Yu and said in shock.

Among the blessed ones, some important characters will be given powerful weapons to ensure their own safety and a sense of 'game' experience.

These special favored ones are called the favored ones.

Their status in higher civilizations is equivalent to that of aristocrats in their own world, with higher authority, more advanced technology and more resources.

If you can persuade him, lead the 'celestial blessed' against the ancient demon king, fierce.

Maybe, Futra Star can be saved!

## **Chapter 626: I choose from the heart**

Opening his eyes, Qin Yu rubbed his head dully.

It's a big game this time!

Thinking of Anda crawling on one knee at his feet, asking him to save the humble and piety of Futra.

Qin Yu...

"Ding!"

"Congratulations to the host for developing a shallow believer, with an experience reward of 10,000, and a trigger reward!"

"Ding!"

"Congratulations to the host for developing a pan-believer, with an experience value of 100,000 rewards, triggering rewards!"

"Ding!"

"Congratulations to the host for developing a believer, experience rewards 1 million, trigger rewards!"

"Ding!"

"Congratulations to the host for developing a devotee, with an experience value of 10 million rewards, triggering rewards!"

.....

.....

The same reminder appeared more than ten times, but only two of them reached the [devotee].

Others only reached the level of [believers], and Anda's name also made him clearly aware of where these believers came from.

Fortra Star!

"The accumulation of rewards is online, the reward is being calculated..."

"Reward distribution: one big draw for pachinko machine."

"Reward Two: Super Double!"

"Three rewards are issued: Faith Mall opens."

Seeing the three reward messages that appeared in front of him, Brother Yu was instantly energetic.

This is forcing me to go further and further on the road of the magic stick. Is it impossible to keep a low profile?

Originally, Qin Yu could still uphold his own concept of wretched development.

Can't stand the other party giving too much, pachinko lottery, super double, faith mall...

Okay, you are ruthless!

I did it, okay?

Starting from tomorrow, I will show that the saint is me, low-key, what low-key?

That is not in line with the personality of my young man!

Under the power of naked wealth, Brother Yu chose to follow his heart.

"Open the lottery."

Jingle bell~

The sweet bell rang, and the pachinko machine changed from illusory to real.

Seeing the lottery classification that appeared above, Qin Yu's eyes instantly locked in the upper left corner.

"Substance conveyor: can transmit and put all substances." Clear and clear.

is basically saying: Whatever you come, what you want, what you want!

This kind of black technology actually appears on the fixed reward page. What about brass, silver and gold? ? ? What will be in the grand prize?

Antimatter engine, Xingzi annihilation artillery, or just a space battleship?

The marble twitches up and down, and when the strength reaches eight tenths of the maximum limit, Qin Yu chooses to launch. '

匡匡匡~

The pachinko machine jumps up and down inside, like a naughty little life.

The flashing lights represent the birth and progress of life...

咚, 匡唧唧!

The marbles fall into silver? ? ? , The dust settled.

All the pages in front of me disappear, silver? ? ? Zoom in, and the flashing picture quickly skips.

Finally, freeze frame on a diary.

"What's this?" Qin Yu looked at the diary inside, and his heart turned quickly.

"Whether to use super double!" The system countdown appears.

Diary, someone's notes, useless or recording some knowledge?

Since it can appear in Silver? ? ? Here, that value must surpass the material transport machine.

In other words, it must contain some black technology.

No, this is not necessarily true.

may also be a biography of a big person, with different perspectives and identities, and different definitions of value.

So, do you use it?

With the last two seconds left in the countdown, Qin Yu chose "Use Super Double!"

Jingle!

The picture bloomed with golden luster, and then the pachinko machine faded and disappeared.

A message is passed into Qin Yu's mind, and the diary will appear at the Bonhams Hudu summer private auction tomorrow.

If you want a notebook, Qin Yu needs to get the admission ticket by himself, and then get it by bidding.

Recently, Brother Yu has experienced a lot for the first time. This is the first time. The system rewards need extra cost to get.

"Auction?" It just so happens that he has never participated in an auction, and he should go to the world.

Before registering, Qin Yu dialed Li Xiao's number.

This kind of thing is naturally looking for a local snake, so who else is more suitable than the little brother.

.....

.....

Receiving Qin Yu at the airport, Yan Er began to complain: "Brother Yu, you came here soon after the holiday. Why not come, why waste your ticket money?"

"You have money!" Brother Yu squeezed his hands outwards and said arrogantly.

"...Brother, let's be honest, did you get any irritation?" Yan Er looked at him cautiously, saying, 'This is a rollover injury?'

Qin Yu's style has always been modest and polite, and his favorite is low-key and clumsy.

Even in front of a few of them, they will unconsciously show their introverted qualities.

When has it been so arrogant? ·

Can he change that \*\*\*\* and the habit in his bones?

If this is the case, it must be stimulated.

Who broke up with him? Brother Yu suddenly doubted his life and decided to kill him.

It's like suddenly turning a gentleman into an arrogant and domineering young man.

is too blunt, too wrong!

"You are only stimulated, old driver, never overturned the car." Qin Yu smiled and cursed to curb the arrogant attitude that he was not comfortable with.

Sure enough, arrogance is still not suitable for him.

Perceiving the change in the atmosphere, Yan Er immediately laughed relaxedly: "Is that right, this is the Yu brother I am familiar with."

"Don't talk nonsense, leave as soon as possible." Qin Yu glanced out, "You are almost becoming an internet celebrity."

"Hey, don't tell me, my car is now a sign on the Internet." Yan Er put in gear, stepped on the gas, and was full of pride.

"Macho color matching, the most mashup in the domestic refitting shop now, you don't understand!" Yan Er waved his hand and swallowed the mountains and rivers with anger.

This is the color scheme that a macho should have. It brings waves in the show, and a touch of stability in the escape, eh, just for fun!

"Second brother cowhide!" In addition to holding his fists and nodding, he expressed admiration.

What else can Yu brother say?

"To tell you something, I have a brother who wants to work in your company!" Qin Yu just mentioned it, and Yan Er nodded immediately.

"Let's talk, pick what job you want!"

"Don't, just take care of a few cars for him first, so he can work on it slowly, his age is similar to ours, and I will introduce you to him later."

Qin Yu won't overstep her, and directly lift Gao Bo to a high position.

German does not match, and the final end must be miserable.

can give him a chance to temper, and it is the best choice to give him a hand when he needs it in the future!

"No problem, I turn around to say hello to Viagra and let them contact directly." Yan Er turned around and smiled.

Chen Wei is in charge of the personnel over there, and he rarely intervenes.

However, with Qin Yu's face, it is certainly no problem to arrange for individuals to join the company.

"Well, I mentioned this to Chen Wei, so I can do what I should do. Don't feel that I say hello for your special attention."

With Qin Yu's words, Yan Er knew what was going on.

Either this buddy has a bad relationship, or Yu brother really wants to give him a hand.

Judging from the name 'brother' just now, it must be the latter.

"Understand." Nodding, the car stopped in front of the school.

Qin Yu got off the car and said, "I'll buy something first."

Go to the alcohol and tobacco shop at the back of the parking lot. Huazi first came two, and then two bottles of Moutai, which were divided into two bags.

is covered with a black bag, which is tightly wrapped.

Come on!

One hand, one hand, and one shoulder bag to go to school.

"Isn't this Qin Yu?"

"Really, good senior Qin."

"Senior Qin Yu, you are so handsome!"

"Qin Yu, take care of our classmates in the future, don't turn your face and deny you."

Everyone laughed and joked, and the kindness and ridicule were not bad thoughts.

In an ivory tower like a campus, although there are places to hide dirt and dirt, the whole is still sunny and positive.

Qin Yu didn't take a stand, nodded to this, and smiled a few words with that just walked forward all the way, until entering the dormitory building, the situation was a little better.

"Brother Yu, your trip is really different." Yan Er looked at him and curiously said: "You used to avoid this kind of thing."

"I didn't want to understand that, everyone is a classmate, there is no need to be so productive." Qin Yu didn't want to socialize before.

I always feel troubled, so I just need to take care of myself.

But now, the wealth of the system reminds him all the time.

It's impossible to be alone. This huge campus is simply an ideal energy cash machine...

Ahem, slur, slur!

are all senior brothers and sisters, in ancient times, they were only a little bit shorter than the monarchs, fathers and sons.

How can you refuse people thousands of miles away and make you so productive?

As a member of Lixin College, Yu Ge is full of pride and recognition.

You believe me, it doesn't matter what energy is not energy!

**Chapter 627: Who doesn't have a rich friend yet?**

I'm back, so naturally I want to see the instructor and the class instructor.

Respect the teacher, that is a must!

These two have taken good care of Brother Yu. To have today, it is up to the two teachers to take care of him.

The door of the instructor's room was open, no one was there, something went out.

Qin Yu skillfully opened the cabinet and put a bag of things in it: "Go."

Go to the class guide's office again, hey, what a coincidence!

No one is here...

It seems that the holiday is approaching, and the school is very busy.

Opened the cabinet again and saw that it was empty. Qin Yu stuffed another bag in, and it was done!

Yan Er, who followed all the way, was stupid!

This skillful action, proud smile, natural tone and expression.

what happened?

What happened, where am I and what am I going to do?

After returning to the dormitory, Yan Er is still in a trance state of doubting life.

It turned out that I was too naive!

Ring~

The phone rang, Yan Er's brain was in a state of chaos, but his body instinctively controlled his right hand to take out the phone and slide.

"Hey!"

"Second brother, where are people?"

"Dorm, I just received Brother Yu, are you back?"

"No, I have something to tell Brother Yu, he didn't turn on the phone."

"Wait." Yan Er handed the phone to Qin Yu: "Brother Yu, I'm looking for you, Dongzi."

"Hey, Dongzi." Qin Yu's smile gradually faded. I don't know what the other party said, but at last he just heard him reply: "The address is here."

"What's the matter?" Yan Er also woke up at this meeting, and asked Qin Yu's weird expression.

"Tongzi has been given a face-slapped face. I want to borrow a car to find face." Qin Yu replied.

Yan Er frowned and asked: "Woman?"

"Yeah." Qin Yu didn't elaborate. He didn't know the details, except that Shen Dong wanted to borrow a car from him.

In the afternoon, I will return it to myself in the evening.

He didn't say what car to use, he just said that it can hold the Cayenne.

This.....

It's a bit difficult!

Pull one out of the garage. It seems that the price is higher than that of Cayenne. What should I do if it is difficult to choose?

Since you are looking for face back, it must be the better you have the face.

Or, take the poison out to give him a walk?

"Brother Yu, don't make it that expensive, I think your 911R is good." Yan Er originally wanted to talk about the big par.

But Qin Yu always uses that car by himself, maybe there is something in it, so he proposed the 911R.

The other cars are not suitable for Yan Erjue.

Don't be afraid of in case, just be afraid of ten thousand.

If something really goes wrong, just say that the poison, will Dongzi pay for it?

is to pay, how can he afford it?

Qin Yu saw his worry and must admit that Yan Er was justified.

Furthermore, if Shen Dong lent him the poison, would Shen Dong be overly inflated, and even cause conflicts between him and the girl.

The co-pilot who has experienced the poison, how can you find the happiness of Nissan?

gave He Wu a phone call, and Qin Yu asked him to pick up the car at Seaview No.1 first, and then sent him Shen Dong's address after he was done.

"The password for the door has just been sent to you, and there is a key in the right-hand drawer. Look for it... Yes, that's it."

Knowing that He Wu had already obtained the key, he would rush to Shen Dong, and Qin Yu and Yan Er also decided to go and take a look.

.....

.....

20 minutes ago.

Tongxin community, express station.

Shen Dongzheng pulled the famous young and beautiful girl wearing hot pants, short sleeves, and staring angrily at the man in front of him.

In his thirties, he has a neat suit and exquisite workmanship.

A pair of successful people looked at the two with a smile: "Xuan Xuan, when are you going to make trouble?"

"I said, I have nothing to do with you." Xuan Xuan looked at each other in embarrassment.

She has clearly explained to the other party, she is not willing to talk to him again.

I never wanted the other party to chase here directly, and show off his success in front of his boyfriend.

Yes, he is successful.

At a young age, he is already an executive of a foreign company with an annual salary of one million.

It is possible to achieve a higher position in the future, with an annual salary of tens of millions, and even equity...

But that has nothing to do with him, he even lied to himself that he was single.

Actually, he has been married a long time ago, but he just thinks of himself as a junior.

Xuan Xuan couldn't forgive him when he thought of this.

Scumbag!

What makes Xuan Xuan even more angry is that he actually chased here.

Xuanxuan looked at Shen Dong with some worry, for fear that he would have bad thoughts because of his past.

"I don't believe it!" The other party smiled slightly.

"You are with such a poor boy, you want me to believe that it is impossible.

Friend, no matter what Xuan Xuan promises you, I can double it, or triple it, as long as you tell the truth. "

The other party is very humble, but the sense of superiority that comes from the bones is not missing at all.

"I said, Xuan Xuan is my girlfriend. I don't care what your relationship was before, but now she has broken up with you."

Shen Dong has a lot of questions to clarify, but not now.

He is still Xuan Xuan's boyfriend this time, it is her support and arms, and first dismissed the self-righteous guy in front of him.

Other things, they can talk slowly and clearly...

"Friend." The other party raised his eyebrows and looked up and down Shen Dong's clothes, and laughed: "You don't really think that a girl like Xuan Xuan would choose to be like you..."

drew up and down with his fingers, "A person like you."

"What kind of person am I?" Shen Dong asked angrily.

"You understand, there are some things that don't need to be too white, they are meaningless." The other party replied.

"Xuan Xuan, you still go with me! This kind of person can't support you." The man seemed to believe that Xuan Xuan was acting.

I just want to get more from myself. He has seen this kind of routine a lot.

"You, are you sick?" Xuan Xuan stomped straight.

She hadn't noticed how this man was so narcissistic before.

Does he think that if he is the only one with an annual salary of one million and a successful career, all women should be around him, and the whole world belongs to him?

To say something that can't be said, if you are really just trying to make money, can you still get him?

Xuanxuan admitted that he wanted to find a good man.

But the premise is to marry yourself, get married, get married, have children, and live a happy life.

Finding a happiness contains double standards on the material and spiritual levels.

Not just rich, besides, compared with real rich people, he is nothing more than a leek.

Who gave him the confidence, so narcissistic?

"Do you think that I am a poor man?" Shen Dong suddenly smiled.

Yes, he doesn't have much money.

But from Xuan Xuan's simple description, Shen Dong also knew that the other party was not a capital boss.

Speak nicely, that is, a senior worker!

How can you be confident?

Furthermore, he now has several houses in his family, and he has hundreds of thousands of circulating funds on hand.

It can be regarded as a model of success if it is placed among people of the same age?

Why is worse than him, where is the difference?

"You..." The other party also laughed, why this college student couldn't think about it.

So naive.

He really felt that with his own ability, he could keep a girl like Xuan Xuan.

My God~

The other party almost fainted with a smile, too funny.

reached out and pointed at Cayenne on the side of the road: "Let's talk about cars! When Xuanxuan was with me, I would go in and out of a million luxury cars."

"Look at you again, what is this, battery car?" In the last three words, the other party's voice suddenly rose, as surprised as he saw some alien creatures.

"So, if you have a luxury car, you are a rich person, if you don't have one, you are a poor person?" Shen Dong patted his own fan and curiously asked, "This is your logic?"

Looking at him still not giving up, the other party pointed to the battery car and nodded: "Yes, that's it, that's right!"

"That line, I'll change another one." Shen Dong took out the phone and dialed a number under Xuan Xuan's curious and worried gaze.

Shaking his head and smiling to indicate to her that it was okay, Shen Dong walked aside.

At the same time, I made a decision in my heart.

I must buy a better car than Cayenne, buy a house in Hudu, and stay here.

"Second brother! It's me, Dongzi..."

At this time, when the other party saw the whispering 911R parked on the side of the road, their eyes were full of surprise.

"Shen Shao, this is the key." He Wu got out of the car and walked around the front of the car and handed the car key to Shen Dong.

He had seen Shen Dong's photos before coming, and he would never identify the wrong person.

"Thank you." Shen Dong took the key, a hint of warmth rose in his heart.

Raising the car key in his hand, Shen Dong pointed to the Porsche 911R on the side of the road: "Is this car OK?"

After being surprised, the other party smiled disapprovingly: "Yes, 911R, I didn't expect you to know such a friend."

Shen Dong felt guilty, but then quickly figured it out and said: "Yes, who doesn't have many rich friends."

At this moment, the most shocking and complicated thing in the heart is the Xuanxuan standing in the same place.

It seems that I have really selected potential stocks.

But there was a trace of panic in her heart, "Can this potential stock be retained?"

### **Chapter 628: Dad, I'm determined**

When Qin Yu appeared in front of the express station, what he saw was a scene of two men talking peacefully and a girl standing behind with rich expressions.

"Dongzi!" Qin Yu and Yan Er got out of the car and walked to the opposite side.

Qin Yu, who was a little confused about the situation, looked at Shen Dong, the man, and the woman, jumping back and forth.

The situation is a bit complicated!

"Friend, Xuan Xuan, a girl like this, ordinary people can't keep it." The other party raised his hand to pat Shen Dong's shoulder.

was dodged by him, their relationship was not so good.

"Whether you can keep it or not is my business, you, it has become a thing of the past." Shen Dong calmly responded.

"Maybe!" The other party grinned, looked at Qin Yu and Yan Er, turned around and drove Cayenne away.

just left...

"Brother Dong, I'm so confused, this!" Yan Er really couldn't understand.

"Huh!" Shen Dong let out a long breath, raised his head and smiled reluctantly: "It's okay, just a misunderstanding."

Shen Dong didn't want to talk about feelings.

It was disgusting to be called by an ex-boyfriend.

But who do you blame?

Shen Dong felt that he could not blame Xuan Xuan, let alone himself.

Who hasn't clicked the past and hasn't been pierced by a scumbag?

It's just that my heart is really stunned, and the other person shows the kind of mature, spring-like pride and self-confidence.

Crash Shen Dong to nothing...

In this contest between man and masculinity, it seems that he has lost!

but won again, because Xuan Xuan is now his girlfriend, not his.

"Dongdong."

Xuanxuan stepped forward and took his hand, first glanced at Qin Yu and Yan Er curiously, and then worried: "Are you okay?"

Shen Dong shook his head and said, "It's okay."

"Brother Yu, I'm naive, who caused you trouble." Shen Dong handed him the key, scratching his head embarrassedly.

"Why don't you hold it first." Qin Yu didn't answer, but Shen Dong stuffed it directly into his pocket.

"It's really unnecessary."

Shen Dong smiled and shook his head, turning his wrist to hold Xuan Xuan's hand.

asked her to stand side by side with herself and said, "I will introduce you to Xuan Xuan, my girlfriend."

Dinner was eaten at the barbecue stall, Xuan Xuan has already gone back.

There are three brothers, sitting and drinking together.

Shen Dong only then talked about what happened during the day, "Now I think about how stupid I am. I actually feel like borrowing a car, and I feel confident."

"Although I don't want to say, but the other party's confidence is the real bull." Shen Dong ridiculed himself and shook his head: "You said, how can people be so realistic nowadays."

"Your girlfriend, isn't she there?" Yan Erbai glanced at him, and this was a bit of a common sense.

"Yes." Shen Dong nodded heavily and said, "I didn't blame her, I just thought I was useless."

"According to you, I am still eating and waiting to die! Don't I have to find a place to bury myself." Yan Er stared at himself with wide eyes.

"Second brother, working hard for a lifetime, not as good as having a good father, what do you say about it?" Shen Dong was really drunk.

That ex-boyfriend, can sit in the position of executive at such a young age.

I can have so much confidence to settle down in Hudu, buy a house, and buy a luxury car.

He thought it was the other party's own ability, but later learned from Xuanxuan that the father is the president of the company's Asia-Pacific region.

Ha, work hard for a year.

Use the 20,000 I liked and 9.98 million from my father to buy a suite?

So, what on earth is I thinking, I still think that man is very generous...

In front of him, there is actually a kind of shameful inferiority.

Although Shen Dong didn't treat anyone, he knew better than anyone.

At that moment, he really felt that he was inferior to the other party.

"Is it enough for your son to fight you as a dad in the future?" Qin Yu put down the glass and said.

"Hey, hey!" Shen Dong smiled, nodded and shook his head, feeling full of emotion for a time.

"Being rich second generation is his father, rich generation." Shen Dong smirked.

"Yes, it means to be the father of the rich second generation, the rich generation." Yan Er smiled and said, "How about it, is it particularly fulfilling?"

"Okay, this dad, I'm sure." Shen Dong raised the cup, muttering dry.

Put the cup heavily on the table to express his determination.

Young people, who doesn't have a problem with groaning.

Shen Dong was panicked, unhappy, and wanted to vent.

Qin Yu and Yan Er accompanied him and let him vent.

After a meal of wine, it was more than 1 a.m., and Shen Dong was helped by the two to walk back.

On the street, people are still coming and going, feasting and feasting.

"In the future, I will let my son live in this drunk and golden fan. Give him a hiccup..."

"Buy him a luxury car, a mansion, Brother Yu, then, how much money is the yacht?"

"More than 100 million." Qin Yu said.

"Buy, airplane, private, private jet, much money, hiccup, much money?" Shen Dong kept shaking his arms, as if to buy all the Hudu.

"There are a lot of money, you must buy it." Yan Er couldn't laugh or cry.

"Yes, hehe, the second brother understands me and bought it." Shen Dong squinted his eyes and waved his hand again, and bought it all.

"MD, I, I want my son to be respected by everyone, I, woooo..." Shen Dong suddenly lay on Qin Yu's shoulder and wept bitterly.

The bitterness and grievance of these years, the pictures of Cayenne and the battery car frequently flash in front of my eyes.

Shen Dong shouted aloud: "I want my son to be valued by everyone, valued..."

.....

.....

July 13th, the summer season is here!

Shen Dong once again devoted himself to a small business in full swing, as if nothing happened.

I just leave early and return late every day, becoming busier than before.

Yan Er continues to be his own big muscle tyrant of the Buddha system, occasionally going out to burn horses and buns. With his coquettish car, he is very mixed in the circle of young lady.

Qin Yu has been with the little anchor, and she came back early and gave Brother Yu a surprise.

Knowing that the little anchor will stay at home for a period of time, Qin Yu also cut his schedule and try to spend more time with her.

However, he is going out today to participate in Bonhams' summer private auction.

The Bund, Waldorf Astoria.

The sharp Lamborghini poison stopped at the door. Qin Yu handed the key to the parking attendant and walked straight to the direction of the banquet hall.

He is really familiar with this hotel.

As soon as people arrived at the entrance of the banquet hall, butler Yao chased up from behind: "Qin Shao."

Stopped, and when he approached, Qin Yu said with a smile: "The news of Butler Yao is still so good."

"As a personal butler of VIPs like you, having a pair of keen ears is the most basic." Butler Yao nodded in response.

then asked: "Qin Shao is here to participate in the auction."

"Yes." Qin Yu nodded and shook the invitation letter in his hand.

"Then I won't bother Qin Shao. If you need to tell any waiter, your request will be met."

Yao butler stood there and watched him enter the banquet hall.

Then he turned and left unhurriedly. He came here today to make a face-to-face meeting.

Deepen Qin Yu's impression and let him know how the hotel values it.

Entering the banquet hall, Qin Yu found the position of his own number plate, sat down and waited quietly for the opening of the auction.

At this time, not many people came to the scene.

There were some people sitting sparsely around, basically in couples, whispering to each other to exchange information.

Among these people are buyers, sellers, buyers, white gloves, collectors and merchants reselling artworks.

A month ago, they received the catalog of this auction.

records most of the items in this auction, for interested buyers to select targets and raise funds.

However, not all auction items are included here.

Some special auction items and final pieces are basically not included. Instead, the auction house calls competent buyers to communicate.

There are really not many buyers who come here alone like Qin Yu, who don't know anything.

Except for those young people who were brought by their elders and wanted to meet the world.

"Brother is here for the first time?" A fragrant wind blows, and there is a smiling figure beside him.

"Is it obvious?" Qin Yu smiled in surprise.

"All the people present are exchanging information and evaluating the opponent's strength. Only you are looking around, looking at the excitement, what do you think?"

The dimpled girl propped up the chair with both hands, and her long legs with nowhere to lay leaned together under the chair in front.

"It seems to be so right." Qin Yu looked at the other party and asked, "What about you?"

"I also came to see the excitement. Over there, my uncle brought me here." The dimpled girl pointed at a distance.

An extraordinary middle-aged man is sitting in a chair listening to the opinions of everyone around him.

Perceiving Qin Yu's gaze, the other party turned to look at him.

Four eyes facing each other An accident appeared on the man's face, and then he nodded with a kind smile, clearly recognizing him as saying hello.

At the same time, I also saw the girl next to Qin Yu.

I don't know if it's an illusion, Qin Yu felt that the moment the other party was looking at the girl, there was a sense of pride in his eyes that 'I'm a pretty girl in my family'.

This scene was also seen by the girl, who looked at Qin Yu a little unexpectedly and asked: "Do you know my uncle?"

"I don't know." Qin Yu told the truth, he really didn't know each other.

But judging from the other's tolerance, it must be a long-standing boss.

I just don't know, in which way...

After such a long time, Qin Yu's photos have been circulating on the Internet.

So, there are quite a few people who know him, but he doesn't know most of these people.

Seeing that the girl continues to ask questions, he obviously doesn't believe what he said.

Qin Yu pointed forward: "The auction is about to begin."

## Chapter 629: Believe in science

In the auction, one lot was brought up.

The operator before the phone connection was busy communicating with the boss behind the scenes, and the buyers were also exchanging bids and silently clashing with potential opponents.

However, the atmosphere at the scene did not appear to be very tense because of this, but rather relaxed and joyous.

Entertainment to death, even a veteran auction house like Bonhams has broken the old-fashioned, heaviness and solemnity of the past.

The host above keeps witty words, ridiculing the buyer and the line proxy below from time to time, which is a joy.

Don't talk about stand-alone, it's a pity!

Qin Yu has always maintained the identity of a spectator, and has not shown any desire to buy the auctions above.

This makes those who are observing him silently cannot help but wonder or worry!

"He's not here also for the finale?"

In fact, they really got it right, and Qin Yu came to the finale.

The figures and symbols recorded in the mysterious notebook, the appraiser of the auction house did not give an answer.

But because of its own material, such as paper, it is hard to damage with swords and does not invade water or fire.

After the seller personally showed its magic to the auction house, the chief appraiser of the auction house moved it to the final list.

"Diamonds are always forever, and a diamond will always circulate. I believe everyone will be familiar with this classic line..."

Listening to the account of the auctioneer on the stage, Qin Yu's expression became more and more weird.

I want to laugh, try my best to restrain myself, but I just collapsed a bit quickly...

I have to say that Bonhams really took care of this auction. A pink diamond weighing 16.88 carats and named "Crimson" was taken out.

As soon as this diamond appeared on the scene, it caused an exclamation on the scene.

The women even took a breath, fascinated by the halo and dazzling it exudes.

They looked at "Crimson" in their eyes, not as if they were looking at a dead object.

It is the beloved lover, the protagonist of the dream, the longing of Qiyi and the unremitting pursuit of eternal beauty.

"Puff~" Brother Yu tried his best to endure, but still made a leaky sound.

He swears that he is really trained and he would never laugh.

The above...

Have you seen a diamond as big as a mountain?

Brother Yu has seen it with his own eyes and watched it being cut into fist-sized pieces and loaded into the laboratory for materials.

Now, there are still two rough stones in the company's warehouse that the "Xihe" has just returned.

is about three meters in diameter and five to six meters in height.

is not big, mainly for the convenience of transportation and avoiding people's eyes.

At this time, seeing the eyes of the women, Qin Yu wondered if it was time for this cutting to take one of the pieces and divide it.

Make pendants, earrings and other gadgets for your own women.

Take it if you like it, and keep it if you don't like it.

Emergency can be sold in an emergency, tsk tsk, it's good...

"What are you laughing at?" The dimple girl next to her turned her head curiously, and asked a little bit of dissatisfaction while staying.

Is he laughing at himself?

still believes that women's pursuit of diamonds is a material manifestation.

So, did you run into Nanquan?

"It's okay..."

Looking at her as if she had misunderstood something, Qin Yu explained: "Happy, I couldn't help thinking of the way my woman looked when she saw the diamond!"

"Do you have a girlfriend?" The dimple girl's focus instantly shifted from "Nanquan".

I feel a little bit down, but I feel it should be.

Just like men always complain, good cabbage is let the pigs go.

Women are also complaining, good pigs have eaten other people's cabbage.

I'm so watery and tender, why don't you have a porcupine to make an offering? It's okay to loosen the soil!

"Yeah." Qin Yu nodded in response.

The dimple girl suddenly lost her interest in admiring diamonds. No matter how beautiful the diamonds are, they cannot buy them.

But the love that might have developed around me, it just died before it started.

Uncomfortable!!!

Looking at her sluggish, her hands propped on the chair, her long legs were slightly bent and raised, and her feet were shaking.

Qin Yu was stunned, then whispered: "Do you like watching magic?"

The dimpled girl tilted her head and looked at him, her eyes clearly saying, "Okay, okay, I like watching magic the most."

Straight men always learn this or that, thinking that they will be able to catch the girl by learning some magic tricks.

But when they watched the video, they put their focus completely on the wrong side.

Sister, is that excited by magic?

You turn your gaze to the upper left at a 45-degree angle, hey, by the way, it's the face of the magician.

Look, take a good look, look in the mirror.

Is that magic? That is the value of the face!

Try another ugly, sister can vomit him.

It's still magic, I touch you a big ghost!

Just like Bai Meng now, she is full of expectations for "magic".

A pair of eyes were locked in the hands of the magician's face...waiting to witness the miracle.

Extend his hands, Qin Yu's right palm is facing upwards, and his fingers are drawn inward, as if he is grasping something.

Next, in Bai Meng's smile, a dark gray line like dust slowly appeared.

The line swings from top to bottom, like being manipulated by fingers out of thin air, constantly swaying and waving.

Bai Meng's eyes suddenly widened, and her little mouth O froze, watching this scene incredibly.

Next, the lines became thicker and thicker.

When the line reaches the level of being clearly visible to the naked eye, Qin Yu's five fingers simultaneously slide forcefully to the left.

The surface of the line is like being given inertia by him, rotating...

Huh, huh~

The lines that stand out of thin air on the palm of your hand, like a mini-version of tornado, circling and whistling.

The voice is very soft, but Bai Meng swears that he really heard the sound of the tornado.

Just when she was about to be curious and wanted to reach out to touch her.

The tornado collapsed suddenly, disappearing into Qin Yu's palm like a light particle...

He was anxious, before Bai Meng said that he still wanted to see it, sporadic dark gray "mist" appeared in his palm again.

The mist spreads quickly, condensing and deepening the color, becoming full, and the splicing of grains depicts a brand-new creation.

A vivid lark appeared in Qin Yu's palm.

"Hello, hello." A crisp voice came into Bai Meng's ears.

At this moment, she was stupid.

Is this really what magic can do?

Then, the larks turned into dust and disappeared, and a flower path climbed and grew higher and higher in his hands from bottom to top.

Branches and leaves appear, followed by petals, finally stamens, and then full bloom.

A rose printed like a lead core appeared out of thin air.

"I give it to you." Qin Yu pinched the rose and placed it in front of her.

"Really?" Bai Meng didn't know whether he was awake or dreaming.

"Of course it is true, but without the moisture of the soil, the flower's life is extremely short." Qin Yu responded with a smile.

Hearing what he said, Bai Meng hurriedly took the rose.

The real touch between her fingers made her understand that this is not a visual deception, so she really has a rose in her hand.

This material feels cold to the touch, a bit like metal.

but why.....

Wow~

The rose began to ablate from the root, and it just scattered from the root little by little.

If you add some dazzling colors, it will be the same as the special effects in the movie.

"No." Bai Meng wanted to catch it nervously, but caught it empty.

The rose in front of me completely disappeared, leaving only a white dream full of regret and unwillingness, still surprised by the beautiful scene.

just looked at her clenched fist so stupidly.

"Ah, this young lady must be too surprised, in fact, even I am fascinated by this lot, if it weren't for strict security."

The auctioneer put his palm to his mouth, and the \*\*\*\* secretly poked his head and said to the guests below: "This thing is already locked in my safe."

There was a burst of laughter at the scene, which resolved the embarrassment of interrupting the rhythm by Bai Meng's exclaim, and made everyone once again focus on the lot itself.

Looking at Bai Meng again, I didn't care what happened above.

At this time, he was looking at Qin Yu with a puzzled face, and muttered: "That must not be magic, right? I really did it. I did it."

"Beauty Thank you for your compliment, it seems that my magic has already been mastered." Qin Yu smiled calmly, acting very calmly.

Does not refute directly, it is more powerful than refutation.

Fake is fake. If it is not a magic trick, what can it be?

"How did you do it?" Bai Meng began to doubt his own judgment. Perhaps the other party's magic skills were too amazing.

Like those incomprehensible magic, it is precisely because of the magical effect and deceptiveness that people can be amazed and achieve extraordinary achievements.

"Unmasking magic tricks is like depriving one's soul, do you bear it?" Qin Yu asked rhetorically.

Bai Meng really showed hesitation, and finally decided not to ask him about the skills behind him.

But she still couldn't help asking again: "That, is it really magic?"

Qin Yu replied brilliantly: "Of course, we have to believe in science."

He is not a cultivator, it is science that created the scene just now.

Believe in science, is the truth!

### **Chapter 630: 1 three, Lao Zi Wang ran away**

"Okay, the previous lot has come to an end." The auctioneer clasped his fists and said: "Thank you, bosses, for your care, haha..."

"Next, let's move on to the topic, which is what everyone has been waiting for. It is here, it is here, it is held by the beautiful lady and came to me..."

Listening to the lines, Qin Yu knew that the auctioneer was a fellow.

The old and rude driver is you.

It's just that when he sees that what is inside is a notebook, there is a little more expectation and confidence in his expression.

It was the determination to win, and Bai Meng knew in an instant that the other party was looking for the auction item that appeared at this moment.

"Let you play tricks on me and see how I will return it to you this time." He secretly chuckled in his heart, after the auctioneer announced that "start now".

Bai Meng wanted to raise her hand first, but her movements were faster than those well-informed collectors, buyers, and white gloves.

"20 million, 21 million, 25...30 million, which has reached 30 million, and... here 35 million, 3...

40 million, No. 86 bid 40 million, and... Oh, yes, 45 million is offered for No. 63, 4500...50 million..."

Prices soared all the way, and the auctioneer's mouth was like Gatling with blue fire, babbling non-stop.

When the price reached 100 million, the fast-paced reporting finally eased.

"100 million, 100 million bid for No.88, is there any, is there..."

In just a few seconds, the price soared from 5 million to 100 million, and the auctioneer himself was surprised.

Not to mention the following Bai Meng who wanted to tease Qin Yu, the O shape of the mouth has not changed since the beginning.

100 million, is that 100 million?

Even in the auction, the price of over 100 million is very surprising.

It can be said that several auctions each year, with a price of more than 100 million yuan, will often attract the attention of the entire industry and the outside world.

From this point, we can see what the concept of over 100 million is.

Of course, in the eyes of Keyboard Man, 100 million is just a daily unit. If you go out to eat beef noodles, don't you have to spend a 100 million tip?

Or I'm sorry for being forced...

"200 million." Just when the auctioneer asked, Bai Meng was dumbfounded, and everyone else was discussing and communicating with the owner.

Qin Yu, who has not made a move, raised the number plate in his hand, No. 10.

"No. 10, VIP 10 This is the first bid, 200 million yuan, can you confirm it?" Such a high overflow price made the auctioneer have to ask.

"200 million." Qin Yu just raised his placard again to repeat.

He is not interested in adding billions of bits, and he does not want to give others an impression of hope.

200 million, which is directly higher than 100 million, just to tell everyone.

He is determined to win this notebook!

"Okay, 200 million, the current price is 200 million, may I ask..." The auctioneer's inquiry accelerated the tension on the scene.

At the same time, buyers and white gloves communicate with gold owners more frequently.

Holding the phone with one hand, covering the microphone with the other, talking quickly about the scene.

Everyone wants to convince the owner behind him to win this mysterious lot.

Not only because of its speciality, but Qin Yu's bid also made them more convinced of their inner feelings.

This notebook must hide a big secret!

As for whether the seller is raising the price, it is possible, but it is better to look again.

People who don't know the truth wander between suspicion and determination.

As for those who knew and recognized Qin Yu's identity, they had already made up their minds to shoot to the end before surpassing their abilities.

Includes Bai Meng's uncle, Bai Shangyin.

"210 million." Out of respect, Bai Shangyin increased the price by 10 million at a time, giving Qin Yu a lot of face.

There are hidden rules for auction increase, although the auction house stipulates that each increase should not be less than how much.

But in fact, when the price is tens of millions, the increase will not be less than 500,000.

Over 100 million, the price increase will not be less than one million each time. The ability to give a price increase of tens of millions indicates that the bidders value and respect the previous buyers.

Feeling the other party's kind nodding, Qin Yu suddenly felt a little bad and then violently.

Just like there is a low price, there is also a high price!

If Qin Yu shouts 300 million at this moment, he is undoubtedly expressing to the outside world, "What are you, you deserve me to give you face?"

So, he could only helplessly shout out "The price of 250 million yuan."

Not only expresses one's own perseverance and determination that is bound to be obtained, but also gives respect to the other party in return.

Face is for you, but things must be mine.

Bai Shangyin heard the meaning clearly.

Thinking of Qin Yu's financial resources, Bai Shangyin decided to give up the competition after discussing with the people around him.

But he does not argue, but some people argue.

A white glove suddenly quoted 300 million yuan, which brought new changes to the scene.

Seeing the other's high-profile posture, Qin Yu has no scruples, "1 billion."

"Wow~" There was an exclamation on the scene, and they couldn't help whispering to each other to inquire about Qin Yu's identity.

The other party just bid 300 million, you, slap~

1 billion!

It's like a group of people playing cards. A 3 is just played on the opposite side. If you throw it away, it's the king of bombing. It's all done in one go...

This person is poisonous, right?

The smile that was still open in the white gloves instantly turned into a creamy eggplant, and the wrinkles on his face were squeezed inward and twisted.

Slap on the face, this face is hot and painful!

As for the benefactor behind, he has to go and comfort him.

Own master, that is a large neon consortium, with father bald eagle standing behind it.

If he annoys the other person, it is unclear whether someone else has something to do. Anyway, he must have something to do.

Seeing the white gloves frequently nodding and bowing to the phone, Qin Yu couldn't help frowning at the clear bird's language in his ear.

This is Xiaori...The neon man who has a good time, how come you can see it everywhere like a fly?

However, how did the other party stare at this lot.

Yu brother is a little uneasy, so, under the seemingly calm face, he has allowed Kylin to invade the other party's mobile phone to track the source of the phone signal.

"One billion, the first time." After seeing the white head cover for a long time without responding, the auctioneer finally started to count.

"1 billion, the second time...the third time, the deal." Pop, knock the hammer to finalize the sound.

The lot finally fell into Qin Yu's hands. Under the enthusiastic applause of everyone, Qin Yu got up and held his fists around, thanking everyone for their love.

Then seated again, waiting for the end of the auction.

"Why did you directly bid 1 billion, this is not a big loss?" The Bai Meng beside him finally broke free from the absurd dream.

Twisted a handle on Bai Zhi's thigh and made sure that she was not a dream. She believed that Qin Yu really spent 1 billion to buy a notebook.

Although the introduction of the notebook is quite mysterious, it's not all mentioned above.

Linguistic experts can't recognize what the above text is, it's just ghost symbols.

Even if you want to collect or collect, but your price is too high, right?

Qin Yu smiled faintly: "I have a lot of money, and it's uncomfortable if I can't spend it."

Vomited!

This Fanxue instantly made Bai Mengyu choke, like a knuckle in his throat, unable to swallow or spit out.

Qin Yu naturally wouldn't tell the truth, and he didn't feel that the money was wronged at all!

Don't say it is 1 billion, it is tens of billions, hundreds of billions.

As long as you can get things smoothly, it's worth it!

Silver level? ? ? The grand prize, also used a super double, is worth more than the material conveyor in the evaluation of the system.

And silver is still above the brass reward.

Is it expensive?

Ha ha!

How can it be measured with money...

As the last lot, Moyu's finger from the Qing court was placed, and Qin Yu had lost interest.

Leave first, and the staff waiting next to him immediately led him to the backstage.

This is not a simple guest, this is one billion people walking!

When Qin Yu was indoors, dialing the number of C&D and going through the transfer and other procedures, the outside auction ended successfully.

"Mengmeng, how did you and Shao Qin meet?" Standing at the auction site, Bai Shangyin and his niece asked about this in the first sentence they met.

"Shao Qin? What Shao Qin?" Bai Meng looked at his uncle in surprise. "Uh! "

Bai Shangyin was a little confused, but quickly cleared his thoughts: "You mean, the young man sitting with you just now, you don't know?"

"I don't know each other, I think my little brother is pretty good-looking, let's talk a few words in the past." Bai Meng responded naturally.

Seeing that his niece was so contrived and did not hide the slightest expression, Bai Shangyin laughed openly: "Okay, I don't know it."

is to meet this unexpectedly, without a half-utilitarian mind, it is the most precious.

"Then you are friends now?"

"Hmm~"

Bai Meng thought for a while, and said, "It should be counted! He even performed magic tricks for me."

Bai Shangyin was pleased to nod when his niece said so.

I wanted to bring my niece to meet the world this time, but I didn't expect this to happen.

Now it seems that this trip is really right.
