

CHAPTER 1372

This will be the great backer of the Lopez family's centuries of prosperity!

It's not an exaggeration to call the ancestors!

"Do you want to kneel down?"

Harry couldn't help asking.

They all want to perform well in front of the Western Shu Emperor.

"You don't need to kneel, everyone else should kneel down!"

The old lady said.

"Puff!"

"Puff!"

...

The Lopez family knelt down one after another.

"Big brother, this is my husband Harry, these are the younger generations of the Lopez family!"

Introduced the old lady.

The Western Shu Emperor didn't have any thoughts on them, but just nodded dumbly.

As for Linda and others, there is no interest in the Lopez family at all.

"Ok?"

The indifference of the Xishu clan made Li Jia panic.

Is it because the reception work is not done properly?

Even the old lady was taken aback.

However, she immediately pulled Zoey's mother and daughter to the front and introduced: "Big Brother, this is my grandson and her daughter Levilia, haven't you always wanted to see you?"

Zoey and Levilia also greeted politely.

However, the Western Shu Emperor was totally unreasonable, and he was surprised: "Sister, guess what happened to me just now..."

"Huh? What happened?"

The old lady was taken aback.

“I met a peerless genius! The strongest young man I have ever seen in my life!”

The Emperor Xi Shu exclaimed.

“What? A young man who can praise you so much, brother? It’s hard to imagine!”

Linda added, “Just now Grandpa’s six major servants were easily defeated! If he was really murderous, we might all have died just now!”

“Yes! I can say that, he can be the successor of the Erudia Wulong! The future achievements will be comparable to the Erudia Wulong!”

The Western Shu Emperor was still immersed in the shock in front of him.

“What? Is there anything else?”

The old lady naturally knew Erudia Wulong.

The Four Gate Valves have been trained for so many years, and there is always no successor to the Erudia Wulong.

Actually appeared?

“He...where is he?”

The old lady swallowed fiercely.

The Western Shu Emperor shook his head: "He has just left. The most surprising thing is that he turned out to be a man of the world! It's unimaginable!"

"what???"

"In the dunya, there are young people who are capable of succeeding the Erudia Wulong? There have never been four big gate lords!"

The old lady's surprised eyes were about to fly out.

"I really didn't think that the first day I joined the world, it gave me such a shock! It was terrible!"

The Emperor Xi Shu took a breath.

"I proposed the conditions that the Xishu clan would give him in the future, but he rejected it! If he joins the Xishu clan, we will definitely be the first in the future!"

The old lady nodded fiercely: "That's definitely it!"

"I planned like this. After checking his identity, I will betroth Yanran to him and let him be the successor of the clan of Xishu! I will bring him over at all costs!"

The Emperor Xi Shu said excitedly.

The old lady couldn't help but say: "Big brother, you just met him here, right?"

"Yeah! What's wrong?"

"Most of them are from North Hampton, or live in North Hampton. You might know if you ask them..."

The old lady looked at everyone in the Lopez family.

The Emperor Xi Shu patted his forehead and asked, "By the way, do you know that there is an amazing wizard in North Hampton? His height is probably this high, and his age is probably no more than thirty..."

The emperor of Xishu described Levi Garrison's appearance.

Everyone was taken aback, and subconsciously said; "How come you look a bit like Levi Garrison?"
