

CHAPTER 1367

The other three gate valves are also ready to move.

The appearance of the King of Western Shu caused widespread heated discussion.

Levi came here and let the ministries track down the Avengers' information.

Levi Garrison was taking a walk by a certain lake in the north of the Yangtze River, followed by the Western Heavenly King.

"There are clues that a certain prince from the Eagle Nation has close contact with this group. The others are still being investigated!"

The Western Heavenly King gave an important clue.

"War Eagle Nation???"

When mentioning this country, Levi Garrison's eyes burst with anger.

Once suffered a loss in their hands.

This is a race known for its despicable methods.

All kinds of methods are used to extremes. ..

There was a tragedy at the border that was related to them.

One hundred and fifteen of his brothers died tragically.

This is what the Eagle Nation did.

They were persecuted by their trickery and murdered in cruel ways.

He only hates this race!

The key is that the war Eagle Nation secretly designed everything, and no clues can be found.

Knowing that they did it, they set aside everything.

In those days, Levi Garrison disregarded the order and killed one person to the War Eagle Nation for revenge. That time he was almost dismissed from his post.

Later, he could only give up, and could only watch them at large, but could not take revenge.

Because there is no evidence to prove that it was made by the war eagle country.

He has no reason to act...

“Sure enough, a group of nasty people got together!”

Levi Garrison said angrily.

“Check! Check it out for me!”

Levi Garrison said angrily.

This time, if there is a reason, he will take revenge.

“Understand!”

Everyone shouted.

“I’ll go for a while alone! You go back first!”

Levi Garrison ordered.

Levi Garrison was in a bad mood when he mentioned the War Eagle Nation.

He waited a long time on this day.

But there is no reason to do it.

I don’t know who the latter is...

Hope this time by catching the Avengers, all the enemies of the Eagle Nation will be found out.

Before he knew it, he had already circled the West Lake in North Hampton.

Come to a place with beautiful scenery, there is almost no one here.

I only saw a few people not far ahead.

One of the old men was wearing a black Tang suit with a dusty temperament on his body.

Next to him was a young girl, about ten ** years old.

With a high ponytail and a proud face.

The Lady of the Sky!

Ten meters behind one old and one young, six people closely followed, all in white.

The word Xishu is embroidered on the chest.

These six people are extremely terrifying.

Grandmaster!

Six masters whose strength is above the Demon Sword of the East Island!

Calculate according to the year.

The six are all century-old masters! ! !

Looking at this posture, the six are just slaves.

Levi Garrison saw through the strength of the six at a glance.

He was also horrified.

What is the identity of this young and old?

How about six hundred-year-old masters as servants?

What Levi Garrison didn't know was that this was the Western Shu Tang Gate, the Western Shu Emperor Tang Emperor and his granddaughter Linda.

They just arrived in North Hampton.

Come to appreciate the charm of West Lake...

After all, because of the agreement, he has been trapped in the land of Xishu and has never been born.

Curiosity turned to curiosity, but Levi Garrison didn't think too much and kept walking.

"Stop! Isn't this where you should be?"

But when he took two steps, he was stopped by a few people.

“Why?”

Levi Garrison squinted his eyes.

“Because this area is a private forbidden area, no people can enter!”

Several people said coldly.

Levi Garrison understood in an instant.

This area is sealed off.

No wonder the Xizi Lake, which has always been hot, is so crowded.

But Levi Garrison ignored it and continued to walk...
