

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 18 Lu Feng's attitude!

Hearing Lu Feng's words, the visitor's expression immediately changed, and it took a while before he asked tentatively.

"Are you Lu Feng, the disciple of Saint Nuwa?"

Lu Feng cupped his hands.

"It's me. I wonder what's going on with you?"

After receiving Lu Feng's answer, the other party immediately showed a big smile.

"This is really a flood that has washed away the Dragon King Temple. I didn't expect that Fellow Daoist Lu would actually be sitting under the throne of Saint Nuwa!"

Lu Feng didn't reply, he just looked at the other party steadily.

He could feel that the other party was far stronger than himself, and might have reached the level of a quasi-sage.

But compared to his cultivation level, Lu Feng was definitely not afraid of him!

What's more, he has the saint Nuwa behind him to support him. Even if the other party is a quasi-sage and wants to touch him, he has to consider whether he can withstand the saint's anger.

In fact, the quasi-holy demon tribe who came here was really panicking.

At this moment, he had already scolded these two troublemaking beasts a thousand times in his heart!

Why do you think you came to the human race so well?

Nowadays, no one in the entire prehistoric world knows that the human race is governed by the sage Nuwa. In order to educate the human race, the sage Nuwa even specially established a human religion here.

As a result, these two monsters dared to commit crimes against the wind and came directly to the human area to devour the human race.

Now even if he wanted to rely on his strength to suppress the young man in front of him, he probably wouldn't be able to.

The demon racer thought a thousand times, but in the end he bowed respectfully to Lu Feng.

"I have offended Duo just now, please don't blame me, fellow Taoist Lu."

"I just heard that two monsters were strangled in the human area, so I came to investigate. Since these two monsters are responsible for themselves, let's leave it at that."

Lu Feng was still very satisfied with the other party's attitude.

Just taking this opportunity, he was able to make further new demands.

"This can be done, but I heard those two bull demons say just now that the demon clan seems to be coveting the human race now?"

"Do you even want to have a taste of the human race?"

As soon as he said these words, the demon clan in front of him broke into a cold sweat!

I don't know what stupid things the two bull demons who died earlier said. The key thing is, can these words be said directly in front of the disciples?

Now that he's being held accountable, I'm afraid he can't leave until he has some blood this time.

"I wonder how Fellow Daoist Lu thinks this matter should be handled?"

Anyway, the two bull demons are already dead, so he can't be allowed to dig them out of the soil again and continue whipping their corpses, right?

The key is that Lu Feng didn't leave any intact corpses of these two bull demons!

Lu Feng sneered and said leisurely.

"Taking this opportunity, I will tell you my request. From now on, within the human domain, the demon clan is not allowed to come in and hunt the human clan at will. If anyone is discovered, they will be killed without mercy!"

As the last four words fell, a muffled thunder suddenly rose from the horizon.

The demon clan glanced at the sky for a moment, knowing that Lu Feng's words had resonated with Heavenly Dao.

But now that the matter has come to this, even if the demon clan is reluctant, they can only agree with their waists.

"That's natural. When I return, I will definitely instruct the demon clan below to never interfere with the development of the human race in the future."

After saying this call, the demon saint in front of him just wanted to pat his butt and leave.

He is absolutely unwilling to do dirty and tiring work like this again in the future!

Lu Feng didn't expect this demon clan to be able to convey what he said.

After all, in the ensuing Lich War, not only the Lich Clan and the Demon Clan were both harmed, but the human race was also severely damaged.

If it can be avoided a little bit, it may be an opportunity for the human race in the future.

Moreover, what he said just now deliberately made an oath to the law of heaven. With the law of heaven as a witness, if the demon clan wants to attack the human race in the future, it will have to weigh the weight of the law of heaven!

"In that case, please tell fellow Taoist disciples what I just said."

At this moment, Demon Saint only felt that Lu Feng was extremely difficult to deal with.

If it had been anyone else, the Demon Saint would have exploded by now.

It was because Lu Feng's identity made him unable to offend him, and now Nuwa and Fu Xi were both the Demon Emperors of their Demon Court. Now that they were quarreling with Lu Feng, the troubles in the future would not be very good.

"Don't worry, fellow Daoist Lu, I will definitely tell your majesties about this matter when I return!"

Lu Feng then nodded.

That was all, the Demon Saint quickly disappeared.

Lu Feng turned into a stream of light and returned to his cave.

It was rare for him to get up and move around, so of course Lu Feng had to sign in in person.

After summoning the Great Dao Disk, Lu Feng put his hand on the Great Dao Disk and started to mutter something.

"I was practicing, but I didn't expect that a demon clan suddenly approached the human area and swallowed up a large number of humans."

"I killed those two demon clans, and a demon saint appeared unexpectedly."

"We just take this opportunity to prevent the demon race from approaching the human race area in the future. This will also add a layer of protection for the human race in the future."

Lu Feng had just finished practicing, and the next second the system prompt sounded quickly!

[Congratulations to the host for completing today's sign-in, and will be rewarded with a bottle of top-notch Tianshan snow water!]

Lu Feng glanced at the Tianshan Snow Water he had just obtained and threw it directly into his system backpack.

Lu Feng has known the efficacy of Tianshan Snow Water for a long time, and now he no longer needs to rely on system prompts.

In the final analysis, this thing has only one function, and that is to help consolidate the realm.

But it was a bit tasteless for Lu Feng.

After all, he is now the heel of the Innate Demon God. Whether it is to lay a solid foundation or improve his cultivation, it is not difficult for him.

Things like Tianshan Snow Water kept popping up in the system, so Lu Feng simply forgot about this bottle of Tianshan Snow Water.

Anyway, there is a lot in the backpack. One day he will dig a pond at the door of his cave and fill it with Tianshan snow water.

Lu Feng felt so happy when he thought that he would own a pool of Sanguang Divine Water and a pool of Tianshan Snow Water in the future!

At the same time, Lu Feng's re-signing rewards began to arrive one after another, and he saw that his system backpack suddenly had a lot of grids.

Lu Feng once again closed his eyes.

The last time he got the Immortal Apricot Branch, he didn't have time to refine it, but this time it was just right!

Through the retreat stall, he could just swallow this innate spiritual root.
