

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 406: Judged Too Quickly

Prince Ning Bei's face was gloomy. He grabbed his son's hand, but he was helpless.

The doctors were useless. The Taoist master...was useless too!

"What's going on? Why is my son still like this after you performed the ritual?!" Prince Ning Bei was furious.

Yuan Changzi was shocked and also in disbelief, "T-This evil thing is extraordinary. The power of Master Puchen and I is not enough!"

"Isn't there one more person?!" Prince Ning Bei said angrily.

He was afraid that one person could not handle it, so he asked his servants to hire a few more!

"That person.... has left..." the other two servants said.

At this time, the steward holding Xie Qiao's talisman braced himself and rushed over. He pressed the talisman on the Young Heir's head. Immediately, it was pasted!

In an instant, the Young Heir's ferocious expression returned to normal.

His breathing also became much calmer, and he actually looked like he was sleeping soundly.

Steward Fu Man heaved a huge sigh of relief.

He knew that Master Mo's things were useful!

"Fu Man, what did you do?" Prince Ning Bei was going to be angry, but seeing that his son's condition had improved, his attitude became much better, "Where did you get this talisman?"

"Master, Master Mo was afraid that these two masters would affect the Young Master, so she left a talisman for me. He told me to pay attention to the Young Master's condition at all times. She said that if the masters didn't do a good job, I would look for her again," Fu Man quickly said.

Prince Ning Bei immediately stood up and stared at the two masters, suppressing his displeasure.

He could hear the meaning in Fu Man's words.

It was nothing more than... These two people had pushed Master Mo away.

However, when Prince Ning Bei thought about Master Mo, he could not figure out what that person looked like, so he felt a little guilty.

That Master Mo was a woman, and she was not too old, so he thought that she probably did not have much ability, so he looked down on her a little.

He secretly felt a little guilty. This son of his was already in a life-and-death situation, yet he was still so reckless...

“Since the master left the talisman, can you tell me where she went? Is she still willing to come back?” After saying that, Prince Ning Bei sighed again, “Forget it, I’ll go and invite her myself. If this master can cure my son, so what if I lower my head?!”

“Your Highness, please wait. The master isn’t that arrogant. She just said that it would take a long time, so she went to wait at the inn outside. I’ll go and invite her now. It won’t be long before Master Mo comes,” Fu Man immediately said.

“Okay, then quickly go and invite her! Get my carriage!” Prince Ning Bei was serious.

However, he did not treat the other two masters coldly because of that.

These two people were also capable. Otherwise, his son would not have reacted because of that ritual just now.

It was just that their abilities were slightly lacking.

“The two masters have worked hard. The side rooms are ready. Masters, go and rest first. If there’s a need later, I will have to ask the two of you to come,” Prince Ning Bei had learned his lesson.

If that Master Mo could not do it, perhaps the three masters working together would have more strength in numbers?!

The two masters looked a little better now. Yuan Changzi also felt a little ashamed.

He looked at the talisman with the corner of his eye and was shocked.

This talisman... was not simple.

If one did not have some skill, one would not be able to inscribe it.

Inscribing a talisman was different from drawing a painting. The talisman had to be done in one stroke and one's state of mind had to be calm and composed. Otherwise, even if it was inscribed according to the pattern, it would not have any effect.

That Master Mo was actually able to give such a high quality talisman. From the looks of it, he... judged too quickly?!
