

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 2 The Law of Great Dao Hongliang

As a saint, Nuwa was not allowed to enter the wilderness at will unless she had nothing to do.

That's why she built the Wa Palace outside this chaotic thirty-three days.

But compared to chaos, Lu Feng still prefers the prehistoric environment.

That's why he deliberately found a water cave to stay.

It's just that I rarely come back on weekdays, and now that I'm back, I really feel a little strange.

But soon his attention returned to his system.

He didn't forget that he still had a system.

There was a feeling, and soon a majestic aura of the great avenue emerged in the cave.

The next second he landed in front of Lu Feng.

Lu Feng couldn't help but narrow his eyes.

When he opened his eyes again, there was already a black ink disk in front of him.

The ink disk is suspended in front of you, with a bulge in the center.

The ink plate is surrounded by complex ancient patterns of the avenue.

Lu Feng only stared at it twice before feeling dizzy.

He immediately knew that this thing was not something he could comprehend casually.

At least his current abilities are not good enough.

At the same time, information related to Mopan also emerged in Lu Feng's mind.

[The Daodao disk is bound successfully!]

[Dao Dao Pan: The treasure of Dao Dao, which can be attacked and defended. It can open up the world and shake the universe. It is used for sign-in and daily reporting.]

After reading the relevant introduction, Lu Feng was confused.

isn't it?

Just throw out a great treasure to sign in for yourself when you come up?

Isn't this a bit too treacherous?

The key is that this thing can also be used as an offensive and defensive weapon!

As for the avenue-level offensive and defensive weapons, Lu Feng has only seen this one so far!

This sign-in plate is a good treasure, and it may be much more powerful than the Pangu ax that Pangu used to create the world.

After all, when Pangu opened the sky, it took a lot of effort.

Looking at the Great Dao Plate in my hand, it is just a matter of waving the hand to move the sky and shake the earth.

If he uses it properly and is strong enough, he may not be able to block the saint's attack!

It's a pity that he can't use this thing to its full strength now.

Maybe it won't even be able to exert its billions of strength.

So it's better to hurry up and improve your strength.

With his current strength, using it forcefully might cause backlash.

Not worth it!

Lu Feng played the Dao Board for a while and then remembered his own system.

"System, what's going on with your sign-in?"

[Hongmeng Avenue Sign-in System, after the host successfully binds the Avenue Board, it can sign in on the Avenue Board every day and complete daily reports]

[The system will give rewards based on the sign-in status. The rewards include skills, spiritual treasures, elixirs, spiritual roots, cultivation, etc...]

What the hell!

Lu Feng covered his mouth in shock, fearing that he would cry out in joy.

isn't it?

Is this check-in system so easy?

All you need to do is sign in and complete the daily report?

And the rewards are still things like spiritual treasure pills?

Isn't this a free gift of cultivation!

"System, are you sure there are no other conditions attached?"

[Host, there are no other conditions attached~]

[Host, please sign in diligently and strive to become stronger!]

[And as compensation for not being bound in time before, a gift package for newbies is now provided, which can be collected after signing in within five minutes!]

[Countdown starts: five minutes!]

When Lu Feng heard this, his whole body suddenly shook!

So he immediately grabbed the Dao Plate in front of him.

He pressed one hand on the raised position in the center of the avenue disk.

He also kept muttering in his mouth.

"I report today that I received guidance from my teacher in the Imperial Palace of Wa. I am so grateful that I don't even shed tears!"

next second!

[Ding dong! Sign in successfully!]

After hearing the system announcement, Lu Feng immediately cheered up.

[Congratulations to the host for completing the first day of sign-in and obtaining the top-notch innate spiritual treasure God-killing Formation!]

[Congratulations to the host for getting the novice gift package, would you like to open it?]

In front of Lu Feng's eyes, a large bright red gift box soon appeared.

Lu Feng had almost no hesitation.

"open!"

[Congratulations to the host for obtaining the Dao-level skill "Dao Hongliang Technique", a ninth-grade chaotic green lotus, and a twelfth-grade world-destroying black lotus.]

Lu Feng was numb now.

Isn't it? ?

He just signed in.

As a result, the system gave him so many good things?

And he also gave me a ninth-grade Chaos Green Lotus?

This thing is his origin, and it is a great tonic for his feet!

Ordinarily, it is something that is simply impossible to find.

As a result, the system gave it up so easily.

Not only that, but the Dao-level skills were also given?

The innate treasure was given to two people at once?

Lu Feng felt like his head was going to be knocked out.

The contrast is really too obvious.

Before the system comes, you will have nothing to ask for.

The system is now here, and you can get whatever you want.

Happiness came so suddenly that Lu Feng himself was in a daze.

It's just that no matter how confused you are, things still have to be collected.

[God-killing array: Innate spiritual treasure, it can trap all gods and kill all methods!]

["Great Dao Hongliang Technique": Dao level exercises, including three thousand Dao law cultivation methods, a total of nine levels, subdivided into ninety-nine and eighty-one small levels. Each small level of practice can double the combat power, which is a full level. The overlapping will increase the combat power by ten times, and the full nine overlaps will increase the combat power by a hundred times! The Lord kills creation.]

[Ninth-grade Chaos Green Lotus: An innate treasure, which can be used to improve the heels and feet.]

[The twelfth-grade world-destroying black lotus: the innate treasure, the object of the demon ancestor Rahu, the master of killing.]

A lot of information rushed into his head, and Lu Feng was so happy when he received it!

Especially the twelve-grade world-destroying black lotus in Demon Ancestor's hand.

Unexpectedly, it would fall into his hands now.

The fight between Demon Ancestor Luo Hu and Tao Ancestor Hongjun was a mess.

But since that battle, Demon Ancestor Luohu has disappeared, and even the God-killing Spear and the 12th-grade World-Destroying Black Lotus in his hand have disappeared.

Now he has obtained a world-destroying black lotus. If he hadn't been originally a green lotus, he might have swallowed this twelfth-grade world-destroying black lotus now!

However, the system sent a Chaos Green Lotus, which was just right to complement his heels.

Don't underestimate this ninth-grade chaotic green lotus.

I think back then, Pangu, the founder of the world, was conceived from a chaotic green lotus.

So much so that their Chaos Qinglian has also been essentially improved.

Except for Qinglian the day after tomorrow.

Lu Feng is not even considered Chaos Qinglian.

He was just a green lotus seed in the chaos, and he cultivated to achieve creation and become what he is today.

If not, his cultivation wouldn't be so difficult.

But now I have the "Great Dao Hongliang Method" and the ninth-grade Chaos Qinglian that improves my heels.

I think it will be much easier to practice in the future.

When talking about the "Great Way of the Great Way", Lu Feng became a little eager to try it.

Especially after reading the introduction, he felt that these Dao-level skills were even more awesome.

Ordinary cultivators will never reach quasi-sage cultivation throughout their lives.

Even today's Sanqing is only at the pinnacle of quasi-sage.
