Chapter 961: Assembly line products

Eat to wake up and go to sleep, and then eat when you are full.

After two days of repeated life, Kenny was going crazy.

Hundreds of years of fighting has hardened his nerves like steel bars.

After relaxing, not only did I not feel comfortable!

On the contrary, there is a sense of weakness that is about to rust and decay, which is full of anxiety.

So, when Kenny smelled 'Chaos', he chose to pursue instinctive choice and fight.

"underground."

rushed into the central building with two entourages, Kenny looked at the elevator at the end with bright eyes.

[Creator] standing on both sides of the elevator felt threatened, and red dots of light lit up in the dim electronic eyes.

A threat-filled launch nest popped out smoothly on the shoulders, and the artificial joints bend forward and make a posture that is about to dive.

"please calm!"

When Kenny drew out his great sword and made an attacking gesture, a cold and tender female voice came over his head.

"Who is it?" Kenny looked up to find the target.

"I am the AI intelligence of this base, you can call me a girl." A girl.

"Artificial intelligence." Kenny's eyes flashed dangerously.

In his memory, AI=enemy.

"I have no intentions, please put away your weapons." The girl.

Kenny stood still, as if waiting for her to give a reasonable reason.

"As a guest, is it disrespectful to use force at the host's house?" The girl.

Kenny's expression instantly sank, and he put away the saw chain sword while thinking, and put it back into the card slot behind.

"Thank you." The girl.

"I smell the decay of chaos." Kenny growled coldly, he needed an explanation.

"Yes, I will give you an answer." Girl.

"Please keep up with the creator in front of you, it will bring you into the base, Dr. Shi Cui is waiting for you." Girl.

and the two entourages looked at each other, and the three cautiously followed the [Creator] into the elevator.

Buzz~

The elevator goes down quickly, but inside it is very stable.

匡.

The elevator fell to the ground and the door opened smoothly.

squeak, squeak~

The creator led them to the front. The blank corridor was full of mystery and unconsciously felt a sense of oppressive urgency.

Kenny's muscles have tightened, ready to fight.

Here, he smells a stronger smell of chaos!

The smell is disgusting, like socks that have been worn for a month soaked in water and exposed to the scorching heat for seven days.

also added baking soda and white vinegar...

噗~

The air pressure door opened, and Kenny walked into the room and held the saw chain sword backhand for the first time.

The right arm muscles bulge, the left leg is bent forward, the right leg is straightened, and the shoulders are tilted forward to exert force.

He is ready to attack. When he draws out the saw chain sword, the enemy in front of him will be cut into flesh by him.

"and many more."

Shi Cui, wearing a white lab coat, puts his hands in his pockets and looks harmless with glasses.

"Squinting is not a good thing." Kenny whispered.

but still put the attacking posture away, he felt kindness from the opponent.

Also, the chaotic aura disappeared.

"Chaos minions, where did it go?" Kenny nodded and asked the little bug ahead.

Shi Cui pushed the frame and smiled: "Are you talking about this?"

The palm is flat, the lines on the palm split into a slit, and the twisted tentacles sway and climb.

As if there is an invisible rope in the air.

"I said, don't be nervous, do you think I am like a chaotic minion?" Shi Cui put away his palm and inserted his hand into his pocket again.

Niken hesitated, he looked normal, not at all contaminated.

What he saw with his own eyes just now made him affirm that the little bug in front of him accepts the power of chaos.

So, what is going on?

After half an hour, he explained to Kenny what radiation is in the simplest and most popular terms, and how he controls this energy.

Energy itself does not have good and evil. Only the people who use it have good and evil Shi Cui snapped his fingers and smiled: "So, believe in technology!"

It's just that the more I listen to Kenny's brain, the more confused.

Therefore, I saw someone chanting "God of Flesh," and hundreds of ordinary soldiers around him fell instantly and turned into unconscious chaotic minions.

Is that picture a dream?

"Look, the crux of the problem is that his body suddenly bursts with high concentrations of radiation, so the people around him will be contaminated."

Kenny recalled the scene at that time. It was indeed after the other party shouted, that a powerful chaotic energy spread to the surroundings.

"So, as I said, people are still manipulating energy, and energy itself is innocent."

Shi Cui pointed to the saw chain sword behind him, "Will it kill itself? Now it is just a weapon, only under the control of the master can kill.

Just like the chaotic energy you said, it doesn't appear out of thin air, right? "

Kenny nodded like a goose, completely unaware of what he was doing.

He felt that he had been brainwashed. Could this be a conspiracy of chaos?

Looking at Shi Cui, who is smiling, he speaks clearly and looks very knowledgeable.

gentle?

The two words have nothing to do with Chaos Minions!

"Well, I believe you for the time being." Kenny thought for a while and asked, "Are you the only alien?"

"Alien, no, we call it an anomaly...or an evolver." Shi Cui corrected his wrong name.

"Evolutionary, are you the only one?" Kenny asked again.

"Of course not, there are two lovely children."

Shi Cui said with a smile, "They are not here for the time being. I will introduce you to them when they come back."

"The experiment Qin said has something to do with you?" After letting go of his inner entanglement, Kenny's brain returned to reason.

"Ah, forgot to introduce."

Shi Cui turned to face him, and said sternly: "Formally introduce, Shi Cui, the person in charge of the genetic modification project."

At this moment, Kenny just wants to take away his own people, as far as possible from him.

"Come on, let you see the progress of the experiment."

Shi Cui turned and walked into the base, "They are fine, except that they are a bit boring."

I saw my men, they were playing a card game.

There is a huge cup on hand, which is filled with the aroma of malt: "Three two, are you so big as me?"

"I blow it up, get me down."

"Four A, die, die..."

ahem!

Kenny coughed and caught the attention of the three.

Looking back and seeing Kenny, the three of them quickly stood side by side, knocking on the chest and saluting: "Head."

"Um."

Kenny walked towards the table, picked up the card and turned it at his fingertips, "It seems that you are living well."

"Yes, eat well here, sleep well, everything is good except not being able to fight."

Hearing this answer, Kenny's hideous face showed a smile.

If possible, he hopes this kind of life can be longer.

They have gone through too many bad things and have enough qualifications to enjoy a peaceful life.

"Okay, please come with me now, I think your team leader would like to see the process of the experiment with his own eyes."

Shi Cui took a few people to the core laboratory, and none of them did any protection.

When the first three fighters were sent, Shi Cui was worried that they were too vulnerable.

'S subsequent inspections made him understand that these guys who maintained a human appearance had long since deviated from the definition of a normal human being.

Judging from the current experimental results, the deadly bacteria known to humans can cause zero damage to their physique.

Its effect is not as serious as the harm caused by human smoking!

Shi Cui put the human-made biochemical weapons into the pipe and gave each of the three a bucket.

The consequence is probably that it will come up, "This thing is pretty good...more on the whole hour!"

The physical strength of the star warrior far exceeds Shi Cui's estimation, but it is at two different extremes from him.

Shi Cui's abilities are changeable, weird, uncontrollable, and have the characteristics of weird pollution.

Interstellar warriors are more like 'assembly line products' customized for warfare, and everything is based on survival.

According to the words of the three fighters, they are already the 186th generation.

The original interstellar warriors were more powerful than them. This also made Shi Cui aroused. I really want to know how powerful the original genetic modification technology is.

Fortunately, he has enough resources to reverse engineer.

Research materials on mutants, interstellar warriors, emperors and imperial power armed forces, mysterious and powerful super **** genes.

There are also "Gene Evolution Theory" and "Universal Energy Theory" which contain countless knowledge beyond imagination.

There is also a scripture borrowed from Jing Yuan, "The Basic Theory of Nano Biology".

When Shi Cui saw it for the first time, he was so drunk that he fell into it.

Profound knowledge is like the universe, full of mysterious attraction, which makes people unable to extricate themselves!

If Shi Cui had such a huge resource, he would still get nothing, and he would break his neck without hesitation.

...Although this is not useful, it will only make him grow two heads.

"Let's start!" Following Shi Cui's order.

The experimental team in protective clothing followed the entry process in an orderly manner.

Blood is drawn, tissues of various parts are extracted, and visceral fluid is drawn with a needle tube sprayed with titanium rhodium alloy coating.

The only trauma is to cut tissues the size of a finger cap on the body surface for cultivation research. Finally, the three star warriors spit on the petri dish.

"Thanks for your hard work."

nodded to express gratitude to the three soldiers, and the three of them saluted Kenny and left together.

"Why do you have to draw two more tubes of blood today?"

"What does it matter, is your blood no longer enough, you should check your own hematopoietic cells."

"Go away, I'm the strongest, look at this."

Raises his shoulders, and the bulging "ball" rolls back and forth under the pressure of the fingers.

Listening to the sand sculptures of the three, Kenny's face twitched faintly.

What sand sculptures did he bring with him? ? ?

"Head Kenny, since it's here, do you want to contribute to the experiment?" Shi Cui stared at him with a smile, and pointed at the operating table.

"I can see that you are a powerful fighter. If you can get your genetic sample, I believe the progress of the experiment will be much faster."

Seeing Kenny hesitate, Shi Cui's eyes flickered and said: "Dear Captain Kenny, you want to replenish the troop strength.

But that needs to find the transformation technology, otherwise you will get a bunch of cannon fodder of knowledge.

Chapter 962: Artificial knife

After Shi Cui's remarks, Kenneth sat on the operating table confusedly.

was faintly drawn three tubes of blood, peeled off the tissue, and sampled stubs.

The whole person became dizzy, and his head was as drowsy as if he had inhaled an anaesthetic.

What?

can't hold it with only three pipes, this is also called the strong!

Well, Shi Cui thinks so too.

'S special needle can't stand it after only three pipes.

Little trash, this is it?

The staff carried a needle tube that was thicker than their own arm, and walked towards the test area step by step.

Shi Cui came to the culture area and looked at the epidermal tissue in the petri dish that was larger than his slap.

"It's an interesting life form." His eyes flickered, indicating that Shi Cui was already excited.

The flesh and blood in front of him made him smell greedy, as if swallowing it in one bite.

Early in the morning, come out of the bedroom.

There was a slight movement in the kitchen, and Qin Yu stood behind the staircase fence and looked down.

The little chef who has been missing for a long time is online again.

heard the movement and looked up, spread his arms and greeted softly: "Master, breakfast is ready."

The bell 'ding bell' hung on the collar rang, as if to remind Brother Yu: The plan for a day lies in the morning.

Precious morning time, spent in joy.

Shaking his neckline, Qin Yu picked up the key with a smile and closed the door.

buzzing~

The only hard-top poison in the country slowly drove out of the garage amid a low roar.

waved to the security guard at the door, Qin Yu took out a piece of Huazi and handed it to the other party: "Thank you."

"Thank Shao Qin, Happy National Day." The security guard saluted and said with a smile.

"Have fun!" Nodded, Brother Yu stepped on the accelerator.

The car disappeared in front of the security guard at a beautiful corner.

"Hey, the days of the rich are really willful." The security shook his head when thinking of the other side changing the supercar.

shook the Huazi in his hand, and the joy in his heart appeared on his face.

Thanks to Shao Qin, there are good cigarettes again this month!

I found a breakfast shop, two drawers of soup, a bowl of seaweed soup, and another side dish.

Qin Yu is satiating and filling his stomach.

Just now at home, the little cook had a good time with her new and flamboyant tricks, but she was not very full.

Two drawers of steamed buns under the belly, Yu Ge can feel full now.

got on the car again and came to the miracle town.

Waiting for the electric door to open, Qin Yu saw a group of young and lively men and women who were getting boarding information under the leadership of the staff to receive a pass.

"What is this?" Qin Yu asked the security guard.

"It's a new intern, this is not going through the formalities!" the security guard replied.

"Well, it's okay." Qin Yu said that he was about to enter, and suddenly saw a familiar face in the crowd.

咦, are you wrong?

Stopped the car and took a closer look. The moment the other party looked back and smiled, Qin Yu saw her whole picture clearly.

"Hey, it's interesting." With a grin, Qin Yu put on his sunglasses again and drove to the parking lot.

Riding a rail car to the administrative area, Qin Yu pushed open the door of Watson's office.

"Rare guest, how come the big boss has time to see me today?" Watson smiled and got up, letting him sit in his place.

Ren turned to the bar to make tea for him, and the relationship between the two was naturally weird.

Watson, who has been his secretary for a period of time, still knows Qin Yu's tastes and habits.

put a cup of brewed green tea in front of him, and Watson sat down on the edge of the table with his feet.

"I'll take a look at the information about these interns." Qin Yu took a sip of tea and looked at Watson with a faint smile.

turned around to get the information, Watson joked: "Why, is there something you are interested in?"

How does this sound ambiguous?

Qin Yu took the file and said, "Don't you know my principles?"

Watson pretended to suddenly press his fingers on his lower lip, and slightly opened his mouth and said: "I have forgotten, my boss and I are super principled."

Satisfied and nodded, Yu brother still has time to be proud.

Watson said again: "Even when this principle sometimes fails, it seems that the charm is not enough!"

Emmmm~

Does she know something, or is she pretending to be shrewd to deceive herself?

looked at Watson's confident eyes, with a smile that was not a smile.

Brother Yu was also a little confused for a while, what kind of situation is it now!

Don't fight an unsure battle, Qin Yu pulled out the familiar document and said, "What's the situation?"

Seeing the position of Qin Yu's finger, graduate school: Shanghai Opera.

Watson straightened her waist and chuckled: "She is currently a second-class student of social statistics at Fudan University."

Brother Yu was surprised and said, "What are you kidding?"

"I'm not kidding, she was recommended by the school." Watson nodded seriously.

Thinking back to the Tiehan who was in the bedroom, sniffing his feet.

Look at the sweet girl who is shining and smiling in the photo...

The second high-achieving student of the Graduate School of Statistics?

That iron man? ?

What is this silly name, Tang Jiaqian.

"The name is pretty nice." Qin Yu closed the file and threw it on the table, saying, "Is there a shortage of people in administration?"

"Do you think it is easy to manage such a big small town with thousands of people inside and out?" Watson gave him a blank look.

"Isn't there a girl to assist you?" Qin Yu asked back.

"Because of the support of the girl, I only need to recruit so many." Watson shook the four documents in his hand.

As the boss, sometimes he is too leisurely.

Sitting in the "Heaven" without eating the fireworks in the world, I don't know how embarrassed these so-called executives are.

Have you ever seen any executives who even copy documents by themselves?

There is no way, there are too few staff, the secretary can't even answer the phone, so he can only come by himself.

said poor, it was really poor, but when I thought of the bonus at the end of the year.

Hmm~ It smells so good!

"What else can I order, or send someone to you?" Watson joked.

If she really wants to let her go, then she will have to go through an internship assessment before discussing it.

If she is amazing, Watson will have to stay with her.

She is now mad when she lacks people. Who wants to **** someone from her, first ask her whether her high heels are acceptable?

Feeling the 'killing intent in Watson's eyes,' Qin Yu shook his head and smiled: "I have no shortage of people, so keep it for yourself!"

"Thank you boss, don't take it off!" Watson stepped forward and opened the door, leaning forward with his right hand and bends down to send him away.

"Mr. Hua, reality!" Brother Yu gave a thumbs up and left her office while talking and laughing.

came to the warehouse and did not see Kenny and his entourage.

Qin Yu only knew that they were in the underground hive, and people had already asked Shi Cui to give Huyou.

Under the condition of being sane due to radiation abnormality.

Shi Cui has developed his own abilities to an extremely high level.

Now, he can hypnotize others with the characteristics of radiation.

makes his own language more convincing, and the other person will trust him without knowing it.

This kind of hypnosis is not compulsory. You can do it without saying a word, even if the will is resisted.

It is more like a gradual brainwashing, although there are concerns, there will be all kinds of complicated thoughts and thoughts.

But the development of the matter will definitely proceed in the direction described and hoped by Shi Cui.

means that before you know it, you have done what the other person said.

Finally, when I think back to what happened, I think it was my subjective choice.

is not directly related to the other party, let alone coercion.

This ability is far more terrifying than coercion, and Shi Cui is also seeking its limits in practice.

So far, even Kenny can't resist his hypnosis.

He also thought about whether the boss can resist his own ability.

But as soon as this thought came up, it was strangled in the cradle.

In any case, he will not act against the boss.

Even if it is just a test, it is never allowed!

In other words, when will my two beloved sons come back, I really want them to understand what a fatherly teaching is.

"Dr. Shi."

Qin Yu walked straight into the laboratory, ignored the busy staff, and asked him about the progress of the experiment.

"We have found the genetic difference, give me some more time, I will restore the technology of Kenny and others."

"It's not enough just to recover, Dr. Shi, don't forget the super gene in you, it is more powerful than Kenny."

The genes in Kenny have side effects, immortality, but it deforms his body shape, his thinking becomes dull and irritable.

From the audio collected by the girl, his emotions are like a gunpowder keg.

Explode at one point, this is not the mentality that a qualified fighter should have.

In contrast, Super God Gene is like a perfect evolutionary body.

It's just that it was broken by Qin Yu and Shi Cui.

First, Qin Yu boldly handed it to the distorted Shi Cui, and then allowed it to neutralize the chaotic radiation.

It is not so much that the combination of the two makes Shi Cui stronger, it is more accurate to say that the super **** gene is contaminated and weakened.

The perfect super **** gene, with the evolution of levels, is enough to become a legendary god.

Even surpassing God, otherwise why is it called Super God Gene.

However, the chaotic radiation that can pollute the super **** gene is not simple.

Although some of the super **** genes are in the juvenile stage, Shi Cui can't fully realize its potential, repairing his body consumes too much energy and so on, a series of complicated factors.

But still can't hide the power and terrible chaotic radiation.

This kind of energy is far more dangerous than it looks.

After getting an accurate answer from Shi Cui, he said that he would not forget the analysis of the super **** gene.

Qin Yu came to the ground floor garden again and saw Andrew who was walking in the garden.

At this time, he looked like a wise wise man. UU read www.uukanshu.com with a rickety back and a serene expression. He smiled and looked at Qin Yu.

did not speak, but already expressed his meaning: "You are finally here, I have been waiting for you."

That calm and calm self-confidence, with a bit of strategizing complacency and arrogance.

As if at this moment, everything in the world is under his control.

Then, he was beaten up.

Qin Yu grabbed his neck, lifted it, and fell to the ground suddenly, then hit the door with two fists.

directly smashed Andrew, "No, it shouldn't be like this, shouldn't he humbly ask himself for advice?"

Before Andrew could figure out what was wrong, the 43-yard big foot kicked his face.

Kicked wildly, looking at the miserable image of Andrew whose face was distorted and collapsed.

Qin Yu took a breath and stood back, bowing his head to sort out the wrinkled clothes.

"I have always wanted to be a gentleman, why do I always force me to do it?"

With his head down, Qin Yu rolled up his eyelids, raised his eyebrows and squinted at Andrew.

The cold light between the eyebrows made Andrew instantly alert.

I am a fish, and he has no right to choose.

Not to mention self-proclaimed status, waiting for the price.

Chapter 963: All members gather

The love from Iron Fist made Andrew recognize reality.

Next, what Qin Yu asks, he answers whatever.

For example, how to open the star door, why can use the energy of chaos without being affected by pollution.

How to guide Xingyue to reach the earth, and how to obtain this ability.

After the stumbling conversation progressed, Qin Yu roughly figured out Andrew's situation.

Why is 'approximately,' because there are many things that even Andrew himself doesn't know.

He calls himself the Apostle of Chaos and is favored by Subspace.

Being able to use the power of chaos to be free from pollution, how to open the star gate is a special ritual.

Guidance and positioning are based on his own coordinates and send a special guiding star.

Xingyue will appear, just hitting the star signal.

This kind of guidance is uncontrollable, at least the current Andrew cannot make active choices.

His ability to himself is still in the groping stage!

"For the sake of your cooperation, when I meet with Kenny later, I will let the two creators stay here."

After hearing him say this, Andrew, whose face gradually recovered, hurriedly asked: "Who is Kenny? Why should I see him?"

"You will know soon." Qin Yu chuckled.

The collapsed face bulged like an inflatable face, and Qin Yu was not surprised by this.

Based on his understanding of mutations and aberrations, the biggest characteristic of these radiation-contaminated creatures is their resistance to beatings.

Healing ability is extremely strong, it can be called abnormal!

Since Andrew can borrow the power of Chaos, he should have the same characteristics.

Sure enough, the facts proved that his guess was not wrong.

In just a few words, his face returned to normal, with no trace of scars visible.

After leaving behind Andrew who kept asking "Who is Kenny, why should I see him, I don't want", Qin Yu left the bottom.

Go to the experimental area and ask the girl to send two [creators] to accompany Kenny down to ensure Andrew's safety.

Qin Yu left the town again, he had to pick up the lazy cat.

The celebration stage of Shangdu ended, and all the teams transferred to Hudu for the second public performance.

The first scene is for leaders at all levels, and the second scene is open to the public, which is also a signal to strengthen the national integration.

parked the poison deep in the parking lot. Qin Yu sat in the car and waited, wearing a mask by the way.

once again refused a little girl who wanted to add WeChat account, Qin Yu saw the team walking towards the bus.

Even though they wear masks and hats one by one, he still recognizes many acquaintances from his back.

Lin Run'e and the four little ones are in the delegation of Hancheng District.

After the Barrow District delegation passed by, the Royal Dance Company, which demonstrated the humble spirit of the owner, came.

Qin Yu sent a message on WeChat, and the lazy cat in the crowd can receive it.

After that, she said a few words to the team leader, and then took Zhou Xue to leave the team...

What did she do with Zhou Xue?

Brother Yu is up and down, isn't this a miss?

It shouldn't be, he is very careful, no one has noticed.

Could it be that Zhou Xue said that she missed her mouth?

is not right! She must not miss all the explanations before, otherwise she will have no face to face the lazy cat.

So, what is the situation?

During the tangled period of Brother Yu, Lazy Cat and Zhou Xue had already arrived in front of the car.

Without any extra words, Lazy Cat rushed directly into his arms, closed his eyes and took a deep breath.

'S expression is full of intoxication, and the joy from the heart can be smelled even far away.

Zhou Xue stood quietly in front of the front of the car, pulling her hair sideburns with her hands to force her to be calm.

Looking at her performance, Lazy Cat shouldn't know yet.

Inexplicably, I was relieved.

Qin Yu loves her little cat, although she knows that even if she knows it, she won't say anything.

It is because of this sensibility that Qin Yu feels more distressed.

In the heart of Lazy Cat, whether he is happy or not is the most important thing.

This idea not only comes from the liking for him, but also from an inferiority complex and hesitation.

Qin Yu is too good, so good that she feels that she can't control this relationship.

And she can do nothing but dance.

Because of this, she accepted the existence of Li Wanxing, Jiang Xiaoshan and Wen Yaxuan without complaint.

is also because of this, even if she sees Qin Yu's scandal, she will ignore it, as nothing happens.

It's rare to be confused, as long as the lazy cat knows that he is really good to him, it is enough.

But the more she is like this, the more distressed Qin Yu is.

Does this silly girl know how good she is?

However, while feeling distressed, there is also a hint of luck.

If it weren't for such a confused lazy cat, how could he possess everything she possessed.

"Teacher Zhou."

looked forward at a loss, pretending to be calm Zhou Xue smiled, Qin Yu looked down at the lazy cat: "Hungry, take you to eat first?"

"Well, Mr. Shen made a big meal and waited for me." Lazy Cat rubbed his face on his chest and didn't want to leave for a second.

Seeing her like this, Qin Yu reluctantly shook his head, thought for a while and said, "Ms. Zhou, would you like to drive?"

"Huh?" Zhou Xue was stunned.

gave her the car key, and told Zhou Xue about the precautions, and asked her to try it out in the garage.

Qin Yu handed the car to her, and took the lazy cat to take a taxi.

After the two left, Zhou Xue, who was sitting in the poison and clasping the steering wheel with both hands, was still in a trance.

who am I? where am I? ? What am i doing? ? ?

On the way to take a taxi, Qin Yu saw the supermarket passing by and asked, "Would you like to buy something?"

is not his style.

It's been a long time since I went to see Teacher Shen, and I don't know if she is thinner or plump.

"Ms. Shen said, don't take anything with me, just send myself over."

Lazy Cat squinted and leaned in his arms, smiling lazily.

As long as I can be with him, I will do nothing.

As long as you rely on it like this, the lazy cat can be happy all day.

The crescent moon at the corner of the eye and the rising lip line did not converge for a moment.

That happiness, even the taxi driver was infected, humming tunes from the radio in a happy mood.

When they got to the place, the two got out of the car, Lazy Cat turned to face him and opened his hands: "Hug."

A heart rippling like melting, Qin Yu stretched out his hand and hugged her in his arms, and walked towards the courtyard in such a big stride.

put his head on his shoulders, arms around his neck, the lazy cat opened his mouth naughty and bit his neck.

Suck it hard and release it instantly, then **** it again, release it again, it's fun to play!

"Mr. Shen, Yueyue and I have come to see you." The moment Qin Yu shouted into the room, preparing to enter the door.

The lazy cat jumped out of his arms, hurriedly pulled on his clothes, and turned back to that well-behaved, quiet girl.

Shen Bing, who was busy in the kitchen, came out. Seeing Lazy Cat, his cold face smiled.

"Teacher." Trotted forward and hugged Shen Bing, Lazy Cat pulled her head against her chest and was very happy.

Brother Yu who was watching this scene was eager to see through, and wanted to change positions with Lazy Cat.

Cough, nothing else, the main reason is to experience the soft care from Teacher Shen.

"Just come back, they are all in Xuan Xuan's room, you go too!" Shen Bing hugged her and said softly.

"Well, then I'm going." Lazy cat nodded happily, and jumped upstairs.

Only Qin Yu and Teacher Shen are left in the living room. They raised their cold eyes perfunctorily, and Shen Bing said coldly: "You are free."

After speaking, he went into the kitchen and got busy again.

啧啧...

Is the difference too big, but why does it look like Teacher Shen is a little angry?

Brother Yu's brain turned quickly, thinking about what she had to make her unhappy.

After thinking about it, Brother Yu suddenly realized it!

It is not important to be unhappy, the important thing is that you have to help out.

With so many people waiting to eat, how can Teacher Shen prepare it alone?

"Ms. Shen, let me help." Qin Yu walked into the kitchen with a smile.

哐当...

Something fell on the ground, and Shen Bing in the kitchen became busier.

噔噔噔～

Wen Yaxuan ran downstairs and stood in the middle of the stairs and shouted to the kitchen: "Mom, are the fruits washed?"

"Ah, okay, I'll show it to you." Shen Bing's voice was slightly flustered.

Then Qin Yu walked out with a fruit plate, looked at Wen Yaxuan amusedly, and said, "You know how to eat if you eat."

"Slightly omitted."

made a grimacing face, and Wen Yaxuan said mischievously: "Don't bully me, or I will beat the lazy cat."

"...You can't beat her." Brother Yu was faint.

This foodie is really the daughter of Teacher Shen, except that the face inherits part of her beauty, there is nothing similar.

"Then I will beat Sister Wan Xing together, hum!" Taking the fruit plate with one hand, Wen Yaxuan said aggressively with her small fist.

"It doesn't matter, as long as you are not afraid of being beaten at night. UU reading www.uukanshu.com" Qin Yu nodded with a chuckle, and said a pun.

With red cheeks, Wen Yaxuan stomped angrily, "Ignore you," she ran back upstairs after she finished speaking.

"Xiaoyu, are you okay? And the abalone hasn't been washed yet!" Teacher Shen's call came from the kitchen.

smiled dumbly, Brother Yu turned and walked towards the kitchen: "Let me come, it has to be killed first and then washed..."

Waiting for a table of food to be served, Zhou Xue finally arrived.

On the way, she was very nervous, for fear that she would accidentally scratch the car.

It is not important whether money is money or not. What is important is that there are only three hard-top poisons in the world.

Such a rarity, it would be a shame to ruin it.

"You also take this car out and drive it indiscriminately. Isn't it good to store it in the garage?"

Returning the key to Qin Yu, Zhou Xue said angrily: "Don't even think I will open it in the future. I'm so worried."

took the key and threw it on the coffee table. Qin Yu said, "Isn't the car just for driving? Why do I want it in the garage?"

"The confidence of the rich is different." Zhou Xue vomited.

"It's a different idea. Besides, it might be eliminated in a few years."

Qin Yu meant something, which made Zhou Xue aroused interest: "You can't make a speeding car, are you?"

"The company has related research and development projects, but I don't pay attention to the progress."

Qin Yu changed the conversation and said, "However, smart robots and personal terminals should be officially released soon."

Chapter 964: 1 family

"Xiaoyu."

"Yes, master, what's your order?"

"My shoulder is not very comfortable, press it for me."

"Okay, is this kind of power okay?"

"Can."

"The power standard has been updated, I will provide you with better service."

looked at the robot standing behind Li Wanxing, massaging her shoulders, and then at her triumphant little expression.

Qin Yu pointed to the household robot and said, "You call him Xiaoyu?"

Li Wanxing's expression stiffened, and she was terribly scared, but she refused to admit defeat and said, "No? Can I call him whatever I want... It's Xuan Xuan."

"Ah, Sister Wanxing!" Wen Yaxuan, who had been sold, ran away in an instant, and rushed behind her to pinch her neck and sway.

"Cough, cough, dead, dying." Li Wanxing said with a smile on her face.

Click!

The chopsticks were placed on the chopstick holder, and Shen Bing said with a cold expression: "Eat."

Wen Yaxuan, who was still noisy, fell silent in an instant, took a small step back to her position, and drew her chair closer to eat obediently.

Qin Yu looked at Shen Bing with his eyes flowing, a touch of redness appeared on the cold pretty face, and it disappeared in an instant.

Zhou Xue blinked, thinking that she had hallucinations.

But the shy red color can't be erased in my mind.

looked at the woman at this table, Shen Bing, Wen Yaxuan, Li Wanxing, Lan Yue, Jiang Xiaoshan, and myself...

An odd thought arose in Zhou Xue's heart: "It's like an ancient mansion gate, Master Qin must be particularly proud, right?"

looked at Qin Yu, who had an undiminished smile and exuded self-confidence.

Zhou Xue was so angry that he gave Qin Yu a vicious look, and saw him inexplicably.

I have a good meal, who did you bother?

Is it wrong to eat more?

"Yueyue, I watched your recent performance, and there is still a lack of strength to support your technical performance.

At this point, you have to learn more like Chief Tang. Don't always worry about body problems. Thick calves are inevitable. "

Having said this, Shen Bing deliberately looked at Qin Yu and took another look at him by the way.

If it weren't for worrying that he didn't like it, how could Lan Yue deliberately control her body, even choosing to pay attention to the dance she loves.

If you want to increase the control of strength, the calf will definitely become thicker.

This is a fact that cannot be changed!

Therefore, in order to prevent the calf from becoming thicker, Lan Yue deliberately reduces the strength training and devotes more energy to skills.

It's just that no matter how powerful a technique is, strength is the foundation.

Otherwise, she will not be able to show her skills perfectly. No matter how much she knows, she will only be weak when she needs to show.

"???" Numerous question marks rose on Brother Yu's head.

"That is, you silly cat, don't always think about someone, people are busy all day long!" Li Wanxing looked at him provocatively.

There was a little blame in his eyes, and he clearly said, "It's all your fault, it's all your fault."

Why is my pot again, then I go?

Brother Yu is all stupid, and today is not to have a dinner, but to have a controversy.

I am the object of criticism. When did they make up their lines? Did they take time to rehearse in advance?

How to behave so naturally...

"Since I'm talking about this, I have to say a few words." Zhou Xue put down the chopsticks, looked at Lan Yue and said seriously: "Your strength is going to be strengthened."

"Teacher." Lan Yue pouted innocently.

Others don't know how hard she works in technique, doesn't the teacher also know?

Although she reduced her strength training, her skills ran up to Chief Tang, claiming to be second in the regiment, and everyone was convinced.

Based on skills alone, Lan Yue is also qualified to take the class of Chief Tang.

"Listen to me first." Zhou Xue shook her head and motioned her to continue listening: "I know you are waiting for the Tangtang class and want to become the chief of the dance troupe.

But she is currently at the peak of dancers, 30 and 35 years old, who knows how long this state can be maintained.

If she can hold on to 35 years old, will you have to wait for ten years? "

"In terms of dancing talent, you are the best batch I have ever seen. As long as you are willing to make up for your strength, you can improve your skills as well.

I can guarantee that within five years you will surpass Tangtang and become the well-deserved chief of the dance troupe. "

Zhou Xue thought about it, and solemnly promised: "Even if you consider the rules of the system, you can at least be one of the double chiefs."

"Double chief?" Shen Bing looked at his sister in surprise.

"Yes, as the highest dance troupe in the country, we have to keep pace with the times. The environment is much better now."

Zhou Xue was a little emotional, her eyes were complicated and guilt looked at Shen Bing.

"Well, that's great!" Shen Bing looked calm, bowed his head and buried his face in his long hair.

Just from the squeaking power of her squeezing chopsticks, she knew that her heart was not as calm as it seemed.

Whose life is not full of regrets, and Shen Bing is no exception!

She just fell into memory again, remembering all the injustices and grievances she had had.

"Mr. Shen, this pork tongue is so delicious, try it yourself." Qin Yu added a piece of pork tongue and put it in Shen Bing's bowl, interrupting her memory.

looked up at him, Shen Bing's eyes melted into water, and he nodded and put the pig tongue in his mouth.

Zhou Xue, who saw this scene, snapped his head.

eh, it's over!

Looking at the four fairies again, she looked down like she didn't understand anything.

As for whether it's true or not, Zhou Xue can only hypnotize herself as true...

No~ fake!

No~Really!

"Oh." Zhou Xue shook her head abruptly, driving away the dispute in her mind.

Regardless of whether it's true or not, I don't know anything anyway.

This family relationship, let them solve it by themselves!

The city of miracles, the calm of the town is broken.

Looking at Kenny walking like a giant beast in the town, the research family members evaded one after another, and even scaredly ran back to the room, and looked secretly through the window.

Breathing clear air, no pollution, no gunpowder smoke, no smell of blood and metal.

Here, it's like heaven!

Heaven, a peculiar place, according to the description of the people here, it should be an ideal place without disputes.

Any wish can be realized in heaven, and their **** is called God.

"I don't know if there is a chance to find heaven, and their gods can't stand it?" Kenny squeezed his fist and said with some expectation.

The air in heaven must be sweeter than here.

Conquering such a place is more fun!

But, these are all things.

The most important thing now is to replenish troops, and Kenny has received an accurate answer.

The primeval forest he wanted was approved, and Qin's company was transporting supplies and building the necessary infrastructure.

is actually a simple power supply and some tents, plus a wall and many reserves of food and materials.

In Kenny's opinion, these are completely unnecessary.

They can sleep on the ground, find a way to hunt beasts when they are hungry, and find water when they are thirsty.

No, you can drink animal blood and plant juice.

There will be a solution anyway.

fence, not to mention, you must always be vigilant on the battlefield.

It is not always the time, they have the opportunity to stay in the safe fence, they should adapt as soon as possible.

Knowing that this was Qin's request, Kenny chose to compromise after thinking a little bit.

In this completely unfamiliar world, there are still many places that need to rely on the other side's power.

As long as it does not affect your plan, everything else can be compromised.

Just like he agreed with Shi Cui's research on himself, the purpose is to restore the lost modification technology.

Only by retrieving the former pinnacle technology, can they complete the supply of the members of the team and return to the pinnacle of glory in the past.

"Chaos, waiting for me." Kenny raised his head and looked at the location of the moon, muttering with his fists clenched.

After the completion of the supplement of troops, the repair of the battleship is completed.

He will leave the seeds of the battle group, and take people back to the subspace again to complete the battle with the chaotic minions.

Life is endless, fighting is endless!

No one can stop the crying person's revenge, no...

"Captain Kenny, Dr. Shi, please." A [Creator] in charge of patrolling the town appeared in front of him.

followed it back to the underground hive, and once again the peace on the ground was restored.

It's just that people are more worried and uneasy during the conversation.

The young man was curious about the huge giant, "Is he also a product of the company? Super soldier, or what secret weapon?"

Who doesn't want to be strong, the small seeds are buried in the bottom of my heart, laying a solid foundation for Kenny's future recruitment.

saw Shi Cui again, the other hand holding a needle filled with green liquid.

Seeing the huge needle, Kenny shivered involuntarily.

Now he sees this thing, he is frustrated, even with the non-human physique of a star warrior, he can't handle it like that.

"Head Kenny, come and see my latest research results, genetic medicine." Shi Cui stroked the needle, and UU reading www.uukanshu.com looked like he was looking at his lover.

"Gene Pharmacy?" Kenny asked in surprise, keeping a certain distance, taking two steps forward.

"Yes, genetic medicine." Shi Cui surely said: "If the data is correct, it can make a stronger genetic warrior."

"Just a shot?" Kenny's expression was full of questions.

Although the distant memory has been blurred, he still remembers the inhuman pain during the transformation.

Moreover, it is still a modified version of the weakened version.

The original technology has long been lost due to the collapse of the empire. I heard that the transformation of the original version is more painful and complicated.

The survival rate is less than one in ten, so only one injection is needed here?

"Of course it's not that simple." Shi Cui responded.

Hearing his answer, Kenny's expression returned to normal.

If only one injection is really needed, Kenny will question what secrets he calls the "injection"?

"Injection of genetic medicine is only the beginning, and the next transformation is the core. If you want to use the full power of the medicine, you must supplement it with multiple transformation operations."

"Normal people can't accept the power in the potion at all, and the result of direct injection will only be a bang ~ explode and die."

Shichoi raised his hands excitedly, and opened his five fingers to make a firework shape.

His behavior is getting more and more perverted. Although he still maintains his rationality, he always feels dangerous.

is like Kenny now, watching him slowly retreating with a vigilant look.

Chapter 965: terminal

While Shi Cui showed his outstanding achievements to Kenny, Qin Yu was also explaining the operating rules of the personal terminal to the four fairies.

"Medialess holographic projection, have you watched all the movies!" Qin Yu said while holding a pink device with a length of 8 cm and a width of 1.6 cm with Velcro on both sides.

"I have seen it." Jiang Xiaoshan.

"Of course." Wen Yaxuan.

"Nonsense." Li Wanxing.

"Meow ~" Lan Yue.

.....

Place the pink device horizontally on his arm, and the devil sticks it tightly.

Qin Yu gently tapped his finger on it, and the medium-free holographic interface appeared in front of him.

shook the ring on his right middle finger, Qin Yu said: "With this..."

Pointing at the projection and sliding with the right hand, the interface immediately appears brand-new changes.

"You can also use voice control, really listen, please help me connect Li Wanxing."

The three words Li Wanxing appear on the panel, indicating that the call is in progress...

"Wow, it's amazing, I want to play." Li Wanxing spoiled like a baby, coming up to grab the equipment in his hand.

Qin Yu turned around and grabbed it, took off the equipment and put it on for the lazy cat.

The little girl lowered her head shyly, but did not refuse Qin Yu.

Who doesn't want to be favored? Lazy cats are more eager than others.

"Cut." Li Wanxing curled her lips and sat aside without saying anything.

But when Qin Yu took out the second lily white device and gave it to Jiang Xiaoshan, her expression became obviously unhappy.

In order to conceal this emotion, Li Wanxing pretended to be arrogant and said: "Okay, I know you are partial. Why do I and Xuan Xuan have to be last?"

Li Wanxing held Wen Yaxuan, who was still in a daze, in her arms, and asked her to unite with her.

raised his head and cast a blank gaze at Qin Yu, as if saying, "What happened, did you eat?"

Qin Yu still wonders how she got a job.

Will the company lose money and go bankrupt?

"Your colors are different, this one belongs to you."

Qin Yu took out a piece of equipment with a white background and red plum blossoms and put it on for her.

Looking at the Han Meihong on his arm, Li Wanxing kissed his face with satisfaction.

Finally, Wen Yaxuan's hot rose. After Qin Yu put it on her, she waved her hand uncomfortably, and said pitifully, "Can I not bring it?"

Li Wanxing jumped up when she heard it, and pointed her head with her finger and rebuked: "You don't seem to be stupid, don't you seem to be stupid?"

"Do you still dislike something that others can't ask for?"

Li Wanxing said that she was about to **** her equipment, "Don't give it to me, I will give it away."

Wen Yaxuan blocked her hand sideways, covered the terminal with her hand and said: "I want, I want..."

"Then you just said no?" Li Wan stared at her with a smile, when will this silly girl be smarter.

"Hey." With a silly smile, Wen Yaxuan said, "Just now, I seemed to be asleep."

"Is it only ours?" Lazy Cat tried it briefly, and remembered Zhou Xue and Shen Bing downstairs.

Qin Yu clapped his hand bag and said, "It's all here, I will give it to Teacher Zhou and Teacher Shen when the meeting is down."

"Hmm." With a sweet smile, Lazy Cat played with the terminal again.

"Try calling each other." Qin Yu suggested with a smile.

"Lazy cat, I'll call you." Li Wanxing said, dialing the lazy cat's number.

Listening to Qin Yu's "lazy cat, lazy cat" every day, they are no longer called Yueyue.

are all changed to lazy cats!

hum~

The terminal vibrated, Lazy Cat raised his arm, and the words Sister Wanxing appeared on the projection after recognizing the face.

Click to connect, the projection flashes in front of you, and then a pocket-sized version of Li Wanxing appears in the projection.

"Ah, really?" Li Wanxing stretched his finger forward.

The projection on Lanyue's terminal also turned his head in surprise and stretched his fingers forward.

'S movements are exactly the same as her, even her expression is vivid, without a trace of error.

On the terminal in front of her, the pocket-sized lazy cat was surprised to cover his mouth with his hands, and his two eyes were wide and round.

"It's fun, it's fun, this is fun, Shanshan, let's also come." Wen Yaxuan said happily.

Watching the four of them having fun, Qin Yu quietly went out with his handbag.

After going downstairs, he saw Zhou Xue and Shen Bing who were talking in the living room, "Mr. Shen, Mr. Zhou, I have a new product for you here."

Qin Yu said that he took out two devices, one was sterling silver metallic, and the other was orange.

handed the metallic silver to Shen Bing, the orange is naturally Zhou Xue's.

The color of was appointed by Qin Yu himself, which just set off their personalities.

"Try it."

Qin Yu took out a black terminal and put it on his wrist, and showed them how to operate it.

Within a short while, Zhou Xue and Shen Bing became loyal fans of the terminal.

"Xiaoyu, this is great, I thought it would be impossible to see the realization of this technology in my lifetime."

Zhou Xue touched the terminal with her hand, and said lovingly: "I like it very much, thank you for the present."

"Ms. Zhou is too polite, thank you, let's change the time and place." Qin Yu responded with a smirk in his eyes.

Such explicit hints made Zhou Xue look at Shen Bing nervously.

found that she had no reaction, and then gave Qin Yu angrily, the tenderness between the eyebrows was about to overflow.

"Xiao Yu, I'm interested." Shen Bing pretended to be an elder.

Qin Yu grinned, and said, "Mr. Shen, you are too far-sighted, what else is there to be polite between us."

Shen Bing was clever, raised his head to see what else he had to say, and quickly said, "Well, there is a table in the room. I want to change a place. You happen to be here. Help me move it."

Shen Bing walked to the bedroom as he said, ignoring that Xue Xue's weird expression was all suspicious last week.

Facing Zhou Xue's doubts and suspicions, Qin Yu shrugged innocently, and followed Teacher Shen's steps into the bedroom.

Click~

The door was closed, and only Zhou Xue sitting on pins and needles remained in the quiet living room.

Watching the passage of time every minute, Zhou Xue could no longer sit still and got up and went to the bedroom door.

put his ear to the door sideways, wanting to hear the movement inside.

The next second, the door opened in vain.

"Ah~" With an exclamation, Zhou Xue's figure disappeared outside the door.

The door of the bedroom was closed again, leaving only the sparrows singing 'tweeting' on the branches in the yard.

An afternoon was spent exploring various functions of the terminal.

When the four fairies came downstairs, Zhou Xue and Shen Bing were already busy in the kitchen, while Qin Yu was sitting on the sofa watching TV like a big master.

"What are you watching?" The lazy cat trot into his arms and found that he was watching financial news.

"The economic system of the Bald Eagle is about to collapse." Qin Yu said softly.

"Is it so serious?" Seeing his stern expression, Lazy Cat asked timidly.

"It's very serious. Fortunately, we have decoupled from the US knife in the past few years. Although the loss is inevitable, the long-term pain is not as good as the short-term pain!"

Behind the scenes of this crash, it is said that there is no control of Wall Street, and Yu Ge wrote the Qin character upside down.

Seeing that the beautiful knife is about to lose its dominant position, finally cut a wave of leeks!

can not only disrupt the deployment of various countries, but also mess up this pool. Fishing in the water is the strength of Wall Street giants.

This time, the world will once again pay for the US dollar.

However, this will be the last time for Daxia, and this move will also completely push Neon to the Galactic Republic.

Bei Dao will not accidentally join the alliance with Neon.

As for Wanwan, hehe~

It seems that they are actively engaging in frontal contact recently, and the [Xing Tian] sent to Smeeta almost scared it to pee.

"Oops, so the company won't lay off employees?" Wen Yaxuan said worriedly.

Seeing her worried look, is she worried that she will be driven by the boss?

"You didn't mean that you did a good job at work, why are you worried about being opened?" Li Wanxing asked teasingly.

Wen Yaxuan shook her head, worried: "No, I'm afraid that the company won't survive. If it goes bankrupt, wouldn't I be out of work?"

The scene fell into a dead silence, this brain circuit...

How does grow?

"Qin Yu, you said that if this is the case, can I subsidize the company with pocket money?" Wen Yaxuan looked at him seriously.

Before he could answer, Wen Yaxuan emphasized again: "It's lent to the company's turnover and I have to pay it back."

"Our boss is very nice and takes good care of me."

Wen Yaxuan sat beside Qin Yu, pulling his sleeves and coquettishly said: "Besides, people really don't want to change jobs."

So, is this to invest in the boss for not being unemployed?

Miss, you are so kind!

"You look like it's done." Brother Yu only felt exhausted and didn't want to say a word.

Tired, too tired!

"Ha ha ha ha....."

Li Wanxing was shocked to the unbelievable at first, and then leaned forward and back with a smile, and fell directly from the chair.

lay on the ground, still smiling, straightened up, curled up to hold his stomach.

can't do it, my stomach hurts, haha...

With such employees, is it torture or luck for Wen Yaxuan's boss? ? ?

"Xuan Xuan, don't you worry about your pocket money?" Lazy Cat also couldn't help but ask.

"No Our company's performance is very good." Wen Yaxuan said seriously.

I was afraid that they would not believe it, and continued: "Last year, our revenue exceeded 20 million, but the boss wanted to expand and spent it all.

I'm just worried that the company will be affected, who made him say so terrible! "

Seeing that the little sister no longer laughed at herself, Wen Yaxuan suddenly cleverly hugged Lazy Cat and Shanshan, "Besides, didn't I have you?"

"I'm going to be really broke, you can't abandon me, remember to raise me." Wen Yaxuan said seriously.

"I don't want it. If you can eat so much, you will eat me poorly." The lazy cat wanted to push him away with disgust.

"Lazy cat said, you can eat too much. My money will be kept for the elderly." Jiang Xiaoshan snickered.

Being with them is always full of joy, how long has it been since I was so happy.

There are more smiles today than a whole year combined.

Jiang Xiaoshan really wants to stay with the sisters forever like this, not to be separated for a moment.

...It would be great if the boss was there.

It's just that, this kind of thing must be mentioned by a lazy cat, and any of the three of them will only cause an unpleasantness.

Depressing her own thoughts, Jiang Xiaoshan thought about how to guide the lazy cat to work hard in this direction.

She will not stay in the same place stupidly, waiting for the lucky reward, that is not her style.

Go for it if you want, this is exactly Jiang Xiaoshan's criterion!

Chapter 966: Accident

Ding ding...

The WeChat notification sound kept on, and Li Wanxing held her mobile phone, and her aunt smiled and hid while chatting.

"What are you talking about, so happy?" Qin Yu said.

"Terminal, everyone is asking me where to buy the black technology, and some people ask me if I am making a movie."

Li Wanxing shook the screen at him, and the capitalized "harem" in the group chat made Brother Yu dumbfounded.

"What about our stars and the harem? Let me see..." Qin Yu was very curious, whether there were three thousand beauties in her harem.

"Go away." Li Wanxing pushed him aside, righteously saying: "Don't think about my harem of cholera."

"Ah!" Brother Yu rolled up his sleeves and smirked and said, "I? Little lady, are you floating?"

"Whip." As soon as she stretched out her hand, Jiang Xiaoshan put the feather duster in her hand.

"Ah, Shanshan." Li Wanxing jumped off the sofa and ran away, calling Jiang Xiaoshan's name angrily.

Did she dare to be a bit stubborn, and betray her sisters for a stinky man!

wait, let Xiaoyu teach her severely tonight.

Hum...

"It's dinner." Zhou Xue came out of the kitchen with a tray.

Jiang Xiaoshan and Lazy Mao rushed forward to help, Li Wanxing also put away the phone to prepare the tableware.

"Xuan Xuan..." Looking back to talk to Wen Ya Xuan, she found that she was gone.

looked around, the figure sitting at the table was not her, who else could there be?

At the long table, Qin Yu sat in the main seat facing the door, Shen Bing in his left hand, and Lazy Cat and Xuan Xuan next door.

On the right hand side is Zhou Xue, followed by Li Wanxing and Shanshan.

"Eat." Qin Yu said with a smile.

"I want that, Lazy Cat can pass it for me."

"Wow, there is even a dry pot."

"This fish is delicious, oooo...you guys try it!"

Jiang Xiaoshan carried the bowl, and looked at the atmosphere on the table daily.

Others may not have noticed, but she was the first to notice something wrong.

From the moment Qin Yu said "start the meal", things became strange.

Normally, this is what Teacher Shen said.

There is also Zhou Xue. Every time they look up and intersect with Teacher Shen, the two will quickly look away.

so...

Seeing the complacency between her husband's eyebrows, Jiang Xiaoshan probably knows what happened.

"Really nonsense!" Jiang Xiaoshan couldn't help but want to laugh.

He is bold enough, but he is inevitably curious, what kind of picture will it look like?

At this moment, Brother Yu is not proud of his achievements.

Rather, I am looking at the latest rewards. After the sunshine value is doubled, I finally move forward with difficulty by 1.

"Ding!"

"Congratulations to the host, stay sensible in the temptation of angels and witches, resolutely implement the authority of the conqueror, and trigger rewards!"

"Reward 1: The second generation of super **** genes."

"Reward 2: Title Upgrade Card."

"Reward 3: Skill upgrade card."

Two upgrade cards, a second-generation super **** gene.

The reward this time is definitely a bumper harvest.

However, whether to upgrade the Tentacle Monster first or the Conqueror is to be considered!

In addition, whether to continue to upgrade Kirin.

Qin Yu is also a little worried whether the movie will become a reality.

is the user of the second-generation supershen gene, and he has a goal in his heart in an instant.

Jingyuan!

As the top master in the research department of Miracle Company, her body is too weak.

Furthermore, safety is also the top priority.

With the development of the miracle, Jing Yuan's travel nowadays has become a big difficulty.

Not only has to arrange the route every time, but also hug her from the front and back, and reduce her contact with the outside world when it is not necessary.

Not only Jingyuan complained, but also a great burden for others.

But the knowledge in her mind is one of the company's most valuable assets.

Its value is more than that of Estein's brain, and no one dares to relax their vigilance.

In addition, the long-term high-pressure working environment keeps her under high load.

Various experiments and tests have caused more or less damage to her body.

With this super gene, I believe Jing Yuan will create more value for the company.

Although the theory of value is not desirable, it is the most direct choice most of the time.

Jingyuan's value is worthy of this second-generation supernatural gene.

After dinner, Qin Yu called Lao He and asked him to come home.

"There is a box here. When you find it, give it to Team Leader Jing. She knows what to do."

Qin Yu told him the detailed address of the 'storage' box, He Wu nodded, and stopped talking.

"What's wrong?" Qin Yu asked.

"Boss, does the company have mature transformation technology?" He Wu has already met Kenny.

It should be said that people who live and work in the city of miracles, except for those who deliberately get into the experiment, have almost met him.

He Wu is no exception!

He always remembered what Qin Yu said, he would give himself a chance to become stronger after the technology stabilized.

Now, it seems to be the time.

As Qin Yu's driver and bodyguard, he doesn't want to face danger one day, and the person who needs to be rescued becomes himself.

"So impatient?"

Seeing that he couldn't wait, Qin Yu thought for a while and said, "Go to Dr. Shi, and choose what you want to do."

The success of transformation technology indicates that the upper limit of the human body is broken.

But whether it can be called a human after the transformation, Qin Yu couldn't help but raise a question mark in his mind.

Why has he not used genes or modifications so far.

is because he believes in the power of pure technology more than playing with genes.

"The rooms are ready for you, Yueyue sleeps in Xuanxuan's room, Wanxing and Shanshan sleep in the guest room, Xiaoyu, you sleep below."

Shen Bing, who came down from the second floor, allocated the rooms reasonably.

Just, why is Brother Yu's room arranged on the first floor, shouldn't he be on the second floor?

That night, when someone sneaked into the room quietly, Qin Yu understood her good intentions.

It turned out to be for your own convenience!

Hudu, the Second People's Hospital.

A special patient was greeted in the emergency room. When an 11-year-old boy was playing, he was unfortunately cut off by a frozen ice skate on the ground.

To make matters worse, after breaking his palm, he fell on the ice and slid to the road, and was run over by two cars one after another.

When waited for it, he was bloody, and the fractured nerve was necrotic. There was no possibility of sutures.

Hearing the heart-piercing cry of the child's mother, the passing nurse was crying.

This is too pitiful, and that child is really unlucky.

The ice formed by splashing water just condensed into a thin surface, and he just fell down beside him, and his hands on the ground slipped forward.

My hands are gone...

"Doctor, is there really no way?" Yalan took the doctor's arm and looked at him beggingly.

"Sorry, there is nothing we can do!" The doctor was silent.

The child is too young, and the palm of his hand is rolled too hard, it is impossible to connect it.

"However, there is another possibility..." Seeing her painful look, the doctor couldn't bear to let her lose hope.

"Doctor, you say." Ya Lan hurriedly raised her head, new hope ignited in her eyes.

"Miracle Company, their craftsmanship on artificial joints and robotic arms is the most advanced in the world.

If you can get technical support from the other party, if you change it to use as a prosthetic, then use skin grafting technology to camouflage...it should be effective! "

When the doctor made this suggestion, he was completely thinking of a dead horse as a living horse doctor.

There is definitely no way to sew it anyway. If you really want to sew it, you may have to go through an amputation in the follow-up, and you will suffer for nothing!

It would be better to give her hope and let her work hard in other directions.

The doctor glanced at her again with pity, and was about to leave, but saw Yalan in a panic taking out the phone: "Doctor, wait."

At 4:30 in the morning, a grumpy engine sound suddenly appeared outside the hospital.
boom!

The car door slammed, and Qin Yu walked into the hospital alone, striding into the hospital.

"Sister Yalan." Seeing Yalan with swollen eyes, Qin Yu hugged her.

"Xiaoyu." The tears that had just stopped, gushing out again.

"It's okay, I'm here." Patting her shoulder to comfort, Qin Yu turned to look at the doctor: "Doctor, please tell me about the situation."

Standing in front of Qin Yu, the doctor still felt a little dreaming.

A phone call really called the boss of Miracle Company...

This woman, so much energy!

After repeating the current situation and his own thoughts, the doctor pondered: "Our laboratory and your company have also cooperated. If the data is correct, I personally think it is hopeful."

Qin Yu nodded and said, "Thank you, I will let the relevant personnel exchange opinions with you as soon as possible."

Sending off the doctor, Qin Yu comforted the painful Yalan, and whispered, "Is there anyone around Tongtong?"

"My dad, woo!" He pressed his mouth as hard as he could, tears rolling down continuously.

Tongtong is the only spiritual pillar in her life.

If she loses her, Yalan doesn't know if she still has the courage to live.

If this happened, if it hadn't been for the strength that had been trained through years of professional career, Yalan would have been in chaos and fainted.

But even so, after seeing Qin Yu who could rely on, she still couldn't help showing her fragility.

"Don't cry, UU reading www.uukanshu.com first go to see the child." He held her cheek with both hands and wiped away the tears with her thumb.

Qin Yu said encouragingly: "Now, when you need to be strong, Tongtong needs you, and Lao Jiang also needs you."

"Yeah." Nodding vigorously, Yalan wiped away her tears, making herself look the same as usual.

suppressed the sobbing breath, and then took him to the ward with him.

In the independent ward, Tongtong is still in a coma.

There was an analgesic pump on the head of the bed, and his face that was supposed to be full of laughter was pale.

"Come here." Seeing Qin Yu, Jiang Hongsheng's figure straightened slightly, propping up his knees with his hands and trying to stand up.

'S body fell backwards abruptly. Fortunately, Qin Yu quickly helped him.

"Dad." Yalan held him with red eyes.

"It's okay, it's okay." Jiang Hongsheng said weakly: "As I get older, my body becomes more and more out of control."

"Dad, you go to the break, this is me!" Yalan said with back tears.

"Okay, I'll go sit outside." Jiang Hongsheng nodded, and the moment he turned around, his back figure seemed to be walking in time, aging step by step.

"I'll take a look." Qin Yu squeezed Yalan's hand, and Qin Yu slowly followed.

Chapter 967: Prosthetic

Outside the ward, Jiang Hongsheng and Qin Yu sat on the bench in the corridor, silent to each other.

"Actually, I look down on you kid." Jiang Hongsheng said suddenly.

Qin Yu didn't speak, waiting for the other party to finish speaking.

"No matter how great your achievements, how talented you are, how many miracles you create.

For a father, nothing can change the fact that you are a scumbag. "

Qin Yu laughed dumbly and said, "Mr. Jiang still knows the scumbag?"

"Why, you can't follow the trend after 50?" Jiang Hongsheng asked tit-for-tat.

then shook his head and laughed at himself: "I, an old man, don't know how many years I can live.

Maybe I have been a boss for a long time, I want to manage everything, and look at everything from the perspective of a businessman.

But when it comes to daughters, I think from the perspective of a father. "

Jiang Hongsheng smiled sadly in his eyes: "But who would have thought that the more and more the business is, the daughter's life will be a mess."

looked up at Qin Yu, Jiang Hongsheng muttered: "You said, is my father a failure?"

Qin Yu just shook his head and said nothing.

Because Jiang Hongsheng is not asking him, but asking himself...

As a father, whether he failed or not, I am afraid that only he can give the answer.

On this question, Yalan has only half the right to speak. What did he say as an outsider?

As for preaching, you don't even have a child, and discuss with a master how to be a father.

Of course, if you are from the standpoint of your children, Brother Yu has a lot to say.

But now...

Forget it, Lao Jiang's heart can't hold it.

"Eh, you two, I don't care."

Jiang Hongsheng waved his hand and laughed at himself: "If you want to control it, you can't control it, just a little bit, and treat her better."

Jiang Hongsheng sighed and looked straight ahead: "My daughter, it is worthy of you to treat her well..."

Two hours later, the people sent by Zhu Ying arrived. They were all professionals related to medical equipment.

As soon as the people arrived, the hospital expert team also appeared.

When the two parties met, the consultation discussed how to implement the treatment plan.

The technical aspect is solved by a miracle expert team, and the actual operation needs to be handled by the hospital's medical and surgical experts.

Although on the phone, Shi Cui Mao recommended himself and said that he could participate in this operation.

Considering his current psychological condition, Qin Yu felt that it would be better to perform 'routine operations'.

In case the operation is over, a bunch of small tentacles will appear in one hand.

Yalan will not be able to find him desperately!

Modeling and sampling.

Negotiated the surgical plan. When Tongtong woke up, the company had already manufactured mechanical prostheses based on his fracture.

Natural graphene neural network, the main material of the shape is carbon fiber composite plastic and polypropylene, and the surface is sprayed with titanium rhodium alloy coating.

not only ensures comfort, but also has enough strength to meet daily needs.

"Brother!" Seeing Qin Yu, Tongtong's tears poured down her eyes.

held up his little hand, clutching his clothes tightly, unwilling to let go.

"Don't be afraid, brother is with you."

Qin Yu held his little hand and sat down, Tongtong fell asleep again while sobbing.

was so severely traumatized that he was in a state of overdraft both physically and mentally.

was asleep, still clinging to Qin Yu's finger with a twitch of his little hand.

Eyebrows are tightly frowned, Yalan who is watching is worried!

"Sister Yalan, you should also go to bed first, and the company will send the prostheses as quickly as possible."

Yalan looked at him, her eyes flushed, tears were about to come out of her eyes, and she quickly raised her head and took a deep breath.

Although I am very grateful for Qin Yu's appearance, for a mother, no matter how good a prosthesis is, it can't change the facts.

His body is incomplete!

"When you come back to complete the operation, you must behave very normally. The later stage of mental development and recovery is the most important.

The artificial skin cannot keep up with the flexibility of the prosthesis, and the elasticity and activity cannot meet the requirements.

So, his hand will be obvious then..."

Yalan understands what he means, how to integrate children who are different from ordinary people into their peers.

Not being rejected, mentally healthy growth.

These are the most important.

"I see." Yalan nodded firmly.

Compared to appearance, she cares more about flexibility, having a flexible hand that looks like an ordinary person.

is more important than fakes with appearances!

16 hours, waking up several times during the Tongtong period, and fell asleep again after being distressed.

Qin Yu has always been by the bed, keeping every step of the way!

Finally, a team of experts from multiple sources waited for what they needed.

Smart prosthesis!

"It's about to start."

Qin Yu clasped Yalan's palm tightly and watched Tongtong who was lying on the bed pushed into the operating room.

"There will be nothing wrong, right? There will be nothing wrong, there must be nothing wrong."

Yalan whispered, repeating what she said.

There must be nothing wrong, there must be nothing wrong...

She can't bear another blow, anyway, if there is good news!

Time seems to lose its meaning under extremely tense circumstances, like a century, and like a moment.

The light on the door of the operating room went out, and the door was pushed open from the inside.

"Doctor, doctor, how is it?"

Yalan rushed forward like a gust of wind, grabbed the doctor's wrist and asked.

"Ms. Yalan, calm down."

The doctor took off his mask, his expression full of joyful smile: "Congratulations, the operation went well."

The operation went well, this is the accurate answer he can give.

As for the effect of the smart prosthesis, the subsequent use, whether it can operate well, these have nothing to do with him.

That is Miracle Company. In a sense, his cross-field colleagues need to worry about it.

"Thank you, thank you doctor." Yalan said with tears of joy.

"No, this is what I should do." Nodding in greeting, the doctor walked away quickly.

He is going to participate in a symposium on the condition of illness, this day is really more and more hopeful.

The medical staff filed out, smiling at the two and nodding.

When the last group of people pushed out the bed, Tongtong was lying on it.

He looks weaker at this time, but there is an extra metal palm at the fracture of his wrist.

is connected to his broken wrist, wrapped in gauze, and a faint trace of blood penetrates outward!

"Boss, the operation was very smooth, and the prosthetic system was tested normally." The team leader reported the final result to Qin Yu.

"How long will he wake up?" Qin Yu asked.

"The doctor said that in about two hours, after he wakes up, he can further test the actual effect of the prosthesis."

"Thanks." Qin Yu patted the opponent on the shoulder.

"This is what I should do, boss, let's go down and prepare first."

The other party politely nodded and led the person to the room arranged by the hospital.

There are equipment and instruments needed for testing.

After Tongtong wakes up later, they need to test the prosthesis as soon as possible.

In fact, this is the first time they have installed a 'robotic arm' as a 'prosthetic limb' on a real person.

Because time is too tight, the time left for them is not enough to collect sufficient experimental data and experience.

Therefore, caution and follow-up real-time monitoring are necessary.

Three days later, Tongtong, who had undergone two operations, tortured, pained and frightened, smiled again on his face.

The pale complexion restored the child's matte finish, holding up his manipulator, Tongtong's eyes were full of excitement.

"This is too cool." Tongtong said excitedly.

The imaginary crying, fear, did not see him at all.

Instead, he is full of excitement about owning a robot hand.

The kid yelled even more: "When I go back to school, my classmates will definitely be envious when I see it."

Tongtong's performance gave Yalan a little comfort.

The accident has happened, no matter how regretful it is.

Fortunately, with Qin Yu, Tong Tong was not hurt in his heart, but instead felt that his novice was very cool.

After trying to lift the bed off the ground with a prosthetic leg, the excitement became even stronger.

"From now on, I will be Tieshou, Mom, I will change my name to Tieshou."

The big-hearted Tongtong jumped on the bed and said, "I'm going to school, and my friends must be worried about what's wrong with me."

"Do you want to go to school or show off your...hands?" Yalan squeezed a smile.

The child is not sad, but she still feels a little uncomfortable in her heart.

But, in front of Tongtong, she definitely can't show it.

As long as he is happy now, it is the best consolation for Yalan.

"Go to school, show my classmates by the way." Tongtong said clearly.

Dotingly clicked on his forehead, Yalan said softly: "Okay, we will go to school when the doctor approves you to leave the hospital."

Hearing this from her mother, Tongtong sat down cross-legged unhappy.

Eyes rolled, and a ghostly idea came out of the little head: "Brother, the doctor will report to you, will you let them allow me to be discharged from the hospital?"

After receiving the breakfast from Yalan, Qin Yu nodded solemnly: "Okay, I will let them approve you to leave the hospital later.

If they don't allow it, we'll remove the hands first. "

"No way, no way, no dismantling!"

Tongtong hurriedly stuffed his iron hand into his arms, pressed his arm and turned around.

It seems to do this, UU reading www.uukanshu.com No one at uukanshu.com can tear down his novice.

"What should I do? If you don't open it, you can't be discharged from the hospital." Qin Yu looked distressed.

"No, I'm going to take medicine here obediently, and wait until the uncle doctor takes care of my illness before I leave the hospital."

'S clear voice with certainty, made Yalan chuckle softly, and he is better at dealing with children.

"Xiaoyu, you have worked hard these days."

Yalan sat beside him, peeling the tea egg, and thanked him sincerely.

Although there was a terrible accident, at least my son still has a flexible hand. '

For them, this is already a blessing in misfortune.

Thinking of the information that I have been exposed to in the past few days, the prosthetic limb is connected to the nerve, and any signal can be given the first feedback.

Except for the appearance, it is no different from the previous real hands.

Through the APP downloaded for her by the staff, Yalan can also carry out real-time monitoring of the palm of her hand.

Error alarm, self-restart repair, emergency shutdown and many other controls, reduce the risk to a minimum.

Now, what Yalan is most worried about is that her son cannot control her power.

If you accidentally hurt someone, it would be bad!

Chapter 968: Keep secret

A week later, Tongtong was discharged from the hospital.

All indicators are normal, psychological evaluation...

"This kid has a cheerful personality and is born with a big heart."

Seeing the doctor's speechless and relieved expression, I knew that I was not deliberately comforting Yalan.

He really feels that this child's heart is big enough.

But it is undoubtedly a good thing for Tongtong and his family who have encountered this kind of thing.

"However, your young couple still have to pay special attention to the emotional changes of your child to prevent him from being stimulated and overreacting."

Yalan's pretty face blushed slightly when the doctor called them young couples.

But she didn't go to refute or correct the doctor's words, nodded and replied: "Okay, doctor, what else should I pay special attention to?"

Watching Yalan send the doctor away, Qin Yu opened the door and walked into the bedroom.

"elder brother."

leaped into his arms happily, Tongtong asked expectantly: "When can I go to school?"

"I have to ask your mother, it doesn't count as I said it." Qin Yu said with a smile.

"Hmph, Mama obviously listens to you." Tongtong embraced her arms and turned her head unhappy.

Mingming mother?

You know this too, kid, do you know too much?

When Ya Lan came back, what she saw was Tongtong encircling her hands and looking out the window, Qin Yu playing with a remote control car with a smile.

"What's wrong?"

Yalan asked amusingly, the two of them are together, they really look like children who have never grown up.

Qin Yu controlled the remote control car and rushed to Yalan and said, "The children nowadays are so happy. I wanted a remote control car when I was a child."

"Didn't you receive it?" Yalan said.

"I got it, two!" Qin Yu smiled.

"..."

Yalan rolled her eyes, then you put on a envious feeling, what are you going to make?

"I just feel that the current toy car is more beautiful." Qin Yu moved the direction, and the front of the car slammed into Tongtong.

哐当!

The car hit his leg, rolled over, bumped to the ground and drove forward again.

Tongtong yelled, instantly forgetting that he was still angry.

ran into the bedroom and pushed his electric Hummer out, "I want to crush your trolley."

jumped into the car, Tongtong stepped on the accelerator with excitement and rushed forward.

Just halfway through, people flew up suddenly.

picked him up by the collar, Yu Ge said as he walked, "I thought I was floating when I installed an iron hand?"

Tongtong tried to resist, but found that he couldn't reach Qin Yu's hand at all.

In the end, he hugged his arms, his knees bent cross-legged, and he was lifted up to the dining table bulgingly.

Seeing that he was still angry while sitting on the chair, Qin Yu looked at Ya Lan who was snickering: "Sister Lan, I'm leaving now!"

"Okay, be careful on the way." Yalan knew that he had something to do today, so she didn't want to stay.

Qin Yu was able to stay so many days to stay with them, Yalan was already very grateful.

Regrettably, Tongtong always clings to herself these days and has no time to be alone with him.

"Brother, are you coming back tonight?"

Tongtong, who was still angry before, also ran over to grab the corner of his clothes.

The company these days has made him rely on Qin Yu more and more, wishing to stick with him every day.

When he learned that he was leaving, he was so sad that he cried for a long time last night.

"My brother will come to see you in a few days, don't you also want to go to school and show off your iron hand with your friends?"

Qin Yu grabbed his hand and shook it, seeing that Tongtong did not show an expression of pain.

Qin Yu affirmed again that there is no problem with the fit at the wrist!

staying here these days is not only to take care of Yalan, but also to worry about whether Tongtong's prosthesis will have any adverse reactions.

After a week of observation, there should be no problem!

Follow-up will have the company's continuous follow-up monitoring, review and adjustment once every three months, and problems can be found in time.

Saying goodbye to the reluctant Tongtong again, Qin Yu came to the garage, and found someone staring in the car from a long distance.

is not professional at all holding a cannon stand at his own poison!

铿铿~

stepped forward and knocked on the glass, and Yu Ji, who was watching, was taken aback.

"What's the matter with you?" Yuji lowered the window, and the camera was taken away as soon as he opened his mouth.

"Hey, why are you stealing things, believe it or not, I call the police!"

Qin Yu put his knees against the car door, Yu Ji tried several times to open the door but failed, reaching out to grab it but couldn't reach it.

Anxiously like an ant on a hot pan, muttering in his mouth: "Hurry up and return the things, you are breaking the law..."

After reading the photos in the camera, Yu Ge did not hesitate to press 'Delete.'

then returned the camera to him, saying: "The alarm is ready, just invite you in for a few potatoes."

"Next time I will shoot randomly, you don't need to call the police, someone will come to you for tea. Before you follow, figure out what you are doing!"

Qin Yu gave Yu Ji a glimpse of a smile with a non-smiling expression.

saw him walk to the poison, opened the door and drove to the exit.

Yuji raised the camera to aim at the rear of the car, but finally did not dare to press the shutter.

Hudu is a mixed bag. Maybe the humble old man on the street is a bigwig in a certain field.

The other party's tone doesn't sound like a bluff. Did you kick the iron this time?

However, the other party has been wearing a mask, and he did not see his looks clearly.

I want to check and check the place...

Wait, the license plate number!

"Hey, brother, my green date, yes yes, you are rich..."

"I have something to ask you, I saw that hardtop poison in Lujiazui."

A few miles away in the business district, the middle-aged man with a Chinese character face said with a spring breeze: "Why, greedy?"

"Hey, I must be greedy! I originally wanted to take a few photos along with me. Who knew that a young man suddenly appeared. He snatched the camera from me and threatened me to figure it out. I just wanted to ask you, the owner of the car. What the **** is it?"

"Did you follow along?" The expression on the Guozi face suddenly became strange, and after listening to what Qingzao said, his face became even more ugly.

"I said, brother, you are really bold enough, and you don't want to think about how the identity of the car owner has not been exposed until now.

In the entertainment era, there is only one car all over the country. What a lot of traffic! Who is not greedy?

If there is something in it, can it hide from the media?

You, be more mindful next time... If you have more brothers, you can't say more, just click on you.

I can't post the photo after taking it, maybe I have to cause trouble for myself...

What is the trouble? Go in for a few days of jail meal, do you want to experience it! "

thankfully hung up the phone, Qingzao sat in the car with a dazed expression.

Raise your hand fiercely, slap...

slapped myself, cursing, "Why don't you have a snack, brain, brain?"

Just like what brother said, if you are really fine, you can get yourself such a small entertainment joke to make headlines.

sloppy, too sloppy!

However, Qing Zao was still a little curious in her heart.

What the **** did the other party come from? It's too exaggerated to be invited to have tea if you take a picture?

The city of miracles, the main entrance.

There were two more moving horses in front of the normal gate in the past, and it was covered with spikes.

The signs on both sides of the road are marked with signs of 'no whistle', 'speed limit 20 yards', 'no turning around in front of the door', 'no crossing', 'no shooting', and 'no stopping'.

Anyone who has been in contact with the confidential industry will know that this unit belongs to the confidentiality level.

Ordinary vehicles stop at the door for a few more minutes, and the sentry will check their documents and information.

If someone is taking a photo, the mysterious person will arrive immediately, "Excuse me, come with us!"

At this time, the poison that disappeared in the garage was parked in the parking space inside the gate.

Taking the elevator down, Qin Yu once again went to the observation room next to the operating table of the biochemical laboratory.

Shi Cui, Zhu Ying, Jing Yuan and Kenny were all present.

Cui Geng would not miss this operation if he hadn't had an important experimental project that he needed to lead in person.

An epoch-making achievement of human engineering in the true sense, genetic modification engineering.

If all goes well, it will completely rewrite the future of mankind.

"Boss." Seeing Qin Yu, several people smiled and greeted them at a discount.

"Has it started?"

Qin Yu cast his gaze on the operating table, He Wu lying on it.

After communicating with Shi Cui and learning about the genetic modification project, He Wu expressed his willingness to be the first tester.

He is willing to bear the risks involved!

For this, Shi Cui specifically solicited the opinion of the boss, after all, He Wu is his person.

In case of any accident midway, I didn't report to Qin Yu.

Shi Cui worried that he would blame himself for this, cut off or delay the project indefinitely.

After Qin Yu communicated with He Wu, Shi Cui got an affirmative answer, and Shi Cui started preparing for the operation.

Now, it's time to verify the results.

"Start." With an order, He Wu on the operating table was anaesthetized and unconscious.

A needle tube with the thickness of the forearm hung on the shelf, the needle plunged into the shoulder, and the operation officially began.

The injection process of gene medicine is carried out together with physical modification.

The medicine is injected into the body to work, and the operation assists in absorbing the power in the medicine.

At the same time of injection, the final transformation is completed by the power of technology.

Let the transformed person completely absorb the ingredients in the potion and transform himself into a new interstellar warrior. U U Reading www.uukanshu.com

At the same time, can the enlarged body hold more organs?

Implanted a crystal heart to act as a battery to fill up its own defects, increase the life strength and survival rate, both the physiological function.

Natural graphene builds a neural network to enhance the response, allowing the target to maintain peak combat power even in a severely injured state.

Muscle strengthening, the titanium rhodium alloy is liquefied, injected into the muscles under the enhancement of genetic medicine, and a mysterious reaction is generated to enhance the growth rate and upper limit of muscles and bones.

Distorted tissue, the tissue implanted in the body will become the most effective "first aid kit" to heal the wound when the target is severely injured.

Personal smart terminal, a button-sized chip will be inserted into the cervical spine of the target's back to analyze data, communicate and assist in combat.

Visual transformation is the only project that utilizes nanotechnology, which allows the target to have a super line of sight, with the ability to lock, analyze, thermal imaging, and night vision.

Gastric pouch and lung reconstruction technology, from Shi Cui's personal summary.

Its raw materials come from the mutants!

After experimental tests, the organs of the mutants have a very strong effect, which can effectively enhance the survivability of the target.

Like filtering toxins, enhancing lung function, so that the target has a short-term vacuum survival ability.

Chapter 969: Lisa

lasted 22 hours, 3 teams worked together, 13 surgical procedures.

The entire genetic modification operation has been successfully concluded!

looked at the figure on the operating table, there were huge tumor-like protrusions on the chest and abdomen, and the incision in the chest cavity was healing itself.

Shichoi smiled satisfied, his experiment was successful.

The long-term obsession in his heart was released, making him feel light and light.

The blocked brain bursts out countless inspirations instantly!

The inspiration surging in his mind made Shi Cui show a fanatical intoxication, "It turns out that it is, that's right, haha..."

Talking to himself, Shi Cui turned and walked out, leaving only Qin Yu and others looking at each other.

When He Wu was sent to the intensive care unit by the medical staff, Qin Yu also learned the detailed progress from them.

"In the next two weeks, he will gradually adapt to the modified gene, and his body size will grow to approximately 2.3-2.5 meters.

Increased muscle and bone density will increase his weight to a kilogram. It takes a long time for him to adapt to his new body and strength. "

The operation is completed, but this is just a fresh start.

He Wu needs to gradually master the powerful power brought by his own genes with the assistance of the staff, and learn how to use it correctly.

"How about the completion of the power mecha?" Qin Yu turned to look at Zhu Ying.

She is the general manager of Hive. The summary information of all projects will be handed over to her every week.

In the entire hive, except for the unicorn and the girl, no one dares to say that they know the detailed progress of the project better than her.

"The experimental model has been assembled and is waiting for testing!" Zhu Ying responded.

"After Lao He wakes up, let him cooperate with the power armor test first." Qin Yu ordered.

Zhu Ying nodded and said: "I will arrange."

"But he has to learn to control his body first." The surgeon in charge of the operation said hurriedly.

Qin Yu remembered that he was Shi Cui's deputy, as if he was called Gao Zhanbo?

"Old Gao, working with Power Armor will make him more powerful. You should know that the purpose of genetic engineering is to train qualified drivers for Power Armor."

Zhu Ying said with a smile, not paying attention to Gao Zhanbo's words.

If Shi Cui said so, Zhu Ying might still need to consider his opinion.

Gao Zhanbo?

If you have any comments, let Shi Cui come to him.

"You will arrange the specific details yourself, and contact you in time for any follow-up progress."

said hello, and Qin Yu left with his hind foot.

He does not intend to wait for He Wu to wake up here. The operation has been successfully completed and all the indicators are normal.

After the training is over, Qin Yu will look at his performance again and take him home.

Now, he is going to do business.

Because of the accident that happened to Tongtong, he turned down all the arrangements and entertainment.

Except for the time to spend time with the lazy cat, all other arrangements have been postponed.

Now, he has to make up one by one!

There are four children tonight. Tomorrow morning I will go to Teacher Shen's house to have a meal and take Xuan Xuan to go shopping by the way.

Overnight at Seaview One, Shaman is back.

Back to the top-floor mansion the next day, accompany the little anchor to shoot the video, and feed the little chef Wang Hong by the way.

Go to Jiang Xiaoshan's in the evening for dinner...

[Master of World Management] was promoted to [Master of Time Planning], making Yu Ge more handy in the fragmented use of time.

In my mind, each time period is accurate to the second, and taking into account various emergencies, enough buffer reserve points are discharged.

Yes, in the end he still used his 'upgrade card' for time management.

This broad and profound knowledge is worth more investment!

The four kids will finish their final stage performance tonight, and will fly back to Hancheng early tomorrow morning.

While preparing for the SBS song festival at the end of the year, he participated in the commercial show of the cooperative brand.

So, Brother Yu will leave it to them tonight.

The main stage is the four little ones in Hancheng District, and they will stay there most of the time in the future.

After this performance is over, it will inevitably bring them more attention and a new stage.

By the time the four little ones are getting more and more red, the chance to fit together will only become less and less.

Since I met this time, Brother Yu naturally can't miss it!

Thinking of missing Lisa by accident last time, I only ate three small ones.

Qin Yu was a little bit more looking forward to tonight, and suddenly wanted to listen to the "Whistle Song".

I don't know if there will be any special benefits for a stage with only one audience.

flower shirt, black ultra-short pleated skirt, black silk stockings...

Lisa is not a beauty at first glance, but Yuepin is more flavorful, especially her stage image.

That handsome self-confidence, not everyone can do it.

Lisa and her three wives, Qin Yu wants to try tonight, are they really that good?

Thinking of this, the smile in his eyes began to flicker.

The accelerator under his foot became lighter, and the right foot he was stepping on became heavier involuntarily.

When I came to Waldorf Astoria, as soon as Qin Yu entered the driveway, he saw the butler waiting at the door, Lao Yao!

"Shao Qin, welcome home." When he opened his mouth, it made people feel more cordial.

Lao Yao's path is getting wider and wider!

"Old Yao, are my guests here?" Qin Yu handed him the key and walked towards the hall with his foot raised.

Handing over the key to the parking brother, Lao Yao quickly followed and said: "I'm in the lounge, do you want me to arrange it?"

"No, I can go by myself. I believe the privacy and security of the hotel will not disappoint!"

"Qin Shao, I will personally guard the outside, so that no one will disturb your private party with a few guests."

Nodded in satisfaction. The executive lounge was in front of him. Two staff members were guarded at the door. The closed door in the middle was also displayed with a notice board of 'suspended business'.

"Shao Qin!" The two nodded and smiled.

Qin Yu snapped his fingers, and was about to speak before remembering that Xu Meixin was not by his side.

Because of taking care of Tongtong, Qin Yu asked her to go to the company headquarters first.

Seeing that the atmosphere was about to be embarrassing, Old Yao suddenly stepped forward and drew out four red tickets in two times and stuffed them into the pockets of their chests: "Thank you Qin Shao."

"Thank Shao Qin." The waiter bowed and said.

Looking at the old Yao who is neither humble nor overbearing, and smiling as usual, Qin Yuxin said, 'you have come to the end of this journey, Comrade Yao! '

Just before entering the door, Qin Yu drew out his bank card and handed it to Old Yao, saying, "First charge 10 million and put it under my name."

"Lao Yao, if your company doesn't consider giving you a promotion, I'm going to consider digging people. Here...it's just a problem."

patted him on the shoulder. Under the weird eyes of the two waiters, Qin Yu's figure disappeared behind the partition of the wine rack.

"Thank Shao Qin for your trust." Old Yao kept waiting for the door to close before he straightened up again.

The moment turned around, the corners of his mouth rose back uncontrollably.

It doesn't take an hour, what Qin Yu said just now will reach the ears of the company's executives.

My current status is a private manager, and further rise is to truly enter the senior management.

Old Yao didn't plan to go to work in an office, but I believe no one would refuse the treatment of executives.

Option stocks, would the senior executives consider giving themselves this opportunity?

Old Yao is also thinking in his heart, if the company's senior executives still ignore it this time, pretending to know nothing.

Old Yao really wants to consider, should he change his job?

It doesn't seem to be a bad idea to be Qin Shao's personal butler.

In the closed executive lounge, Qin Yu is also looking forward to the development of the situation. I don't know if Lao Yao has benefited this time, or if he has an extra butler.

pointed out that he wanted to dig old Yao, not only to push him, but also to arouse his inner greed and expectations.

If the hotel executive decides to give him shares, the chance of Lao Yao leaving the hotel is almost zero.

After all, this is the job he loves.

From the fact that he used the honor of the hotel as his own honor, it can be seen that he has a deep affection for Waldorf.

As long as he can get what he wants and think that his efforts are valued and deserved, Lao Yao will definitely not change jobs.

But if you don't get the treatment you deserve, your inner expectation and greed will turn into strong hostility and dissatisfaction.

And this kind of dissatisfaction will become more and more serious over time.

is like burying a nail in his heart, reminding him from time to time how painful it is!

At that time, unless Yao has other special reasons.

Otherwise, job-hopping is a sure thing.

And Qin Yu's sincerity has always been his first choice.

As long as the salary is not too outrageous, even if it is lower than the outside world, Lao Yao will definitely give priority to him.

Qin Yu will have multiple personal butlers that he wants to help him plan and use his time more effectively.

"Oba!" Seeing Qin Yu, the three boys who were drinking rushed up together.

The quiet and delicate captain Zhixiu in the past, now even jumped directly into his arms.

With his hands hanging around his neck, his legs tied around his waist, the whole figure hangs on him like an octopus.

Σ(⊙▽⊙"a

Lisa's expression is like this, her brain stops thinking.

Because the scene before me has exceeded the computing capacity of the brain, it fell into a downtime like a bug.

"Okay, come down quickly. If you are photographed, your idol image will be completely destroyed."

Qin Yu touched the heads of the three little ones, letting them let go of themselves obediently.

came to the deck, and sat down with three little cats like a cat.

Holding Zhixiu who had to lie in his arms, Qin Yu stretched out his right hand and stretched out: "Hello, this is Qin Yu."

"Lisa. UU reading www.uukanshu.com" Lisa replied blankly.

"I know, the darling of new fashion, Celine's pro-daughter." Qin Yu's ridicule gradually restored Lisa's sanity.

"I have terminated my contract with Celine." Lisa said.

The other three little ones looked at him reproachfully, and hurriedly comforted: "It's okay, Lisa, they will regret it."

"Yes, we must shock everyone at the song ceremony. Then let him beg you to go back."

"When you tell them, you will never agree, it must be very enjoyable!"

Three little ones, with one word from you, I cheered up for the sisters, but I knew it was impossible in my heart.

This has nothing to do with personal commercial value, but a complicated political factor.

Smecta's standing team has a wide range of influences.

How could Celine support the idols of the 'false hostile country' and let the other party go to their own country to make money.

One day in the future, you can use the money you earn to make weapons to fight your own country?

Even a fool can see that Irene will never be able to cooperate with Lisa again.

Besides, her highly anticipated SOLO career, her performance was mediocre.

Compared to Celine's termination, this is more deadly!

Chapter 970: Retrograde

"This time, I will definitely work hard." Lisa made up her mind, this time she must fight a beautiful turnaround.

It's not sad to lose Celine, the glory of the past has long been lost, and the gold and jade are in it.

is the status quo of established luxury brands, especially the so-called niche top luxury brands like Celine.

There is nothing to do except fill the emptiness of the present with the glory of the past.

Now, the establishment of the Galaxy Republic has opened the door to the fertile Daxia market again.

As long as they can occupy a place in the new market, what is the declining Celine?

The stage of this grand fusion celebration is the best stepping stone.

It's just that the response on the scene was not as fierce as originally expected.

is actually Daxia's own work, which really surprises everyone.

It turns out that dance can be beautiful to that extent.

The beautiful words that all languages can describe are not enough to describe that shocking beauty!

This time, Lisa remembers the names of many people.

But there are only two that impressed her most, Tang Shi, the chief of the Daxia Royal Dance Company.

Second seat, Lan Yue.

Her solo dance shows the tension, beautiful figure.

Men and women kill each other, Lisa can say with certainty: She almost fell into her charm.

Elegant, agile, dreamlike and magical!

This is what she heard from others, although she didn't understand the meaning very well.

But she just feels it, very suitable to describe the beauty of Lan Yue.

Such a girl, I don't know what kind of man is worthy of her?

"She is one of the best new generations in Daxia, and she has a good vision!" Qin Yu said proudly.

Although I wanted to be very calm, the spoiling and pride in the words still showed out unconsciously.

Unknowingly, the little lazy cat is also growing rapidly in his field, becoming more and more outstanding.

Qin Yu is very pleased for her, but she still feels so painful in her heart.

Behind the scenery, the lazy cat has suffered and offended.

Who knows the helplessness and grievance of being alone in the bed crying because of excessive pressure?

Ten years of work off stage, one minute on stage.

Don't only envy her success, ignore the hard work and embarrassment behind this scenery.

Come and ask again in time: Why can she succeed and I can't?

This reminded Qin Yu again of Xu Hao's drunken gibberish: "My grandfather and my old man are fighting for their lives, what happened to the rich second generation?"

"Ouba?" Zhixiu in her arms shook her arm and said, "Ouba, what are you thinking about?"

The distracted Qin Yu smiled and asked: "It's okay, what are you talking about?"

"I'm talking about the company's arrangements, there will be many opportunities to come to Daxia in the future...ah, no~ it's Chuo Ward."

Daxia is officially defined as Chuo-ku, and its meaning is self-evident!

Mech garrisons dispatched to various regions have already demonstrated that the status of the Central Region is unparalleled.

In the future, the bald eagle once enjoyed the privileged treatment in Hancheng District.

Chuo district residents may also enjoy one or two.

"Oba, I also want to play the game developed by your company, but the game pod is too difficult to buy."

Jenny hugged his arm and stuck her arm in her chest.

Um~

didn't wear a bra, it seemed that he was wearing a strap inside.

The atmosphere is getting more and more erosive and open, and the change of women is not only in their appearance.

Sometimes, it's more expensive to play inside!

It's a pity that such a beautiful scenery is only a private order.

Yu brother is very fortunate that he was born in such an age of entertainment explosion, and he is even more fortunate to be a member of it.

"Yes, it's not only difficult to buy, but also very expensive." Caiying stuck out her tongue cutely.

Looking at the spoiled Jenny, Qin Yu stretched out his hand and touched it, then smiled and said, "Is it expensive? It's already very cheap."

"Do people want it, Oppa, just give it to them, OK, they really seem to want it."

"Really want that?"

"Hmm, Oppa, you promise to give it to me!"

rubbed her head, Qin Yu laughed and said: "Okay, one for each person, I will let the Seoul branch deliver it to the door in person."

Hearing him say this, the three little ones threw forward excitedly and shouted: "Ah, long live Oppa, thank you Oppa!"

Lisa, who was sitting on the opposite side alone, looked at the three little ones with envy.

The price of a game pod is 160 million, and just give out three of them. This man is really amazing.

Besides, why is this pampered atmosphere so enviable?

It's not a happy thing to make idols in Hancheng District.

Even if it reaches the level of Lisa, it is still the puppet in the hands of the company.

is just cheaper than it used to be, but now it's more precious.

Lisa also hopes that someone can rely on, so that she does not need to worry about her future.

Don't worry about becoming a big man's plate lunch one day, go to meet those foul-smelling, greasy old men.

When Lisa came back to her senses again, the scene before her opened her mouth wide.

his eyes fell into amazement, and there was a hint of shy curiosity in it.

Is Jisu so bold?

So it can be like this... Caiying will meet...

Wow~

It turns out that Nini is the master!

Looking at the surprised and stunned Lisa, Qin Yu smiled evilly and said, "Want to have a game for the brave?"

Humiliated, Lisa didn't know when she joined, so how could she agree?

Early the next morning, I boarded the plane.

Lisa was still full of suspicion. She was like poisoned at the time and obeyed his orders inexplicably.

"Lisa, we will be closer sisters from now on." Nini said happily, holding her in her arms.

A shyness flashed in Lisa's eyes, and Jenny's reminder reminded her of her crazy performance.

If she was on the sports field, she would definitely be pulled by the referee for a drug test.

Lisa didn't know why she was acting so crazy.

At this moment, she has too many questions in her heart!

But Lisa didn't resist the result, and even when thinking of that man, the corners of her mouth would unconsciously rise back.

He is really good...in every way!

"Hey, she is smiling, her mouth is almost grinning behind her ears." Jenny pointed at Lisa and laughed.

"Why, I'm thinking about games!" Lisa quibbled.

"Really? What is the name of the game, which force should we join? What do we do first after entering?"

"emmmm!" Lisa was full of question marks.

Just as Jenny was about to laugh at her, Lisa flashed a picture in her mind.

"Monster, we can join the church and strive to be an airborne soldier." Lisa responded confidently.

"...Wow, husband, you are great, I want to join the fleet too."

Jenny was taken aback first, hugged Lisa and yelled 'husband. '

She actually wants to join the team as a Marine.

How prestigious!

"Huh, why did the indicator light turn on?" Caiying pointed upwards while joking.

"I'm sorry, passengers!"

A gentle voice came: "There is an emergency in front of the airport. Our blue friend is troubleshooting. This flight departs about half an hour later. Please stay in your seats and don't walk around..."

Lisa, who was sitting at the window, looked out, and soon saw the fire on the left front.

"It's on fire," Lisa said worriedly.

Sanxiao squeezed to her side, looking forward together, with a worried expression.

Then, several blue mechas passed by the sides of the plane.

"It's a fire mech fighter, wow, so handsome!" The **** screamed in the cabin, and no one accused her of being hypocritical.

Because everyone is in the same mood at the moment, looking at the blue mecha rushing to the fire.

Proud, proud, tears filled my eyes!

Immature and determined face, there is no hesitation in his firm eyes.

"It's great to be born in such a great summer!" Lisa muttered with loose eyes looking at the back of the reckless retrograde figure.

"Today, an emergency fire broke out at Hudu International Airport due to operational errors. Fortunately, there was our fire mobile suit.

rushed to the fire scene as soon as possible to extinguish the fire, ensure the safety of airport passengers, and restore order to the airport..."

When I saw the news, Qin Yu was eating breakfast at Teacher Shen's house.

"The fire maneuver is so handsome, and the blue friend is great!" Wen Yaxuan muttered with a bun in her mouth.

"Xiaoyu, is this equipment provided by Miracle Company?" Shen Bing asked curiously.

"Well, it's our company's [Xingtian] series." Qin Yu nodded.

"It's pretty good, but there will be too many exposed parts. It's okay to save people. It's too dangerous to rush into the fire."

Hearing her say this, Qin Yu smiled and said: "In fact, it was originally positioned as a battlefield breakthrough. It only considered maneuverability and firepower, and it was a dexterous breakthrough mecha.

In fact, our home robot prototype is more suitable for emergency rescue and disaster relief, and I plan to recommend replacement to Yamen in the future. "

While speaking, Qin Yu wondered if there would be anything hidden in the danger this time.

After all, the excuse of an airport operation error sounds a bit too trivial.

Due to the improvement of Daxia's national strength, the Galactic Republic was established.

Today Hudu is a window to the world, attracting the attention and attention of countless outsiders.

The safety standards far exceed international standards!

Moreover, he always felt that evasiveness in reporting was light, and UU reading www.uukanshu.com was suspected of covering up the facts.

Ling Ling~

was thinking that Lao Bai's call came, letting Qin Yu know that his guess was correct.

"Hey, Lao Bai!" Qin Yu got up and walked out.

"See the news?" Bai Ze asked.

"Well, just saw it." Qin Yu.

"The suspect is a player who has the ability to manipulate flames!" Bai Ze.

"Are there many situations like this?" Qin Yu asked.

"The Monster" has been in operation for three years until today. When converted into game time, the world inside has been fifteen years ago.

Even if I only stayed inside for a third of the time, it would be five years.

For such a long time, Qin Yu himself could not easily judge how serious the impact caused by the spiritual bridge link.

"Are so many [Xingtian] rusty in your hand? Of course there will be a price for change, and this is one of the costs."

Qin Yu didn't answer his question directly, which made Bai Ze's worry sink a bit.

It seems that even he can't determine the player's change.

"In addition, I will compulsorily install monitoring programs for all equipment, and the data will be shared by both of us..."
