

## CHAPTER 1312

Levilia stared at everyone fiercely: “You are not allowed to bully Dad! Be careful Dad beats you!”

Levilia knows everything.

I also know that so many people were afraid of Dad just now.

If this group provokes Dad, they will suffer miserable consequences.

“Ho ho, what can Levi Garrison do to us now?”

“I’ll just push your dad, see what happens?”

Some one stepped forward and was about to push Levi Garrison.

The Northern Heavenly King stepped forward and grabbed his wrist and pulled him back several meters away.

HE staggered and fell to the ground. He stared at Levi Garrison angrily.

“Levi Garrison don’t think that if you hire a bodyguard, you will be fine. If you provoke a powerful person in the future, you don’t know how you died!”

The man roared angrily. mi. c

“Yes, who can be blocked by this one bodyguard?”

Others are disdainful.

They absolutely hated Levi Garrison.

They are obviously here to meet big people and expand their contacts.

But because of Levi Garrison, they almost disappeared.

They attributed everything to Levi Garrison.

Think it's Levi Garrison's fault!

If it weren't for Zoey here, they would really want to beat Levi violently.

This bodyguard can't stop them at all!

But where do they know.

This is the northern king who has taken off his mask!

Strength crushes the existence of Ray and his like!

LEvi's Squad is in charge of martial arts!

He alone can really block everything...

Thousands of troops are not a problem.

Zoey and Ali pushed Levi Garrison into the car and left quickly.

“The big broom star and the little broom star! It’s really bad luck!”

Meredith clenched their fists tightly, and their knuckles turned white.

Originally, an opportunity to take off was disturbed by Levi Garrison again.

Black and Zhang were almost furious.

At this time, a group of people came out in the hall.

Meredith and her party hurriedly hid in the corner, letting go, everyone bowed their heads and dared not say a word.

“By the way, I can’t accept the gift for the little lord.”

“Forget it!!! This is a big deal! The gift to the little lord must be delivered. This is the purpose of our coming to North Hampton!”

...

When Meredith heard these conversations, they were very surprised.

“Huh? Little Lord? Who is the Little Lord?”

Everyone was shocked in a cold sweat.

How tall is a person who can be called a young master by the ancestors of the first family?

They instantly understood that the fact that these big families gathered here was not to punish Levi Garrison for changing his surname.

But for another purpose!

Who is this person?

Still in North Hampton?

Meredith glanced at each other.

As if he had found a new opportunity, his eyes lit up fiercely.

Because of the change of surname, everyone did not think about Levilia.

“Should we follow along and have a look?”

Meredith suggested several people.

“Okay, this is absolutely fine!”

Harry immediately agreed.

As long as they know who the lord is, they can contact in the future.

Such an opportunity cannot be let go.

Immediately, luxury cars set off, heading to a certain place.

Meredith and the others also quietly followed.

As the convoy set off, Meredith became more and more alarmed.

This direction seems a bit familiar...

Soon after, these convoys stopped at the villa where the wedding house of Levi Garrison and Zoey was located.

“What? No? It turned out to be here?”

Concubine Jennie grows up her mouth.

Everyone took a cold breath, and there was an unbelievable look in their eyes.

“No way.....”

Everyone has this idea in their hearts.
