Chapter 641: Broken-hearted mother Lu

Two bottles of Moutai, after a meal, there is not a drop left to drink.

Lv Guohui is already drunk, and now he speaks in a twisty manner, his pitch fluctuates up and down, just like singing in Qin opera.

Qin Yu is the same, lowering his head, shaking his head to the left and right, looking like he is about to fall down at any time.

This makes Lu Qing feel distressed, and keeps glaring at his own Lao Tzu with his eyes: "Can't you let him drink less?"

Unfortunately, his Lao Tzu has been on the sky right now. Opening his mouth is the international trend, and closing his mouth is the national self-improvement.

The pattern is so big, to be a real estate developer, it's a talent!

"Or Xiaoyu would be sleeping here tonight, I'll call Chu Yu." He Hong went on the phone as he said.

The 'drunk' Qin Yu was a little stunned, but this was different from what he thought.

But, let's sleep right here!

Anyway, I'm 'drunk' right now, but the old man gave it to him. Isn't it normal to fall asleep?

I just don't know, my room is not far from the little white rabbit.

At this moment, the stamina of the medicinal liquor is combined with the effect of alcohol, which is called a flammable and explosive.

Qin Yu, with his head down, did not dare to open his eyes. As soon as he opened it, a pair of long, white legs dangled in front of his eyelids.

Where is the long leg, it is a spark.

Burning over is instantly ignited, exploding on the spot! ! !

"Chu Yu, I am He Hong, haha, okay, it's all okay... Well, Xiaoyu drank too much, I blamed our old Lu, and didn't know about moderation..."

Yes, the child drank too much and it was not safe to go back, so I let him live with Qingqing tomorrow...

Hey, I have everything packed. In the morning, I will cook some sober soup and ask the driver to take them to the airport... What trouble is it?

Family don't talk about two things, it should be...hey, well, we often get together when we have time. I miss your little peas..."

The two mothers said it took half an hour to finish.

Fortunately, Qin Yu doesn't have to wait 'drunk' at the dinner table, Lu Qing has already helped him upstairs.

Looking at her holding her arms with her small shoulders, Qin Yu couldn't bear to cooperate with her movements in a hard-working manner.

Suddenly felt light on her body, and Lu Qing looked up curiously.

Finding that Qin Yu was still dozing off with his head down, he didn't think too much, and sent him to the guest room opposite to his room.

This room was specially prepared for him by his mother before, just to guard against such a day.

Finally helped him to bed and lay down.

Lu Qing wiped the sweat from his forehead and sat on the edge of the bed looking at his face amusedly.

Even if he fell asleep, he was still so handsome.

Muma~

kissed him on the face, Lu Qing turned and left the room.

It's still early now. If she is nowhere to be seen, my mother might come up and knock on the door herself.

After finishing cleaning the dishes and chopsticks in the restaurant, He Hong urged her to rest, and asked: "How about Xiaoyu? Would you like some soup?"

"I'll take a look, I just fell asleep." Lu Qing replied.

"I'll go and see with you... Isn't it inconvenient?" He Hong looked at her daughter curiously.

Seeing the meaning in her eyes, Lu Qing stamped her foot in shame: "Mom, what do you think!"

When he came to the door of the room, Lu Qing hesitated and decided to go in first.

Pushed the door into the room and saw that Qin Yu was still wearing his clothes. Then he opened the door again: "It looks like he's sleeping quite heavy, or don't call him."

"Okay, then I will go to rest, and you should rest earlier." He Hong said this in his mouth, but did not move under his feet.

Lu Qing didn't follow her until she walked out the door after realizing it.

"Mother will prepare breakfast for you tomorrow morning. Remember to ask Qin Yu to get up and eat early." After confessing again, He Hong went downstairs and returned to the room.

Lu Qing also entered his room, and the corridor became quiet.

Five minutes later, Lu Qing's door opened a small slit.

Next, a head stretched out, and he looked around and found that there was no one.

Cleverly jumped out of the room and gently closed the door.

Rubbing his hands and feet, he came to the opposite side, pushed the door and entered...

At this time, Qin Yu, who was sleeping on the bed, quietly opened his eyes, showing a smile in his grasp.

.....

.....

The next day.

Lu Qing was sleeping soundly, when suddenly there was a knock on the door.

Then a familiar voice sounded outside the door: "Qingqing, are you up?"

Lu Qing turned over and wanted to continue to sleep again. He never thought that his mind was vigilant, and suddenly sat up.

"I~" I looked around and found that I was in my room.

Looking to the bed again, there was no one.

Lv Qing was surprised and relieved at the same time, and responded: "Get up."

The door was pushed open, and He Hong walked in.

Seeing her alone, a trace of surprise flashed in her eyes, "If you wake up, get up quickly, breakfast is ready... Where is Xiaoyu?"

Lu Qing was also wondering in her heart. She was obviously tossed last night and fell asleep in Qin Yu's room.

Why do you wake up in the morning and go back to your room?

"Maybe still sleeping!" Lu Qing said uncertainly.

He Hong heard it, her heart was speechless, and the whites of her eyes were about to turn to the sky.

No way?

She was really obedient and slept in her room all night?

God, is this really my shrewd daughter?

Not a fool!

Last night, did her father drink the tiger bone wine for nothing?

He Hong was full of complaints, and she couldn't help it.

Quickly walked to the door and closed the door, turned his head and whispered in Lu Qing's surprised eyes: "What happened to you two last night?"

"Mom~" Lu Qing's brain is numb.

This kind of thing, how do you tell your mother...

"Huh!" Seeing her daughter's expression, He Hong immediately understood everything.

Hey, this young man, he did a good job of vigilant work.

However, they won't be taking any measures all the time. This is not okay.

"My silly girl, sometimes women have to take the initiative. There has been an old saying since ancient times that mothers depend on children. Do you understand?"

Looking at her mother's gaze, Lu Qing understood her meaning.

This is to get married with one's own son, first stabilize the status of the big house.

Can...

There are some things that Lu Qing can't tell her. In fact, she didn't take any protective measures for half a year.

It's just that after so long, nothing happened.

Sometimes Lu Qing wonders if there is something wrong with her body.

Or, what is the hidden meaning of Qin Yu?

Judging from his performance, it doesn't seem to be a problem, on the contrary, it's horrible.

Although he is the only man, but there are so many consultations on the Internet, and the best friends gather together, and the little jokes are constantly thrown out one by one.

Judging from these experiences, Qin Yu is definitely an animal class.

But there is no movement. Are you angry?

It's just that, for the time being, Lu Qing doesn't want to think deeply, they are still young, and there is time in the future.

Moreover, from the performance of Qin Yu not allowing himself to take medicine, he also has intentions and ideas in this regard.

Maybe there will be inadvertently someday, then, don't the others make sense?

"Mom, don't worry, I have an idea." Thinking of this, Lu Qing's smile regained self-confidence and indifferent.

Seeing her daughter's confident smile in his grasp, He Hong let go of this heart.

It's good to have an idea, and it's good to have an idea!

.....

.....

After breakfast and sober soup, Qin Yu and Lu Qing were sent back to Nanhu Manor by the driver while sitting on the Land Rover at home.

When I saw Liang Chuyu, the first sentence of the mother was: "Oh, our eldest master is back?"

"Auntie." The well-behaved Lv Qing jumped out from behind him, and the mother-sama seemed to have learned how to change his face, and instantly smiled like a flower.

"Qingqing, come on, it's been a long time since I saw you, let me see...it seems to be thin again, this is not good, what about..."

I will come here often from now on and ask Aunt Qiao to cook for you. I have everything in the refrigerator, so I don't have an aunt to buy it. "

Seeing the harmonious picture of the two mothers and their filial piety, Qin Yu felt that he should go back to where he had just arrived.

is his real mother over there, right? right!

"Guo Guo, giggle..." The little pumpkin ran out after hearing the movement, followed by Aunt Sun who was chasing after.

Seeing the two, Aunt Sun nodded with a smile, and then carefully stared at the little pumpkin, for fear that he would bump into it.

Putting one head into Qin Yu's arms, the kid finally learned to walk on his feet instead of crawling around.

"Have you been obedient to eat?" Qin Yu pretended to be vicious and pressed his face to his face while picking up the little pumpkin.

The little pumpkin is not scared at all, and her two small, fleshy hands are opened together.

Slap, slap Qin Yu twice on the face.

"Chuck~" Seeing the smiling happy little pumpkin, the dark-faced eldest son is ready to go upstairs.

Liang Chuyu prayed silently for him, hoping not to beat him too hard this time, it would be better if it hurts for a few days.

Chapter 642: Famous FBI

Carrying the back collar of the little pumpkin, he lifted it downstairs, with some teardrops on his face.

When I saw my mother, I opened my mouth and cried, and my hands covering my **** became harder.

But let go again instantly, scratching hurt...

"Okay, OK, Little Pumpkin doesn't cry." After hugging Little Pumpkin, Liang Chuyu gave him a hard look.

It was funny and distressed in my heart. It's nice to have personal discipline!

This guy, there must be something he is afraid of.

Her husband has allowed the trumpet to ride on his head, his face slaps, and he smiles like a fool.

just **** and pee on his head, and he can't help himself.

The older I get, the softer my heart is. When I was practicing for the tuba back then, it was a cruel heart...

Harm, why do you mention this!

"Mom, put this box in my room first. The table is a gift for you, remember to read it.

The time is almost the same, we will leave first. "

He came back from this trip mainly to give gifts, or he went to the airport directly.

"Well, the road is slower, not better than at home outside, be careful in everything, and be gentle with others."

"I see, don't worry, I have always had a good temper." Qin Yu replied with a smile.

If Bai Meng is here, I would definitely disagree.

Be kind?

Do you have any misunderstanding of the word harmony? ? ?

International Airport, Terminal 3.

Following Qin Yu's Lv Qing to enjoy the full VIP service, the last time she was given this treatment, her father sent her to study abroad.

She doesn't have this treatment herself, no matter how rich you are, there will be an egg if you don't fly!

While waiting for the flight, Lu Qing suddenly asked about the company's financial situation.

"You didn't want to pay dividends. Is there too much cash in the company?"

Lu Qing felt that such a large sum of money would be put in the company, which was a bit of a waste.

Such a large sum of money, Fong's diversified investment can never be used up.

So far, the peak investment has only been more than 30 billion, and the rest are all on the books.

The bank's happiness is broken, and every day I ask for warmth, I have to make a phone call every other day.

Various holidays, the vice president level personally visits the door to give warmth.

Passing invitations, shopping vouchers, and VIP cards for various high-end venues are piled up at home.

But Lu Qing was not very happy, but rather melancholy.

It is a good thing for my own man to succeed, but too successful, it will inevitably bring some negative effects.

For Lu Qing himself, there is less and less motivation to work hard.

"Is this a stumbling block on the road to unsuccessful?" Lu Qing.

Not only did he stumble, he also got in the way, and a golden mountain stood in front of him.

Inexhaustible, inexhaustible.

That temptation, ordinary people really have no resistance.

"Would you like to be a salted fish? After drying the front and the back, you can also dry the side?" Qin Yu joked.

Lu Qing smiled and slapped him: "You are only going to be salted fish."

She just said a few words casually, and she feels better.

Salted fish, it's impossible!

Even if it's not for yourself, in order to have a common topic with him, catch up with him.

Lu Qing also did not allow herself to be a salted fish.

Good people will only be with good people. How can dragons and loaches stay in the same corner?

.....

South Lake Manor.

Liang Chuyu, who had coaxed the pumpkin to sleep, came to the living room and sat on the sofa to take a rest.

Sweeping the corner of his eyes, the gift box on the table was brought into view.

"Let me see, what did this kid buy?" Liang Chuyu smiled and opened the gift box.

A box that is not too big or small, looks very mysterious in appearance, but does not have any logo.

Liang Chuyu reached out and touched both sides, then lifted it up.

slap~

The sparkling diamonds in the box made her stunned for an instant, "This, so big?"

.....

Registration on time, there are already several guests in the first class of the plane.

The number of first-class seats on international flights is much more than that on domestic flights.

Foreigners with suits and leather shoes, as well as slippers, beach pants, short sleeves, the second generation of standard beach style.

Qin Yu and Lu Qing came to their place, and the curious prying eyes around them also turned away.

Including two flight attendants who turned their heads back 180 degrees and kept their eyes locked on the faces of their men after boarding the plane.

Aren't you afraid of twisting your neck? Lu Qing complained silently in her heart.

"Huh!" Qin Yu frowned and cast back, with a small black box in his hand.

"What is this?" Qin Yu looked at Lu Qing curiously.

Lu Qing was also very curious, and asked, "I found it on my seat?"

"Well, let's see what it is." Qin Yu handed it over to her amusedly: "It seems like this trip is lucky!"

"What are you talking about, if..." Lu Qing opened the box with a smile, her expression instantly sluggish.

The huge diamond pendant in the box made her dizzy.
so big!

Okay, so flashy! !

The whole necklace is dotted with transparent white diamonds, in the middle is a huge heart-shaped (pear-shaped) white diamond pendant, and white wings are decorated with diamonds on the side.

The whole necklace used 103 carats of diamonds, no more, no less, just 103.

And Lu Qing's birthday happens to be 01.03.

"I gave it to you, do you like it?" Qin Yu asked softly.

Lü Qing was already moved and couldn't help but nodded desperately, tears bursting into her eyes.

Like, she likes it so much.

103 carats, a necklace specially made for yourself.

This friendship is as precious as a gift, so don't let it go!

At this time, Lu Qing's heart is turbulent, it is difficult to calm down, and the happiness is overflowing.

was clearly smiling, but tears kept streaming out.

I kept wiping tears with my hand, but I couldn't help but smile: "Husband, I think I am the happiest woman in the world."

"You deserve this happiness." Qin Yu touched her cheek and responded softly.

Papa~

There was warm applause in the cabin, and the flight attendant brought champagne with a lemon-faced face to congratulate the two.

"Boy, good job." The passengers responded with smiles and blessings.

"Thank you, thank you everyone." Qin Yu smiled and nodded in response, feeling very good.

So, the world is more kind, how beautiful it should be!

It's just that this kindness came suddenly when the plane landed and got off the plane.

"Hello, FBI." Two agents stopped Qin Yu's way.

Behind him, the security masquerading as passengers began to act, and when the two noticed, they had formed an anti-siege.

"Mr. Qin, I hope you don't make irrational decisions." An agent put his hand on the holster.

In his line of sight, some of the surrounding passengers have put their hands on the back waist.

It's definitely not a gun, but it's deadly.

Qin Yu held Lu Qing, who was nervous and pretending to be calm, and nodded vaguely towards the surroundings, expressing peace and tranquility!

"Famous federal agent, is there anything going on?" Qin Yu asked rhetorically.

Seeing that he did not act excessively, the detective colleague who put his hand on the holster said: "Please don't get me wrong, we are just here to find out."

"Here?" Qin Yu looked around, and there were already passengers taking pictures.

"Of course not, there is the airport security office, if you don't mind..."

"I mind!" Qin Yu interrupted directly, and said under the surprised expression of the other party: "Maybe we can go for a cup of coffee."

Observed the surroundings again, and realizing that the hidden security had almost lost patience, the two agents chose to compromise.

It should be said that it is the more experienced and older Agent Ed.

He didn't want to have any conflict with Qin Yu, especially before the headquarters made the final decision without knowing what the other party had.

You need to know that there is no peace within the FBI.

Sometimes I think that justice is troublesome, which will only lead to bad consequences.

Even scary!

Cafe in the airport, Qin Yu ordered two cappuccinos.

Qin Yu has no preference for coffee, but prefers varieties with sufficient milk flavor.

The ratio of milk froth and milk in cappuccino is just in line with his taste. It should be said that it is more in line with the taste of most people in Xia.

Seeing that Qin Yu only ordered two cups for himself and his girlfriend, the two agents looked at each other, and they were a little helpless.

"Two cups of black coffee, add sugar." Agent Ed raised his hand, took the order and looked at Qin Yu again.

"Mr. Qin, what is the purpose of your coming to Holland this time?" Eddy came up and checked his household registration.

Qin Yu held Lu Qing's hand next to him and smiled and said, "Tourism, haven't you seen it? We are here to travel."

"Why Holland?" The young agent looked aggressive.

Qin Yu's expression instantly cooled down, "Are you questioning me?"

He is always kind, provided that the attitude of the other person is also respectful and polite.

And this rookie obviously doesn't understand what politeness is.

Maybe the FBI should train people smarter and send them out to die.

That way, at least when he dies, his exploded head will not only contain shit!

Chapter 643: YOU / e

"To shut up."

Ed interrupted his colleague's questioning and said apologetically: "Qin, please believe that we came with kindness."

The young agent looked at Ed with dissatisfaction, why he was so afraid of this guy.

Even if he has bodyguards, they are the FBI.

This is the airport, what can those people do? ? ?

Ed is very aware that their situation will become more and more dangerous over time.

Just now, he had noticed two bodyguards leaving the airport.

Presumably, the opponent has already got the weapon he wants, and when he comes back again, he is not facing a group of well-trained bodyguards.

It's a warrior with a lethal weapon, that's not good...

"Let's be straightforward, Qin, you are here for Asmael." Ed is determined to look at him, wanting to see through his disguise.

From Qin Yu's face, he could only see a faint smile, which gave him the urge to punch the opponent.

"Why do I want to look for Asme, don't you know, do I already have a lithography machine?" Qin Yu asked back.

"But you lack the corresponding technology. I believe you are reluctant to destroy that machine, and it is now at work."

Ed's statement is justified and well-founded, and Qin Yu is really reluctant to let people ruin it.

Otherwise, he would not go to Holland himself.

Preparing to use nanoworms to invade Asmer's intranet laboratory and find the core of the corresponding technology.

But, does he admit it?

"If, I mean, maybe we have obtained the corresponding technology and are producing the first self-developed lithography machine?"

Ed looked at Qin Yu's expression for a moment, and looked at Qin Yu's expression seriously, "You are serious."

Qin Yu looked at him with a smile but did not speak.

Just when Ed was about to be stretched, he suddenly laughed and backed away, retracted his shocking posture, and shrugged: "Who knows!"

The more he showed such a calm and calm performance, the more suspicious he was in Ed's heart.

Have the other party mastered the manufacturing process of cutting-edge lithography machines? Could the so-called technical blockade become a laughing stock?

No, this matter must be reported to the headquarters. Maybe, this time we should ask the CIA for help.

"If it's okay, I want to leave first." Qin Yu got up, and the young agent immediately followed up and reached out to touch his waist...

A huge force suddenly came from his wrist, twisting his hand to his back, and then a cold hard object pressed against his waist.

"Shut your mouth, otherwise, I can only trouble Agent Ed to take you home." Qin Yu stared at the other side coldly.

FBI, it is a group of jokes abroad.

You don't need to guess and know that this action was an unauthorized secret operation.

The FBI has no legal law enforcement power abroad. He thought he was in the one-third acre of the Bald Eagle's home, showing off his power?

MDZZ~

"Sorry, Qin, he is still a little tender." Ed shook his head helplessly.

"I like your attitude, Ed." Qin Yu smiled and walked out with Lu Qing in his arms.

Suddenly stopped after a few steps, turned around and sneered: "By the way, maybe next time the CIA comes, you should be sent as a representative.

The chat today is very pleasant, and I look forward to seeing you next time. "

Waved without looking back, Qin Yu really left this time.

Until the two figures disappeared from the end of the line of sight, the hard object behind them slowly left.

"Don't move, unless you want to lie down and go back." Perceiving the colleague's attempt to draw the gun, Ed warned in a cold voice.

This idiot, didn't he notice that there were several guns pointing at him?

Until 5 minutes later, all the surrounding shadows disappeared.

Ed's tense nerves were completely relaxed, and the companions beside him began to complain: "Why do you want to listen to him, we are the FBI."

"See Nima's ghost FBI, who is the idiot who sent you here, I'm going to put my gun in his mouth and wash it well, F-K.

Where do you think this is? This is Europe of TM, silly beep beep~"

The grotesque **** of river crabs blocked Ed's beautiful speech.

Out of the airport gate, Qin Yu took Lu Qing directly into the car.

Before he came, he had arranged everything, from the itinerary, vehicles, hotels to tourist attractions, all were determined by Xu Meixin's repeated screening.

In fact, such a small matter can be solved in a few seconds by Kirin.

But it must not dampen the enthusiasm of employees, and let the other party have the opportunity to realize their self-worth, right!

This is a qualified boss, with the attitude and heart.

The small town of Eindhoven, where there is...

The scenery is similar to that of the small town on the Eighteenth Line of Xia Country. If it is not for the signs and pedestrians on the street, it is completely the feeling of returning to the village.

It's just that the buildings are more artistic, there are fewer people, the streets are cleaner, and the lawns on the outskirts are cleaner.

Others, it seems there is no difference.

This is completely different from the small Dutch town Qin Yu expected.

But he still pointed out the window very seriously: "How beautiful the scenery is here."

Don't forget, he is a tourist in Eindhoven.

The standard tone makes the otherwise quiet driver lively: "You can speak Dutch?"

Friends, welcome to Eindhoven with a long history and beauty. "

"Yes, Dutch is a beautiful language, Scheveningen." Qin Yu smiled.

"Haha, Scheveningen, my own person." The driver laughed.

Scheveningen, the pronunciation is very unique, especially the pronunciation of sch.

It is said that during the war, the Third Reich was easy to learn Dutch, but when you read Scheveningen, it became a hurdle.

So, in order to prevent the spies from sneaking in, the Netherlands must ask the other party to say that Scheveningen is innocent.

The one who can pronounce accurately is one's own person, otherwise, it is the enemy.

Now, Qin Yu can pronounce Scheveningen with precise pronunciation.

This is not a comrade-in-arms, but my own!

Talking and laughing with the driver about the Netherlands' stories and interesting things, Qin Yu noticed Lu Qing's weird eyes.

Naughty winked at her: "How about it, not bad, right?"

"Ah~" In the hotel, Lu Qing threw her body on the bed and stretched out comfortably.

then sat up suddenly, looked at Qin Yu curiously and asked, "When did you learn Dutch?"

"A few months ago, it was specially prepared for this trip." Qin Yu responded.

He didn't just talk casually, there are still a few books for getting started on the desk in the office.

Even though, he hasn't turned it over even once.

"What else can't you do?" Lu Qing looked at him very seriously.

Really, she especially wants to know now, what else her boyfriend doesn't know.

"It doesn't seem to be there." Qin Yu suddenly stretched out his hand and grabbed it before her eyes, and a metal twisted rose appeared in front of her.

The smooth streamlines and twisted branches, dark color style, give the rose a new charm.

"What a nice view!"

Even if he has enjoyed the biggest surprise so far on the plane, the metal rose in front of him still makes Lu Qing's eyes shine.

It's just that the sense of distance from Qin Yu is becoming more and more real.

He is so good, can he really keep his heart?

"Unfortunately, most beautiful things are short-lived." Qin Yu didn't know what kind of turbulent waves caused by his own words in Lu Qing's heart.

"Yes, beautiful, it is always short-lived." Lu Qing muttered in a low tone.

Washing away the fatigue of the journey, the two put on suitable sports shorts and short sleeves, and set off toward the predetermined destination.

To match her outfit, today Lu Qing wears a sports bra specially.

Although she likes freedom, she does not expose her habit.

What's more, my little man doesn't like to see himself bohemian.

Although Lv Qing sometimes thinks that UU reading www.uukanshu.com is nothing.

What if you see it, does it mean that this person is defined and has poor character?

The truth is often those who are gentle on the outside, and evil and terrible devil lurking in their hearts.

The first stop is not a ski resort, where Internet celebrities check in.

But the most famous Eindhoven University of Technology, alias: Philips University.

Eindhoven, known as the Silicon Valley in Europe, is a mecca for tech madmen and lunatics, as well as a mecca for Dutch Cup fans.

Eindhoven has too many celebrities, including Ronaldo, Goodjohnson, etc...

If you don't go to watch a football game here and visit TU/e, it's really a waste of time.

TU/e may not be so famous, but it was once the world's number one university of science and technology in The Times.

is also the world's most closely cooperating university with innovative companies, ranking first in the rankings.

Half of ASML's employees come from this university.

Chapter 644: Hindsight

TU/e, the campus is not big, it looks like a locomotive for exhibitions.

The front entrance is under the 'head' supported by six pillars, enter the gate, and the 'carriage' behind is the main teaching building.

The exterior looks inconspicuous, and there are no bright spots inside, but the hardware configuration is impeccable.

The faces of the students have a desire for knowledge, and the topics they talk about with each other always revolve around a certain problem.

The degree of freedom of the school is what credits are taken each year, what courses are taken, and when the internship starts.

Graduation design, etc., are all determined by the students themselves.

If you ask TU/e students, it must be self-control.

Because, entering the school is basically the same as self-study.

If you do not actively pursue knowledge, knowledge will definitely not come to you.

In addition, because of the good cooperation between TU/e and the company, many of the school's honesty work as part-time jobs or consultants in nearby large companies.

Like Philips, ASML, IMEC and high-tech industrial parks and technology cities.

The new company here has a special feature, it is super dynamic and has a lot of ideas.

Relying on the convenience of cooperation between the school and the company, students can easily obtain a large number of internship opportunities.

Walk into the enterprise, truly understand, practice, and strengthen one's own ability before completing the graduation project.

By the way, it can also earn more than extra money. When doing internships and graduation projects, the monthly salary can reach 600~1300 Euros.

For some students, this is already a considerable income.

The salary of interns three years ago was only half of this figure, but now...

This is all thanks to the corrupt countries. After leaving the European Union, many large international companies' headquarters in Wudu have moved to the Netherlands.

Science and Technology City + Eindhoven University + good policy treatment and business atmosphere, attracting many large international company giants.

This also allows Eindhoven to realize the title of "European Silicon Valley" and become a real talent training/incubation/transportation point in the high-tech field.

A few years ago, Xiao Xie Er, the live-action version of the European super hot, studied at this university.

Unfortunately, compared to his health and studies, obviously his parents pay more attention to the benefits and actual benefits that fame brings to the family.

This kid hasn't heard anything in recent years. Perhaps, it's another injury again?

Is this kind of tragedy happening rarely?

Qin Yu met several compatriots at school, and the other party asked him very enthusiastically if he was the prospective freshman who came to investigate first.

Every year, new students come to the school first to see if they are suitable for this school and whether the school is suitable for them.

In the world of Xueba, choice has always been two-way.

Even schools are often on the weak side. Isn't it normal to choose a school?

PS: This substitution shows you the best!

"No, I just came to travel." Qin Yu responded.

"Understand, there have been more and more tourists in the village of Egypt in the past two years, come to see ASML?" the other party asked.

"By the way, I forgot to introduce, He Pei... Gao Shan..." the two said separately.

"Yes, I plan to visit ASML, can I visit there?" Qin Yu asked curiously.

"Yes, but there is basically nothing to look at. I can't see what I want to see." He Pei shook his head and said, "We interns, we can't get in now."

Although there is no explicit statement, since the blockade happened, ASML has more unspoken rules.

Do not recruit Asian interns, "Someone is staring inside, no one dares to mess around."

"You are talking about the two major situations of the Bald Eagle." Qin Yu directly called.

"Huh!" Gao Shan looked at him a little surprised: "How do you know."

Next to Lv Qing said angrily and annoyed: "We were warned by the FBI as soon as we left the airport."

He Pei and Gao Shan looked at each other, seeing the helplessness and anger in each other's eyes.

These guys are getting more and more excessive, and even 'illegal organizations' have been sent.

Why, is there no one in the CIA?

"You know those bastards, old double-standard dogs." He Pei smiled bitterly.

"Haha~" Gao Shan expressed his disdain with a sneer.

"Are you graduating soon?" Qin Yu thought about the dissatisfaction of the two when they mentioned the internship.

"Yes, it's a pity that ASML can't get in." I don't know how many international students studying in Ecun want to get into ASML.

Learn knowledge and return home to serve the motherland!

Unfortunately, they have never had a chance since that incident.

Fortunately, they withstood the pressure at school and did not compromise in other areas. Otherwise, I am afraid they have to leave Ecun and go to other areas for internships.

"When will you graduate?" Qin Yu's attitude of questioning the roots made the two of them very curious.

But still tell him that it will be in September or October this year, around that time, he will return home directly.

Ecun is pretty good. Since there are more large companies, the internship and employment environment has become more abundant.

However, now that the country is strong and the people are rich, who is okay to stay here and get angry, and eat elbows when they go home, doesn't it taste good?

Knowing that their hometown is Sanqinbei, Qin Yu immediately had an idea.

"If you are interested, you can contact me." Qin Yu didn't say much, and directly sent two business cards to each of them.

This was specially prepared by Xu Meixin for him when he came out.

is to prevent yourself from not being around and not even having a business card when you need to introduce it.

You can't go up and just face the opposite side and brag!

Speaking less, but also unable to show strength.

So, the text on the business card is convenient.

The founder/chief technology officer of Miracle Company, Qin Yu, followed by his administrative phone number.

This mobile phone number is in Xu Meixin's hands, and the call will be transferred to Qin Yu's private number only when necessary.

Otherwise, his mobile phone would have been broken.

"Miracle Company, I really want to have heard of it." He Peisi asked.

"Miracle...I thought about that, that's it, the cutting-edge innovative technology that is particularly hot on the note, the lithography machine, that's right."

Gao Shan pointed to Qin Yu, shouting with excitement on his face.

Then, he quickly retracted his finger, which was a bit rude.

The previous attitude of intimacy is a little bit more worrying and nervous embarrassment.

"If you are interested, you can try to come to my company for an interview. No matter the benefits, or the overall environment and equipment conditions, you will not be disappointed."

Qin Yu also told the two that if they have classmates interested, they can also come for an interview.

Miracles are when people are thirsty for talents, and every talent is a valuable asset.

What's more, I'm still from my own hometown.

The villager saw the villager, and his eyes were teary. There is no place, or else I can drink the small skewers and beer now.

"If you decide to stay in your hometown, you must go." He Pei's personality is more stable, and he put his business card away and said solemnly.

This is an opportunity, personally invited by the founder, even if it is only an interview opportunity, it is still precious to a fresh graduate.

The domestic employment pressure is also great, and the two have standards and requirements for their own lives.

Slowly get the qualifications of this kind of company, I will definitely not go.

But they only look down on companies that only have salary.

Learned the ability of a whole body, not to go back to socialize and engage in formality every day.

However, if you want to go to a miracle, you need to know more about it after you return to your country.

At this moment, the two of them have already made a decision in their hearts. When they are finished with the things at hand, they will immediately contact their friends, relatives and friends in China when they return.

Talk to them about the actual situation of Miracle Company.

Those exaggerated and embellished videos and articles on the Internet, just have fun.

When it comes to your own future and employment, you must seek truth from facts.

At this time, my family is the most reliable one!

First do a simple survey, and then combine some reliable statements on the Internet.

In this way, it should be inseparable from each other, which is the real situation of Miracle Company.

Wait after reading these, and then decide if you want to go!

That night, the two of them finished their day's trip, and after returning to the dormitory, they began to ponder this matter for themselves.

All kinds of information are integrated together, and then carefully screened and compared to find out more reliable statements.

Finally, they were surprised to find that they seemed to have misunderstood something.

Is this unreliable news on the Internet true? ? ?

It turned out to be The clown is myself?

Now, the two of them suddenly feel a little guilty, if they are all true.

Whether the interview will go or not, nothing else...

The main reason is that I am afraid that I am not selected and will be passed directly.

As soon as they returned to the country for an interview, they were directly passed off. What would make them work in the future?

You can see on the screen the benefits and miracles involved in the field, its breakthrough achievements.

If you want to say that you don't like it, you are really lying to yourself.

"Bacon, or let's try it, I think...being an intern, shouldn't it be a problem?" Gao Shan's tone was full of uncertainty.

"Definitely...no, problem, right!" He Pei wanted to be harder, but he leaked as he spoke.

This Nima, when was he so worthless? He Pei was so angry that he wanted to get rid of it.

What about his confidence and pride in the past?

Where did go, let the gale blow away?

Chapter 645: Sugar Coated Cannonball

After broke up with the two TU/e top students, Qin Yu turned around and headed to the high-tech park.

But as soon as he arrived at the door, Qin Yu was stopped again.

"Something?" Looking at the poker face in front of him, Qin Yu really wanted to ask if they learned expression management at the same training institution.

"Qin." Ed came out not far away, and he knew how reluctant he was now by looking at his innocent expression.

The FBI is in an embarrassing situation here. It has neither law enforcement powers nor gun rights.

If something really happened, it wouldn't look good to make a noise.

Especially when it comes to Xia Guo, the huge pressure brought by the blowout-style development of the other side has made the Bald Eagle also have to deal with it carefully.

But on the other hand, the bald eagle does not want to lose the power and status of his overlord empire.

is also frantically looking for temptations and feasible solutions to combat opponents.

"Ed, it seems that you are following my advice." A smile appeared on Qin Yu's tight face.

The other party is much better than his colleagues and companions in terms of looks and attitude. It is inevitable to deal with, Qin Yu hopes that there can be someone who looks pleasing to the eye. If it's a beautiful woman, that would be even better.

"Qin, I'll introduce you." Who knows, Ed has really attracted a beautiful woman.

Straight suit trousers, white shirt, loose suit jacket, messy hair tied to the upper part of the back of the head.

The face is very beautiful, even the skin tone is delicate and delicate, "Director Daisy," Ed said close to his ear: "A beautiful agent of the CIA."

"I like beautiful women." Qin Yu replied with a smile, and then glanced to the right.

A Maozi stepped forward, stood beside him, and looked at these agents with undisguised hostility and provocation.

"Help me take Miss Lu back to the hotel, thank you." Qin Yu looked at Lu Qing and said, "I will go back to you soon."

"I want to stay." Lu Qing didn't want to leave at this time.

It was the FBI and the CIA. At this time, she had already seen the document hanging on the other's chest.

These people are so blatant, hanging their certificates on their chests?

But this is the case. The two first detectives hung their IDs on their chests as if they were no one.

seems to be saying "I refuse to accept, beat me, idiot!"

boom!

His request was fully satisfied, and Qin Yu hit the bridge of the opponent's nose with a punch before everyone had expected it.

The nosebleed flew quickly, and the agent fell to the ground in response and fainted directly.

Looking at the collapsed bridge of his nose, he must be in need of a cosmetic surgery.

"F-K." The colleague next to him immediately went to grab a gun, but someone moved faster than him.

As soon as his hand touched the gun, Joyf had pointed the gun at his head.

The atmosphere instantly became drawn with arrows, and a faint smell of gunpowder filled the air.

Ed also put his hand on his waist, but he did not make the next move.

Danger from instinct, let him know that he is being locked by a certain muzzle, and the Daisy agent who has just appeared on the stage.

People are completely stupid! ! !

"I'm just here to make soy sauce, anyone believe it?" Daisy really wanted to say that.

But she can't because she doesn't want to lose her job.

As a clerical, analytical consultant who has never given a task, she did not expect that she would have a moment when she needed to face the scene before her.

But the fact is right now, the two sides are already in a state of confrontation.

Any small misunderstanding, it is possible to trigger a gun battle, and then the consequences...

"Hey, put down the gun, everyone, calm down!" Daisy immediately took out all the courage, and strode forward angrily.

With this 'Ms. Director,' on the bright side, the atmosphere on the scene resumed the previous 'beauty, friend and kindness.'

Qin Yu also gestured with his hands hanging in front of him, and Joey, who was holding his gun, led Lu Qing away first.

Although reluctant, Lu Qing also understands that he will only become the opponent's bargaining chip here.

Instead, leaving, which allows him to better deal with the situation in front of him.

"I'm waiting for you in the hotel." Lu Qing said, kissing his lips, before separating for a long time, and looked deeply at the agents and Agent Daisy.

"I promise to find you soon." Qin Yu reached out and pressed her head, and stroked back along the long hair.

No one noticed that there were hundreds of unique strands in her dense hair.

Watching Lu Qing get into the car accompanied by Joyf, Qin Yu turned his head to face Daisy, and the agent: "It seems that some people think I am valuable!"

Qin Yu's words caught Daisy for a moment, and then responded with a smile: "Qin, has anyone said you are smart?"

Yes, the purpose of sending her here is to absorb Qin Yu.

According to the results of the think tank analysis, this possibility is not very big, but what's the harm in trying it?

Those so-called analysis, in the eyes of front-line personnel, are more like a reference.

The real situation is always changing rapidly, and nothing is set in stone.

Except, the change itself.

What's more, in this world, everyone has their own weaknesses.

As long as you can grasp the opponent's weakness, nothing is impossible.

Yes, the CIA believes that his weakness is women.

So they sent their own 'most beautiful' woman. The reason why they have to add double quotes is because the most beautiful is defined for him.

Delicate skin, soft appearance and skeleton, the whole person looks more gentle and considerate, with a pair of big Barbie-like eyes.

She is like a harmless large Barbie!

I have to say that the other party really hit Qin Yu's point in aesthetics.

"Maybe we should change to another place to talk?" Qin Yu's smile turned into a humble face, and her gaze at Daisy frequently pointed to the sensitive area.

Daisy was a little uncomfortable trying to dodge, but she smiled and said, "Okay, why don't you go to the hotel in front?"

"I think that's good, if you don't mind." Qin Yu pointed to a small door in the science and technology park ahead.

It's a cleaning room where mops and buckets are piled up.

Qin Yu was like a **** villain, leaning over her ear and said coarsely: "I think you are ready to be beeped, little cute."

After speaking, he looked down, and the bumps without any obstruction were extremely obvious.

As Qin Yu said, Daisy had made all preparations before coming.

Including possible close contact...

"Do you want me?" Daisy's stalemate expression suddenly changed into a slutty smile, "But I haven't got the answer yet."

"If you want, you can get it yourself." Qin Yu said and turned around, "If you can't accept it, I think I should go back to the hotel."

Daisy couldn't help but stunned, and looked at him completely as if she had changed her personal expression, not like the previous bastard.

Is he a chameleon?

is still doing this deliberately, so that he can relax his guard and let him go.

From the past, he can't let go of women who have had a relationship.

So, he did it deliberately, so that he would retreat from difficulties and avoid closer contact.

Just...

If it's in that **** utility room, how can I get what I want?

"Daisy, promise him." The command from the headset made Daisy hesitate even more.

"Your hairband has a camera on it." When she heard this, Daisy's first thought was to swear.

Bitch raised by a bitch, how much preparation did they do?

Taking a deep breath, Daisy squeezed out a smile again, looked at Qin Yu and said, "No problem, Qin, we will have a very pleasant talk."

"I promise." Qin Yu replied pertinently.

At this time, in an abandoned building, the entire flat floor space was filled with various instruments.

Qin Yu is all on the split screen, I don't know if it is an illusion, it was at the moment he agreed.

His gaze suddenly turned to the camera, with a confident and quirky smile, "I found you."

The same sentence sounded in everyone's heart, as if someone really said it in their hearts.

It's just that no one dares to mention it at this time.

Compared to a woman, goals are obviously more important.

Even if the success rate of this plan is less than 13%, it cannot be prevented from proceeding.

Just as the utility room in the camera was opened, Daisy entered with the target, and the door of the command room was smashed heavily.

"Asshole, I don't agree with you to do this, let her come back." The roar of the soldier echoed in the empty flat.

Standing in front of the big screen The old white man with his arms around him and a few white hairs on his head just looked back.

calmly cast his gaze to the screen again, and said: "Take him out, otherwise, just watch quietly here."

"Do you dare to do this, I swear I will kill you and let her come back, I can go and catch the monkey back, whatever you do!"

The soldier who was stopped by two strong men shouted excitedly, but what was ushered in was silent rejection.

In the screen, his voice gradually sounded.

呲~

The sound of the zipper appeared, and the blue veins on both sides of the soldier's eye sockets burst, and the eyes inside seemed to pop out in the next second.

An angry roar accompanied by saliva flying everywhere, but still unable to prevent anything from happening.

"God, this is not true." Daisy was surprised and panicked. ;

"Maybe you should try it yourself, baby~" Amidst the bragging laughter, the soldier finally put on the pain mask.

Her goddess, Ogod, no...

Chapter 646: devil

1 hour~

2 hours~~

3 hours...

4 hours.....

5 hours

Squeak~

The small wooden door in the utility room was pushed open from inside, and Ed and another agent who were guarding the door immediately looked at it.

"Go in and help!" Qin Yu picked up the belt and pointed inward.

Ed's face changed instantly, and the agent was ready to move.

However, his expression immediately became serious when he thought of the headquarters plan.

"What do you want?" Qin Yu laughed when he saw the weird appearance of the two of them: "I'm fainted. It's better to take her to the hospital quickly."

"What's the matter, wait until she wakes up to talk." Qin Yu swaggered around and left.

And he has already got what he wants.

In the air invisible to the naked eye, countless nanoworms lined up in a neat formation into countless invisible dragons into his body.

The little guys who went out to find ASML's hidden laboratory successfully completed their mission.

Just like Qin Yu also completed his 'task'.

Today, a big victory!

It's just that there are still some small flies in the hotel to be solved. It seems that the CIA has given up hope for its so-called plan.

Back to the hotel, Qin Yu walked straight to the room.

The two bodyguards guarding the door became nervous when they heard the sound of footsteps.

even directly holds the weapon in his hand, keeping his eyes vigilant, and the muscles of the hanging hands are tight...

When I saw the lead Joeyf, it was a little relaxed.

"BOSS." Joyf bowed his head in greeting.

"Someone was here just now." Qin Yu opened the door and asked.

"Yes, room service, here comes lunch." Joyf replied.

"Find him." Qin Yu took the plate on the dining car and dumped the lid and the food directly into the trash can.

There is medicine in it, although the ingredients are not clear.

But I also know with my **** that the CIA will not come to give him vitamin supplements for such a lot of work.

Fortunately, he made preparations in advance and superficially anesthetized Lu Qing with nanoworms to keep her asleep.

At this time, Joyf had already led people to chase in the direction where the waiter disappeared. Qin Yu's previous behavior made him realize what he had done.

If it's not for Miss Lu who has been sleeping, then...

Joyff's expression was full of hideousness, and the vague murderous intent under his eyes became more and more solemn. Finding that guy, he was dead!

As for whether the other party has left, Joyf is not worried at all.

Based on what he knows about those guys, they won't leave without confirming that the task is completed.

.....

Temporary headquarters.

Daisy just came back from the hospital, in a wheelchair.

The doctor told her that it takes a week for her body to recover and walk down the ground.

There will still be other rehabilitation. If she is not lucky, she has lost her ability to breed.

"That's a monster, kill him." Daisy gritted her teeth.

What happened to me is simply a nightmare!

But in her heart, there is another strange emotion brewing, like the seeds of evil, twisting her mind and soul.

"It's already in action." The sparse-haired supervisor responded coldly.

In that **** utility room, for more than 3 hours, the supervisor has already issued a new task order.

The attitude and behavior of the other party is just playing with them.

Dignified CIA, I was fooled, damn...

Since he can't get it, it's ruined him!

They couldn't do anything in Xia Guo, but now, this is not Xia Guo.

"Daisy." Dabing suddenly walked in, with a pained expression, and he dared not look directly into her eyes in the dodging room.

He is afraid that all the memories and good things will be destroyed at that moment.

"..." Daisy remained silent. Now she didn't want to talk, and she didn't know how to face the soldier.

"Supervisor, I want to join the mission." The soldier said coldly.

The only thing that can calm him now is to kill the man himself.

If their task cannot be completed, then what will happen next is the last thing soldiers want to see.

"Wait again." The supervisor was waiting for the hotel's reply.

If all goes well, then they can leave temporarily.

"This is a mole, I was found." A voice came from the headset.

"Mole, please retreat."

"They surrounded all exits. I need a new plan."

"The building map is being called up, hold on."

"F-K, hurry up, they are at the door."

"Damn it, bang bang~"

The gunshot sounded, and then there was a messy scream in the headset.

There are moles and others.

After a long time, the ear-piercing and sharp noise came from the headset, and the signal was lost!

"Supervisor." Soldiers can't wait to leave.

"You have 2 hours." The supervisor glanced at his watch and handed the tablet back to the assistant: "He will board the plane and return to Xia Country in 2 hours."

"Enough." Soldier said confidently.

When she turned around and passed Daisy, the soldier stopped and stretched out her hand to press **** her shoulder.

seems to be saying "With me, I will avenge you."

In the hotel, when Joyf returned to the room again, there was a faint blood stain on his finger.

"Leave in half an hour." Qin Yu said.

Although a bald eagle intervened horizontally, the goal was achieved this time.

It's just that the originally planned trip seems to be a waste of water.

Lu Qing is sitting on the sofa, dealing with the cooling-off period after the panic.

Every time he looked at Qin Yu, he was a little dazed and countless questions.

What happened? Why did things turn out like this? Didn't they come to travel?

Why did the FBI and CIA come to the door? What do they want?

What did Qin Yu do, just because the company he founded is so aggressive...

The questions in my mind generate new questions, and then a series of question marks are triggered.

Pull out the radish to bring out the mud, string after string, and can't stop at all.

"The bald eagle wants the technology in my hands. As for why they do it, haven't the world police heard of it?"

Qin Yu pretended to be calm and spread out his hands, holding her comfortably: "Don't worry, we will fly back later."

"That...wouldn't there be a problem with the plane?" Lu Qing has already taken herself into the Hollywood blockbuster.

This scene is nothing short of bullets from Hollywood blockbusters.

"...They are not so bold!" Qin Yu smiled confidently, repeating "I won't give them this opportunity."

Qin Yu would no longer have any reservations if the other party really attacked the plane.

Now both sides are still maintaining restraint, if it really develops to that point, it will really tear the skin.

In the future, whenever Qin Yu wants to go abroad, he will have to be careful of those dark hands.

Only Thousand Days is a thief, where is Thousand Days to guard against thieves.

The best way is naturally to learn from your own court, first tolerate, hide awkwardness, and at least live on face.

Others, when one day I can get him down directly, and then make a blockbuster, press the opponent on the ground and rub the opponent hard...

As for adding ingredients to food, Joyf has already charged interest.

If they think they have enough agents, they can try this trick again.

Want to disguise their death as an accident, they really regarded it as a movie.

"Boss, the car is ready." Joyf returned to the room.

"Wait again." Qin Yu just got up and sat down again.

Because he saw a new guest in the elevator in the corridor.

"Go downstairs in 10 minutes, I will do something first." Qin Yu picked up the necklace on the table and put it on his chest for Lu Qing.

kissed her on the forehead, smiled and said, "It's still more beautiful like this!"

Touching the diamond with his hand, Lu Qing was full of worry.

What happened today It may take a long time for her to recover until she completely forgets...

"Boss." Seeing Qin Yu was going out alone, Joyf quickly followed.

"Your task now is to protect her safety, 10 minutes." Qin Yu raised his wrist and knocked on the watch, then opened the door and walked out of the room.

In the empty corridor, only Qin Yu's footsteps echoed.

Until you stand in front of the elevator, ding~

The elevator just arrived at the floor and the elevator door opened.

The soldier standing inside had a face-to-face meeting with Qin Yu. This sudden scene was a little surprising to him.

But Dabing quickly adjusted his plan, temporarily abandoning the infiltration plan, and instead followed him to find a chance to start.

He wants to solve this scum himself...

"Which floor do you get?" Qin Yu walked into the elevator and pressed the top floor with his back to the soldier.

"Same as you." The soldier was happy in his heart. Is the other party taking the initiative to send it to the door?

Qin Yu said indifferently: "It seems that only one of us can come back."

Chapter 647: Lost madam and broke down

10 minutes.

One second is not bad, and the elevator door opens again on the floor where Lu Qing is located.

Perceiving someone in the elevator, Joyf immediately signaled to be vigilant, but soon he could see that the face inside was his own boss.

"Okay, the matter is settled, we can go." Qin Yu stepped forward and hugged Lu Qing, and the group left the hotel as planned.

...

Temporary headquarters.

"The soldier's signal has disappeared for 15 minutes!" Everyone at the scene fell silent.

The signal is missing for 15 minutes, which can confirm that the opponent has encountered an accident.

"Target leaves the hotel." Someone said.

"Send someone to find a soldier immediately, to see people alive, and corpses to die!" the supervisor said indifferently.

Daisy clutched the wheelchair armrest with both hands, pain and struggle hidden under her indifferent expression.

When the dispatched front-line personnel left the headquarters, Daisy suddenly raised her head and said, "Supervisor, do it!"

Everyone looked at Daisy with surprised and surprised expressions, she really decided.

Be aware that once the videotape is released, her life will never be back on track. Her life, everything, will be ruined and clean.

"Have you really decided?" The supervisor's expression remained calm.

It seems to him that nothing can cause him to fluctuate emotionally, just like a machine without emotions.

In his mind, the most important thing is only the task, the others are secondary.

"Yes, do it!" Daisy responded firmly again.

"You all heard what she said." The supervisor indifferently ordered.

After a short silence, the crisp echo of typing on the keyboard reverberated in the room again.

Then, a shocked voice suddenly came: "Supervisor, the video... is gone."

...

...

On the plane, watching the airport gradually shrink away, Qin Yu put on a blindfold for Lu Qing.

Put her head on her shoulders: "Go to sleep, you will be home soon."

At the same time, two CIA agents found the pieces of clothing left by the soldiers on the roof top of the hotel.

It's just that, other than that, they haven't even seen a drop of blood.

Dai Bing and his accompanying partner disappeared without a trace on the rooftop of this hotel.

As if it was wiped off by something, it was cleaned up completely.

When the plane landed again at Hudu International Airport, Qin Yu's files in the CIA were listed as the highest risk level.

In order to come to this conclusion, they paid a painful price.

In the temporary action group, countless people have equated Qin Yu's name with the devil.

These are no longer important to Qin Yu who has returned to Hudu.

He is now looking at Bai Ze who is in front of him, his expression is full of innocence: "What are you trying to say?"

"Mr. Qin, I just came to ensure your safety and not malicious." Bai Ze was also helpless.

The CIA paid attention to Qin Yu's outing this time, and they received the news as soon as possible.

Originally prepared several sets of plans to cover his return home safely when necessary.

Even exposing several important lurking personnel.

But I didn't expect that the plan had not been implemented yet, and I learned that Qin Yu had boarded the flight back to Hudu.

This...

Gathered up and prepared a game, and hit the air with the last punch, there was nowhere to go.

Uncomfortable!

However, the purpose of Bai Ze's visit this time was to arrange a few entourages for him.

"Do you think I need it?" Qin Yu said, "I have my own team."

"We are only doing well." Bai Ze emphasized this again.

"I understand the good intentions, let me forget it, don't worry, I take my safety very seriously." Qin Yu said seriously.

"What about the people around you?" Bai Ze asked.

"You also said, my person, of course I did it myself." Qin Yu said.

As for those who haven't gotten it done, of course they are not their own.

Everyone has a brief exchange, you are willing, the price is fair, if there is any consequence, it is an additional risk.

Furthermore, Qin Yu does not think that a woman who has only fought an exchange battle with herself will be targeted by the other party.

With his performance as a **** in the utility room, the profiler of the CIA may be unemployed.

How can they think that the so-called secret actions are under Qin Yu's 'monitoring'.

The power of nanoworms, only after real contact and experience, can we truly understand its terrible place.

Before, even if someone told them about the existence of nanoworms, no one would believe it.

How can that kind of technology really appear.

Because human beings are initially exposed to the nano-level, they realize how desperate the difficulties are.

If you want to achieve the nanoworm form and technology that Qin Yu possesses, unless a miracle like the industrial revolution erupts again...twice...

"Science and technology blowout well!" Qin Yu whispered softly.

"What are you talking about?" Returning to the reassuring homeland, Lu Qing's emotions became obviously elevated.

no longer appears to be at a loss, and is extremely sensitive and fearful of everything.

"Nothing, sorry for ruining your vacation." Qin Yu said with a smile.

"There is no need to apologize between us, it's just..."

Lü Qing hesitated and said, "Will it be dangerous for you to leave the parliament in the future?"

"No, just a misunderstanding. I think we will reach a friendly agreement."

Qin Yu believes that things will turn around soon.

Mediation, but my Daxiaguo is best at it.

The arrival of Bai Ze was also a signal, and the upper hand decided to protect him.

Good or bad depends on what angle to look at the problem.

Qin Yu personally does not resist this, he really doesn't care personally.

Really needs to go out. With his current ability, he can completely make people unconscious.

Aside from anything else, it takes only a few minutes to use nanoworms to make a long face.

It's even easier to use Xi He, as long as you don't take the initiative to run to the bald eagle's house to show off your power and slap your face in public.

The world is so big, the probability of finding him is basically zero.

But when a person lives alone, it is impossible to think only about oneself.

With family and friends around, all kinds of ties need to be taken care of.

Qin Yu can't let all the people he knows stay in Xia Country forever, and not take a half step abroad, right?

What to talk about, naturally there are measures and plans.

What Qin Yu has to do is to immerse himself in the development of his own company and technology, so that the technology industry can head on.

And he now has a hole card in his hand that can make the words harder.

Titanium rhodium alloy coating!

Originally, Qin Yu wanted to take the lead into the civilian market.

It can be used in most fields such as automobiles, energy, semiconductors, and IT.

Including private aerospace fields, etc...

Now, Qin Yu decides to use both hands to promote both military and civilian use.

Government procurement is prioritized for civilian procurement, with a ratio of 7:3 to meet government needs.

As the first batch of special military contractors, is it not a normal operation to give priority to meeting the military's order requirements?

In addition...

All ongoing projects will be equipped with titanium rhodium alloy coating to re-adjust the direction.

Like the mobile battery that is about to be completed before, it adopts a new titanium rhodium alloy coating.

With its unique characteristics and reactions.

Battery safety and conduction, and energy self-consumption will be greatly improved.

At the same time, nano-projects that have been only verbally mentioned can also be officially launched.

Do some related research first, and then put the whole project together into a complete product.

Nanoworm is the ultimate goal and result of this project.

Kylin is responsible for the progress and monitoring of the entire project.

The whole July was spent in the planning and adjustment of Miracle Company.

Time came in August, and Bai Ze appeared again in front of the miracle company with a number of relevant personnel.

These people are here to participate in the project exhibition bidding review, UU reading www.uukanshu.com. Whether to purchase titanium and rhodium alloy coating on the top of com, and how much to purchase.

In the end, it was these people who had the final say.

"Dong Qin." Seeing Qin Yu, Bai Ze held his hand familiarly, touched his lips and quickly said, "Is the plan you mentioned true?"

"Haha, Chief Bai...Do you think I will be kidding?" The figures separated, and the previous conversation ended.

Both have the answer in their hearts, and the next negotiation is left to the professionals to handle.

Bai Ze was invited by Qin Yu to go to the office and have tea with him.

It's just that the last floor where the elevator stopped was not 119, but the 118 floor below it.

The entire 110~118 floors, no one in the company knows what it is.

Even Qin Yu's accompanying secretary, Xu Meixin, is not clear.

There are many rumors in the company about this mysterious 9-story space, but no one knows the truth.

Today, Xu Meixin followed Qin Yu and finally saw the so-called '108' area for the first time.

Chapter 648: Xingtian No.1

108 district is a stalk inside the miracle company!

The target of is naturally the mysterious rumors of the bald eagle. Although it has been deciphered in various ways, the real inside information is still shrouded in mystery.

The same is true for 108 district. None of the rumors have been confirmed, and no one has witnessed it.

The mysterious dense fog enveloped it, making it impossible to see the truth.

And now, it has the first witness since its birth, Xu Meixin.

Oh, I almost forgot.

There is also a bewildered Bai Ze, where is this place and why is there only darkness.

Stepping on the starry sky, the vast expanse of space surrounds it all around.

So, is he in space now?

No, this is a visual illusion.

Close his eyes, Bai Ze can perceive the wind flowing in the air, which is the effect of air-conditioning.

There is also the sound of sliding wheels, what is it? Robot?

In addition, the mosquito-like 'di-di' sound is a working machine.

Snapped!

As Qin Yu snapped his fingers, the camouflage projection in front of him disappeared into fragments.

Opening his eyes again, Bai Ze sees the real world!

This is a...factory?

Those clinging to the wall and stuck in the iron trough are exoskeleton armor...?

The appearance of dark black metal texture, the broad shoulders are flat and smooth, the head is like a mantis, half retracted into the chest.

You can see faintly exposed black lines at the junction, densely intertwined like a brushed syrup.

Below the shoulders is the body that is slanted inward, and below is the protective layer connecting the power shaft of the lower limbs and the outer shell.

On the whole, it is a robot made of all metal with a height of about 2 meters.

Bai Ze looked at Qin Yu uncertainly, the shock at the fundus made the pupils shrink and enlarge, changing constantly, just like a patient who was about to dementia.

"Exoskeleton remote mecha, the highest technological product of Miracle Company, which integrates Kuafu battery pack, Seiko CNC system, neuron bridge (mental bridge), and Godson.

The use of materials is metal and liquid crystals, and the neural transmission network composed of natural carbon fibers can allow instructions to be transmitted to the central chip within 0.01 seconds. "

Qin Yu handed over to Bai Ze a device that looked like a helmet from "The Scary Demon", "Try it."

"Really?" Bai Ze stretched out his hand in disbelief, and found that the muscles all over his body were stiff.

Even a gesture of raising a hand is extremely difficult to do.

Too shocked, his whole body is paralyzed, and he can't control his behavior at all.

"Forget it, I'll help you." Pulling a chair, let him sit on it.

Qin Yu held the helmet on his head, smiled before putting it down and said, "Next, it's time to witness the miracle!"

唰~

The eyes go dark, and then the red halo lights up again.

Bai Ze noticed that his visual angle had changed, and the thought of observing the environment just came up in his mind.

I saw myself sitting in a chair with a helmet.

"So, I am now?" Bai Ze wanted to raise his hand, and a pair of mechanized arms came into view.

A new frame pops up, and detailed data about the robotic arm appears in the line of sight.

"Bai Ze, can you hear it?" Qin Yu's voice came into his ears.

"Yes, I can hear." Bai Ze responded.

"Use your mind to control it, let go of all permissions, and now you can freely control it." Qin Yu said.

Hearing him say that, thinking of his previous gesture of raising his hand.

Bai Ze began to control the exoskeleton armor and stood up from the card slot.

In Xu Meixin's line of sight, the armor against the wall suddenly broke free and stood up.

Raised his foot and walked forward slowly two steps, acting cautiously, as if he had just received a healthy patient.

As time goes by, the robot's movements begin to become flexible and quick.

When Bai Ze controlled the robot to make a forward somersault, he half-crouched on the ground, and then dived forward and punched.

This is the end of the test!

"A miracle, this is really a miracle." Bai Ze took off his helmet and asked excitedly, "How did you do it?"

Qin Yu smiled and shook his head, and said, "There is only one such one at the moment. It is not easy to make it."

"Cost!" Bai Ze also regained his senses and asked the key questions.

"800 million." Qin Yu burst out a price, and Bai Ze instinctively wanted to say it was outrageous, but he didn't say it and thought it was reasonable.

800 million, which seems to be very cheap?

Is he floating, but he still has no idea about money.

Before receiving Qin Yu's communication, Bai Ze thought that his so-called face-to-face interview was to talk to himself about the issue of 'coating'.

It turns out that this is his real hole card.

"Can it be tested in actual combat?" Although it has an intuitive impression of its control and dexterity.

But this is obviously a war product, and the real data has to be collected on the battlefield.

"It's not for fighting..." In response to Bai Ze's gaze of "You are teasing me", Qin Yu explained: "At least I made it for this purpose."

"I'm going to use it... Forget it, you don't understand it, this is an engineer, okay?"

But the more he explained, the stranger Bai Ze's expression became, "Brother, are you sure you are right, this thing is an engineer?"

What's in the dark slot on his shoulder, engineer shovel?

What is in the card slot in the center of the chest, hammer or tool bag?

There are also two dark grooves on the outer thighs, don't tell me they are used for nails...

"The center is its energy slot, which provides power for the robot. The shoulders and the outer thighs can indeed be equipped with weapon modules, but for self-protection."

噗!

Bai Ze almost squirted out a mouthful of old blood.

Brother, stop showing off, my scalp is numb.

Self-preservation, good fellow, you steel skeleton punch down, you can't punch the other party's shit, you told me that it was for self-preservation.

There is also a dark gray coating on the outside. That thing is the so-called titanium rhodium alloy coating, right?

It is invulnerable and powerful, and there is a hidden slot equipped with a small missile module...

You told me to protect yourself, I believe in your ghost!

Qin Yu really wanted to explain that this robot was really not as scary as he thought.

At least, its job is really not for fighting.

Considering the cost, the price/performance ratio is not worth mass manufacturing at all.

The reason why Qin Yu made it was entirely due to impulse, who didn't have a mecha dream in his heart.

This iron bump, is it not more fragrant than women?

However, there is often a huge gap between reality and ideals.

The robot in front of him was not successful, at least there was a huge gap between Qin Yu's expectations.

800 million units, the price is naturally high.

minus a fraction, 86 million is its true cost.

However, he is not the final decision on the specific price. This is the benefit of monopoly.

Even if someone wants to question, he needs the skills and qualifications.

Can't even figure out what the thing is and how it was made, you question Jill.

If you want to question, you can create one by yourself first.

"Are you going to sell this to the Ministry of War?" Bai Ze's tone was questioning, and this thing looked good at first.

But after thinking about it carefully, I found that neither the effect nor the price/performance ratio is cost-effective.

Of course, if he is willing to buy, the Ministry of Defense is still happy to buy a few and go back to study.

But it is also limited to this, it is impossible to achieve a purchase order.

Compared to the robots in front of me, the above obviously values the meaning behind "Ghost".

"No, what I want to sell is there." Qin Yu pointed towards the depths.

At this time, Bai Ze saw a larger armor parked in a secluded corner without anyone paying attention.

The front end is a completely open design, with a more rugged appearance, which is fully in line with the expected appearance of the exoskeleton armor.

Qin Yu walked into the mecha, stepped into the card slot with both feet, and then said: "Start."

"Accept the instruction, start!"

Six mechanical arms protruded from the mechanical card slot, and then piece by piece of spliced armor plates were installed on the open front of the armor.

Until the last panel was installed, Qin Yu disappeared into the mecha.

"Escape!"

"Accept the instruction and leave."

噗~

Release the air pressure lock, and the mecha moves forward Boom.

Standing firmly with his right foot, Qin Yu's voice came from inside the mecha: "How does it look?"

"What's the difference?" Bai Ze looked at the robot he had previously controlled behind him, wanting to know the difference between the two.

Anyone can see that the robots previously operated by him are more advanced.

But advanced does not mean excellence, stability and reliability are the most important characteristics.

Xingtian 1, combat exoskeleton armor.

The whole machine can be equipped with six combat modules for 100% protection. The natural carbon fiber protective layer can ensure the safety of combatants.

To minimize blunt injuries caused by external shocks and ensure the safety of combatants.

The most important thing is that it was born to fight from beginning to end.

There is another important factor that is enough to make the Ministry of War fascinated, cheap...

Such an exoskeleton armor can be won with only 200 million.

Now, there are not many conscientious merchants like Yu Ge!

Chapter 649: The correct way to open capital

Conscience, when these two words are mentioned, Bai Ze has a faint heartache!

200 million one unit, is this called conscience?

Forget it, let the boss above to worry about it!

"What's that called?" Bai Ze was still more interested in the previous remote robots.

However, its price is too high.

Furthermore, according to Qin Yu, there is only one prototype, which is definitely not for sale.

"Creator!" Qin Yu said meaningfully.

.....

.....

While Bai Ze and Qin Yu witnessed miracles in Area 108, the progress of negotiations with the outside world has also come to an end.

Titanium-rhodium alloy coating, such strategic materials must be bought.

The only difference is the price!

This kind of high-quality explosion-proof, waterproof, fireproof, anti-corrosion, wear-resistant, tough, self-healing composite coating.

is completely applicable to any field, fools will refuse.

It's just that the price of 1,680 yuan per square decimeter offered by Miracle Company was unacceptable to the negotiating team.

"800, this is the highest price we can accept."

"Impossible. The price is not even enough for the cost. What do you want?"

"Young people, be honest."

"Old man, talk about business when you talk about business, and others will attack you personally."

"Who attacked you, how did you..."

"What's wrong with me, can you tell me your price is reasonable? 1680 yuan, that's the price."

"My old man has a heart attack, don't force me to lie down!"

"You thought I was scared, dizzy, dizzy, no, I have a cerebral thrombosis!"

噗~

What am I...I...I have never seen such a brazen person!

"Do you have 20?"

"You care how old I am, call the medical team, no more, dizziness, talk about it tomorrow."

Xu Hao slumped into the chair as he said, and put on a state of emptiness of "I'm so tired, my body was hollowed out".

Nothing else, we can do it in emptiness!

Jianghu people give the nickname: emptiness son, yes.

"You, you are shameless!" The old man gasped.

"Mutual praise, praise, courteous." Xu Hao clasped his fists and smiled.

"Don't worry, don't worry, negotiate, there is discussion and there is plenty!"

Some people are doing things for peace, some people are tit-for-tat, some are silent, and some are silently observing.

In short, the conference room is already noisy.

But no matter how noisy it is, there will always be a result, which is not after Xu Hao has everyone in a circle.

The negotiation has finally made progress, and the price has dropped from 1,680 yuan/square decimeter to 1,480 yuan/square decimeter.

The negotiating team is dry, go get the water on the table.

I found that the water in the bottle had been drunk a long time ago, and the other side didn't mean to take it again.

After swallowing, the three veteran negotiators smiled bitterly.

Participating in so many large-scale negotiations has never been so difficult.

It's not that the three of them are old, the book has never seen such shameless.

Regard what your plan and routine are, but if you say it, I will slander, if I can't make sense, I'll be arrogant, and if I say something wrong, I'll turn my face and deny it.

Randomly punching the teacher to death, a serious negotiation that should have turned out to be a competition of physical strength and endurance.

At this moment, whoever can't bear to speak first, whoever fails, will have to be overwhelmed by the opponent's momentum.

can be...thirsty!

"Goo dong." The apple jelly was surging, and the old man found that his saliva was all dry.

"Cough~" He pulled his throat vigorously, and the old man spoke first: "Do you even have water here?"

Xu Hao raised his eyelids: "If you want to drink water, you say, why don't you tell me how I knew you want to drink water, this negotiation has stopped, why don't you go back to the hotel and rest?"

"Little mouse, are you itchy?" The old man patted the armrest and stood up.

Xu Hao's expression of unsparingness faded in an instant, and he muttered: "Negotiating is negotiating, how can you still discuss seniority!"

"Am I about seniority?" The old man laughed angrily, and he knew that he shouldn't come here.

But this monkey is so annoying, how does this mouth grow?

When I was a child, I never noticed that he was so glib and his skin looked like this.

"You have said so, what can I do, and 100 more!" Before the old man spoke, Xu Hao retreated first.

He took the initiative to drop 100 yuan, you can no longer use the generation to pressure people, right?

1380 yuan, this is the new price given by Xu Hao...

Before he waited for the old man to answer, he slapped the table exaggeratedly and shouted: "Where is the water? Who is in charge of today's meeting reception, why is not even ready for water?"

Let the people outside see that, thinking that I miraculously couldn't even afford a bottle of water, I brought ten boxes in to quench my thirst. "

"Are you my buffalo?" The old man wanted to complain, but he laughed first after speaking.

Does this stinky boy want to **** himself off?

But, I really grew up!

The young people nowadays are getting more and more amazing...

Negotiating continues. At this time, everyone has lost the breath they had previously held.

It's almost time for the results to come out. If we continue to talk about it, there will not be much progress.

So, the final price is fixed at 1060 yuan/square decimeter.

Leaning on this old face, I cut the price from 1680 yuan/square decimeter to 1,060 yuan/square decimeter, which is enough...

Cough cough, the old man coughed a little weakly.

My own face is becoming less and less valuable~

"1060?" After receiving the message, Qin Yu and Bai Ze appeared in the meeting room at the same time.

Negotiating is over, but as long as the contract is not signed, everything has variables.

Especially if there is more than one hole card.

"In that matter, I will fix the order for you, and the price will be 200." Bai Ze personally went into battle, stunned the crowd.

He is not a person who likes to speak with his fists. When can he bargain with people so peacefully.

"You should buy cabbage! Say 200 is 200, 50." Qin Yu smiled: "1010 sounds pleasant to the ear."

You come and go for a few rounds, but the price has never been able to negotiate.

"You go out first, I want to talk to Dong Qin alone." Bai Ze asked everyone to leave the meeting room first.

Qin Yu nodded in agreement, and when the old men left, he reminded him in a low voice in Bai Ze's ear: "Don't be rough, don't be rough!"

Bai Ze nodded helplessly, seemingly a compromise.

is actually full of speechless, rough?

Judging from the information he got before, he couldn't beat it even if he wanted to be rough!

"Let's talk about it, what conditions?" After everyone left, Bai Ze spoke again.

He didn't believe Qin Yu didn't understand, the court simply couldn't afford this price, and it was of no benefit to him.

Business is about the long flow of water.

Make a fortune and leave. It's not a business, it's speculation!

The two are fundamentally different.

"Something may happen outside recently, so you don't think you have seen it, how about it?" Qin Yuyun circled the bend in the mist.

In the past, the most annoying thing about Brother Yu was that it was not easy to say something, and he had to circumvent it under the covers, let you guess, let you realize!

But now it's what he did, and Bai Ze's face was tangled, and he wanted to ask, but it was difficult to follow up with an uncomfortable expression.

Refreshing, thorough body and mind, as refreshing as drinking ice cola in dog days!

"Okay, 500 down." Bai Ze Lion opened his mouth.

Anyway, he also said that it was 'outside,' not at home.

"560, deal." Qin Yu got up and stretched out his right hand to him with a smile.

Baize people are stupid.

He felt like he had been fooled, and the cost of this thing was much lower than their estimate.

However, the price of 560 yuan shouldn't be a loss, right?

But I cut 500 yuan in one go, no matter how you look at it, it is considered to have overfulfilled the task.

"Happy cooperation!" Thinking about this, Bai Ze happily shook his hand to express cooperation.

Obviously, Bai Ze's understanding of the word 'capital' is not deep enough.

The cost price per square decimeter is 20 yuan, and the profit is 28 times. This is the correct way to open capital.

If Bai Ze didn't take the initiative to counter-offer, Qin Yu would consider whether to take the initiative to lower him a bit.

I really took the price of 1060 Qin Yu couldn't bear it in his heart.

I can only say that Xu Hao is really too good.

"Brother Yu, do we make money in this business?" When Bai Ze left with the team and the contract, Xu Hao still didn't know what the cost price was.

He only knows one thing. The sentence Qin Yu said before starting the negotiation, 'how tall it can be,' is the purpose of today's negotiation.

"Earn, I promise to make your mouth full!" Patting his shoulder, Qin Yu laughed and walked towards the company.

"Don't, let's arrange a celebration banquet tonight, I'm almost vomiting after eating vegetarian food these days." Xu Hao chased after him with a smile on his face.

Qin Yu's return, the place immediately warmed up.

Don't say anything else, just sit in the deck with his looks, it will be the same as the candlelight under the night.

What Yingying Yanyan, flowers, birds and flying insects all rushed over.

You don't need to be distracted at all, just choose directly.

And the quality is very high, just about this point, Xu Hao is happy to set up games with him.

Chapter 650: hiss!

108 area, Qin Yu strolled in the flat space that looked like a pipeline.

Not long after, he suddenly stopped and said: "Kirin, lift the disguise."

"The disguise is lifted!" Kylin.

The floor under the feet turned into transparent glass, and hundreds of three-dimensional card slots appeared below, all of which were stuck on the so-called 'creator.'

These remote robots cost up to 86 million each. The main materials are titanium rhodium alloy, liquid spar, natural carbon fiber and silver.

If the materials were not too expensive, how could there be such a high cost!

Most of the 'diamonds' sent back by Xi Hehao were sent here.

Otherwise, can the warehouse not be full for so long?

And what is provided to the Ministry of War is the reward he obtained after completing the task in "Scary Demon".

With the incomplete exoskeleton armor, after Kirin analyzed and improved the design, it became the Xingtian 1 type that Bai Ze saw.

The biggest feature of Xingtian Type 1 is its booster system.

With this system, fighters manipulating exoskeleton armor can exert strength, speed, jumping ability and anti-strike ability far beyond human beings.

The internal 'adrenaline' will stimulate the full potential of the manipulator when necessary, and can often reverse the situation.

Of course, this is a reserved plan.

Miracle Pharmaceutical's [Adrenaline] based on [Kidney Power] is still under study.

It is expected that there will be results in 3~5 months, and these will be money by then.

what? Free delivery?

Yes, each mech is equipped with 3 free.

If you want to use it later, then you have to spend money to buy it yourself. The cost of drug research and development is too expensive, and I am very helpless~

As for [Creators], they are really engineers.

Armed engineers are also engineers!

These [creators] will be sent to the moon to build a human ecosystem on the back.

Of course, being discovered is inevitable.

The outside mentioned by Qin Yu and Bai Ze earlier refers to the moon.

Outside the earth, there is nothing wrong with [outside], right?

Originally, he planned to wait until the number of [Creators] reached 1,000, and then send them all to the moon, so that they could build an ecosystem.

But now it seems that something must be done for the bald eagle.

Lest they always keep their eyes on themselves, why do human beings always think about infighting.

Isn't that the technology is too backward to go out, so I can only stare at my own one-acre three-quarter land.

If signs of biological activity on the moon are suddenly discovered, then all mankind will not be able to explode hair immediately.

As the world overlord, the bald eagle who claims to be the world policeman, he must not immediately ask Nasa to land first.

Be the first national institution to have close contact with alien creatures.

"Kirin, where is Xihe?" Qin Yu looked up, and the location and distance of Xihe appeared on the projection screen above his head.

"Let it stop on the top floor and install the machine when it gets dark." Qin Yu gave instructions to Qilin.

The follow-up work will naturally be completed by Qilin. Today, it is time for Yu Ge to go out for a while.

A holiday is about to pass, but he hasn't even been to a bar.

This is not in line with Yu Ge's personal positioning and life plan...

.....

.....

Holding a large handful of red roses in both hands, Guo Kai walked towards the Hualei community with excitement on his face.

Today is the day when he officially confessed to the goddess.

After this period of considerate care, the goddess has obviously been moved by herself.

is no longer just accepting his red envelopes, but will say "thank you" or send a cute expression after receiving the red envelopes.

I used to order a takeaway for her, but the goddess refused.

Now, she is willing to accept the takeaway she ordered.

This means that the goddess no longer regards herself as a stranger, but a closer friend.

Persist in greeting the goddess every day, hushing cold and asking warmth, persevering in perseverance.

At this moment, there is finally a return.

Thinking of what would happen next, she sent a red rose to herself. The goddess was touched and shyly swayed her body to agree to her courtship.

Ah~

The silent groan from the soul almost moved him to cry.

A good man like himself will surely be happy.

buzzing~

At the moment when Guo Kai was intoxicated, a cool supercar passed by.

When he passed by, the other party deliberately slowed down.

"Fuck, it's great to have money?"

Guo Kai complained with disdain: "At first glance, it is a rich second generation who is eating and waiting to die. If I have money, I will definitely do more meaningful things."

He looks down on such a rich second-generation, and he knows driving luxury cars, bars, and picking up girls all day long.

You can drive a Ferrari with one hand at every turn, as if someone has no hands!

No social responsibility or responsibility at all, scum...

Looking at the scented red rose in front of him, Guo Kai's expression instantly became beautiful again: "Fortunately, my goddess is not material at all."

Look up and look forward, Hualei Community is about to arrive.

Guo Kai quickened his pace and suddenly found that the previous supercar was parked at the door.

The big red prancing horse, what series it is, Guo Kai doesn't know very much.

"Who cares about this." Guo Kai shook his head in disdain, but couldn't help but tempted to sweep the corners of the car.

Sharp streamline, handsome appearance, flashing car lights and raised doors.

This, it looks different from the scissors door.

The icon of the prancing horse carriage that cannot be ignored, at first glance, it feels rich and powerful.

Suddenly something tripped under his feet, and Guo Kai rushed forward a few steps before he could stand firm.

After stopping, he went to see the rose bouquet in his hand for the first time.

found that it was intact, and then let out a long, thrilling breath: "Fortunately, fortunately."

Look at the Ferrari again, pretending to be calm and whispering: "It's expensive and uncomfortable. After a pit, the chassis will be scrapped. It's ostentatious and hypocritical."

Giving this Ferrari supercar a disdainful look again, Guo Kai quickly walked into the community holding the bouquet.

Just as he was about to walk to the unit where the goddess was, he saw an unforgettable scene.

The cold and arrogant goddess in the past, like a happy little bee, circled around a tall, sunny, handsome man.

The smile from the heart on her face is something Guo Kai has never seen before.

The goddess who keeps spinning around the handsome guy, chatting endlessly, her enthusiasm with a flattering attitude...

"Your shoelaces are open, I'll help you." Xiao Su said, squatting down and tying his shoelaces on one knee.

Seeing that she seems to have changed her personal performance, Brother Yu smiled with satisfaction.

This woman was too high by the licking dog and couldn't find her position.

Now like this, it's great to recognize reality!

No, I have already learned how to tie my shoelaces, and there is still a pungent look that was clamoring to look good at the beginning.

Boom!

Qin Yu looked up curiously, and saw Guo Kai standing in stunned mouth holding a large bouquet of roses, tears welling up in his eyes.

The bouquet in his hand dropped to the ground, and the petals were scattered all over the floor.

At this time, the thought that popped out of Guo Kai's mind was only one sentence: My God, Your Basin.

"Isn't this the buddy just now?" Qin Yu was on the road earlier when he saw Guo Kai holding flowers in excitement.

At a glance, I knew that I was planning to confess or propose marriage. When I passed by, I deliberately stepped on the brakes to prevent the body from scratching the opponent's petals.

Such a beautiful day, of course, we must maintain a perfect state and mood.

Can...

Looking at Xiao Su from the other's sluggish gaze, he knew that he was wrong.

"Okay." Xiao Su got up and patted his knees, and looked at Qin Yu triumphantly, waiting for the compliment from the other party.

I could find him looking behind him without saying a word, Xiao Su followed his line of sight and looked back, "Guo Kai?"

Xiao Su looked at each other in surprise, and asked: "What are you doing?"

"I..." Guo Kai instinctively wanted to ask her why she should treat herself like this.

When it comes to the lips, it becomes "I'm here to see you, is this your boyfriend?"

"No, it's my elder brother." Xiao Su explained with a smile: "We are going out to play, or you go back first!"

"Okay." Guo Kaishun nodded.

At the same time, she wiped away the tears from the corners of her eyes, and smiled reluctantly pointing to the bouquet on the ground: "Excuse me, the present I brought you has dropped."

"You should take this back, see if you can return it or give it to someone else. I am allergic to roses." Xiaosu said, holding Qin Yu's arms.

A tingling pain flashed through Guo Kai's eyes, but the smile on his face became brighter: "Well, then I won't give it away..."

Ah, I've forgotten that you are going out. I'm leaving first. You guys have fun. "

Picked up the bouquet on the ground in a panic The action room no longer had the care when it came, so she dragged the bouquet to the outside of the community roughly.

In the blink of an eye, people are gone.

"I thought you didn't raise fish." I glanced at her freshness again, 88-.

"I really didn't raise fish. They insisted on stubbornly clinging to them. They couldn't get rid of them. You don't know how painful it is."

Xiaosu said with a tangled face, innocent eyes in Kazilan's big eyes.

Brother, I really don't keep fish.

The licking dogs have to surround themselves, and following, I am also helpless! ! !

Get into the car with the innocent and poor Su, and Qin Yu accidentally saw Guo Kai looking out on the street as he walked around the front of the car.

The other party noticed his gaze, forced a smile, and his silent mouth clearly conveyed his blessing: "Be nice to her."

Hiss!

Brother Yu is distressed and helpless, brother, please stop being a dog lick.

Stand up and be yourself!
