

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 3 Sign-in rewards, the more the merrier

Looking at his starting point, he is directly at the Dao level, and his future cultivation limit will also be greatly increased.

Moreover, the "Dao Hongliang Method" has many conveniences.

Take the multiple of its superposition as an example.

Lu Feng only needs to break through one level to be able to throw away cultivators of equal strength.

This is simply a killer cheat!

Think about it, people spend the same amount of time practicing, but in the end they have to face several times as many opponents.

Lu Feng felt a little sorry for his future opponents.

And as his cultivation level increases, the superposition multiplier will gradually increase.

It's like saying that if he goes out for a walk in the future, he will be alone with several thugs of the same strength!

It's scary just thinking about it, okay?

Not to mention that he still has a great treasure like the Great Dao Plate in his hand.

After absorbing all the information, Lu Feng just wanted to start practicing quickly.

He can't wait to accept his harvest!

The first thing that bears the brunt is his heel problem!

Lu Feng immediately took out the ninth-grade Chaos Green Lotus and absorbed it without any hesitation!

As the Chaos Qinglian with the same origin, Lu Feng absorbed it very quickly.

At the same time, the aura on his body gradually moved from being shallow at the beginning to being mysterious.

However, in a short period of time, Lu Feng felt that the things that had been imprisoning him seemed to be slowly falling off...

Click!

There was a strange sound coming from my head.

Lu Feng suddenly opened his eyes and let out a long breath.

"Hahaha!"

"As expected of an innate spiritual treasure! It's really powerful."

Even just a ninth-grade chaotic green lotus is enough to cause earth-shaking changes in his heels.

And his heel at this moment has been transformed from the acquired Qinglian into the innate ninth-grade Chaos Qinglian.

If you want to continue to improve, I'm afraid you have to wait for the next time you absorb the same source.

But now we can finally see the light of day.

Lu Feng felt that he could still afford to wait.

Due to the improvement of his heels, the "Great Dao Hongliang Method" also began to gradually replace the original exercises taught by Nuwa, and began to flow along his whole body.

Even the realm that had been stable began to loosen, and there was a faint trend of promotion.

Being able to get promoted along the way of training was great news for Lu Feng, so he immediately began to absorb the spiritual energy around him for his own use, and kept rushing towards his bottleneck!

Soon Lu Feng felt that the aura around him gradually began to become thicker, and his realm actually began to rise towards the peak of true immortality!

However, within a short time, Lu Feng heard a clicking sound inside his body, which was the sound of his bottleneck breaking through.

After rushing all the way from the early stage of True Immortal to the peak of True Immortal, Lu Feng felt that his cultivation level had stagnated.

But soon the Dao Hongliang Technique in Lu Feng's body began to operate rapidly. At this moment, the technique that was still in the first stage actually climbed directly to the second stage at this moment!

It was also after the Great Dao Hongliang Technique hit the second level that Lu Feng's strength, which was originally at the peak of the True Immortal, actually began to slowly rise again at this time, and the rate of rise was actually getting faster and faster!

Lu Feng felt happy, and he quickly began to absorb and breathe in the spiritual energy around him, and continued to attack upwards. He had a hunch that today he might be able to break through the shackles of competing for the first place in one fell swoop!

Sure enough, under Lu Feng's persistent impact over and over again, an extremely mysterious aura suddenly spewed out from Lu Feng's body.

This aura enveloped his whole body, making Lu Feng's whole body seem to be in the clouds and mist, quite ethereal.

The early stage of Xuanxian!

Lu Feng never expected that he would actually break through the realm of True Immortal and reach the early stage of Xuan Immortal in one fell swoop.

Moreover, what he absorbed was just a ninth-grade Chaos Green Lotus, and it actually brought him such benefit.

Not only did it greatly improve his heels and feet, but it also greatly accelerated his cultivation speed, and his understanding also increased sharply.

Although Lu Feng's heels were not as good as those of Sanqing and others at this time, he was still outstanding compared to most of the creatures in the ancient world.

Lu Feng was so happy when he felt the mysterious and mysterious aura in his body.

Now that he has practiced the Dao Hongliang Method, it has brought him a considerable increase. Coupled with the system's daily sign-in rewards, I am afraid that there will not be much time until his next promotion.

Calculating what he gained today, it was really a lot. Not only did he improve his heels, he also obtained two innate treasures, and his cultivation level also improved by a large level.

Thinking about it this way, Lu Feng is really looking forward to the sign-in reward tomorrow.

Fortunately, in this primitive world, a day only takes a blink of an eye.

Lu Feng soon lay down until the next day.

He immediately took out the disk and couldn't wait to put his hand on it, while not forgetting to report on his work.

"Today is another wonderful day. Heiji has been upgraded to the ninth grade Qinglian. From now on, the speed of cultivation will be greatly accelerated!"

After Lu Feng finished speaking, he heard the system prompts the next second.

[Congratulations to the host for completing today's sign-in, and will be rewarded with the acquired treasure, the Demon-Slaying Knife!]

Seeing this reward, Lu Feng nodded with satisfaction. Sure enough, it had to be a golden finger.

Look at the rewards given by this golden finger. He only needs to press his fingerprints every day and say two sentences to report, and he can obtain the spiritual treasure pill formation, etc. There is simply nothing more beautiful than this!

But thinking about it, Lu Feng still practices every day, but due to the system, Lu Feng has to devote his attention to signing in every day during his practice.

But even if this is the case, it is much better than what he had practiced hard for 30,000 years before.

[Congratulations to the host for completing today's sign-in, and will be rewarded with the acquired Lingbao Immortal Sword!]

[Congratulations to the host for completing today's sign-in and being rewarded with the innate treasure, the God-killing Spear!]

[Congratulations to the host for completing today's sign-in, and will be rewarded with two beams of Hongmeng Purple Qi!]

[Congratulations to the host for completing today's sign-in and being rewarded with the innate spiritual root Ten Thousand Years Willow!]

.....

At this moment, in the prehistoric world, a stream of light was traveling around in the prehistoric world.

Not long after, this stream of light landed on a mountaintop and transformed into a woman.

Nuwa looked at the acquired spiritual root she had just taken in her hand, and her expression was a little more confused.

In this ancient world, everything has to be determined by chance. With her current saint's skills, she has been out for so long, but she still has not been able to find an innate spiritual root.

It's not that acquired spiritual roots are not rare, but what Lu Feng needs more now is innate spiritual roots, and the effects of acquired spiritual roots are not great.

Nuwa thought for a while, and finally decided to walk around, just in case she could encounter an innate spiritual root.

But just as she took action, a ray of light suddenly rushed towards her!
