

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 15 The rare treasure of heaven!

A series of rewards flashed before Lu Feng's eyes. Lu Feng was dazzled.

But soon he noticed the Chaos Treasure mixed in this group of rewards!

Chaos beads!

This thing is a good thing!

According to legend, there is a world hidden in this Chaos Bead, which can conceal the secrets of heaven and is also a killing weapon!

If Lu Feng had thrown this Chaos Treasure when he faced Yuan Shi last time, he would have blown up all three flowers on Yuan Shi's head!

From this you can imagine how terrifying it is.

Putting aside his attack power, the world in this Chaos Pearl is completely comparable to the prehistoric world today.

As long as Lu Feng is willing and has enough strength, he can create a new world in this Chaos Pearl anytime and anywhere!

The only pity is that Lu Feng is not strong enough now.

It would probably take a lot of effort to refine this Chaos Bead.

But Lu Feng doesn't have to be afraid. In this primitive world, the most indispensable thing is time!

Lu Feng thought about it and immediately took out his Dao Plate.

"Sign in!"

"Today is a good day, I got a Chaos Bead!"

[Congratulations to the host for successfully signing in and receiving the rare treasure of heaven, the Heaven-Suppressing Coffin! ]

[Congratulations to the host for signing in for a thousand years and obtaining the willow vine, the treasure of chaos! ]

Lu Feng was a little surprised when he saw two consecutive rewards exploding.

Good guy, these two rewards are a bit too sincere, right?

Let's not talk about the sky-suppressing coffin. Let's just take out the willow vine. This thing is a good thing for their plant family!

If Lu Feng could completely absorb it, it would probably be more than enough to be promoted to Taiyi Golden Immortal.

You must know that when Taoist Yangmei fought against Hongjun, even Hongjun, who had the support of heaven as his endorsement, was not hostile to the opponent.

I'm afraid that this Chaos Treasure comes from the body of Yangmei Taoist.

Lu Feng wanted to absorb such a good thing, but just as his spiritual power probed it, it was bounced back the next second.

Feeling the majestic origin coming from the willow vine, Lu Feng knew that this thing was not so easy to absorb, at least not with his current strength.

However, Lu Feng was not in a hurry and only slowly turned his gaze to the Sky-Suppressing Coffin on the side.

As a rare treasure of heaven, the Sky-Suppressing Coffin also has its own special features.

This thing can suppress everything in the ancient world, even the law of heaven can suppress one or two!

If you confront the saint, you can trap the saint in this coffin.

If the saint cannot break out within ninety-nine and eighty-one days, he will be completely sealed in this coffin.

Unless Lu Feng is willing, no one can drive it!

Lu Feng was completely excited now!

This stuff is so good!

He was worried about what to do when he met saints like Yuan Shi in the future!

Now that he has the Sky-Suppressing Coffin, he is still afraid of a hammer. Next time he will just fight them directly!

After obtaining so many good things, Lu Feng decided to refine part of the willow vine's origin first.

Speaking of this Yangmei Taoist, it can be regarded as a legend in ancient times.

It possesses the laws of space.

This willow vine comes from his body. Once it is refined, Lu Feng can use it to master the power of the corresponding laws of space.

Thinking of this, Lu Feng immediately became immersed in his mind and started refining.

However, in a short period of time, the power of space spread throughout the cave.

Lu Feng's whole body was surrounded by rounds of space law power.

However, Lu Feng was completely unaware of this and just kept immersing himself in absorbing and refining the willow vine in front of him.

He didn't know how long it took to refine, but Lu Feng felt that his realm had reached an important level, so he immediately followed up and quickly turned the original energy into spiritual power all over his body, rushing towards the late Golden Immortal stage!

After a round of flushing, Lu Feng only heard a click, and then he broke through the middle stage of Golden Immortal and successfully reached the late stage of Golden Immortal!

However, there was still a lot of energy left in the body at this time, and Lu Feng's realm was loosened again!

The vast energy continued to wash through Lu Feng's meridians, and finally stopped at his spiritual platform, and rushed to the next realm with great vigor!

In a short period of time, Lu Feng became a late Golden Immortal and jumped to the peak of the Golden Immortal!

Now Lu Feng also had a big smile on his face.

"It's done!"

As soon as he reached the peak of Golden Immortal, Lu Feng felt that the power of space law in his body began to consolidate continuously, and the Dao Fruit around him also solidified a lot.

After this realization, Lu Feng finally got a hint of the laws of space.

Although he was unable to fully grasp the power of space laws at this time, he could still master magical powers such as shrinking to an inch.

When he thought that he had gained a lot this time, Lu Feng immediately took out his Dao Plate.

"Let me sign another one in!"

This retreat lasted for two months.

There are also many rewards for system re-signing, but Lu Feng only glanced at them.

"Today I successfully broke through to the peak of the Golden Immortal. I am only one step away from the Taiyi Golden Immortal. I hope my luck will be better and give me an innate spiritual root!"

As he finished speaking, the system's beep sounded.

[Congratulations to the host for successfully signing in and receiving the innate spiritual root fairy apricot branch. ]

Now it was Lu Feng's turn to be dumbfounded.

Good guy, what do you think he is asking for?

Moreover, these properties are one of the ten innate spiritual roots.

Even compared to Willow Vine, it was not much more concessions, but in the end, this thing actually fell into his hands?

It's a pity that haste makes waste. Lu Feng wanted to refine the immortal apricot branch, but now he is really powerless.

After all, his strength increases too quickly. If it is not stabilized in time, it will be detrimental to his practice.

Therefore, Lu Feng could only put this thing away for the time being, and then take it out for use next time he practices.

At the same time, Lu Feng did not forget to check his previous re-signing rewards.

[Congratulations to the host for successfully re-signing and getting a seven-color tail feather! ]

[Congratulations to the host for successfully re-signing and receiving a five-color divine stone! ]

[Congratulations to the host for successfully re-signing and receiving a bottle of Sanguang Divine Water! ]

[Congratulations to the host for successfully re-signing and receiving ten third-grade green lotus plants! ]

A series of rewards came one after another, making Lu Feng dazzled.

But soon, Lu Feng's attention fell on the Three Light Divine Water.

A palm-sized bottle quickly appeared in front of his eyes. This jade bottle seemed to have a small capacity when it shook.

But after he took a closer look, Lu Feng realized that the Three Light Divine Water was actually as big as a pond!

When Lu Feng thought that the system would reward him with some lotus flowers from time to time, he thought of digging a pond in front of his house.

When the time comes, pour the Sanguang Divine Water into the pond, and then pour lotus flowers into the pond. It won't be too beautiful!
