

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 14 Chaos Treasure!

The three people who stopped Lu Feng also introduced themselves one by one.

"I'm from the Sui ren clan, and I've met fellow Taoist Lu Feng!"

"I have Chao family here, and I have met fellow Taoist Lu Feng!"

"I have met Daoist fellow Taoist Lu Feng, Mingyi!"

Lu Feng nodded.

"I'm here to preach today, and I hope my three fellow Taoists can help me."

The three Sui ren clan members looked happy and nodded repeatedly.

"If you have any requests from fellow Taoist Lu Feng, just tell us. As long as we can satisfy them, we will do our best to do it for you!"

Lu Feng looked at everyone's simple faces and couldn't help but sigh in his heart that people at this time were particularly simple.

Under the leadership of Youchao and the others, Lu Feng quickly followed them into the depths of the human race.

At the same time, Youchao also specially found an excellent open place for Lu Feng.

"Fellow Taoist Lu Feng, this is the holy place where Empress Nuwa waited for the ship to arrive for us. Now we are blessed to have you preach again. We are really lucky!"

Lu Feng just smiled and waved his hand.

"In that case, please call everyone from the human race to come and listen to the sermon."

Following Lu Feng's instructions, everyone went to look for their clansmen.

But in a short period of time, three thousand people came!

Among these three thousand people, more than a thousand were fabricated by Nuwa herself.

The rest were born in the past few years of reproduction.

There are not many human beings nowadays, and there are even fewer human beings who can practice.

For example, the three great ancestors of Chao Clan and others are only in the middle stage of Xuanxian.

Lu Feng didn't think there was anything wrong.

Seeing that everyone had arrived, he began to preach slowly.

"What we are going to talk about today is the way of life..."

It is supported by the Great Dao Hongliang Law.

The power of the laws that Lu Feng understood was not much, but it was very comprehensive, and it was more than enough to teach the human race.

As Lu Feng preached, the power of law began to surge in his body.

There are even rolling golden clouds coming from the sky, forming a vision of the sky changing with glow!

Not only that, green lotuses began to appear where every human race was sitting.

These green lotuses hold up the human race, immersing them in these endless years of preaching.

It took Lu Feng six hundred years to preach this time.

During these six hundred years, the types of Taoism passed down by Lu Feng were very comprehensive.

Except for the Taoism that Nuwa originally summarized for the human race.

Lu Feng also provided the human race with the way of fire, the way of water, the way of sword, the way of time, etc...

As the toughest race in the ancient world, the human race quickly entered the various Taoist methods that Lu Feng opened up for them.

The more they study, the more surprised they become!

Although Lu Feng is a golden elixir cultivator, in these years of teaching, Lu Feng has handed down eighteen kinds of Taoist methods!

These eighteen Taoist methods are extremely profound and even include supreme cultivation methods.

Now everyone couldn't sit still.

One after another, they began to enter the Taoism of their choice to practice.

Maybe it's because there is more resonance between bad students and bad students.

In the past, the Taoism passed down by Nuwa was too advanced for the human race, and the restrictions were extremely harsh.

Nowadays, the Taoism passed down by Lu Feng is not only very easy to understand, but the threshold is also much lower.

Suddenly, more than half of the human race has entered the stage of enlightenment!

Calculated in this way, the human race finally has the ability to protect itself in this huge wilderness.

So Suireshi and others looked at Lu Feng with deep gratitude in their eyes.

If it were not for Lu Feng, I am afraid that the current human race would still suffer from natural disasters and would not be able to protect itself.

Although they are already in the middle stage of Xuanxian, they are just a drop in the ocean in this vast world.

At this time, Nuwa, who was in retreat in the Wa Palace, couldn't help but move her eyes.

"This kid..."

"How can the luck of the human race be so prosperous?"

The overwhelming human luck was so shocking that Nuwa couldn't help but wake up from her retreat.

As the leader of the Human Religion, Nuwa is the most blessed by luck, followed by Lu Feng.

At the end of this time, Lu Feng also stood up after Youyou.

"This ends today's preaching."

Many humans immediately fell to the ground with respectful expressions.

"Thank you, the Immortal, for preaching. We will keep it in our hearts!"

Lu Feng just smiled softly.

"It will only take a hundred years for you to digest and practice well."

When the lich measures the calamity, he can have a certain ability to protect himself.

Otherwise, the matter would be much more serious.

When Lu Feng came to the human race this time, he really didn't think about leaving too early. He had even planned to open a new cave on Shouyang Mountain.

Compared to the Shuilian Cave where he lived, the scenery in Shouyang Mountain was simply not that good!

Look at the beautiful mountains and clear waters with the singing of birds and the fragrance of flowers. Lu Feng feels that he enjoys just breathing!

Although when he heard that Lu Feng was going to rebuild the cave, he immediately sent strong men from the human race to open it for Lu Feng.

However, Lu Feng unanimously rejected this.

With his current strength, it is easy to open a cave.

And in this Shouyang Mountain, he didn't really want people to know about the little tricks he did in the cave.

After sending away the Sui ren clan and the others, Lu Feng immediately chose a cave heaven paradise, and then shot it with one palm!

With this palm strike, a hole was immediately made in the entire mountain.

Upon seeing this, Lu Feng picked up his God-killing Sword and walked in.

In just a short time, Lu Feng had completed the construction of his cave and decorated it well.

An innate formation was set up at the door, and there was a lot of banging and banging inside, making it feel very comfortable.

After doing all this, Lu Feng did not forget to carve his name on the outside of his cave.

"Humane House!"

After the name was completed, Lu Feng lay comfortably on his cave bed.

At the same time, he did not forget to open the system that he had not looked at for a long time.

Sure enough, as soon as the system here was turned on, it started beeping non-stop.

If it were back to when he was a social animal, Lu Feng would definitely be in a irritable mood.

But now when Lu Feng thinks that these ding-ding-dong-dong sounds are a steady stream of spiritual treasures entering his pocket, he feels so wonderful!

"Hahahaha!"

"Let me see what I get for signing in!"

"..."

Since the sign-in hosting was enabled, Lu Feng now doesn't have to worry about shutting down from time to time. Anyway, the system will help him receive all the daily rewards. Lu Feng only needs to make a follow-up sign and report.

Sure enough, as soon as Lu Feng took out the avenue disk, the system prompts came one after another.
