

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 21 Magical Skills

Wa Palace.

Nuwa looked in the direction of Shouyang Mountain with a surprised look.

"Then Tongtian actually became a saint in the human race?"

Nuwa wanted to make some calculations, but thinking that Tongtian was now a saint, she had to give up.

If we are both saints, we will never be able to calculate anything.

I just don't know why Tongtian became a saint among the human race?

According to common sense, it shouldn't be!

Suddenly, a figure appeared in Nuwa's mind, and her eyes flashed accordingly.

If anyone can change such tricks, it seems that there is no one other than his own apprentice, right?

At this moment, Lu Feng felt a chill running down his back, as if he was being watched.

But soon he touched his arm again.

Who would pay attention to this little green lotus of their own?

So it must be my own misunderstanding!

After thinking for a moment, Lu Feng immediately looked towards Tongtian high in the sky.

Tongtian also turned into a stream of light and fell in front of Lu Feng's eyes. There was an uncontrollable smile on his face, and he even saluted Lu Feng.

"Thanks to Senior Nephew Lu Feng today, otherwise I might not be able to become a saint."

"Tongtian has recorded this opportunity!"

Hearing Tongtian's words, Lu Feng became excited now, but he didn't show it on his face.

"It's just a random act, don't take it to heart, Master Tongtian."

If you really want to thank me, please hand over the twenty-four Dinghai Divine Pearls you said you wanted to give me earlier!

Fortunately, Tongtian didn't forget what he said before.

Soon he took out the twenty-four Dinghai Divine Pearls that he had previously obtained from the Fenbao Rock, and put them directly into Lu Feng's arms.

"Although the two of us are just making a bet, the cause and effect of becoming a saint is not just a matter of twenty-four Dinghai Divine Pearls."

"If my nephew is needed in the future, I will definitely not refuse!"

Lu Feng happily accepted the twenty-four Dinghai Divine Pearls that Tongtian gave him.

Unexpectedly, he would actually make a lot of money today!

Not only did he get the twenty-four Dinghai Divine Pearls given to him by Tongtian, but he also received a cause and effect from the saint.

No matter how you calculate it, it's not a loss for him, right?

"Then my nephew would like to thank my uncle in advance!"

Tongtian just waved his hand.

"If you say thank you, it should be my uncle who thanks you."

"But I have been out for a long time today, so I want to say goodbye to my nephew first!"

Lu Feng also knew that Tongtian had a lot of things going on, so he immediately raised his hands and said.

"Congratulations, uncle!"

There are so many things to do after becoming a saint!

First of all, Tongtian's dojo must be determined where it should be. Secondly, Tongtian must find a nest for himself on the thirty-third day.

Not to mention that his soul has to be placed in the way of heaven. It is basically impossible to calculate these things carefully without tens of thousands of years.

As soon as Tongtian left, Lu Feng immediately returned to his cave to sign in.

Naturally, the sign-in reward was also extremely generous, and he got another innate spiritual root.

With his innate spiritual roots, Lu Feng simply entered seclusion again.

It was just that Lu Feng was relaxed here, but everything in Honghuang exploded!

The first to take the lead are the two from Kunlun Mountain.

Lao Tzu and Yuan Shi were playing chess face to face.

When I heard that Tongtian had become a saint, I felt a little different in my eyes.

"I didn't expect that the third brother would be one step ahead of us."

According to their calculations, it was Lao Tzu who should have taken the lead in establishing the sanctification of human religion.

Next is Yuanshi, and finally Tongtian.

But now the foundation of Laozi's sainthood has been taken away by Nuwa, and Yuanshi has been unable to find the method. Unexpectedly, it was Tongtian who became the first to become a saint in the end.

Yuan Shi's tone at this moment also contained a hint of dissatisfaction.

"I didn't expect that Tongtian would actually take the lead!"

I shook my head.

"It's about time his chance came."

"But after he comes back, the two of us can ask him. If we can find a chance through this, that's fine."

Yuan Shi didn't refute when he heard this, but his eyes still glowed with coldness.

At this time, in the Demon Court.

Emperor Jun and Taiyi were also surprised when they felt the overwhelming power of the saint.

"Now that Tongtian has become a saint."

As Taiyi, the more powerful of the two demon emperors, was a little scared at this moment.

"Brother, have you felt it? The pressure that erupted when Tongtian became a saint was far greater than us!"

Di Jun nodded.

"He has now become the Hunyuan Daluo Golden Immortal. His strength is naturally much higher than ours, but we are not far behind. We should practice hard now and achieve the position of Hunyuan Daluo Golden Immortal as soon as possible!"

Taiyi's eyes couldn't help but reveal a bit of madness when he heard his eldest brother's words.

"I will definitely work harder!"

"It's just a saint's position, we will definitely not fall behind!"

At this time, the West also became lively because of the turbulence of the Heavenly Dao.

Jieyin and Zhunti sighed and looked at the empty and impoverished western land behind them.

"I didn't expect that Tongtian became a saint so quickly. I don't know when we will be able to enter the realm of saints and revitalize the West!"

"Senior brother, we can definitely become saints, but we just haven't found that realization now."

"Why don't we go out and travel around this time, maybe we can also find our opportunities?"

Jieyin and Zhunti looked at each other and immediately got up from the ground.

They say they go out to look for opportunities, but in fact, the two of them always bring a lot of good things when they go out, and most of these things are obtained by deceiving others outside.

But what can they do?

Ever since the battle between Demon Ancestor Luohu and Dao Ancestor Hongjun, the West has become like this.

How can they nourish the land of the West if they don't search for some good things and bring them back?

Here, Jie Yin and Zhunti left the West happily.

Most of the other powerful parties are restless.

It's just that Lu Feng didn't know all this.

He is using the spiritual power of his innate spiritual roots to continuously impact his own realm.

At the same time, his soul also began to condense and take shape.

In the end, it turned into a small Q-version doll no bigger than a fist in my mind.

Looking at the little baby in his mind, he is chubby and extremely cute. He even looks very similar to his current face. Those who don't know may think he is his son.

Lu Feng couldn't help but chuckle.

With his thoughts flowing, this Yuanshen doll immediately behaved properly in his own divine sea.

When he exited the cultivation state, Lu Feng did not forget to touch his little soul.

This time, after devouring the innate spiritual root, his level has not improved, but his control over the original god has become more and more skillful.

He even directly realized a magical power!

[Original God comes to the world: It can improve one's own strength by one level, without side effects, and lasts for one hour! ]
