

PREHISTORIC: NUWA'S FIRST DISCIPLE, THE MASTER WAS THE FIRST TO ESTABLISH A HUMAN RELIGION

Chapter 6 Come on and lie down? !

As the name suggests, it can cause everything to perish quickly, which can be said to be a great killing move.

"It's just that this skill consumes too much spiritual energy, so I still have to use it with caution in the future."

At least Lu Feng would not use this skill until important moments.

After all, it's a good product that you can buy at the bottom of the box.

Just after leaving the customs, Lu Feng immediately checked his system.

It took a full month to comprehend the power of the law of time this time.

However, this month is nothing compared to his previous hundred or even thousands of years of seclusion.

Sure enough, Lu Feng had just looked at the system, and the next second the system's prompts began to ding-ding-dong-dong.

[Congratulations to the host for completing the re-signing, and will be rewarded with the Hunyuan Daluo Golden Immortal level Virtual God Finger skill!]

[Congratulations to the host for completing the re-signing, and will be rewarded with Hunyuan Da Luo Jinxian level skills from the gods and gods!]

[Congratulations to the host for completing the re-signing, and will be rewarded with the Hunyuan Daluo Golden Immortal-level Destruction of Ten Thousand Techniques skills!]

[Congratulations to the host for completing the re-signing, and will be rewarded with a Time Law Fragment*1]

.....

Lu Feng was stunned by the series of reminders.

Especially when Lu Feng saw the reward given in the prompt, he jumped up excitedly on the spot.

The system really didn't bully me!

Unexpectedly, my sign-in system was so powerful. Not only did it really help him sign up, but the rewards were actually so generous!

Now Lu Feng no longer has to worry about how he will walk in the wilderness in the future.

Especially after seeing these three Hunyuan Da Luo Jinxian level skills, the satisfaction in his eyes almost overflowed.

[Virtual God Finger: It can activate the avenue of space and destroy all realms.]

[The Realm of the Gods: Create a unique space and become the master of space.]

[Destroy all dharmas: all dharmas are invincible, destroy all dharmas and all realms with one palm]

There are three Hunyuan Daluo Jinxian level skills nearby. Among the Jinxian ranks, no one can get out of three rounds in their own hands!

However, Lu Feng really never thought about Jinxian traveling at this stage.

The world is so big and he doesn't want to see it at all.

He just wants to stay in his cave, eat and wait to die.

People tend to forget things when they are excited. It was not until the system prompted Lu Feng that he suddenly realized that he seemed to have to make up for his daily report.

When Lu Feng realized this, he almost felt bad!

Sure enough, the rewards from the system are not free of charge!

The reward has already gone into his pocket, and now he has to make up for the daily reports.

Although there was no word limit on the report, Lu Fengguang's head was spinning just thinking about it.

However, a headache is a headache, and the report must be completed immediately.

[I'm out of seclusion, and my strength has been promoted to the middle stage of Golden Immortal. It's great!]

[I haven't embarrassed the master now, have I?]

[I understand the power of the law of time, I am awesome!]

[Absorbing another innate spiritual root, I feel that my strength has improved a lot]

[Will I be able to lie down smoothly in the future? Sitting in my cave and watching the clouds rolling and relaxing, this little day is so beautiful, right?]

[From today on, I will work hard to live a good life and lie down!]

【...】

At this time, in the Wa Palace.

Nuwa, who was meditating and resting, suddenly felt a wave of energy.

Her eyes also followed and fell on the avenue plate suspended in front of her.

Not long after, the voice of his good disciple came out from the avenue.

[The strength has broken through to the middle stage of Golden Immortal, which is simply amazing!]

【Today is a good day, all your dreams can come true~】

[Try hard to be a happy Qinglian, Oli is here!]

[From today on, I will work hard to live a good life and lie down!]

Nuwa:???

What is all this?

Are you sure this is what her apprentice said personally?

Her apprentice is not the most obedient and respectful, so why did he suddenly change his style?

But the next second, Nuwa's eyes showed a bit of surprise!

Wait!

My disciple has actually reached the middle stage of Golden Immortal?

Isn't this too fast?

You must know that it has only been more than three hundred years since his last retreat, but this kid was directly promoted to the middle stage of Golden Immortal? !

The speed is a bit too fast, right?

Nuwa's eyes were filled with surprise and uncertainty.

Could it be that this kid just had a chance and that's why his cultivation has grown rapidly during this period?

Before Nuwa could think about it, the voice of her good disciple continued to be heard from the avenue.

[I have already reached the middle stage of Golden Immortal cultivation. My cultivation speed should be able to slow down a little now, right?]

[Suddenly I feel that my cave is bare. How about I raise some little lotus flowers in the cave to decorate it?]

[Sure enough, the lives of the big guys are simple and salty!]

【...】

Nuwa was even more stupid now.

What does it mean to slow down the speed of cultivation?

And who said they saints don't need to practice? !

They saints also need to cultivate hard, right?

Besides, she, Nuwa, was the only disciple in her life.

Your boy has been practicing till today and already feels satisfied? !

Nuwa's fingers started to tremble in anger.

"This brat!"

"You haven't reached the level of Hunyuan Daluo Jinxian yet, yet you dare to float!"

"Where's my stick?"

Nuwa used to think that her apprentice was a worry-free master. After all, she didn't need her guidance on anything. This kid knew how to practice well, even if the effect of practice was minimal.

As a result, now that his heels and feet have improved, his cultivation has also improved, and he actually thinks about falling.

Can this Nuwa endure it?

Nuwa clenched her fists again as she thought about it.

"I need to find a strong stick!"

My disciples are all innate demon god level heel now. If I don't find a strong stick, it won't hurt if I hit him!

However, before Nuwa could find a suitable stick, the next moment Lu Feng's voice came from the avenue.

[I always feel that only small lotus flowers are planted in the cave, which is a bit too monotonous. How about I go to the human race today and take a look?]

[There must be beautiful flowers over there in the human race. When the time comes, I can just pick them back and insert them into the cave!]

[By the way, the human race is a bit too miserable now, right? It is obviously the result of existence in parallel with Tiandao, but Tiandao treats him as a horseman and drives him.]

[But I still have to go early and come back early today. If I bump into me, it will be over.]

[It seems that I want to establish the human religion here during this period. It is really a pity for this race. It is obvious that the human race is the result of the teacher, but my luck has been stolen completely by me.]

[I don't know where the teacher is traveling now. If I wait for the teacher to come back and see that my human race is getting a piece of the pie by me, I will be angry to death, right?]

[Let me tell you, we really have to strike first to gain the upper hand, do nothing without stopping, establish a human religion, enjoy the fate of the human race exclusively, and at the same time avoid the catastrophe of the human race in future generations!]
