Xiao Feng is still secretly praising his own wisdom.

But I don't know that everything has been seen through by Gong Qianqiu.

Even people have come to make a plan.

The two started immediately.

To say that Xiao Feng practiced very hard some time ago.

The cultivation realm has indeed made great progress.

But this level of cultivation is really not worth mentioning in Gong Qianqiu's view.

Even at the moment when Xiao Feng ran the exercise, Gong Qianqiu had accurately judged the upper limit of his combat power.

At the same time, he also quickly estimated how much strength he should use in order not to reveal his flaws.

It doesn't seem particularly vulnerable, but it also makes Xiao Feng feel vanity and satisfaction.

The most important thing is to cause Xiao Feng to feel a greater sense of guilt.

So Gong Qianqiu "hardly supported" twenty or thirty moves under Xiao Feng's fierce offensive.

Then Gong Qianqiu "inadvertently" took a palm in the back.

The body was shaken several feet away, and he vomited blood.

It looked like he was seriously injured.

“Qianqiu, are you okay?”

Xiao Feng hurriedly ran over and asked with concern on his face.

Gong Qianqiu said in a weak voice: “I...I have nothing to do, don’t worry.”

“I’m sorry, I shot too hard. I really didn’t want to hurt you.”

Xiao Feng felt remorse.

Just now, in order to show the results of his cultivation during this period, he was again recognized by Gong Qianqiu.

It really showed the combat power to its strongest state.

“I don’t blame you, I was hurt because I didn’t pay attention.”

Gong Qianqiu regained his previous understanding: “Xiao Feng, you really didn’t disappoint me.”

“It’s really amazing that the cultivation base has risen to such a level in a short period of time.”

“Last time I scolded you and I was deeply in love. Which woman doesn’t want her man to be a strong man?”

“You can’t blame me!”

Gong Qianqiu made a shy and guilty self-examination.

In an instant, Xiao Feng broke the defense.

“How could I blame you? Thanks to you for getting me back together.”

“I thank you for being too late!”

“Qianqiu, you know what! You are the only motivation for me to live during this period of time.”

Xiao Feng once again confessed affectionately.

After the test just now, Xiao Feng concluded that Gong Qianqiu did not practice Levilia's exercises.

Because Levilia's devouring technique is too special, even if he hides it, he will reveal clues.

Especially after he has risen to this level, it can be said that he can have some kind of special feeling with those who also practice the Sovereign Technique.

Especially when running the exercises, this kind of induction will be stronger.

It is also because of this that Xiao's guilt and self-blame are outside the style.

Guilt is because I once suspected that Gong Qianqiu had leaked Levilia's practice.

To this end also tried every means to try.

The most important thing is that Gong Qianqiu vomited blood.

Xiao Feng could not wait to slap himself a few times.

"I'm so damned."

Xiao Feng was so remorseful that he didn't even have the courage to look directly at Gong Qianqiu.

He was worried that Gong Qianqiu would discover the flaws, which would create a gap between the two.

That would be shooting yourself in the foot.

"I know."

Gong Qianqiu resisted nausea and wiped the blood from the corner of his mouth.

He continued: "Xiao Feng, I am really satisfied that you can cheer up and become so strong."

With Gong Qianqiu's affirmation, Xiao Feng was about to float up.

In the past, Xiao Feng felt that he was not worthy of Gong Qianqiu.

Now there is finally one aspect that completely crushes her.

The most important thing is to get the approval of Gong Qianqiu.

This is more important to Xiao Feng than any achievement.

“Hey!”

Gong Qianqiu suddenly sighed faintly and said, “Now the gap between my strength and yours is getting bigger and bigger.”

Xiao Feng hurriedly comforted: “Cultivation can’t be rushed, and you’re not weak!”

“Well, you’re right.”

Gong Qianqiu affirmed Xiao Feng again, and continued to tout: “Besides, you are so strong, how my cultivation base is not so important, isn’t it?”

Xiao Feng’s spirit was shocked, and the excitement in his heart couldn’t be added.

Of course he understood the subtext of Gong Qianqiu’s words.

It is clear that he has found support.

“Don’t worry, Qianqiu, as long as I’m here, no one can hurt you.”

Xiao Feng made a domineering statement.

Now the strength is too much beyond Gong Qianqiu.

Xiao Feng felt that she was already qualified to say this.

“Cultivating hard for so long, the effort is finally not in vain.”

Xiao Fengzhi is satisfied and full of sense of accomplishment.

During this period of time, he practiced frantically, except that he wanted to help Levi Garrison deal with the mysterious woman and Duguxiao.

In fact, it is mainly because I want to get the approval of Gong Qianqiu.

Especially after walking with Gong Qianqiu in the future, he will not let others say things that are not worthy of her.

Now all these worries and concerns are gone.

"I'm already qualified to say the words to protect Qianqiu."

The more Xiao Feng thought about it, the happier he became, and the corners of his mouth rose slightly involuntarily.

"Well, then I'll depend on you from now on."

Gong Qianqiu said reliedly: "You have time to give me some pointers on my practice, I don't want to drag you down."

"No problem!"

Xiao Feng has been praised a little too high.

"Qianqiu, as long as you are willing, you can take my life as you like, let alone give pointers to cultivation."

"If you encounter any bottlenecks in your future cultivation, just tell me."

"I must know everything and say everything."

Xiao Feng patted his chest and assured.

Gong Qianqiu only felt nauseated for a while.

This leader can kill you with one finger.

Just you, the three-legged cat kung fu, also accompany and guide this leader?

joke!

Great joke!

Although Gong Qianqiu thought so in his heart, his face was full of admiration.

“Well, I believe in your strength.” Gong Qianqiu’s beautiful eyes were full of reliance.

Xiao Feng was even more proud of it.

If it weren’t for the fear of leaving a bad impression of Gong Qianqiu’s instability.

Xiao Feng can’t wait to dance on the spot.

Next, Gong Qianqiu was again touting Xiao Feng’s power.

And express her strong dependence on Xiao Feng.

Xiao Feng felt as if he was floating on the clouds during the whole process.

The haze of recent months has been swept away.

Gong Qianqiu endured the nausea and complained to Xiao Feng.

There is a new plan in mind.

“Xiao Feng, you can improve so fast, are you practising Levilia’s exercises?”

Gong Qianqiu turned and asked.

Xiao Feng nodded and said, “That’s right, Levilia’s practice is too powerful.

It’s very likely that you were injured in your last exercise because you couldn’t find the essentials. If you want to learn, I will give you some pointers. ”

“Okay!” Gong Qianqiu pretended to be very excited.

In fact, Gong Qianqiu did something else.

She always had the idea of letting Xiao Feng backstab Levi Garrison at the last moment.

But with Xiao Feng’s strength, this idea is almost impossible to achieve.

Even encountering Levi Garrison’s clothes is delusional.

But what if Xiao Feng’s extreme devouring technique is taught?

In this way, Xiao Feng’s strength will quickly become stronger, and finally he can reach the level of Duguxiao’s cultivation.

Only then would it be possible to hurt Levi Garrison in the case of a sneak attack.

Of course, there is still no hope of successfully assassinating Levi Garrison.

But in Gong Qianqiu's view, as long as the scene where the apprentice was assassinated by the master happened, it was very successful.

Especially backstab Levi Garrison, who is his most trusted and valued apprentice.

This heart-killing effect is the strongest.

"Xiao Feng, can you show me how to absorb spiritual energy?"

Gong Qianqiu had a hopeful expression on his face.

This temporary stronghold has a small spiritual vein, and there is still some spiritual energy left after Gong Qianqiu devoured it.

Xiao Feng readily agreed and ran the exercises on the spot.

Soon Xiao Feng was the center, forming an energy vortex.

Gong Qianqiu occasionally asked questions, but in fact, he was gradually guiding Xiao Feng to discover the method of extreme devouring.
