

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 17 The human race is attacked!

Although Lu Feng's current strength is not enough to use Hongmeng Purple Qi, there is only so much Hongmeng Purple Qi in the world. It doesn't seem to be a big problem to grab one or two more for his disciples, right?

Thinking of this, Nuwa immediately began to plan carefully.

My own disciples couldn't join in the fun because they were not strong enough.

But she is a saint, so it is very easy to add fuel to the fire!

Lu Feng didn't know yet that his teacher was planning to help him win the Hongmeng Purple Qi.

After completing today's routine check-in, he quickly checked the system rewards.

[Congratulations to the host for completing today's sign-in and receiving a bottle of the best source spiritual liquid!]

Upon hearing this, Lu Feng immediately cheered up and looked at the white jade porcelain bottle that appeared in his hand.

Compared to the last bottle of three-color divine light, this time's white jade porcelain bottle is obviously much more ordinary. It contains a crystal clear liquid, which must be the top-quality original spiritual liquid.

Lu Feng did not hesitate and decided to refine all the spiritual liquid.

Since it is about the origin of the body, it is naturally beneficial to his practice.

Originally, Lu Feng was still thinking about absorbing the refining immortal apricot branch, but now it seems that he can push it back.

I saw majestic spiritual power continuously flowing into Lu Feng's major meridians. The aura around him was also shaken, and the chaotic green lotus behind him also became more solid.

As the original liquid in the porcelain bottle gradually decreased, the twelfth-grade Chaos Green Lotus behind Lu Feng also changed at this moment!

The Chaos Green Lotus, which originally had only twelve petals, now has three more petals!

When he realized this, Lu Feng thought he was dazzled.

However, when he finished counting carefully, he realized that his Chaos Green Lotus actually had three more petals.

At the same time, the majestic spiritual power in his body began to continuously impact the realm he had just stabilized.

The next second, the torrential spiritual power quickly broke through the peak realm of Golden Immortal like a river bursting its banks!

Early stage of Taiyi!

A few rays of light bloomed in Lu Feng's eyes, and then he sat up suddenly, with a little surprise in his eyes!

But soon Lu Feng sat cross-legged again, constantly circulating Zhou Shen's spiritual power.

In a short period of time, the golden lotus above Lu Feng's head bloomed again!

Two lotuses floated side by side above Lu Feng's head, and they were particularly beautiful when they were golden.

It wasn't until the golden lotus on top of his head solidified that Lu Feng let out a long breath.

"It's done!"

In an instant, countless golden lights burst out from Lu Feng's body.

Lu Feng only felt warm all over his body, as if he was in a body of warm water.

"I didn't expect this bottle of Origin Forestry to be so powerful. It not only helped me break through to the early stage of Taiyi, but also allowed me to condense the top golden flowers. Now even the Great Dao Hongliang Technique has broken through to the fourth level."

"This feels so good, doesn't it?"

Lu Feng was so happy that he almost laughed out loud, but before he could appreciate his breakthrough masterpiece, his expression sank in the next second!

"Damn it!"

"I'm in charge of the human race, but there's actually an intruder from Xiaoxiao!"

At the foot of Shouyang Mountain, two bull demons crept into the forest.

Instead, they started to devour the human race of this small tribe alive.

Lu Feng's spiritual power now covers the entire Shouyang Mountain area.

Normally, he would not use his mental power to investigate at will, but he has already set up a formation in the area where the human race lives in Shouyang Mountain. Once there is an invasion by a foreign race, he will be able to sense it instantly.

These two bull demons slaughtered the human tribe wantonly.

How could Lu Feng endure them? So in just one breath, Lu Feng's figure rushed out of the cave.

This improvement in strength has made his control over the laws of space much stronger, and his flying speed has also become much faster.

Therefore, in a short period of time, Lu Feng had fallen into the smallest human tribe.

At this moment, the human tribe was mourning all over the place, and the cries and screams of the human race could be heard everywhere.

"Let me go!"

"Father!"

"Brother, save me!"

"..."

Lu Feng walked all the way, his eyes full of coldness.

But at this moment, the two bull-headed monsters causing trouble among the tribe were unaware of the approaching danger.

Especially when they saw the cowering and frightened expressions of the human race in front of them, it only further stimulated the ferocity in their bloodline.

"Hahahaha, I didn't expect there to be so many humans. We can have a feast today!"

"I have been coveting these human races for a long time. I never thought for a long time that you would actually run out on your own today."

"It would be great if I could have a big meal every day from now on. It's a pity that these human races were created by Nuwa, and even the demon races like us can only come here occasionally to have a taste."

The two monsters chatted as if no one was around, and from time to time they would stretch out their horns and hit a human to death.

In an instant, blood flowed like a torrent, and countless humans trembled.

"How to do?"

"They're going to kill us all!"

However, at this moment, a figure suddenly fell down and hit the bull-headed monster standing at the front.

But with just a casual blow, this monster was shattered into pieces by the powerful power of law!

The remaining monster stopped when he saw this.

When he looked at the person, his eyes showed a bit of fear.

"Taiyi Golden Immortal!"

"How can the human race have Taiyi Golden Immortal?"

Lu Feng smiled coldly.

"Don't you monsters know that the human race is the followers of our human religion?"

"Anyone who dares to massacre members of our religion must be beheaded!"

As the last word fell, the bull demon in front of him was directly torn into pieces by the power of endless space, leaving only blood stains on the ground.

The two monsters died in Lu Feng's hands in an instant.

And this scene completely shocked everyone in the human race!

It's true that Lu Feng's attack just now was too quick and killing.

Even before the human race could react, these two monsters were already dead with no ashes left.

Lu Feng was about to turn around and leave.

Suddenly, a mighty breath came from behind him, and this breath locked on his body in an instant!

Out of instinct, Lu Feng immediately dodged the blow.

However, this man's speed was obviously faster than him!

Lu Feng did not retreat this time, and directly used his twelfth-grade World-Destroying Black Lotus behind him.

As soon as the twelfth-grade World-Destroying Black Lotus came out, it immediately helped him withstand the attack.

At this time, the person who attacked Lu Feng finally appeared.

Lu Feng looked at the visitor coldly.

"I don't know who this fellow Taoist is. He came to my human race. What do you mean?"

Soon, a strong pressure swept directly towards Lu Feng!

"He is just a Qinglian who has just entered Taiyi Golden Immortal, but he dares to kill my demon clan!"

Lu Feng snorted softly. Even though he felt that the opponent's strength was far greater than his own, he remained calm and composed.

"This is the demon clan of the Holy Land of the Human Religion. If it dares to devour my human race rashly, then you must be prepared to bear the price!"

"I follow the orders of Empress Nuwa to guard the human race!"
