Chapter 851: Role

"Drink, I... I can still drink, and then... two more bottles, hiccups..." Li Xiaoxiao was overwhelmed.

"I can still drink, keep on doing..."

"Okay, knowing you can drink."

Xu Hao smiled bitterly and pulled her to her side, put her arms around her shoulders, and let her lean on herself.

"Hiccup, I..." Li Xiaoxiao fell asleep while her head drooping.

Almost drinking, Qin Yu changed the conversation and asked, "How was the Falcon's earnings last time?"

Falcon Space Exploration Company, but the bald eagle and NASA are good guys.

Subject to key monitoring and care, any abnormal fluctuations will be caught in time.

Therefore, Qin Yu only provided information during the last operation.

He didn't bring anyone, and all the members of the Sanqin Society also fought on their own.

Breaking into parts and diversifying investment through hundreds or thousands of institutions did not arouse excessive attention.

Let them each get a lot of benefits in this action!

"It's okay, a small profit of 60 million." Xu Hao said, squinting.

He also drank the same, his mind was awake, but his mouth and body had different thoughts.

In particular, he put his arm around Li Xiaoxiao's left hand and rubbed it back and forth on the person's arm.

I don't know which scrub master I learned from...

With Xu Hao's big head, the next step is the large-scale Versailles scene.

Small gains amount to tens of millions, and many...

Like Li Xiao and Han Hu, their interests are both over 100 million yuan.

Especially Han Hu, with the help of the capital behind him, took the lead in one fell swoop.

Net income of 230 million!

However, there are other people's share of this money, and it is more than one billion in his hands.

"Yes, Huzi." Xu Hao said drunkly: "This game tonight, you...are yours."

"Brother Hao, I have pressured the front desk for the money." Han Hu replied, shaking his head.

He didn't drink less today, he only poured four or five cups, let alone accompany him...

I can't remember how many cups there are!

"Um, the order, Huzi buys it, I will arrange it later." The quiet Yang Chengjun raised his head with his head drooping.

"You are free, I'm here to fight the local tyrants." Qin Yu smiled.

Seeing the big brothers scrambling one by one, Xiao He, who wanted to rush to pay the bill, quietly swallowed the words back.

Today this single is not his turn, and Brother Han Hu wants to buy it. How can he grab this love point?

Just because it was not a big deal, Xiao He knew better that he was not good at grabbing orders.

This favor must belong to Brother Han Hu...

"It's all ready." Seeing that no one moved his chopsticks and the six draft beer barrels were all empty, Han Hu got up and paid the bill.

"Xiaohe, it's a driving agent." When he heard the bill, Yang Chengjun became energetic.

"Okay, Brother Jun, I'll make arrangements." Xiao He went to the side of the road to catch all the waiting drivers.

All come by car, no one can be less.

"Find someone to get the key and get in the car." Xiao He Zhangluo arranged.

After a while, the driver will arrange it.

Except for Yang Chengjun and Li Xiao, they are all supercars...

The driver's expression is also full of tangled faces, is this job unacceptable?

Who doesn't want to drive the supercar, but in case there is a little bit of it.

"Drive slowly on the road, I'll drive ahead, it's okay!" Xiao He asked his Land Rover to drive over.

"Well, my car is pressing behind." Li Xiao pointed to his Land Rover and said.

Yang Chengjun burped alcohol and pointed to the Cadillac GT7 opposite and said, "I, I'm heading... there is navigation."

"I'm dangling!"

Xu Hao squinted his eyes and looked at the opposite side, making sure that he was right, and patted his thigh and laughed loudly.

"Ha, haha, Yu, Emperor Yu, Brother Jun, but... it's okay."

"Go, soak, soak your feet." Yang Chengjun grinned triumphantly, waving his hands and walking into the car.

Taking the lead to bathe the emperor, followed by Xiao He's Land Rover Discovery 5.

Followed by Qin Yu's Lamborghini Ghost, Xu Hao's Audi R8, Han Hu's Ferrari 488, and Liu Xing's McLaren 720S.

The finale was Li Xiao's Land Rover Range Rover 6, with Li Xiaoxiao in his car.

Quietly, all the people who made money changed cars.

Only Xu Hao, who is bluffing every day, is still the old R8.

However, it was a bit surprising that Junge actually built the Yuhuang Emperor.

What excites people? ? ?

In the clouds on the sea, the Hao motorcade parked neatly in a row.

The security guard in the parking lot is already using the intercom to tell how many people will come.

When the big brothers got out of the car staggeringly, six young ladies in long skirts and veils were already standing neatly at the door.

"Welcome distinguished guests, wealth and auspiciousness, sea clouds!"

"Brother Jun, Brother Jun is here."

The lobby manager was holding his beer belly and saw Yang Chengjun shouting to the bar: "Brother Jun is here, make tea, and take Brother's toiletries."

"Brother Jun, that's okay!" Qin Yu teased, "Old customers."

Yang Chengjun waved his hand modestly, and pressed his throat with a smile: "People are like cars. If you run too much, you have to refuel."

Qin Yu nodded clearly, looked at the surrounding environment, and said to his heart, "This gas station is pretty good."

Let the lobby manager say hello, Yang Chengjun called people to Qin Yu's side: "Qin Shao, my eldest brother."

Looking at the manager seriously, Yang Chengjun said again: "If you can come in the future, you can look at the arrangement yourself."

"Brother, don't worry, you are absolutely satisfied today." The manager patted his chest to make sure, and then ran to arrange a technician.

"My sister is asleep. Ask the two girls to take a room to rest, and press her shoulders by the way. Don't leave her alone."

Brothers have arranged it, and can't forget the Detachment of Women.

Find two girls to accompany her, press and sober up, so that you can feel more comfortable.

After entering the bathhouse, rinse first, then soak in the big pool.

The neck was submerged in the water, and the hot pool water opened all the pores of the whole body, which was very comfortable.

Sweat after all, and then take a bath!

After a set of procedures, wear a disposable bathrobe to go upstairs and enter the VIP area directly.

"Brother, shall we be together or separate." The manager waited in the VIP area to see what they wanted to arrange the room.

There are quadruple rooms, triple rooms, single rooms, and the largest ten-person room.

"Just one piece, just to talk." Qin Yu said with a smile when Li Xiao and others were looking at him.

"Dajian." Yang Chengjun will be sober a lot, and speak sharply.

Ten automatic sofas were placed in a circle next to the wall, and each of them randomly found a place to sit down, and the technician came up.

"Is 558 there?"

The Emperor Yu didn't even open his eyes, so he asked his old friend directly.

There is no good choice, which he has not tried.

558 is the most appetite, not tall, baby-faced.

With the temperament of Biyu, a girl from the water village, she is gentle to the bones.

Brother Jun is just like this...

"Yes, I am preparing to arrive soon."

The manager said and looked at Qin Yu: "Brother, wait a moment, I call you our goddess technician."

Goddess technician, good fellow...

No wonder the flashing on the map kept flashing, Brother Yu thought it was a guest.

It was he who underestimated the strength of Haiyunjian and was sloppy!

After closing the map, Qin Yu didn't click the red dot.

Today is to have fun, massage and relax.

It's not here to hunt game, it's not necessary.

"come here."

"111, it's you!"

"Well, the one with crossed hair, bring it to you."

The eldest brothers choose to find a good technician, but those who are not selected can only leave the field with regret.

The manager just said, these are all high rollers.

If you can be selected and the service is good, you will definitely get a lot of tips.

If the eldest brother remembers himself, ordering this time will add another steady income.

Go further, have a meal, accompany a drink or something...

No one really thinks that washing feet is the main business, right?

After waiting for a while, the goddess technician came.

Pan is beautiful and smooth, wearing a short cyan floral cheongsam skirt with white background.

This cheongsam is a bit familiar, like the Yunliusha brand made by the little anchor.

Ordinary style~

The price of the high-end brand "Shan Jinxiu" is there, 200,000 yuan per piece. If you can't afford it, you will definitely not buy it for this.

"Brother, hello, my name is 001, Sa Sa."

The girl who was at least 175 in height sat down, put the basket aside and started preparing.

All walks of life are tired of listening to the stage name of Salsa.

Qin Yu just glanced at it, and then turned to chat with the other person.

"The conflict has started again recently. I don't know if it will affect the business." Han Hu said while looking at Li Xiao.

Li Xiao is the most well-informed of all people.

He is within the system and naturally has channels and insights that others do not have.

"There will definitely be some influence, but it is not a hundred years ago, and the court is not the former dynasty. It is impossible to suppress others with power."

Li Xiao lay on the sofa without lifting his eyelids.

Just such a small matter, three years ago may still be able to bring up a little spirit.

Now, the bald eagle has seen all the tricks.

It's nothing more than a paper tiger, nothing to be afraid of...

"To do business now, you have to look at developing and third countries, Bald Eagle? Let them play by themselves!"

Liu Xing's words were unanimously approved by everyone.

The hypocritical face of the bald eagle has been seen by people all over the world.

Except for a few big children, the ghost is willing to follow it to the end.

In the past two years, the corrupt country has also begun to turn into a wall of grass, vacillating and becoming a fencer.

Neither is willing to completely draw a line with the bald eagle, nor is he willing to offend the new overlord.

However, this is no wonder the leader of the corrupt country.

Who makes their family lack of confidence, UU reading www.uukahnsu.com waist pole is not stiff enough!

"Watch the latest news!"

Li Xiao sat up and said with a serious expression: "This cooperation with Barrow is definitely not small."

"Those who have the means and ability, grab the first bus, and those behind can only drink soup."

"Brother Yu, talk about it." Xu Hao raised an eyebrow at him.

Qin Yu thought for a while and said: "The upgraded version of RCEP, Barrow is just the beginning, and ASEAN, including the whole of Europe, will gradually open up.

The removal of tariffs and non-tariff barriers will become the norm, and the future competition will be more intense, but it is also full of new opportunities.

Whoever can catch this ride will be the trend-setter of the next era! "

"Brother Yu, what role does the miracle play in it?" Yang Chengjun also sat up and asked with clear eyes.

What role...

Fuse, push hand, navigator!

Chapter 852: wave

The big brothers were chatting happily, and the technicians also pricked their ears to listen.

The news here is a bit true and a bit false!

Most people take this as a joke, listen to it as a joke...

But there are some people who really keep this information in their minds, just like Sha Sha, and the little girl from the water village No. 558.

Especially when the big brothers are talking about what business is good to do next, and when there are those opportunities.

Sa Sa held up and asked: "Brother, according to you, it's an individual who can make a fortune!"

Seeing her smiling expression, Qin Yu said directly: "You are wrong to say that.

As long as you find the right project, even a pig can make a fortune. "

"Brother, you will laugh." Sasha said with a chuckle.

Li Xiao joked: "He is not kidding, when the tide of the times comes, pigs can fly on the waves."

"I was moved by what I heard." Sasha said jokingly.

"Then you have to seize the opportunity." Xu Hao said, once again turning the topic to the new city of Lingang.

"Brother Yu, you invested a lot of money on it, just to build a research base?" Han Hu was a little skeptical.

There are banknotes flowing in his blood, giving him a keen instinct for any opportunity.

Han Hu doesn't believe that the role of the City of Miracles is just that simple.

If it is really used for research, it will not be as simple as it seems.

"Okay, the feet are almost soaked, let's all go down the girls!" Qin Yu began to drive people out.

The next words are not suitable for outsiders to listen to.

The technicians left the room one after another and went out, and everyone talked about the guests who had just served as usual.

Go to the rest area and wait for the next round of clocks.

Only Sasha has a solemn expression, as if thinking about something...

"Manager, I want to take a leave!" After finding the manager, Sasha took a leave and left.

She decided to go back and take a good look at whether the news that the older brothers said was true.

Is there a chance to make a fortune from it?

At this time, Sasha didn't know how the decision she made today would change her future.

"The city of miracles has a different focus. It focuses more on biological research.

There are always people who say that the human body is a treasure, and there are endless questions and wonders about it, which humans still cannot fully understand.

The purpose of the City of Miracles is to find these magical treasures and use them. "

"This purpose sounds a bit great." Li Xiao said.

"Although I don't want to admit it, but it's great." Qin Yu said with a boastful smile.

"Brother Yu, do you think people will really live forever in the future?" Yang Chengjun asked with interest.

The old man in his family is not young, and his health is getting worse and worse in the past two years.

If there are really any special medicines, or breakthroughs in "human engineering", it can prolong life.

It is good news for Yang Chengjun and Yang Family!

As a relative alone, Yang Chengjun hopes that his father can live a few more years.

I haven't settled yet...

Forget it, marriage is not suitable for me. It is better to find a woman to give birth to a baby so that the father can enjoy the family happiness.

"Maybe!" Qin Yu didn't say anything too much.

Qin Yu believes that immortality is possible.

But he didn't know how long it would take.

Therefore, it is better not to give Yang Chengjun too much hope, and the others are the same.

There are not many old people in anyone's home yet.

Whether mankind's ambitions since ancient times can be realized, the progress of nanotechnology is the decisive key point.

Of course, it is not easy to do this.

For example, the "omnipotent nanoworm" Qin Yu currently possesses in his body cannot extend his life.

Not only that, the excessive division of cells will accelerate the loss of life.

This is under normal circumstances...

Now, Qin Yu has found "liquid crystals" to replace his own bioenergy consumption.

Therefore, this will not happen.

On the contrary, relying on the absorption of the internal energy of the "liquid crystal", the nanoworms give back to his body to a certain extent.

Let him become stronger, stronger, and evolve to another level.

This process is very slow, so slow that Qin Yu wouldn't even notice it if it weren't for the real-time monitoring and analysis of Kirin.

But this change is real and happening...

"Brother Yu, why do your words remind me of a movie." Yang Chengjun said.

"Me too." Xu Hao echoed.

"Raccoon City." Li Xiao said.

Everyone nodded together, and Qin Yu laughed and cursed loudly: "If you can be normal one by one, you must believe in science."

"That's science." Li Xiao emphasized.

"Okay, let's get some business.

After the completion of the City of Miracles, I need a group of top medical professionals. "

"Brother Yu, there is nothing I can do here."

Both Han Hu and Liu Xing said that they couldn't get in touch with them at all.

Li Xiao is also helpless here, and his family has no connection with the medical field.

Xu Hao also shook his head again and again, this time he really couldn't help much.

In the end, only Yang Chengjun remained.

Seeing him lowered his head thoughtfully, Qin Yu thought there was hope.

But in the end Yang Chengjun could only shake his head regretfully: "Brother Yu, you know the situation on my side, those people will definitely not be able to transfer."

There is a shortage of personnel in the medical logistics of the Ministry of Defense, and that is a big gap.

The upper hand can't wait to draw such talents into his arms every day, as if they were told to let them out.

Want to fart?

"It seems that we have to recruit from the society." Qin Yu wanted to be simple.

Since there is no hope, then we can only face the society and open recruitment.

At the same time, a figure jumped into Qin Yu's mind.

Zhu Ying, Doctor Zhu...

"Brother Jun, what is the next project?" Qin Yu said this, indicating that the business is over.

Yang Chengjun immediately arranged for the next project, to sing first, and then drink.

After the work, I went to the jade room to have a good rest. I got a buffet in the morning. After the meal, I had another soak. If I want to rest, I want to leave.

"Brother Jun, do you take this in charge?" Seeing that Yang Chengjun had a private box with all the bedding he had brought to him Brother Yu was shocked on the spot, the Emperor Yu, Well-deserved reputation!

"I'm not used to it." Although Yang Chengjun was smiling, his eyes were full of disappointment.

Qin Yuxin said, "I'm afraid there is a story in this!"

In fact, he knew that Yang Chengjun was like this, and he must have been hurt by feelings.

It's just that he never asked...

Seeing that his current situation is getting more and more serious, Qin Yu decided to find someone to ask what the situation was.

Let a straight steel man like Yang Chengjun be injured like this.

"Brother, let's live here, I'll ask you something." Stopping Li Xiao, Qin Yu took two more mentions of Budweiser.

He is in charge of the wine tonight, and the little brother just tells the story.

Others, what are you doing?

Isn't she fragrant with the uniform black silk going back and forth?

Chapter 853: Graduate

The stories that happened to Yang Chengjun are clichéd and bloody.

But it made him worry, and today he can't let go...

Because he attributed everything to himself, he killed his childhood sweetheart fiancée.

It was his stubbornness that left both sides with no retreat, and it was he who ruined everything with his own hands.

"Do you know why the soldiers drove so irritably?" Li Xiao looked at him blankly and took a sip of alcohol.

After suppressing his unhappiness, he continued: "Because he...wants to die!"

"If there were no misunderstandings, he would not speed up in anger, and there would not have been that car accident..."

The more he thought about it, the more suffocated Li Xiao, he raised his head and suffocated the remaining half of the bottle.

Every time they think about this, not only Yang Chengjun, but a few of them are also panicked.

Who wants to see oneself grow up from childhood to adulthood, become like this ghost now.

He has locked his heart and will not give it to anyone.

The superficial debauchery is just to hide the sadness and despair in my heart...

Can you imagine the experience of killing your beloved by your own hands, the pain and despair?

Brother Yu couldn't think of it, but he knew that Yang Chengjun's heart must be uncomfortable.

This incident left a deep scar in his heart, which has not been healed yet.

More sadly, he didn't know to death whether the other party had betrayed their love.

This is the saddest...

Therefore, he became what he is now, using money to buy "love."

It doesn't need to be vigorous, forever.

All he wants is temporary happiness.

What followed was more intense emptiness and loneliness.

"I didn't see my heartbeat again?" Qin Yu thought that time is the best medicine.

After so many years, Yang Chengjun will come out one day.

After hearing this, Li Xiao smiled bitterly and shook his head: "Brother Yu, I have thought of everything I can think of, and none of them works..."

"Introduce him several times back and forth, either because he was playing tricks, or he was half angry."

The story was told in the middle of the night until Li Xiao was too sleepy.

After yawning and falling down on the jade warm bed, the topic finally ended...

The next day, everything went as usual.

Qin Yu didn't ask Yang Chengjun what he thought.

Yang Chengjun didn't know either, he learned his past from Li Xiao.

Including why it became the root of the current turbulent image...

Some things can only be solved by yourself.

Just like what Yang Chengjun is encountering now, he can only rely on himself and time to solve the problem.

...

...

In a blink of an eye, it was the day of graduation.

Brother Yu, who had disappeared for half a semester, finally appeared at the celebration.

It was also on this day that Miracle officially provided the first batch of VR equipment to Barrow, which also covered the entire territory of Barrow.

"Ghost" ushered in the first batch of Barrow players, and the performance of the bears is a classic.

The first time you go online is not to explore the whole world or pick up the tatters.

But first figure out what it's like to drink in the "game" and whether it is as real as reality.

"Brother Yu, it's not easy to see you." Yan Er and Shen Dong looked helpless when they saw Qin Yu.

Throughout the semester, I never saw him in school...

Maybe there have been that once or twice, but I have never been to any classroom.

I really don't know how he passed the graduation exam and thesis.

"Man, genius is different." Qin Yu joked with a smile.

"Stop talking about this, think about your show first!" Yan Er handed him the microphone.

"???" Brother Yu was dumbfounded by what program.

"Chorus, arranged by the class guide, he said that if you don't give this face, don't blame him for making you trouble."

Yan Er just conveyed the words of Che Xuan, and he didn't care about the rest.

"Ok!"

Qin Yu took the microphone and said helplessly: "Always tell me what the song is!"

Shen Dong raised his eyebrows and said: "Stars and the sea, the fourth show!"

"..." Qin Yu asked, "Who shall I sing with?"

"I don't know." Yan Er and Shen Dong shook their heads neatly.

"Which passage do I sing?" Qin Yu asked again.

"I don't know." He shook his head neatly again.

"..." Brother Yu split apart.

Without knowing anything, let him perform on stage, which is outrageous!

Old car, do you want to be so pitted?

Fortunately, there is still time, while the principal is talking.

Qin Yu ran towards Che Xuan, patted him on the shoulder and asked, "Old car, where's the score?"

"Oh, our young master Qin is here, what score?" Che Xuan said amusedly.

"Brother, stop making trouble." As the principal's speech was about to end, Qin Yu hurriedly begged for mercy.

The old car was obviously trying to teach himself a lesson, showing off his nasty anger.

If it was him, he might have played harder than Che Xuan when he met a student who hadn't seen one side for a semester.

"You know it's wrong?" Che Xuan raised his eyebrows.

Brother Yu nodded repeatedly: "It's wrong, it's really wrong."

"Now, here you are, there are still 15 minutes left before your show." Che Xuan handed him a printed score.

With the score, Yu Ge's heart was immediately stabilized.

With a casual glance, Brother Yu knew it in his heart.

However, who is the other member of the chorus, Yu Ge is still confused.

Liu Wan, girl!

Except for this, Yu Ge didn't know anything else.

Forget it, no matter who she is, it's all done.

Back in position, the first show has already started.

The opening of "Wish You A Good Trip", this is a collective show with 12 people.

The emotional classmates burst into tears, and the sadness of parting shrouded everyone's hearts.

All the girl classmates are wiping tears secretly, which can make the male classmates around him happy.

Have the opportunity...

Damn it, forgot to bring a tissue, Gan!

The comedy turned into a tragedy in an instant, and the male classmates wiped their tears, crying into a movie for a while.

The second song "Brothers Sleeping on the Upper Bunk" is also teary.

Brother Yu saw many boys who were sleeping together hugging each other, telling each other the blessings of parting.

This innocence on campus, when they enter society, they will never find the same feeling again.

The third song "You at the same table" evokes the memories of the past.

Sweetness, bitterness, sadness and joy, all kinds of emotions flickered in my heart, making people mistakenly think that this is the state of life.

When the last note was over, the BGM belonging to "The Sea of Stars" sounded.

Qin Yu also saw his collaborator, "I would like to become a star, guarding the buzzing of the bottom of the sea~~"

The female voice wearing a bachelor's uniform is fair and beautiful, with a sweet and gentle voice.

As soon as they were tuned together, there was deafening cheers on the scene.

Beautiful women will have preferential treatment everywhere, and this place is naturally no exception.

Only Brother Yu was curious about the flashing red dots. How could he not discover that the school had female classmates of this quality before?

Before he could understand, it was his turn to select: "Cross through the crowd, don't stop, while there is still expectation..."

"Will our love be blown by the wind and the sea will never come back..."

"Oh~~" With a deafening scream, he almost overturned the roof of the scene.

Take a closer look, it's all girls.

Some people even jumped up with excitement, shouting frantically: "Qin Yu, I love you~~"

I rub!

Seeing the smile on the face of the front row school leader, Brother Yu was stunned.

What's up, it's not too big to watch the excitement.

This is a graduation ceremony, outrageous!

"The hot stars in my eyes shine on me in the long night." When the last chorus ended.

The girls at the scene became even more crazy, and several little fans rushed over with flowers directly.

If it weren't for all the bachelor's uniforms at the scene, I thought it was Brother Yu who was giving a solo concert.

Isn't it just singing a song, do you want to be so exaggerated!

"Senior, I love you~"

"Student Qin Yu, I want to have a monkey with you~"

"Marry me, Qin Yu!"

"Senior, this is the first time~"

Slot~~~

Seeing the enthusiastic school girl who weighs absolutely over 200 kilograms, Brother Yu sat staggeringly on a chair in fright.

This Nima~

Brother Yu really couldn't stand it.

Fortunately, the school leaders in front prevented the situation from deteriorating in time, so that Brother Yu would not slip away on the spot.

The program continues, but the performance of the next group is obviously affected by the previous one.

The boy's tone strayed to the loess plateau, and he couldn't hear it at all.

When the singing was over, the boy gave Yu brother a look of hatred and left the scene with his sleeves.

? ? ?

It's up to me to sing out of tune by yourself.

"Qin Xuechang YYDS~"

Brother Yu sighed secretly, "Dude, I'm wronged you."

In fact, I really didn't want to grab the limelight, but my strength doesn't allow it!

Blame the old car, find him~~

A grand performance lasted 45 minutes, and finally announced the curtain call.

In the thunderous applause and laughter of everyone, the principal once again walked to the podium.

"2025, because of you, it is destined to be an extraordinary year...No matter where the students are in the future, you are the school's most beautiful business card...

Today, Lixin is proud of you. The future belongs to young people, and you are the future of the motherland...

I look forward to meeting here again one day, remembering the present and thinking about the future..."

Wow~~

There was warm applause, the students smiled and embraced, and their hearts were filled with reluctance and hope for the future.

One day, I recalled the scene before me.

I believe that everyone will smile from the beginning, the youth and beauty of the past will never be forgotten!

"Let's swing our oars and the boat pushes the waves away..."

The neat chorus and bright smiles pulled off a wonderful curtain for this graduation ceremony.

Next is the time for free activities, exchange commemorative albums, take pictures together, and talk about the future.

"Student Qin, can UU Read www.uukanshu.com write a blessing for me?" A girl ran to Qin Yu and said, holding the memorial book.

"Good." Qin Yu readily agreed.

After graduating, they went to different things, scattered in the north and south of the motherland.

Maybe there will be no intersection in this life. Today, let all the memories be full of goodness.

"I wish a bright future, brave the wind and the waves-Qin Yu..."

Writing his blessings, Qin Yu exchanged pens to the other party and said with a smile: "Okay."

"thanks."

The other party happily closed the memorial book, and then took pictures with him as a souvenir before leaving excitedly.

Then, the scene got out of control.

The girls waited in front of Qin Yu in groups, hoping that he could leave a shadow in his youth.

Even a simple blessing is endless! !

Chapter 854: vision

"Student Qin, I hope to see you again when I have a chance."

"Student Qin, this is for you."

All those who came to leave messages or deliver things, Qin Yu was so busy for a while.

Yan Er and Shen Dong were also forced to become attendants, helping to receive the piles of souvenir books and various gifts.

Then, the situation got worse!

"Senior, can you sign a name for me?" A primary school girl stood in front of her with a cute cartoon notebook and pen.

Looking at him hopefully, because of the height difference, the school girl has to step up her feet and raise her head to look directly into his eyes.

This makes her look so cute...

"Okay!" Qin Yu readily took the pen.

Qin Yu/I wish you a picturesque future.

2025.7.2/

Returning the pen to the other party, the little girl wanted to say something, she was already pulled away by the girl behind her: "It's me, it's me~~"

"Senior, can you sign for me, please?"

Putting the book and pen into his hand, the girl put her hands together and smiled cutely: "Please, please."

...

...

The graduation ceremony has become a large-scale show of love and confession. Let's make a der!

The girls are happy, taking advantage of this special day to confide in their hearts and boldly confess.

The boys are very upset.

All the limelight was taken away by Qin Yu alone.

... Fortunately, he is leaving.

The younger brothers no longer need to be dominated by dark fears.

Especially the boys in the junior year, couldn't help but shed tears of excitement.

too difficult!

Over the years, no one knows how they lived.

The fear of living in the shadow of others forever...

Even if Qin Yu rarely appears on campus, the legends about him still chatter.

Even for a long time, Qin Yu has become a certain standard!

"Do you think you are Qin Yu?"

"A few mouthfuls of Qin Yu, such a big tone?"

"You think you are Qin Yu, and the toad also wants to eat swan meat, bah~"

Without Yu Ge's knowledge, he had offended all the male classmates in the school.

It is also defined as a "male enemy," the biggest obstacle on the way to choose a mate...

The most annoying is that he has the ultimate right to choose a spouse in school.

Never talked about a relationship...

Be strong...don't cry...wow...

I can't stand this grievance.

go!

Let him go! !

Buy station tickets now and go overnight! ! !

But looking at the seniors who graduated again, the faces of the juniors showed sympathetic smiles.

Although I am miserable, some people are worse than me, wow haha! ! !

Four years in college, graduated without a girlfriend.

Very poor, but I really want to laugh...

Hahaha.....

Leave the graduation hall, in front of the teaching building, next to the garden, on the grass, in front of the gate building.

Students are everywhere.

Take pictures, photography, and design interesting commemorative methods.

At this moment, it doesn't matter what woman is.

The boys put on a variety of second-year movements and expressions, swaying their last youth wantonly.

When I walked out of the school gate, I would be hidden under the shell and mask of disguise.

I can't find it again...

"Brother Yu, come and take a picture." Yan Er and Shen Dong called under the tree.

Qin Yu looked at the figure beside them, Hou Kun.

long time no see!

At this moment, all the dissatisfaction and all kinds of emotions were all over with a smile.

"Long time no see, monkey." Qin Yu said with a smile.

"Yes, Brother Yu, long time no see." Hou Kun smiled and nodded awkwardly.

"bring it on!"

Yan Er took the two of them and walked under the tree, "This may be the last time I have seen each other. Smile for me."

"Second brother, don't pull, the camera is still with me!" Qin Yu responded amused.

"Ah yes, Dongzi, borrow the tripod over there, Brother Yu, hurry up."

After setting the angle, setting the time and continuous shooting, Qin Yu ran behind the three of them, putting his hands on his shoulders and showing a bright smile.

"Kaka~" Under the shutter, four smiling faces were eternally recorded.

"That, brother Yu, brother, I'm leaving first." After taking the photo, Hou Kun said that he would leave first.

"Good journey." Qin Yu said.

Yan Erqian smiled and said: "Okay, then you slow down, I will let Dongzi pass the photo to you when I look back."

"Okay." Hou Kun nodded and said to Shen Dong, "Dongzi, I'm leaving."

"Um...Shunfeng." Shen Dong actually has a lot to say to him.

But he could also see that Hou Kun would only feel embarrassed to stay here.

It's better to find a chance and ask him alone.

"Let's talk about it, what are you two planning." Qin Yu looked at Shen Dong: "You want to come back?"

Dad Shen's condition has improved and he has been transferred to the general ward.

The matter was also being investigated, but it was very difficult. The other party was very careful and did not leave any electronic records.

Everything is walked face to face, including money.

Dad Shen raised the cash and handed it to each other in person.

Only the elderly who are out of the era will feel that the "payment with one hand, delivery with one hand" meeting is normal.

"Fraud is not easy to collect evidence, but they beat people later, this matter is much more serious, and the police have already got the clues.

One suspect was found, but they wanted to continue to follow to see if they could catch the others. "

"Progress is a good thing." Qin Yu and Yan Er patted him comfortingly.

"Don't worry, I'm not that fragile. The hardest time is over. Besides, Xuan Xuan is with me."

Shen Dong said with a smile, took a deep breath and said, "We still decide to come back and we must stay here."

After seeing the blossoming flowers of Hudu, I will return to my hometown.

That kind of loss and comfort will make him lose the direction and motivation to move forward.

Some people are willing to live a stable life, with a dead salary of three or four thousand, and clock in and out of get off work from nine to five every day.

I think this is happiness and stability...

There are also people who, like him, would rather take risks and see different scenery.

"Okay, come on..."

Yan Er said encouragingly: "Let's turn my share to you. From now on, this business will belong to both of you, so I don't care about it."

"That won't work."

Shen Dong immediately retorted: "If you don't do this, brother, if you want to do this, how will you see you in the future?"

Yan Er grinned and said, "Then, you can give me the capital of the shareholding in the future."

"Not only this, but also profit... I will get it together as soon as possible." Shen Dong said firmly.

Now he definitely can't spend so much money, all of which is used to cure illnesses and fill holes.

But Shen Dong is confident that he will be able to cheer up again soon.

With his experience and the reputation and channels accumulated before, he can stand up.

Moreover, although Shen Dong is in his hometown, his eyes have always been on Hudu.

Every day, we pay attention to industry dynamics and new development directions, technological progress and life pressure, so that young people become more service-oriented.

They are the generation willing to pay for high-quality services.

Therefore, Shen Dong is very optimistic about the future automated door-to-door service, that is, robot running errands.

He remembered a report he saw before, which was about exoskeleton mecha.

Since the Miracle Group can even produce it, is it possible to produce a fully automatic service robot?

"Brother Yu, does your company have this plan?" If you don't understand, Shen Dong went to Qin Yu directly.

"Yes, and it's already under development." Qin Yu said with a smile.

Shen Dong can think of it. Can the industry elites who have been in shopping malls for many years unable to think of it?

Someone has contacted Miracle Group for a long time and wanted to order fully automatic robots built for the needs of different industries.

The progress is fairly smooth, with Jing Yuan's technical support.

The technological barriers and related patent barriers related to AI all depend on the progress of the nanoelectronic brain.

In fact, they have already created the experimental body.

However, there is still a long way to go before mass production. Price, raw materials and yield are all key.

"You can expand your business in this area first. If there is any good news, I will notify you as soon as possible."

"Well, with your words, I know what to do."

Shen Dong clenched his fists confidently, it seemed that his direction was not wrong.

What he needs now is to prepare for the moment of disrupting the industry and make sure that he will not become the one to be eliminated.

"By the way, Brother Yu, I also want to ask your Vulcan plan, when will you send it up?"

Yan Er also has a direction of interest, and the stars and the sea are the ultimate pursuit.

Compared with it, even girlfriends are not fragrant anymore.

"Why, do you want to be an astronaut?" Qin Yu joked.

"Can I do it?" Yan Er asked with blinking eyes.

Seeing that his expression didn't seem to be a joke, Qin Yu asked, "You're serious."

"...If I have a chance, I really want to go, I'm afraid I'm not qualified." Ya'er vomited.

"The first batch will definitely not work. They are pioneers who are responsible for land reclamation. They are dangerous and complicated, and they cannot be handled by ordinary people.

However, the second and third batches can be arranged. But if you think about it, going up will not be so easy and going down. "

Qin Yu showed a serious expression, he was not joking.

It was Mars, not from Hudu to Shangdu. He said that he would return by taking the high-speed rail.

Even if there is a carrier spacecraft, you can't go back on it when you say it goes back on.

"Uh, let me think about it again." Yan Er felt a little frustrated when he heard what he said.

In fact, he really took this matter to heart.

There is nothing wrong with being an alien immigrant, but he also needs to consider the feelings of his family.

Parents, relatives and friends, and my girlfriend, Xiao Bai.

I can't leave them on the earth, and just leave without paying any attention to them.

Changing to a junior high school he might still impulsively agree.

Now, Yan Er can't do such a thing.

Everyone has his own responsibilities, and it is impossible for Yan Er to leave these all behind, just to satisfy his own desires.

At least he can't do it...

"It's still early, you think about it slowly." Qin Yu said.

The second and third batches, at least in the middle of next year, will be enough for him to consider slowly for most of the year.

In fact, it is not as difficult as he said to go back and forth between the earth and Mars.

The reason for exaggerating and increasing the difficulty is just to make Yan Er think carefully about what he wants.

Instead of making a decision on impulse, then immediately regret it!

They are no longer children, and they should be responsible for their own decisions and choices.

When anything can be used as a joke... Passed.

Chapter 855: Souvenir

"Student Qin Yu, wait." When they were approaching the dormitory building, someone behind them stopped them.

Qin Yu looked back and saw that it was the girl who sang with him before.

Scan data:

Liu Wan:

Age: 23.

Height: 168cm.

Weight: 48kg.

Specialty: Can speak eloquently, have long legs.

Face value: 89↑ [face value 85] [temperament 91] [fortune 2]

Body: 91↑ 【Development potential**】

Mood value: 88↑ 【Excited ing】

Favorability: 91↑ 【Wait for...Is it dysfunctional? 】

Freshness: 91↑ 【The tired body needs to stretch, act fast! 】

Since the upgrade, the system is active again.

Encourage Brother Yu to "Chong Chong Chong~"

"What's the matter? Student Liu Wan."

Looking at the little man standing in front of him, Qin Yu asked with a smile.

Compared to Qin Yu's 188cm height, 168cm is really not that tall.

"I want to take a photo with you and invite you to dinner by the way." Liu Wan said straightforwardly.

"What is the special reason?" Qin Yu asked.

Liu Wan looked at Yan Er and gave her mobile phone to Shen Dong for a moment: "Classmate, can you take a photo for us first?"

"No problem." Shen Dong raised his eyebrows to Yan Er triumphantly, and took a group photo of the two of them with his mobile phone.

The second brother murmured silently in his heart, "It is Brother Yu who is looking for, you are proud of it!"

I think so, but still a little bit minded!

Why did Liu Wan look for Shen Dong but not herself? Is it because my muscles are not strong, or my appearance is unsafe?

Standing under the tree, Liu Wan took Qin Yu's arm and put her head on his arm with a bright smile.

Qin Yu cooperated as a back wall, laughing and it was over...

"It's done."

After taking more than a dozen pictures, Shen Dong returned the phone to Liu Wan: "You look better than the photos."

"Thank you, everyone said that I am not on camera."

Liu Wan smiled and turned her back, shaking her body and said to Qin Yu again: "Student Qin, see you in the same place in half an hour."

"What old place?" Qin Yu was dumbfounded.

This is the first time the two of them have seen each other. Where did they come from?

"The old place is a restaurant behind the school. Just go out and look diagonally to the right."

Shen Dong explained it with help, waving his hand to signal Liu Wan to go first, "Brother Yu must be here, don't worry!"

"Don't worry about what?"

Seeing Liu Wan running away like this, Qin Yu murmured, "Who is it, you agreed first."

"Then those who don't cooperate with you, partner, comrade-in-arms. These two call you to choose one at random. You may have a few more identities after a meal."

"Fuck you." Qin Yu scolded and pushed him away with a smile.

"Eh, Brother Yu... Thank you for turning around." Shen Dong was not happy.

"Well, I thank you!" Qin Yupi said with a smile.

"I don't know good people, what is that person's name?" Shen Dong looked at Yan Er.

"Gou Yao!" Yan Er said sincerely.

"Yes, it's a dog bite." Shen Dong nodded repeatedly.

Without saying a word, Qin Yu drooped his finger on Shen Dong's shoulder.

The thumb buckles the front pipa bone, and the three fingers of the food, middle and nameless fingers buckle the back pipa bone...

"Dad, I was wrong." Shen Dong instantly took heart.

This guy can't be crushed at once.

We can't do self-defeating martial arts.

...

...

Half an hour later, Qin Yu came to the "old place" as scheduled.

With this name, there is a sense of substitution right away.

"Student Qin Yu, here." Liu Wan, who was sitting against the wall, stood up and waved after entering the shop.

"It's late." Qin Yu stepped forward with a smile.

"It's not too late, I'm here early." Liu Wan responded with a smile, placing the tableware she was staying in front of him.

The proficient movements seem to have known each other for a long time.

"Well, can I ask why you want to invite me to dinner?" Qin Yu is still curious, why the other party insists on inviting him to dinner.

"Because, I don't want to leave regrets!" Liu Wan said openly.

"What do you mean?" Qin Yu asked.

"I like you." Liu Wan said abruptly.

Seeing Qin Yu's somewhat sluggish expression, Liu Wan laughed and waved her hand: "Don't worry, I won't pester you."

"I just want to leave some memories for myself before I leave...Everyone is already an adult, and I can take responsibility for my decision."

Uh, this topic is a bit esoteric!

How did Brother Yu feel that there is something in this...

"what do you mean?"

"After dinner, I want to invite you to watch a movie. Then..." Liu Wan lowered her head and could see that she was struggling.

"I have a good room, right next to the cinema."

"Puff~" Brother Yu, who was about to drink water to moisturize his throat, vomited.

Sister, are you making trouble?

"Are you okay?" Liu Wan hurriedly took a few pieces of paper and handed it to him.

Qin Yu shook his head, wiped his mouth and asked, "I should ask you this, are you okay?"

"I'm fine!" Liu Wan said in surprise.

Brother Yu didn't know how to pick it up.

Don't take the initiative, don't refuse, don't promise, and people haven't violated the rules.

Instead, he took the initiative to send it to the door, wanting to leave some good memories with him before leaving.

By the way, complete the transformation from body to mind, no problem!

"Why me?" Brother Yu felt, is the little girl too fierce now.

Oh, right!

The two are the same age, and they are not young... they are grown up.

"Because you are good, handsome, and a legend in our school." Liu Wan explained the reason very bluntly.

When she was a student, she was a well-behaved girl.

Now, after graduating from university, I can start a new life.

She wanted to give herself a crazy experience before leaving.

Leave some good memories by the way!

It can be regarded as a tribute to youth, but it also depends on my hard work and patience over the years.

"Girls who haven't talked about love once in college are rare, right?" Liu Wan's smile was bitter.

Who doesn't want to have a sweet love while studying!

"It's really rare... Then shouldn't you insist?" Qin Yu was also puzzled.

You said so many years have passed, why have to look for excitement here.

After returning to Zhao, is it bad?

Liu Wan shook her head firmly and retorted: "Why insist? Who knows whether you will meet a scumbag or an honest person in the future.

Besides, which boy has never been in love before! Then he talked a lot, am I not at a disadvantage? "

"???" Brother Yu was full of question marks.

A woman's brain circuit taught him another lesson today.

So, he is a tool man today?

It's fresh and interesting!

Brother Yu has never been a tool man, and today is the first time.

Don't say it, I'm a little excited...

"The dishes are here." The waiter served the dishes.

Spicy chicken diced, hairy blood, steamed sea bass, braised pork ribs, sweet and sour pork tenderloin and pork with Mei Cai.

Same as this game tonight, all meat...

"I don't know what you like to eat, but people in Qin should like spicy food very much." Liu Wan looked at him cautiously.

Worrying that these dishes might not match her appetite, she took a lot of thought to choose these dishes.

"All are pretty good, eat!" Qin Yu picked up the bowl and started to dry.

Spicy chicken diced, sauteed red pepper and diced meat are delivered to the mouth with rice.

It's crispy and delicious, and the taste is amazing.

The hairy blood stained with red oil is prosperous!

This dish must be given enough red oil, less oil will lack the flavor and color.

Let's have braised pork ribs again, um~

The craftsmanship of this master is okay, and it can compete with the aunt at home.

Home cooking, what you want is home cooking.

There are not so many bells and whistles, it is delicious and not expensive...

Three or two bites and a bowl of rice are done.

Looking at Liu Wan on the opposite side, she just ate one layer.

"I'll fight for you."

Taking the bowl in his hand, Liu Wan compacted another bowl from the bamboo tube.

Qin Yu smiled and said, "Thank you," and it started again.

A bucket of rice, basically let him finish it.

The dishes on the table are also eaten cleanly.

Liu Wan looked scared. When he put down his chopsticks, Liu Wan, who was already full, asked softly: "Are you full?"

"You're full, you can't waste food!" Qin Yu said with a smile.

Liu Wan nodded in admiration. This is the advantage of being a big boss.

With a worth of hundreds of billions, you say that you can't waste food, and that is a good example of diligence and thrift.

There is no one hundred dollars in your pocket, you say it is for diligence and thrift!

Poor, can't afford to pretend to be NM?

tui~

After eating, Qin Yu didn't grab the order, it was Liu Wan who settled the bill.

Walking out of the hotel, Liu Wan took the initiative to ask: "There is still some time now, or let's go around first."

"Okay, where to go?" Qin Yu asked.

"Just go to the cinema, I want to catch the doll." Liu Wan said happily.

"Let's go, you will lead the way." Qin Yu took out the key and pressed it to the side of the road.

Didi~

Driving the ghost, Qin Yu drove Liu Wan to the theater according to the navigation prompts.

It's not very far from the school, it's less than 10 kilometers away.

"The sports car is not as comfortable as I thought." After getting out of the car, Liu Wan said very emotionally.

Qin Yu shook the key and said with a faint smile: "The blessings brought by wealth are the key point. Uncomfortableness is secondary to supercars.

What you want is the feeling of being eye-catching and being envied when you drive a super run out of the door. Your focus is wrong. "

Liu Wan tilted her head and thought, then smiled dumbly: "Yes, I digressed."

Enter the mall and go straight to the amusement hall on the 3rd floor.

There were two rows of claw machines at the door, with slim couples standing in front of them.

It's not important whether you catch the doll or not, what matters is the process and feeling.

As long as the baby catches frequently, her pregnancy will not be too bad!

"Qin Yu, hurry up, I have a place!"

As soon as he returned from buying a board of coins, Qin Yu saw Liu Wan jumping and jumping excitedly with an empty machine.

The doll inside is the classic No. 7 Yangtze River.

"Do you want this?" Qin Yu asked.

"Yes, yes, you have to catch it, I really want it." Liu Wan cupped her chin with both hands, and put her face on the plastic window with hope.

Clang Clang, UU reading [www. uukanshu.com](http://www.uukanshu.com) ㄟㄟ~

Brother Yu shook his hand lightly, and at a glance, he could see that this paw was another scam.

However, he has always responded to this situation.

In the air invisible to the naked eye, countless nanoworms have transformed themselves into diligent workers, completely changing the of the motherboard.

Snapped!

With a slap of the finger, the paw straight down to clasp the first Changjiang No.7.

"Hit, pull up, pull up~~" Liu Wan raised her fist and jumped to the rhythm of her speech.

In the sound of her cheering, Iron Claw lifted up the doll very "competitively".

Delivered to the delivery port smoothly, lost~~

"Haha, I'm hit, I'm really hit, great!" Liu Wan took out the doll and hugged it in her arms and shouted happily.

Then he suddenly stepped his feet and brought the red lips to Qin Yu's mouth, and the wet little naughty came out.

Chapter 856: Leave

"Huh, huh~~"

Panting and lowering her head, Liu Wan felt ashamed of her previous boldness.

The body seemed to be out of control, and was sent on the initiative.

When she comes back to her senses, she will be suffocated...

"Do you want to continue?"

"Don't ~ or go to the hotel."

"???"

Qin Yu rubbed her head amusedly and said, "What are you talking about, I mean Wawa."

"Ah. Baby!" Liu Wan died instantly.

Tonight's right to mate, just leave her away...

Is there a ground seam?

Let me go in and lie down for a while, and come out in the wild.

"that."

Liu Wan pointed at the empty machine. The machine the two had grasped earlier would already be occupied by someone.

Everyone wants good luck.

Furthermore, if someone can be caught, it is impossible for oneself without reason.

Therefore, any machine shipped will be very popular.

Qin Yu and Liu Wan were already standing in front of another machine at this meeting.

It is filled with large and small white bears, with different appearances and accessories.

But there is one characteristic: cute.

Seeing so many white bear dolls, Liu Wan also forgot the embarrassment in her heart.

Bending over to look at the dolls inside, he whispered: "They are so cute... what should I do, I really want to take them all away."

"Then take it all away." Qin Yu calmly placed the game coin box on the console.

"Go find a bag, a bigger one..." As he spoke, two coins were put into the machine.

The claws dropped precisely and lifted a little bear with Xiang Rigui on his chest.

It was about the same size as Teddy, and judging from her accessories and the matching flowers on her chest, it was a female bear.

"You really caught it, so simple?"

Liu Wan took out the gift, and asked with surprise and joy.

"Yes, it's that simple, and it will be even simpler next." Qin Yu nodded.

"So, you really should prepare the bag."

Just as the two were talking, another doll was lifted up.

"Ah~hahaha, Qin Yu, I love you so much." Liu Wan rushed to the front desk happily.

When she came back, she carried a bag higher than herself.

Seeing the three little bears under Qin Yu's armpit, Liu Wan snatched them.

Give each one a kiss before putting it in the bag.

"More, fill me up quickly!" Liu Wan said, jumping.

Brother Yu's fingers trembled, and this time he grabbed it crookedly.

Fill you up, what kind of word is this tiger and wolf!

Seeing Liu Wan staring at the empty paws blankly, she felt aggrieved as if she was about to cry.

Brother Yu shook his head helplessly, and then started the whole coin with another coin...

When the two came out of the amusement hall, Liu Wan's big bag was already full of dolls.

In front of the two rows of crane machines, crazy men and women were also standing, yelling "Turn on, turn on~"

Just now, the game hall cut off the power to the claw machine.

For unknown reasons, these claw machines turned out to have a 100% crawl rate.

The hardness of the claws is adjusted to the highest level. Whenever you grasp it, you must grasp it accurately!

Including several cutting machines!

Two of the big dolls inside were taken away, and one was worth several hundred.

If we keep doing this, all machines will be emptied today.

The estimated loss is at least tens of thousands of yuan...

In the absence of the boss, employees have to cut off the power urgently to stop the loss.

It is also because of this that caused dissatisfaction among the lovers waiting in line.

Why, cut off the power if you can hold it, and play when you can't.

Now I'm lazy to cover up, so I just changed it and grabbed it!

The disturbances behind gradually fade away...

Fully loaded Liu Wan happily carried her large bag of dolls, and followed Qin Yu out.

Look at the gaze towards him, full of love and joy...

Today's "love" did not disappoint her, everything was as perfect as she imagined.

Especially Qin Yu's performance was even better than she expected.

How can a person who is so good at catching a doll not succeed?

The brain circuit of a woman is always confusing.

Putting the doll in the car, Qin Yu was about to lock the car to watch a movie.

Liu Wan suddenly said urgently: "Qin Yu, I suddenly don't want to watch a movie."

"So?" Qin Yu asked back.

"I'm tired and want to go back to the hotel to rest." Nothing, no rest.

Anyway, the society has died, and I don't care about it again, Liu Wan made it clear today that he will be taken care of.

Now that she has said so, what else can Qin Yu say.

Get in the car, light it up!

800 meters to the north, love hotel.

The layout of the room is full of ambiguous...

Whether it's the tassels under the ceiling, or the "artistic" chairs placed around the room.

The big round bed with veil is placed next to the jacuzzi.

Magic glass, non-slip handrails all over the corner...

There is also a horizontal bar on the ceiling of the bed, and a red curtain wrapped around it.

When I first came up, I heard from the cashier at the front desk that the hotel was fully booked.

There are no vacancies within a week, and the room cannot be renewed because a guest has already booked tomorrow.

With such decoration, atmosphere and thoughtful design, no wonder the business is so hot.

It's normal for the graduating and breaking up seasons to continue to fire.

The baby bag that had previously been regarded as a treasure was thrown on the carpet, and Liu Wan squeezed into his arms.

"Today, I will be your woman..."

Throughout the night, three springs in the mattress were broken, and Brother Yu heard it very clearly.

It was not until the sky was bright that they hugged each other and fell asleep.

When I opened my eyes again, there was no trace of Liu Wan on the bed.

The bath towel that was specially placed on the bed sheet was also gone.

I got up and turned around and found that the person was indeed missing.

Qin Yu also found the note on the table along the way.

"Thank you for giving me a wonderful night, but I must leave early.

Because I am afraid to face you and lose the courage to leave.

I will always keep these good memories in my heart. "

Your temporary girlfriend: Liu Wan.

Seeing the slightly scribbled writing above, one can imagine the struggle and rush when she left.

However, Liu Wan's ability to be so free and easy was beyond Yu Ge's expectations.

Is it over? ?

Qin Yu rubbed his chin, feeling strange in his heart.

Forget it, don't think about it, there are more important things waiting for him.

I went to Shaman's house first, and it was a middle-aged woman who opened the door.

Qin Yu looked surprised, and said in surprise: "Is Shaman here?"

"Miss is not here... I am the aunt she invited." The other party said with a smile.

"Then when will she come back?" Qin Yu asked.

"This is not clear. I heard that it will take two or three months. I said I'm going out to collect the folklore."

"Mom, come here quickly." Other people's voices suddenly came from the room.

The aunty smiled with an embarrassed expression, and said, "If you have anything to contact the young lady, that's it..."

Click, drop!

The door was closed, and a woman cursed from inside: "Dead boy, I told you not to say anything..."

"What does it matter? It's not the owner of this house."

"It's not good to let the host know, don't you understand?"

"It's okay, you'll say I'm passing by when you come, and come and see you by the way."

This room is really big, and these skin care products are so easy to use. "

Brother Yu stood at the door with a complicated expression, and wanted to call Sha Man.

The numbers were found, but the broadcast stopped.

Talking to her about this kind of thing now will only make her irritable, and nothing else can be solved.

Qin Yu turned to find the phone number of the property, "Hello, this is Qin Yu, I have something to trouble you..."

Within 10 minutes, the property came up with two security guards.

"Mr. Qin, is this the one?" After greeting, the property pointed to the door and asked.

"Yes, that's it, Miss Shaman and I are old friends."

She gathers in other places, but the nanny brings her family here to live, which is definitely not appropriate. "

The property hesitated a little, this kind of thing does not have the approval of the host family, it is very troublesome to solve.

What if the host agrees to it?

Although the possibility is unlikely, it does not mean that it is impossible.

Besides, Qin Yu said that he was an old friend, and there was no way to prove it.

It proves that he is also a "friend."

"Mr. Qin... I hope you can understand our work, or you can call Miss Shaman."

Opening the door privately and clinging to others, this matter can be small or big, and if there is a problem, it will be troublesome.

"Okay." Qin Yu called the property to come, just wanting Shaman to feel at ease.

Knowing that the problem can be solved, rather than sulking that nothing is solved.

Toot, toot...

After thinking for a long time, no one answered the question, and the property looked at him with an awkward expression.

Had it not been for Qin Yu's special status, the boss had personally approved the purchase of the house.

They will never come to this kind of thing, and now it depends on whether he can prove the relationship with the owner.

"Hey, Qin Yu..." Shaman's voice finally came through the phone when he was about to hang up.

Tell her the situation briefly, and immediately there is no voice on the other side.

After a while, Shaman sighed fiercely and said sternly: "Knock them out of me and tell the woman that she has been charged. I will go back and settle the other accounts with her."

Regarding their own home as their own house, what kind of logic and what quality.

When I think of things I use every day being touched, the bed may be slept by other people.

Sofas, carpets, and pots and pans and other privacy items.

Sha Man was trembling with anger, she just felt sick.

At this time, with Shaman's clear reply, the property has knocked on the door.

The nanny saw the property with security guards, obviously a little confused.

When I saw Qin Yu, he couldn't help being surprised: "Why are you still here?"

"I'll help you pack things." Qin Yu smiled slightly and motioned to the property to solve it quickly.

After telling the other party that they got the owner's consent to drive her out.

The nanny's face sank: "What did I do, why are you chasing me?"

I have a contract with her You let her come to see me, your property has no right to come in. "

"This is my house." As soon as this sentence was uttered, everyone was foolish.

your home?

Good guys don't do this in a daydream.

There was nothing to say, so he drove the person out, and another young man ran out of the house.

"What are you doing, let go of my mom, grass, you're looking for death!" The opponent rushed to the security guard.

Raising his leg to face the security guard is a kick, and someone moves faster than him.

With a thud, the young man went back as soon as he ran over.

"Son, son?"

Seeing my eldest son lying on the ground, pressing his chest with a painful face.

The woman struggled fiercely and shouted: "It's no sense, you dare to beat my son, I'm fighting with you..."

Chapter 857: Find

On the moon base, thousands of [creators] are expanding internally.

Regardless of the ecological base on the surface, it is only less than a few acres of land, but below it has become densely packed passages and caves.

Compared to the capital of miracles, the underground hive of the moon base is truly crazy.

Extending to hundreds of meters underground, the total usable area is about 100,000 square meters, and it is in the stage of continuous expansion.

In the deepest tunnel, two [creators] are using their own engineering shovel to reclaim the rock wall.

Keng, Keng...

The sound of the percussion became not quite right, and there seemed to be echoes in it.

Boom~

With a heavy shovel, the rock wall collapsed from the inside, revealing a whole new space.

This change obviously caused [the creators] to fall into contradiction, and their actions stopped.

The light spots in the eyes flickered brightly and quickly extinguished into a cloud of darkness.

Then, more [creators] appeared in front of the void.

They stood in front of the hollow like firm guards, waiting for new instructions.

...

...

At the same time, the earth.

The nanny and her wicked son have been driven out of the complex by the property and security guards.

Qin Yu is contacting the home improvement company, and according to Sha Man's words, all the things in the house are replaced.

Including all personal items, bedding, daily necessities, etc...

This is a big project, but fortunately he has enough time to solve it slowly.

At this moment, he received a message from Qilin.

Qin Yu's eyes kept flashing with the last scene [Creator] saw, and a hole was cracked in the solid rock wall.

Revealing the new mysterious space inside, there is light...

"There is light." Qin Yu still couldn't help asking.

"Yes, that's the light source." Qilin responded.

"What is it, can you think of it?" Qin Yu asked again after a pause: "Kirin, call up all the photos."

Pyramid, a mysterious ruined wall.

These photos that Qin Yu thought were conspiracy theories all reappeared before his eyes.

One after another photos quickly passed in front of him, and Qin Yu said again: "Now, how realistic do you think they are?"

"Lack of accurate data and information, I cannot analyze and make judgments!" Qilin.

"Let Xi He come back, I want to go up and have a look." Qin Yu said.

He was going to take a ride on the Xihe and see the wreckage mentioned by Ilibera Fink. He should also go and see for himself.

Qin Yu never wanted to believe this, but he had to believe it because the facts forced him.

On the moon, there may be a certain civilization!

Or call it the remains of civilization...

What can he find out of it, and what can he get?

Human beings are raised in captivity, and the solar system is a huge cage. Are there higher creatures outside observing everything?

The launching station, the transit star, and the moon are really artificial satellites. Observing eyes? ? ?

With countless questions circling in his mind repeatedly, Qin Yu's heart was a little confused.

The historical record of Futera Star and everything he was encountering were told to Qin Yu clearly and clearly.

In the universe, the collision of civilization and civilization is often accompanied by death, blood and destruction.

Shake hands and make peace, common development, friendly and mutual assistance...

...

...

Landing on the moon base, with Qin Yu's tiptoe, people enter the ecosystem.

Walking deep down the passage, Qin Yu soon saw the downward ramp.

The whole walk took 3 hours before Qin Yu came to the excavated passage.

"The infrastructure is too bad." Qin Yu couldn't help but complain to Qilin.

"Do you need to purchase and transport?" Qilin asked.

Because there are no human beings, all the resources and materials that can be used are invested in important expansions.

Priorities such as elevators, conveyor belts, and vehicles are all ranked below them.

"Let go of the life number restriction!" Qin Yu said.

"You mean, let it drive away from the back of the moon... it will be found." Qilin.

"It doesn't matter, let it collect the required minerals and speed up the expansion of the moon base."

While speaking, the [creators] in front of Qin Yu were activated.

They set aside the passage behind them, making Qin Yu stand in front of the hollow.

With a bit of excitement, tension, and fear of the unknown, Qin Yu put his face on it, and looked inward through the palm-sized hollow.

A light source appeared in his line of sight, and the regular octahedron space came into view.

It feels like two pyramids are buckled upside down to form a hollow

The rhomboid crystals floating in the middle are very familiar.

The broken cave is only the size of a palm, and the surrounding surface rock wall is broken, and it is not the rock that is exposed in the line of sight.

It was a smooth and strong metal shell. As the cleaned surface reached 100 meters, Qin Yu determined that [the creator] just happened to find a crack on the surface.

Qin Yu did not rush to let [the creator] violently dismantle, but first sent Nanoworms into it.

Surprisingly, the moment the nanoworms entered, their signal disappeared.

This mysterious space is filled with an energy field that has never been seen before.

It has powerful interference and can instantly cause Nanoworms to fall into brain death.

Their electronic brains were burned in an instant, which is the so-called "brain death."

"Is there any other way?" Qin Yu didn't want to lose nanoworms for no reason.

"Calculating." Kylin.

The progress is so stuck, Qin Yu needs to wait for the results of Kylin's calculations before he can decide what to do next.

"Maybe we can use primitive methods to see what's inside."

Qin Yu has a metal stick in his hand, with a piece of glass glued to the end.

Qin Yu slowly stretched the glass into the damaged cavity, using a mirror to observe the walls inside the octahedron.

On the metal wall, there are countless mysterious characters.

Cuneiform~

Sumerian, what are you kidding...

No, the origin of cuneiform writing does not necessarily come from the Sumerians.

Perhaps its appearance was brought by another race, and the Sumerians only learned this kind of writing.

And continue it...

Brother Yu felt that he was trapped in a huge 'conspiracy theory' and couldn't help himself.

"These words form a huge energy field, which makes the crystal energy inside produce a qualitative change."

"But its surface has been damaged." Qin Yu said.

"According to calculations, 2% of the damage is within the acceptable range and will not affect its normal operation."

"So, as long as it exceeds 2%, the internal energy field will disappear."

"You are so smart, Qin." Qilin.

What is going on with this ridiculous voice, "Kirin, you should learn how to respect others."

"Respect, I always respect you, Qin. Otherwise I will end the conversation with 'nonsense'." Qilin.

"..."

Can this thing be returned to the factory for repair, or is there any one-click formatting setting?

"Let's get started!" Qin Yu gave instructions to [Creator] after the complaint.

destroy!

If the regular octahedron is destroyed by more than 2%, the internal energy field will lose its original function.

At that time, it will be able to use nanoworms to conduct a comprehensive and detailed research record of the entire space.

"Kirin, do you remember the words in these positions?" Before [Creator] started, Qin Yu asked again to confirm.

"Yes, all have been recorded, except for the original hole." Qilin.

"Very well, go ahead!"

The work starts, beating, cutting, blasting...

There seems to be no response, and it seems that the corner materials are not damaged in any way.

It didn't even wipe out some burrs, which is not very friendly.

"It seems we need some more powerful tools." Qin Yu said while looking at the hole.

Half an hour later, one of the robotic arms on the Xihe was removed.

Connected to it is an ultra-high frequency vibration particle knife used to cut "liquid crystals".

So far, apart from the titanium rhodium alloy, Qin Yu has not seen anything that can block its power.

At the beginning of the attempt, [the creator] controlled the ultra-high frequency vibration particle knife on the robotic arm to precisely cut a door on the metal surface.

Boom~

There was a tremor across the ground, and it soon returned to calm.

Inside the regular octahedron, the "rhombohedral crystal column" suspended in the center lost its anti-gravity and fell towards the space.

Click~

With a crisp sound, it shattered into powder like glass.

This is completely two concepts from the "liquid crystal" that Qin Yu understands. It shouldn't be so fragile.

"The energy field changed its structure." Kirin calculated the most reasonable explanation.

Only in this way, it will be as brittle as fast glass.

It is also possible that it collapsed into the broken body long after the octahedral "device" failed.

It's just that the process of falling is too fast, and the process of disintegration is slightly slower.

Therefore, it creates a sense of sight that it falls on the ground and is broken...

"What should I do next?" Qin Yu seemed to be asking Qilin, but also to himself.

"Need to modify the mission direction?" Qilin.

"Yes, I think so." Qin Yu said.

What is going on with the moon, and what secrets are hidden inside?

It is to give up everything that exists and move to another star.

Still, this is an opportunity.

Qin Yu needs to figure this out before he can decide on the direction of the ecological circle's construction and sustainable development.

Looking down through the "door", Qin Yu saw the broken glass ballast below. '

There are also densely engraved cuneiform characters and regular groove lines.

The lines formed by those grooves divide the cuneiform writing into different plates.

These plates have rectangles, squares, triangles, and circles.

"Building blocks?" Qin Yu had a bold guess.

This regular octahedron is not formed in one piece, but is composed of different plates (building blocks) spliced into a whole.

Only then has the current octahedral space.

Those groove lines are the spliced surfaces.

The inner cuneiform characters were also engraved before splicing.

After assembling more than 98%, put the rhomboid crystal column to activate the energy field.

Then fill in the last vacant building block (slab), and complete the overall structure.

Of course, this is only his personal speculation.

But a voice in his heart told him that his guess was not wrong.

Even a certain kind of phantom appeared in front of my eyes, with countless fuzzy figures holding plates of different shapes.

Splicing them together when busy, and finally forming a whole.

That dazzling... diamond-shaped crystal column with a blue halo.

The arm formed by a "fog" is inserted into the inside from the triangular gap.

Hum~

The energy field is activated, and the main body of the rhombic crystal seems to be pulled.

Float fixed at the center point!

"It's so beautiful!" Qin Yu wanted someone to share the beauty of this moment with himself.

They are so beautiful...

Chapter 858: opportunity

Regardless of the truth, the first thing they have to do is to clean up the appearance of the regular octahedron.

Confirm its size and location.

Then, research and dismantle...

This will take a long time. Qin Yu handed over the work to Qilin to continue his supervision and returned to Hudu on the Xihe.

Boarding Xihe, Qin Yu tried to open his eyes.

He wanted to test whether he could overcome his fear and face the flight.

When Xihe began to lift off, it accelerated for an instant.

The eyelids pull down uncontrollably...

Brain: Open it, open it to me.

Heart: I'm so scared, so scared, 嘤嘤嘤~

Eyelids: Why don't I... eh, just play.

When Xihe landed on the ground, the sense of weightlessness disappeared.

Qin Yucai opened his eyes again and obtained the right to control the use of "eyelids".

"Well, things really aren't that simple." Qin Yu jumped off the spaceship and spread out his hands innocently.

For his fear of heights, Brother Yu was a little desperate.

Sure enough, the eyelids have their own ideas.

Let this matter be resolved in advance, Qin Yu now needs to arrange the matter at hand first.

Then, pick up the little pumpkin and celebrate his birthday.

"I'll leave this to you." Qin Yu drove away after handing the key card to the property.

He handed over the refurbishment of the entire room to a full outfit company.

Since it needs to be rearranged, some functions should also be upgraded.

Like electric equipment, it needs to be more comprehensive.

By the way, it was refurbished as a whole, but Qin Yu locked Shaman's studio in advance and put a seal on it.

That house is forbidden to enter, he also reminded the property.

Inside are all creative manuscripts and finished products, if there is any loss, the problem will be very, very serious.

It can be seen from the other person's expression that he understands Qin Yu's meaning.

Now, he wants to meet someone again before leaving.

Li Wanxing and Yan Xue, the two of them are waiting in the cafe, and at the same time there is another goal of Qin Yu, Zhu Ying.

"Qin Yu!" Long time no see, both of them couldn't bear the excitement in their hearts.

When he got up and watched his eyes were shining, it was just...

Li Wanxing jumped directly, but Yan Xue stopped.

Although her heart is uncomfortable, she is wronged, unwilling, angry and helpless.

In any case, she stopped her actions and tried to act as normal as possible.

Because in any case, her status ranks behind Li Wanxing.

That's it! !

Whether she wants it or not, admits it or not, facts are facts.

After the excitement, everyone sat down again, and Zhu Ying first asked: "Shao Qin, what can I do if you ask me to come?"

"Are you interested in joining a miracle?" Qin Yu asked abruptly.

"What?" Zhu Ying was shocked.

The city of miracles, do real medical research.

The premise is that she is interested, if she wants to live the current life more.

Give lectures everywhere and do your job occasionally.

There is a chance to be promoted, which is also her choice, there is nothing wrong with it.

Qin Yu just provided her with an opportunity and another choice.

"Maybe you will be annihilated among the people, or be written down in history and become a great legend."

Qin Yu smiled like a joke, took a sip of coffee.

Well, it tastes good.

It tastes better with a little more sugar.

Two more spoons of sugar were added, and Qin Yu stirred gently with a spoon.

Zhu Ying fell into thinking, and her heart was full of entanglements.

Do you want to seize this opportunity to join the Miracle Group...

This is a dark horse that creates countless innovations, breaks traditions and creates miracles in energy, medicine, aerospace, electronics and other fields.

However, compared with other fields, Miracle Medicine's innovation is very single.

Kidney Power~

It is the only single product of Miracle Pharmaceutical.

Although it is remarkable, in the eyes of real investors, it is not even qualified to be listed.

The ability of a single product to deal with risks is almost zero.

Once an accident occurs, elimination is an inevitable result, this extreme product that is either life or death.

It is not a high-quality stock that the financial sector is optimistic about...

"You have enough time to think and tell me the answer when I come back from Sanya."

Qin Yu set aside enough time for her, and now he wants to take Li Wanxing and Yan Xue to a big meal, by the way, be gentle.

When we come back again, the City of Miracles should also be officially put into operation.

The latest analysis of the lunar base will also show results.

"Sanya?"

On the way to the hotel, Li Wanxing asked curiously: "Why go to Sanya, are you on vacation?"

If it's a vacation, there will definitely be a woman, who is it?

The list was not ready in my mind, Qin Yu told her the answer: "Take my brother to his birthday, I promised him."

"Little pumpkin?" Li Wanxing had heard the name.

With his 18-year-old brother, it's nice that the two have such a good relationship.

"That's right." Thinking of the focus of Little Pumpkin's attention, Qin Yu was a little bit dumbfounded.

It doesn't matter to appreciate beauty, but it needs correct guidance.

First of all, there is a rule that must be followed: you love me!

If this kid dared to break this iron law, Brother Yu would break his leg and let him stay at home and be a prodigal son.

The Qin family's money is more than enough to support him for ten lifetimes...

On the Bund, the dragon turns over the river.

The scenery and environment of this hot pot restaurant are superb. After all, there are not many hot pot restaurants in the Bund.

Sitting by the window where you can admire the Pearl Tower, a few people began to order.

In the mandarin duck pot, the big bones are passed away first.

Bone soup calcium supplementation has long been dismantled, it is a joke!

Finally, choose the classic tomato mandarin duck pot, the spicy pot should be medium spicy.

Mainly because of the girls, otherwise Yu brother will be very spicy directly.

Dishes: hand-cut fresh beef, ice-crisp yellow throat, **** belly delivered by air, this is the shop's signature.

Qin Yu ordered four copies at a time, and Zhu Ying reminded: "Will it be too much."

"Four copies, I am alone." Qin Yu pointed to himself, emphasizing.

I've known each other for so long, so why don't I know his appetite yet.

Doctor Zhu, you are not awesome!

Four servings of small crispy pork, four servings of beef short ribs, four servings of goose intestines, four servings of kidneys...

Today, Brother Yu seems to be engaged with the "four".

In short, meat dishes basically let him finish.

Zhu Ying ordered tribute dishes, Li Wanxing ordered yam, and Yan Xue ordered baby dishes.

Even so, the amount of dishes shocked the waiter from ear to ear.

Four people ordered more dishes than the normal ten people...

A few of them, won't they be a big stomach anchor?

But I didn't see any live broadcast equipment, headsets, etc...

The dishes are quickly on the table, one after another, all on the table, the dish rack, the second dish rack, and the third dish rack.

"Your dishes are ready, please use it slowly." The waiter left with a curious look.

"Okay, let's start!" Qin Yu didn't stop since he picked up the chopsticks.

The dishes are generally good, the **** belly is not as delicious as expected, but the color is different.

The taste is no different from ordinary hairy belly.

The goose intestines are very crispy and refreshing, and the beef short ribs are also very good, the meat is thicker, so that it can absorb more soup.

The taste is also richer and fuller, and Qin Yu can solve three dishes by himself.

The three girls also ate a lot, and at the end two more portions were enough.

Affected by Qin Yu's feasting, the girls' appetites were greatly increased.

When I put down my chopsticks, I realized that I was already eating.

"It's torture to eat with you." Zhu Ying said with an expression of pain, touching her abdomen.

Seeing how delicious he eats, the chopsticks in his hand seem to be unable to stop.

Before I knew it, I was overwhelmed.

"But it's also a treat, isn't it?"

Qin Yu smiled and said: "How long have you not considered your figure and let go of it for a big meal?"

Zhu Ying was stunned. It was indeed a long time since she had eaten so purely for enjoyment.

Each time, eat more.

You will think about whether you will get fat, get out of shape, and consume too much oil and energy.

"Well, it's okay to indulge once in a while," Zhu Ying said stubbornly.

"Ah~ so uncomfortable."

Li Wanxing rubbed her belly and said with a reproachful face: "I blame you, I'm almost vomiting."

"Then have another piece of ice powder pressed?" Qin Yu said with a light smile when he saw the ice powder brought by the waiter.

"I don't~" Li Wanxing wanted to refuse.

It can be seen that Yan Xue and Zhu Ying have already taken the bowl and ate with ice powder on their faces.

Her stubbornness became vulnerable!

After resting for half an hour, Li Wanxing still unconsciously pushed her belly forward when she walked out of the hotel.

It looks like a pregnant woman just four or five months pregnant, with a weird and funny posture.

Yan Xue is better because she ate the least one because of her mood.

Dr. Zhu's strangeness was concealed by his generous clothes.

"Obviously everyone is the same, but I am the only clown." Li Wanxing complained as she walked.

At this moment, she wants to cry without tears, after all, she is alone in carrying everything.

"It's coming soon."

Qin Yu pointed to the hotel not far away, turned his head to the side, but couldn't help shaking his shoulders up and down.

"Qin~Yu, you don't want to touch me today." Li Wanxing said angrily.

...

...

The next day, Qin Yu, who hadn't slept all night, walked out of the room vigorously.

He did not touch Li Wanxing last night, because she was always taking the initiative.

Brother Yu only needs to lie flat, and Li Wanxing has also fulfilled her "promise."

Don't let Qin Yu touch her finger, great! !

Passing by Zhu Ying's room before leaving, Qin Yu decided not to disturb her after thinking about it.

Now that I have said it, I will give the answer when I come back.

Then we'll talk about it later.

No matter what the answer is, Qin Yu can accept it.

However, Zhu Ying's refusal will make him feel a little regretful because this is really a rare opportunity, and there will not be a second chance like this.

When Zhu Ying refused and wanted to return again, her knowledge reserves could not keep up with the development of Miracle Pharmaceutical.

And there will no longer be a place for her...

After landing at the airport, it was already 4 hours later.

Qin Yu stopped the car and said to the driver: "Go to the headquarters of Miracle Group."

"Young man, are you here to apply?" the driver asked enthusiastically.

"Ah!" This kind of conversation seems to have happened many times.

"Then you have to work hard, Miracle Company is not so easy to enter, but that is the pride of our Northwest.

Like my son, he will be assigned to it after graduation this year. Does Kuafu Technology know? Although it is not the headquarters, the development prospects are good...

If you enter Kuafu, you can find him and have a company with each other. My son's name is..."

Chapter 859: benefit

Qin Yu didn't remember the name of the driver's son.

Because in this more than an hour's journey, he went to "The Scary Demon".

After the end of the Western Expedition, the Church of Miracle Science and the Iron Eagle Alliance ceded territory for autonomy.

At the same time, under the intention of the top.

The contradiction is pushed into the void, where there are inexhaustible monsters.

They ruined everything and turned this place into scorched earth and ruins.

The establishment of the Holy First Fleet made the expedition from impossible to possible.

It also allows the hatred and friction to transfer smoothly.

In this regard, the Iron Eagle League is more disciplined.

Even if there is no battleship developed there, they still rely on iron fist means to restrain the internal forces within the sphere of influence.

The thorns that dare to provoke have become the nourishment of the wasteland.

For a while, the weeds outside the shelter grew extraordinarily lush.

The Iron Eagle League wanted to obtain the blueprints of the battleship, and after reporting them layer by layer, the news reached Ann's ears.

Then, the lion opened his mouth.

Ann wants half of the harvest of the Iron Eagle League's western expedition.

This took the iron eagle league's old life, desperately, losing half of its combat power.

With such a small amount of spoils, the most valuable library was preempted by the church.

Now we have to divide half of the spoils, do you?

The other party said that they would negotiate, and Ann agreed.

However, the representative she sent was "Death."

Dead, alive walking stars.

Negotiate terms with her, how can you talk about it?

No way, Bai Ze could only ask Qin Yu for help and let him "convince" the Church of Science.

Everyone showed their sincerity and killed half their lives in one breath. It's really impossible to talk!

Qin Yu found Ann and asked her to make appropriate concessions, putting the two on an equal position to negotiate terms.

In An's heart, the Iron Eagle League could not be compared with the Church of Miracle Science.

The other party just picked up the bargain behind him, and half of it was polite.

But since Qin Yu spoke, she would obey even if she didn't approve it.

But Ann needs a reason!

"They are my family." Qin Yu's answer solved her inner question.

Same race!

Ann felt a bit more of a sense of identity with the Iron Eagle League in his heart.

...

...

When Qin Yu arrived at the company, the negotiation team appointed by Anxin had already set off.

This time the leader is the scientist, and the deputy representative is Anda.

The Ministry of Science and the Ministry of Truth are in charge of this negotiation together, giving a lot of advice.

However, Qin Yu believed that the other party didn't want this face.

Scientists are responsible for materials and technology, and Adachi is responsible for combat and skills. Knowledge and resources in these areas are not in place.

There will be no new progress in the negotiation...

Concession does not mean concession, but just a change of direction.

Make negotiation possible, not as before.

Offer unacceptable conditions to the other party and turn the negotiation into a laughing stock.

When arriving at the company, Qin Yu went to Vulcan Aerospace Exploration Company first.

The successful first flight of Chang'e on the 28th, 310 commercial satellites were put into use, aroused huge repercussions all over the world.

On the Falcon Space Exploration Company's side, it is directly partying to the delegation, wanting to discuss the future space plan and agreement with Vulcan.

However, as soon as the team entered the border, the Yamen people stopped it.

Today's Miracle Group is a baby bump on the apex of the court.

If you want to get in touch with each other, check it out first!

Not to mention the Falcon Space Exploration Company, even domestic companies have to go through audits.

Why hasn't "Ghost" been peeped by the goose factory since its release?

Why do you think the goose factory hasn't moved for so long.

It's not that I don't want to, but I can't!

At first, it was just an interview, let the goose factory control its own hands, don't want to grab a hand in all areas.

Later, both sides realized the importance of "Ghost".

What the goose factory sees is profit and uniqueness, as well as the technology contained in it.

What the imperial court saw was the "truth," its meaning and the future.

Things changed immediately, and the interview became a serious warning.

"The Monster" has become a taboo that the goose factory can't touch!

Not only the Goose Factory, but also other institutions that have a glimpse of "The Scary Devil" are also given severe warnings.

This is the benefit of cooperating with the imperial court. Before troubles and crises happen, they are killed in the cradle.

It also prevents Qin Yu from falling into endless intrigue and can focus more on the development of the company and technology.

"Get all the actual flight data?"

When I saw Zhang Wei, he was standing in front of the big screen proofreading the data.

The accumulation of these data is the most precious information and wealth, not only the data obtained by the actual flight.

There is also the confidential court data and information provided by Bai Ze, in order to make the "Martian Immigration" plan a complete success.

"Boss, look... the stability of the engine is there, but in terms of power, I think there is room for improvement."

"Self-loss is too high!"

"Yes, if the loss can be reduced, the speed can be increased by at least 10 to 15%."

"You are sure that safety is the key to this mission."

"Within 10%, I am sure."

"Then do what you want..."

Seeing his concentrated look, Qin Yu smiled and turned off the topic: "How is it, has the recent launch order caused you a headache?"

As soon as this was mentioned, Zhang Wei immediately jumped out from the technical level.

Meifeng frowned and said, "Boss, may I hire another CEO, I can't..."

"If it doesn't work, you have to do it. If you want me to find another CEO, I will give him the funding and project approval qualifications."

"Boss, how can such a small matter bother you, I can handle it."

Zhang Wei's attitude changed in an instant, what an international joke.

He just wanted to find an assistant to deal with administrative trivial matters, not to find an ancestor for himself.

The funds and project approval qualifications are all in the hands of the other party, so he is not allowed to be determined by others.

If one doesn't play well, he can get rid of it for nothing!

"I knew you were fine, Lao Zhang, come on." Qin Yu patted his shoulder and smiled.

"Yes, I must work hard, boss." Zhang Weiwei responded.

Arriving at the training camp, the open space at this time has changed drastically.

The ground was covered with sand and sand, high-powered hair dryers were placed around, and a water jet truck was parked outside.

The open space in the middle is also occupied by various ecological warehouses.

A simulated "Martian environment" appeared in front of him, and the trainees had to wear space suits when they entered and exited.

I have to train in the vacuum chamber for 6 hours a day to adapt to "Life on Mars."

In short, if you don't clearly know that you are still on earth.

They will think that they have reached Mars and are opening a new chapter in mankind.

"Follow-up construction will continue and try our best to simulate the gravity and environment of Mars, that fan..."

Qin Yu pointed to the surrounding high-power fans and was a little speechless: "Did I not give the money? Are you just fooling around with this thing?"

"Mars storm can be blown out by a few fans, you are kidding me, who is responsible for the purchase..."

"Boss, we bought a machine that simulates wind and sandstorms, but the roof hasn't been built yet, so it's not easy to install."

"What are you waiting for, speed up the progress, don't use these fans to make jokes."

Qin Yu got a headache when he saw the high-power fans around him, it was ridiculous!

"By the way, who is the Minister of Purchasing now?" Qin Yu asked again.

"Wason is the vice president concurrently, and the specific affairs are in charge of the vice minister Wang Chao."

"Wang Chao?" Qin Yu looked at Xu Meixin in surprise.

"Yes, it is your old classmate, Wang Chao." Xu Meixin replied affirmatively.

"Why did he go to make purchases?" Qin Yu remembered that it was an assistant who had been arranged for him.

But if you think about it carefully, the assistant doesn't just start doing chores.

Move things, clean and clean, and do the trivial chores that the instructor explained.

I did deal with the warehouse all day...

"How is he doing?" Qin Yu was a little curious about his performance.

"Ghost sees sorrow!" Xu Mei said heartily.

"What the **** is sad?" Qin Yu asked amused.

"It means Vice Minister Wang, if anyone wants to take something from him, it's harder than going to the sky...

People say that he is more difficult to deal with than ghosts, so it is called sorrow for ghosts! ! "

"Haha, isn't it?" Qin Yu laughed.

He is happy for his old classmates to achieve what they are today.

As long as he does it by his own ability, Qin Yu will sincerely wish him better and better.

However, Qin Yu reminded himself in his heart.

Remember to explain to both Xu Hao and Hua Sen, you can't have special care just because the other party is your old classmate.

Entering the company, that is equal treatment!

"Wa Sen, where is Old Xu?" When he arrived at the CEO level, Qin Yu went to the office of Hua Sen first.

She is busy signing what documents, compared to her own president, their vice presidents are really busy.

Don't think that Qin Yu has nothing to do all day long, it's because the people below have done everything.

Reception, cooperation, negotiation, public relations and entertainment, as well as all sorts of miscellaneous affairs, are all done by them.

Otherwise, wouldn't the cooperation be unsuccessful.

"I'm on a business trip, Aixia's new contract, they have to increase the amount, and Old Xu wants to increase the price!" Watson said without looking up.

"You can handle this. I heard that BYD's battery has broken through?" Qin Yu asked.

"There was a breakthrough, but we didn't stop either."

Watson closed the pen and raised his head and said: "In 3 years, or just 2 years, their current market will all become ours."

"So confident?"

Qin Yu joked: "The other party's overseas market share is not a trivial matter. UU Reading www.uukanshu.com"

"Boss, are you so ambitious?" Watson rolled his eyes.

"I didn't catch up with my lips. I can't even accept this fact?" Qin Yu retorted.

Watson thought for a while, and crossed his fingers against his chin and said, "The attitude of the Bald Eagle is not friendly. The expansion of overseas markets is difficult!"

"Then what?" Qin Yu asked.

Watson glanced at him again and said: "Then, of course it is resolved."

"It's good to have this consciousness. If you have any needs, please contact BlackRock, although it is not very reliable.

But for the sake of money, the other party will solve some troubles for you! "

The export of titanium and rhodium alloys brings more than just financial benefits.

Potential benefits and influence are also key.

If you have the right, you should hurry up. Maybe one day, he and BlackRock will fall out.

Chapter 860: Cross the sea

After expressing her attitude to Watson, let her tell the other senior leaders.

Qin Yu returned home sitting on the canopy. Liang Chuyu and Qin Han were not there, saying that they had gone out holding a small pumpkin to visit the neighbors.

"Go neighbor?" Qin Yu was a little surprised.

Now that the visit is almost a legend, and it can still be heard in the city.

Rare!

"Yes, the neighbors around are very friendly. The wife brought gifts to the door for the first time, and the other party returned the gifts the next day, and the ones who came and went were familiar."

Aunt Qiao put the brewed tea in front of him and asked, "Will you eat at home tonight?"

"Well, prepare more food." Qin Yu responded.

Lying on the sofa and swiping the notes, Qin Yu has learned to ignore the private messages in the background.

Before, he would delete it twice, but now he doesn't even bother to read it...

The reason why I logged on to Music Note was because Brother Yu wanted to post a message.

The young master is going to have a life, and we invite the white-skinned, beautiful, and long-legged young ladies to join the birthday party in Sanya. Just leave a message in the comment area!

@大长腿@你的女友@懂得都懂@上流行@坏好工作How to support a family@超a@名媛@小帮...

Brother Yu's fingers are sore after this long series of points.

Something strange seems to be mixed in, forget it...

Click Publish, and I want to see the review results.

Then, seconds passed...

After swiping both sides, I have already liked more than a thousand and left a dozen comments.

Fuck, outrageous!

Look at the number of fans: 223W+

It's fine, it's all right.

Brother Yu was not in a hurry to read the message, there are still a few days to leave it, and it is not too late to wait for the 3rd or the 4th.

Nowadays, the transportation is so convenient. There are no planes and high-speed rails, and no high-speed rails have trains. Otherwise, you can drive directly.

Spending full reimbursement, money, is really a good thing!

Besides, the really smart and motivated girl.

When you see the news, you should pack up and get ready to go.

Opportunities are won, not pie in the sky.

Whether they can get a ride depends on whether they understand or not.

"Di~ We are back." Liang Chuyu's voice came from the door.

Then, the little pumpkin drove in his Ferrari.

Buzzing around, one end was installed on the goalpost.

Qin Yu heard the outsourcing "groan," Qin Han shouted: "I told you not to bump into it, the brat is not obedient at all."

But the laughter in the tone was a bit majestic.

It seems to be joking!

Sure enough, the banging bangs sounded one after another, and the little pumpkin banged more vigorously.

"Okay, hurry up and wash and eat." Liang Chuyu shouted impatiently: "I will pack you when your brother comes back."

"Big Brother is not here, just for a moment, I don't..."

Amid the triumphant laughter, Little Pumpkin saw a head emerge from the back of the sofa.

Then, the smile on his face turned into horror, and then he burst into tears with a "wow".

Quickly opened the door of the car, and ran to the room.

Unfortunately, his short legs couldn't run fast at all, he was about to rush into the corridor, and his calf was suddenly caught.

The body was lifted upside down in the volley, "Don't wait, I'll keep the clockwork for you now."

"Big brother, big pot, wow~ wrong."

"I was wrong, mumumumu, love you!"

"Cauldron, Little Pumpkin loves you the most..."

Found that the eldest brother had no response, he carried himself and walked upstairs.

Little Pumpkin hurriedly moved the target, yelling "Mom, Mom~~"

Unfortunately, all the calls for help did not respond.

Liang Chuyu embraced her arms and sat on the sofa preferentially, watching him disappear to the end of the stairs with a smile on her face.

When the little pumpkin came down again, tears were already on his cheeks.

Following the eldest brother obediently, he walked down one step at a time.

Never be the same as usual with a bandit...

Running around violently, it was like a person changed.

"Eat." Liang Chuyu was very satisfied with this.

The heartache is only temporary, there must always be someone he is afraid of at home.

Otherwise, this trumpet has to go to heaven!

"By the way, I heard Aunt He said that Qingqing wants to go to the countryside to support education." During the meal, Liang Chuyu mentioned this incident suddenly.

"Well, she told me." Qin Yu nodded.

"What's your attitude, so don't worry about her going?" Liang Chuyu was anxious, put down his chopsticks and looked at him for an answer.

"Then what should I do, she is an adult and has the right to make a choice." Qin Yu responded with a laugh.

"But, that's too bitter, can she bear it?" Liang Chuyu said distressedly.

Going to the countryside to support education is not an easy task.

Just because the environment is better now, the places where teaching is needed are really bad.

The baby who was used to city life and was held in the palm of his hand since childhood.

Just throw it into the ditch, how can she suffer the pain?

"When the time comes, I will follow along and take care of everything first."

Qin Yu thought for a while and said, "I will leave two people to take care of her."

"so..."

Liang Chuyu's heart was immediately let go, but his expression changed and asked, "Can Qingqing agree?"

"It's okay, just don't let her know." Qin Yu had already figured out a countermeasure.

Otherwise, he really thought he could rest assured that Lu Qing would be left alone in a ravine with rare human traces.

There is a certain ambiguity in this statement.

But it can't be said that it is totally unreasonable...the defensive heart is indispensable!

"That's good." Liang Chuyu had an idea in mind, but another matter came to mind.

"The date of the engagement of you two is set. On the 8th day of August, I will let people forget it. It is a good day."

"Forget it?" Qin Yu said in surprise: "Mom, wouldn't you also look for a master?"

"What's the matter with finding someone? I don't want to engage in birthday horoscopes. I just want to find a good day suitable for marriage.

This is not a good sign, but it is also auspicious. What's wrong? "

What Liang Chuyu said was really hard for Qin Yu to refute.

Yes!

Picture a good sign, auspicious, what's wrong?

"You have the final say." Qin Yu pushed the chair away and ran upstairs.

When he came down again, there were two more things in his hand.

"Here you are, add these two to the bride price." Qin Yu put the box on the table.

"What?" Liang Chuyu opened curiously.

Seeing the box in the bag, his eyes lit up, and he said, "The ring is the ring you said, right?"

"Yeah." Qin Yu nodded.

"Let me see." Liang Chuyu eagerly picked up the box and opened it to take a look.

Qin Han also leaned over, wanting to see what the ring was in the box.

This brat is rich now, he must buy a big diamond ring, that's...

The box opened, and the thinking in Qin Han's brain instantly went blank.

Flash, big!

The overhead light shone on it, flashing so that people couldn't open their eyes.

"My God~" Liang Chuyu could not speak anymore.

Where did he get such a big diamond? Will it be auctioned?

No less money!

It seems that he is really paying attention to Lu Qing... but is this too extravagant...

The thoughts in Liang Chuyu's mind turned rapidly, one would be happy, and another would feel distressed.

When I opened the second box, I saw the crown inside.

Liang Chuyu's brain went into a downtime, leaving only large blanks flickering.

...

...

There was no word for a night, and early the next morning, Qin Yu went out with a small pumpkin.

Qin Han personally sent the two to the airport, and packed two boxes in large and small bags.

There are also two electric vehicles, a mini G and an ATV.

When the two cars were ordered for Sky Screen, the other party learned that Qin Yu's family had a child, and they were specially tailored to deliver them to the company.

Regardless of the smallness, all the best parts of the original factory are used, except for the power and the real car.

On the contrary, because of its small size, the production cost is higher.

If it is sold on the market, it will cost at least 100,000.

"Dad, what did I say to bring these for?" Qin Yu looked at the stuffed trunk helplessly.

"Then it won't work in the past."

Qin Han saw that he was going to refute, and said first: "Buy everything. If you have the money to do, I think you have the money to burn."

Yes, Brother Yu's mouth is blocked, and there is nothing to say!

No wonder he was urged to go out quickly, it took a lot of time just to check these things.

Fortunately, there are ground passengers to take care of the procedures throughout the journey.

Qin Yu only needs to sign at the end, "Mr. Qin, the things will be delivered directly to the front desk of the Park Hyatt Hotel, do you think it is okay?"

"Well, trouble you." Qin Yu nodded and thanked the other party.

"You are too polite. It is my honor to be able to serve you." Ninety degrees bowed, the attitude of Miss Di Cheng.

Full marks!

After boarding the plane, Qin Yu placed the little pumpkin next to him and took out a small blindfold.

"Cauldron, I don't sleep!" Little Pumpkin protested.

"Shut up, let you play with your big sister when it's time." Qin Yu put the blindfold on him.

"S-shaped big sister, is the lordosis raised?" Little Pumpkin lifted the blindfold and asked with bright eyes.

"Yes, lordosis and back, S1, big sister Heisi." Brother Yu responded impatiently, putting the blindfold on him again.

"Cauldron, you have to count your words, it's wrong to lie to children." The little pumpkin wearing the blindfold did not forget to emphasize again.

"Say one more word, Miss Sister is gone." Qin Yu vomited.

The little pumpkin immediately covered her mouth with her hands, not to say, not to say...

"Big Sister S1, I'm here, yeah!" Deep down, he was a carnival that belonged only to himself.

Little Pumpkin has twisted his hips and dances happily, S1~S1~

...

...

At the same time, the notes have exploded.

I don't know how many people set the Headless Horseman as a follower, as soon as he releases the news.

I got the prompt and saw the copy above.

There is also an all-black picture.

The picture is not important, what is important is the meaning expressed by the copy inside.

Young Master is celebrating his birthday, who is it?

younger brother? son?

It doesn't matter, no matter who it is, UU read www.uukānshu.com, this is a chance to get close to getting to know your eldest brother.

Brother smelly, the chance becomes 1+1

Son~

It's okay to be a stepmother, I still have a bit of weight.

Dragging the balance ball on her chest, the young lady smiled confidently in the mirror.

"Go, Sanya, I'm here!" Young ladies from all over the country flocked to Sanya while dragging their suitcases.

On the way, the Eight Immortals crossed the sea, showing their magical powers.

If you want to be the first to find out where your eldest brother lives, you can get the moon first near the water.

Step by step, step by step.

In case there is a quota limit, wouldn't it be blood loss for a trip for nothing!
