Chapter 58: Phenomena of Heaven and Earth, Ancient Divine Body

"Sect Leader Senior Brother is in a crucial period of seclusion, and it is absolutely impermissible to disturb him."

Li Xuanming spoke with a serious tone, the other Peak Masters nodded as well, it was just casual talk. Lin Chen's talent was extraordinary and not easy to classify, but the seclusion of the Sect Leader Senior Brother was of utmost importance. They wouldn't disturb him.

When it came to teaching disciples, Yang Yuemin certainly wasn't the best choice, but if they let another Peak Master take on the responsibility, it would undoubtedly lead to another dispute.

In such a situation, all the Peak Masters appeared quite helpless. In the end, they agreed to let Lin Chen temporarily join the Twelfth Peak and wait for the Sect Leader Senior Brother to come out of seclusion before making further arrangements.

Yang Yuemin sighed in relief, despite her calm exterior, she was truly panicking inside.

She didn't know the first thing about teaching disciples, but Lin Chen's talent was indeed astonishing. She had chanced upon him, and naturally, one does not let the duck at one's lips fly away.

After the Peak Masters discussed it, they took their chosen disciples back to their respective peaks.

It's worth mentioning that Baili Chuifeng, who had the best talent besides Lin Chen, was directly taken in by the First Peak and became an Inner Sect Disciple, which really made him feel like a remarkable talent.

Upon returning to the Sect, Yang Yuemin immediately had Lin Chen perform the ceremony of acknowledging a master, fearful that the other Peak Masters might try to snatch him away.

After Lin Chen formally became Yang Yuemin's True Disciple, she didn't immediately teach him the cultivation method. Instead, she planned to have a deeper understanding of Lin Chen first, and then decide how to teach him based on his actual situation.

She knew well that a talent like Lin Chen could not be neglected. She dare not teach him rashly, but instead decided to observe for a while longer, in order to understand Lin Chen's strengths and potential more comprehensively. During this period, she had Lin Chen cultivate on his own so that she could better observe his performance and prepare for the subsequent teaching.

Although Yang Yuemin didn't provide Lin Chen with a cultivation method, she didn't skimp on elixirs and magic treasures either.

"Thank you, Master."

Lin Chen took a thousand Spirit Gathering Pills and a Spirit Grade Top Quality magic treasure gifted by Yang Yuemin. He felt somewhat excited in his heart, his master was really generous.

Those thousand Spirit Gathering Pills alone were equivalent to four or five years of the Lin Family's total income.

And that top quality Spirit Grade sword, exceedingly sharp, turned out to be an exceptionally fitting and good weapon.

After Yang Yuemin left, Lin Chen directly sat down to meditate in his room.

Now with these thousand Spirit Gathering Pills, Lin Chen was fully confident that he could unblock the remaining one hundred meridians and forge his true Divine Body.

Lin Chen was extremely excited; he looked forward to the changes his body would undergo after becoming a Divine Body.

Lin Chen took large quantities of Spirit Gathering Pills, a powerful burst of energy immediately exploded within his body. He quickly circulated the Primordial Transformation Art to absorb this surging energy.

Spiritual Power transformed into the Scorching Sun Fire, continuously tempering his shinbones and meridians.

Hum hum hum—

Sounds of booming resonated continuously within Lin Chen's body.

Lin Chen madly circulated his Spiritual Power, striking the last hundred meridians in his body.

Time slipped away quickly, and three days passed.

Boom—

Above the sky, dark clouds drew near.

Under the layers of dark clouds, thunder and lightning intertwined, and suddenly a fierce gale started to blow across the sky.

"What's happening? Why is there such a phenomenon in the sky, could it be that one of the Peak Masters is undergoing tribulation?"

"Looking at the scale of this event, the cultivation breakthrough is clearly significant; could it be that the First Peak's Peak Master is about to step into the Heavenly Human Realm?"

"No, that's not right, look over there."

The disciples from various peaks of the Jade Cauldron Sect were practicing martial arts, and they started discussing fervently upon seeing the phenomenon in the sky.

Initially, everyone assumed it was the First Peak's Peak Master, Li Xuanming, who was making a cultivation breakthrough into the Heavenly Human Realm.

After all, apart from the Sect Master Xu Ma'an, it was the First Peak's Peak Master Li Xuanming who was the strongest within the Jade Cauldron Sect.

However, everyone suddenly realized that Li Xuanming was standing there on top of the First Peak, showing no signs of undergoing any tribulation.

"If it's not the Peak Master of the First Peak, then who could it be?"

"The disturbance seems to be coming from the Twelfth Peak. Could it be Uncle Master Yang?"

"Didn't Uncle Master Yang just have a breakthrough half a year ago? Another tribulation so soon—it doesn't seem likely."

The crowd looked at the anomaly in the sky, their gaze finally settling on the Twelfth Peak.

Whoosh whoosh—

Among the Twelve Peaks, the lords of all ten peaks within the Sect had now gathered atop the Twelfth Peak.

Among the mountains, there was also a figure in a green mystic robe.

"Sect Leader Senior Brother, weren't you in seclusion? Why have you emerged?"

The various Peak Masters, seeing the figure, respectfully offered their greetings.

"How could I not come out with such a commotion within the Sect? Tell me, what's going on right now? Is someone on the Twelfth Peak making a breakthrough?"

Sect Master Xu Ma'an, a skinny old man, asked sternly.

The gaze of all the Peak Masters simultaneously fell on Yang Yuemin.

Yang Yuemin touched her forehead with embarrassment.

"It should be, should be a disciple making a breakthrough, I guess."

Yang Yuemin was also utterly confused at the moment; among her disciples below the peak, not a single one showed any sign of a cultivation breakthrough.

But the commotion was so great that she was starting to lose confidence.

"Nonsense, to not even know when your own disciple is making a breakthrough—what kind of mentor are you?"

Suddenly, two figures in white flew in, immediately accusing Yang Yuemin.

It turned out to be the returning Peak Masters of the Third and Ninth Peaks.

"Old Three, stop beating around the bush. Do you recognize what's going on right now?"

Xu Ma'an was already fed up with his youngest junior sister and didn't even bother to scold her; instead, he turned to the recently returned Lu Feiyun and asked.

"Senior Brother, judging by the current situation, it's possible that a disciple has cultivated the legendary Ancient Divine Body. Could it be Nephew Disciple Ran?"

Lu Feiyun speculated, looking toward Jade Bird Peak.

"What, an Ancient Divine Body? Such a physique has not appeared in the Great Flame Dynasty for hundreds of years. How is this possible? Nephew Disciple Ran only has a Medium Spirit Grade Physique, even if his physique were to advance, it couldn't possibly bridge such a vast gap."

Zhao Dachui, despite his muscle-bound body and fiery temper, had a sharp mind and instantly felt it was unlikely.

The others also agreed, but suddenly Li Xuanming's eyes flashed, and he looked towards Yang Yuemin.

"Wait a moment, the disciple Junior Sister Yang recently took in has a Spiritual Grade Physique. Could it be that his physique has advanced once more?"

Li Xuanming said, shocked.

The physique of a martial artist can be improved through postnatal cultivation techniques and practices, but usually not by much.

However, Lin Chen with his Top-grade Spirit Constitution, still young, if a mutation occurred advancing to an Ancient Divine Body, it was indeed possible.

"Let's not discuss this matter for now. First, we need to suppress the anomaly in the sky."

"Once news of the Ancient Divine Body leaks out, not only will our Jade Cauldron Sect fail to secure this talent, but we may also invite numerous enemy sects to assassinate this child."

Xu Ma'an spoke gravely, and everyone nodded in agreement upon hearing his words.
